Amendment No. 1 Dated June 3, 2020
to the Prospectus dated April 22, 2020

of
CI First Asset Active Credit ETF
(the “ETF”)

Change of Portfolio Manager

Effective on or about June 30, 2020, Onex Credit Partners, LLC will no longer be portfolio manager to the ETF. Marret Asset Management Inc. ("Marret"), an affiliate of CI Investments Inc., will assume portfolio management responsibilities in respect of the ETF.

The following representatives of Marret are primarily responsible for the management of the ETF:

</tr>
</tbody>
</table>

Change in Investment Strategies

Effective on or about June 30, 2020, the disclosure in the subsection entitled “Investment Strategies” in the ETF profile for the ETF as set out in Schedule A of the Prospectus is replaced with the following:

“FAO will invest primarily in debt instruments across the credit spectrum, including high yield debt, convertible bonds, investment grade corporate debt, fixed income derivatives, inflation-linked bonds, fixed income ETFs, private debt, government agency securities, government debt, cash and other income-producing securities throughout the world.

The Portfolio Manager has full flexibility with regards to duration positioning and will seek to provide optimal exposure through changing market conditions.

High yield corporate debt securities will vary by quality, liquidity, duration, and be primarily of issuers located in Canada or the United States and investment grade corporate debt securities may be of issuers located in Canada, the United States or Europe, both with the intention of creating interest income and capital gains from narrowing credit spreads. One source of narrowing credit spreads may be discounts on new issues. The ETF will generally be widely diversified by industry and company."
Regarding government debt, during periods of weak economic growth and widening credit spreads, it is expected that the Portfolio Manager will increase the ETF’s allocation to Government of Canada and U.S. Treasury securities, but other developed countries may be added tactically. The Portfolio Manager will also use government debt to hedge the interest rate risk of the ETF’s corporate debt holdings to isolate the credit risk of these holdings.

When the Portfolio Manager deems appropriate or in the event of adverse market, economic, and/or political conditions, the ETF’s portfolio may primarily consist of very short-term government debt, such as U.S. Treasury securities (cash equivalents) and, to a lesser extent, cash.

The Portfolio Manager will seek to achieve the investment objective of the ETF by tactically managing the portfolio’s holdings using a combination of top-down macroeconomic analysis involving the assessment of economic, political and market trends, and a bottom-up company and security level analysis to assess a company’s ability to generate cash and meet interest and principal payment obligations on its debt securities. The Portfolio Manager focuses on a company’s industry position, operating leverage, management strength and experience, historical earnings and future projections, liquidity profile and accounting ratios and practices.

The Portfolio Manager will execute currency hedges on foreign securities positions in order to minimize portfolio sensitivity to currency fluctuations. The Portfolio Manager typically intends to significantly hedge the non-Canadian currency exposure attributable to the portfolio to the Canadian dollar. However, the Portfolio Manager may choose not to hedge any individual currency exposure to the extent that the Portfolio Manager, in its sole discretion, deems it impractical or deems such exposure appropriate.

**Purchasers’ Statutory Rights of Withdrawal and Rescission**

Securities legislation in certain of the provinces and territories of Canada provides purchasers with the right to withdraw from an agreement to purchase ETF securities within 48 hours after the receipt of a confirmation of a purchase of such securities. In several of the provinces and territories, the securities legislation further provides a purchaser with remedies for rescission or, in some jurisdictions, revisions of the price or damages if the prospectus and any amendment contains a misrepresentation, or non-delivery of the ETF Facts, provided that the remedies for rescission, revisions of the price or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser’s province or territory.

The purchaser should refer to the applicable provisions of the securities legislation of the province or territory for the particulars of these rights or should consult with a legal advisor.

(individually, a “CI First Asset ETF” and collectively, the “CI First Asset ETFs”)

The CI First Asset ETFs are exchange-traded mutual funds ("ETFs") established under the laws of Ontario.

