FUND ADVANTAGES

- Focus on North American Secured and Unsecured High Yield Bonds and Senior Secured Loans to deliver attractive monthly income stream and strong risk-adjusted returns.
- High Yield Bonds and Senior Secured Loans represent attractive value in the current market.
- The ability to adjust allocation between High Yield Bonds and Senior Secured Loans provides the flexibility to manage risk over time.
- Consensus expectation of low default rates, due to underlying financial performance of investments and a continuing improving U.S. economy.

¹The Trailing 12 Month Yield is calculated on the Fund's actual distributions paid to investors over the past 12 months based on NAV. All distributions are paid in cash.

²The indicated rates of return are the historical annual compounded total returns, including changes in unit value and do not take into account sales, redemption or optional charges or income taxes payable by a security holder that would have reduced returns. The rate of return chart shown is used only to illustrate the effects of the compound growth rate and is not intended to reflect future values of the Index or the Fund or returns on investment in the Fund.

INVESTMENT PROCESS

Actively Managed ETFs

Actively managed ETFs combine the benefits of traditional asset management with the structural benefits of ETFs, such as improved liquidity, transparency and cost-effectiveness. Investors gain exposure to a portfolio that is overseen by a team of investment professionals, constantly analyzing and selecting the best opportunities within a given area of the market.

First Asset Active Credit ETF is managed by following the process depicted below. This well defined process provides the potential for increased consistency and replicability of performance results by ensuring that portfolio buy and sell decisions are made objectively, rather than by emotional or subjective triggers.

The 4 Star Ratings for the (FAO) are as at December 31, 2018, and are subject to change monthly. CIFSC category, Star Ratings, annual compounded performance and number of peer funds in each period are as follows: 's CIFSC category is the High Yield Fixed Income category. Information shown is for the Common Units (FAO), 1 year: n/a stars, -2.1%, (448 funds); 3 years: 4 stars, 5.6%, (328 funds); 5 years: n/a stars, n/a% (n/a funds); 10 years: n/a stars, n/a%, (n/a funds). The Morningstar Risk Adjusted Rating (MRARs), commonly referred to as the Star Ratings, are an objective, quantitative measure of a fund's historical risk-adjusted performance relative to other funds in its CIFSC category. Morningstar calculates Star Ratings for funds with at least 3 years of performance and within CIFSC categories with a sufficient number of peer funds. To determine a fund's Star Rating, the fund and its category peers are ranked by their MRARs. If a fund scores in the top 10% of its category, it receives five stars (High); if it falls in the next 22.5% , it receives four stars (Above Average); the next 35% earns a fund three stars (Neutral or Average); those in the next 22.5% received two stars (Below Average); and the lowest 10% received one star (Low). The overall rating is a weighted combination of the 3, 5 and 10 year ratings, as applicable. MRARs are recalculated monthly by Morningstar. For greater detail on the calculation of the Star Ratings, you may visit Morningstar's website (www.morningstar.ca). Categories are assigned by Canadian Investment Funds Standards Committee (CIFSC) based on an evaluation of a fund's holdings. A fund's category may change at any time. Funds within the same category may differ in terms of investment philosophy, investment process, as well as overall composition. © Morningstar Inc. All Rights Reserved. All Rights Reserved.