Each of CI First Asset CanBanc Income Class ETF, CI First Asset Core Canadian Equity Income Class ETF, CI First Asset MSCI Canada Quality Index Class ETF and CI First Asset Short Term Government Bond Index Class ETF (each, a "Corporate Class") is a class of shares of CI First Asset Fund Corp. (the "Company"), a mutual fund corporation formed under the laws of the Province of Ontario. Each Corporate Class currently consists of a single series of exchange-traded fund shares (the “Shares”) being offered for sale on a continuous basis by this prospectus.

Each CI First Asset ETF other than the Corporate Classes (the “Trust Funds”) is structured as a trust and is offering common units (the "Common Units") for sale on a continuous basis by this prospectus.

In addition, CI First Asset Energy Giants Covered Call ETF, CI First Asset Health Care Giants Covered Call ETF, CI First Asset Morningstar International Index ETF, CI First Asset Morningstar US Value Index ETF, CI First Asset MSCI Europe Low Risk Weighted ETF, CI First Asset MSCI Low Risk Weighted ETF, CI First Asset MSCI USA Low Risk Weighted ETF, CI First Asset MSCI World Low Risk Weighted ETF and CI First Asset Tech Giants Covered Call ETF are each offering unhedged common units (the “Unhedged Common Units”), and CI First Asset Active Credit ETF, CI First Asset Enhanced Government Bond ETF, CI First Asset Enhanced Short Duration Bond ETF and CI First Asset Investment Grade Bond ETF are each offering U.S. dollar denominated units ("US$ Common Units"). The Common Units, Unhedged Common Units and US$ Common Units are collectively referred to as “Units”, as applicable. A “Security” as used in this prospectus means a Unit or a Share.

CI Investments Inc. ("CI" or the “Manager”), a registered portfolio manager and investment fund manager, is the promoter and manager of the CI First Asset ETFs and the trustee of the Trust Funds. See “Organization and Management Details of the CI First Asset ETFs”.

Investment Objectives

For a description of the investment objectives of each CI First Asset ETF, please see the applicable ETF profiles attached as Schedule A to this prospectus beginning on page 92.

Listing of Securities

The Securities are currently listed on the Toronto Stock Exchange (the “TSX”) and investors can buy or sell such Securities on the TSX through registered brokers and dealers in the province or territory where the investors reside.

Investors may incur customary brokerage commissions in buying or selling Securities. No fees are paid by investors to the Manager or any CI First Asset ETF in connection with buying or selling of Securities on the TSX.

Additional Considerations

No underwriter or dealer has been involved in the preparation of this prospectus or has performed any review of the contents of this prospectus. The Canadian securities regulators have provided each of the CI First Asset ETFs with a decision exempting it from the requirement to include a certificate of an underwriter in this prospectus. The applicable designated broker and dealers are not underwriters of any CI First Asset ETF in connection with the distribution of Securities under this prospectus. While each CI First Asset ETF is a mutual fund under the securities legislation of certain provinces and territories of Canada, each CI First Asset ETF has been granted exemptive relief from certain provisions of Canadian securities legislation applicable to conventional mutual funds. See “Exemptions and Approvals”.

Provided that a Trust Fund qualifies as a “mutual fund trust” or the Company qualifies as a “mutual fund corporation”, as applicable, within the meaning of the Income Tax Act (Canada) as amended from time to time, and the regulations thereunder (the "Tax Act"), or the Securities of the applicable CI First Asset ETF are listed on a “designated stock exchange” within the meaning of the Tax Act (which currently includes the TSX), the Securities of that CI First Asset ETF, if issued on the date hereof, would on such date be qualified investments under the Tax Act for a trust governed by a registered retirement savings plan ("RRSP"), a registered retirement income fund ("RRIF"), a registered disability savings plan ("RDSP"), a deferred profit sharing plan ("DPSP"), a registered education savings plan ("RESP") or a tax-free savings account ("TFSA" and, collectively with an RRSP, RRIF, RDSP, DPSP and RESP, the “Plans”).
For a discussion of the risks associated with an investment in Securities, see “Risk Factors”.

Morningstar® is a registered trademark of Morningstar, Inc. (“Morningstar”). Morningstar® Canada Target Dividend Index™, Morningstar® US Target Dividend Index™, Morningstar® Canada Target Momentum Index™, Morningstar® US Target Momentum Index™, Morningstar® Developed Markets ex-North America Target Momentum Index™, Morningstar® Canada Target Value Index™, Morningstar® US Target Value Index™, Morningstar® Developed Markets ex-North America Target Value Index™ and Morningstar® National Bank Québec Index™ are service marks of Morningstar. The Securities of each CI First Asset ETF are not in any way sponsored, endorsed, sold or promoted by Morningstar and Morningstar makes no representation or warranty, express or implied, regarding the advisability of investing in securities generally or in the CI First Asset ETFs particularly or the ability of the Indexes (as defined herein) to track general market performance.

During the period in which a CI First Asset ETF is in continuous distribution, additional information about the CI First Asset ETF will be available in its most recently filed annual financial statements, any interim financial statements filed after those annual financial statements, the most recently filed annual management report of fund performance, any interim management report of fund performance filed after that annual management report of fund performance and the most recently filed ETF Facts. These documents will be incorporated by reference into this prospectus which means that they legally form part of this prospectus. For further details, see “Documents Incorporated by Reference”.

You can get a copy of these documents at your request, and at no cost, by calling 416-642-1289 or 1-877-642-1289 (toll-free) or by e-mail at info@firstasset.com or from your dealer. These documents will also be available on the internet at www.firstasset.com. These documents and other information about the CI First Asset ETFs will also be available on the website of SEDAR (the System for Electronic Document Analysis and Retrieval) at www.sedar.com.

**CERTIFICATE OF THE CI FIRST ASSET ETFS, THE MANAGER AND PROMOTER**

---

-iii-
PROSPECTUS SUMMARY

The following is a summary of the principal features of the Securities of the CI First Asset ETFs and should be read together with the more detailed information, financial data and financial statements contained elsewhere in this prospectus or incorporated by reference in this prospectus.

Unless otherwise indicated, the references to dollar amounts in this prospectus summary and prospectus are to Canadian dollars and all references to times in this prospectus summary and prospectus are to Toronto time.

Issuers: The CI First Asset ETFs

Offerings: The CI First Asset ETFs are ETFs established under the laws of Ontario.

Each Trust Fund is offering Common Units and/or Unhedged Common Units, as applicable, pursuant to this prospectus.

In addition, CI First Asset Active Credit ETF, CI First Asset Enhanced Government Bond ETF, CI First Asset Enhanced Short Duration Bond ETF and CI First Asset Investment Grade Bond ETF are each offering hedged and/or unhedged US$ Common Units, as applicable.

Each Corporate Class currently consists of a series of Shares, which are being offered for sale on a continuous basis by this prospectus.

Continuous Distribution: Securities are offered for sale on a continuous basis by this prospectus, and there is no maximum number of Securities that may be issued. The Securities are offered for sale at a price equal to the net asset value ("NAV") of the Securities determined at 4:00 p.m. (Toronto time) on the effective date of the subscription order.

The Securities are currently listed on the TSX and investors can buy or sell such Securities on the TSX through registered brokers and dealers in the province or territory where the investors reside.

Investors may incur customary brokerage commissions in buying or selling Securities. No fees are paid by investors to the Manager or any CI First Asset ETF in connection with buying or selling of Securities on the TSX.

The CI First Asset ETFs issue Securities directly to the applicable Designated Broker and Dealers (as defined herein). From time-to-time and as may be agreed between a CI First Asset ETF and the Designated Broker and Dealers, such Designated Broker and Dealers may deliver a group of securities and/or assets determined by the Manager from time to time representing the constituent securities of the CI First Asset ETF (a "Basket of Securities") as payment for Securities.

Investment Objectives: See “Plan of Distribution” and “Purchases of Securities – Issuance of Securities”.

The investment objectives of an investment fund describe the fundamental nature or fundamental features of the investment fund, that distinguish it from other investment funds. For a description of the investment objectives of a particular CI First Asset ETF, please see the applicable ETF profile attached as Schedule A to this prospectus beginning on page 92.
### Investment Strategies:

The investment strategy of each CI First Asset ETF is to invest in and hold a portfolio of securities in order to achieve its investment objective.

For a description of the general investment strategies applicable to all CI First Asset ETFs, please see “Investment Strategies - General Investment Strategies for All CI First Asset ETFs”. For a description of the specific investment strategy of a particular CI First Asset ETF, please see “Investment Strategies” in the applicable ETF profile attached as Schedule A to this prospectus beginning on page 92.

### Special Considerations for Purchasers:

The provisions of the so-called “early warning” requirements set out in Canadian securities legislation do not apply in connection with the acquisition of Securities of a CI First Asset ETF. In addition, each CI First Asset ETF is entitled to rely on exemptive relief from the Canadian securities regulatory authorities to permit a holder of Securities (a “Securityholder”) of that CI First Asset ETF to acquire more than 20% of the Securities of that CI First Asset ETF through purchases on the TSX without regard to the takeover bid requirements of applicable Canadian securities legislation.

*See “Attributes of the Securities - Description of the Securities Distributed”.*

### Distribution/Dividend Policy:

For the distribution/dividend frequency of a particular CI First Asset ETF, please see the applicable ETF profile attached as Schedule A to this prospectus beginning on page 92.

Each CI First Asset ETF does not have a fixed distribution/dividend amount. The amount of ordinary cash distributions/dividends, if any, will be based on the Manager’s assessment of anticipated cash flow and anticipated expenses of a CI First Asset ETF from time to time, and therefore will likely fluctuate from period to period.

*See “Distribution/Dividend Policy”.*

The sources of income of the Corporate Classes are expected to include taxable capital gains as well as dividends from taxable Canadian corporations and interest. To the extent the Company earns net income, after expenses and other deductions (including any available loss carryforwards to the extent deductible), from sources other than taxable capital gains and dividends from taxable Canadian corporations, including dividends from non-Canadian sources and interest income, the Company will generally be subject to income tax on such income and no refund of such tax will be available. Distributions could include a return of capital. A return of capital is not directly subject to tax but will reduce the adjusted cost base of the Shares.

*See “Income Tax Considerations”.*

### Distribution Reinvestment Plan:

At any time, a Securityholder may elect to participate in the Manager’s distribution reinvestment plan (the “Reinvestment Plan”) by contacting the CDS Participant (as defined herein) through which the Securityholder holds its Securities. Under the Reinvestment Plan, cash distributions (net of any required withholding tax) will be used to acquire additional Securities in the market and will be credited to the account of the Securityholder through CDS Clearing and Depository Services Inc. (“CDS”).

*See “Distribution/Dividend Policy – Distribution Reinvestment Plan”.*
Redemptions: In addition to the ability to sell Securities on the TSX, Securityholders may redeem Securities for cash at a redemption price per Security equal to 95% of the closing price for the Securities on the TSX on the effective day of the redemption, subject to a maximum redemption price per Security equal to the NAV per Security on the effective day of redemption, less any applicable redemption fee determined by the Manager, in its sole discretion, from time to time.

The CI First Asset ETFs also offer additional redemption or exchange options which are available where a Dealer, Designated Broker, or Securityholder redeems or exchanges a prescribed number of Securities ("PNS") as determined by the Manager from time to time for the purpose of subscription orders, redemptions or for other purposes.

See “Exchange, Redemption and Switching of Securities”.

Switches for Corporate Classes A holder of Shares (a “Shareholder”) may switch (“Switch”) Shares of one Corporate Class to Shares of another Corporate Class through the facilities of CDS by contacting their financial advisor, investment advisor or broker.

See “Exchange, Redemption and Switching of Securities – Switches for Corporate Classes”.

Income Tax Considerations: Trust Funds

A holder of Units of a Trust Fund (a “Unitholder”) who is resident in Canada for purposes of the Tax Act will generally be required to include, in computing income for a taxation year, the amount of income (including any net realized taxable capital gains) that is paid or becomes payable to the Unitholder by that Trust Fund in that year (including such income that is reinvested in additional Units of the Trust Fund).

A Unitholder of a Trust Fund who disposes of a Unit of that Trust Fund that is held as capital property, including on a redemption or otherwise, will generally realize a capital gain (or capital loss) to the extent that the proceeds of disposition (which do not include any amount of capital gains made payable by the Trust Fund to the Unitholder which represents capital gains realized by the Trust Fund in connection with dispositions to fund the redemption) net of costs of disposition, exceed (or are less than) the adjusted cost base of that Unit.

Corporate Classes

A Shareholder who is resident in Canada for purposes of the Tax Act will be required to include in his or her income the amount of any dividends paid on such Shares, other than capital gains dividends, whether received in cash or reinvested in additional Shares. The dividend gross-up and tax credit treatment normally applicable to taxable dividends (including eligible dividends) paid by a taxable Canadian corporation to an individual resident in Canada will generally apply to such dividends. Capital gains dividends will be paid by the Company to holders of Shares out of the net capital gains realized by the Company. The amount of a capital gains dividend will be treated as a capital gain in the hands of the holder of such Shares.

Each investor should satisfy himself or herself as to the federal and provincial tax consequences of an investment in Securities of a CI First Asset ETF by obtaining advice from his or her tax advisor.
See “Income Tax Considerations”.

Eligibility for Investment: Provided that a Trust Fund qualifies (or is deemed to qualify) as a “mutual fund trust” or the Company qualifies as a “mutual fund corporation”, as applicable, within the meaning of the Tax Act, or the Securities of the applicable CI First Asset ETF are listed on a “designated stock exchange” within the meaning of the Tax Act (which currently includes the TSX), the Securities of that CI First Asset ETF, if issued on the date hereof, would on such date be qualified investments under the Tax Act for a trust governed by a Plan.

See “Income Tax Considerations – Taxation of Plans”.

Documents Incorporated by Reference: During the period in which a CI First Asset ETF is in continuous distribution, additional information about the CI First Asset ETF will be available in its most recently filed annual financial statements, any interim financial statements filed after those annual financial statements, the most recently filed annual management report of fund performance, any interim management report of fund performance filed after that annual management report of fund performance, and the most recently filed ETF Facts document. These documents will be incorporated by reference into this prospectus. Documents incorporated by reference into this prospectus legally form part of this prospectus just as if they were printed as part of this prospectus. These documents will be publicly available on the website of the CI First Asset ETFs at www.firstasset.com and may be obtained upon request, at no cost, by calling 416-642-1289 or toll free 1-877-642-1289 or by contacting your dealer. These documents and other information about the CI First Asset ETFs are also publicly available at www.sedar.com.

See “Documents Incorporated by Reference”.

Termination: The CI First Asset ETFs do not have a fixed termination date but may be terminated at the discretion of the Manager in accordance with the terms of the Declaration of Trust (as defined herein). See “Termination of the CI First Asset ETFs”.
Risk Factors: An investment in Securities is subject to certain risk factors, which are described under the heading “Risk Factors”. For the specific risk factors applicable to a particular CI First Asset ETF, please see the applicable ETF profile attached as Schedule A to this prospectus beginning on page 92.

Organization and Management of the CI First Asset ETFs

The Manager and Trustee: CI, a registered portfolio manager and investment fund manager, is the promoter and manager (the “Manager”) of the CI First Asset ETFs and the trustee of the Trust Funds. The Manager is responsible for providing or arranging for the provision of administrative services and management functions to, including the day-to-day management of, the CI First Asset ETFs. The principal office of the Manager is located at 2 Queen Street East, 20th Floor, Toronto, Ontario M5C 3G7.

See “Organization and Management Details of the CI First Asset ETFs – Manager of the CI First Asset ETFs” and “Organization and Management Details of the CI First Asset ETFs – The Trustee”.

Portfolio Managers: The following are entities that act as the portfolio manager or, in the case of Onex Credit Partners, LLC (“Onex Credit”), the sub-advisor, to one or more CI First Asset ETFs (the “Portfolio Managers”):

- CI;
- Marret Asset Management Inc. (“Marret”), an affiliate of the Manager; and
- Onex Credit.

In this capacity, the Portfolio Managers provide investment advisory and portfolio management services to the applicable CI First Asset ETF(s). The portfolio manager of each CI First Asset ETF can be found in the applicable ETF profile attached as Schedule A to this prospectus beginning on page 92.

The principal office of each of CI and Marret is located in Toronto, Ontario. Onex Credit is located in Englewood Cliffs, New Jersey, U.S.A.

See “Organization and Management Details of the CI First Asset ETFs – Portfolio Managers”.

Custodian: CIBC Mellon Trust Company is the custodian of the CI First Asset ETFs (the “Custodian”). The Custodian is located in Toronto, Ontario, and is independent of the Manager.

See “Organization and Management Details of the CI First Asset ETFs – Custodian”.

Valuation Agent: CIBC Mellon Global Securities Services Company (the “Valuation Agent”) provides accounting and valuation services in respect of the CI First Asset ETFs. The Valuation Agent is located in Toronto, Ontario.

See “Organization and Management Details of the CI First Asset ETFs – Valuation Agent”.
Auditors: Ernst & Young LLP is responsible for auditing the annual financial statements of the CI First Asset ETFs. The auditors are independent with respect to the CI First Asset ETFs within the meaning of the Rules of Professional Conduct of the Chartered Professional Accountants of Ontario. The head office of Ernst & Young LLP is located in Toronto, Ontario.

See “Organization and Management Details of the CI First Asset ETFs – Auditors”.

Registrar and Transfer Agent: TSX Trust Company, at its principal offices in Toronto, Ontario is the registrar and transfer agent for the Securities (“Registrar and Transfer Agent”) pursuant to a master registrar and transfer agency agreement. The Registrar and Transfer Agent is independent of the Manager.

See “Organization and Management Details of the CI First Asset ETFs – Registrar and Transfer Agent”.

Lending Agent: The Bank of New York Mellon (the “Lending Agent”) acts as the securities lending agent for the CI First Asset ETFs. The Lending Agent is located in New York, New York.

See “Organization and Management Details of the CI First Asset ETFs – Lending Agent”.

Promoter: The Manager is also the promoter of the CI First Asset ETFs. The Manager took the initiative in founding and organizing the CI First Asset ETFs and is, accordingly, the promoter of the CI First Asset ETFs within the meaning of securities legislation of certain provinces and territories of Canada.

See “Organization and Management Details of the CI First Asset ETFs – Promoter”.

Summary of Fees and Expenses

The following table lists the fees and expenses payable by each CI First Asset ETF, and the fees and expenses that Securities may have to pay if they invest in a CI First Asset ETF. Securityholders may have to pay some of these fees and expenses directly. Alternatively, a CI First Asset ETF may have to pay some of these fees and expenses, which will therefore reduce the value of an investment in that CI First Asset ETF.
Type of Charge: Description

Fees and Expenses Payable by a CI First Asset ETF

Management Fee: Each class of Securities of a CI First Asset ETF pays an annual management fee (the “Management Fee”) to the Manager equal to a percentage of the NAV of that class of the CI First Asset ETF, calculated daily and payable monthly in arrears, plus applicable taxes. The Portfolio Manager of each CI First Asset ETF is remunerated by the Manager out of the Management Fee it receives in respect of the applicable CI First Asset ETF.

The Management Fee payable by each CI First Asset ETF is disclosed in the CI First Asset ETF’s ETF profile attached as Schedule A to this prospectus beginning on page 92.

The Manager may, at its discretion, agree to charge a reduced fee as compared to the fee it would otherwise be entitled to receive from a CI First Asset ETF with respect to large investments in the CI First Asset ETF by Securityholders. Such a reduction will be dependent upon a number of factors, including the amount invested, the total assets of the CI First Asset ETF under administration and the expected amount of account activity. In such cases, an amount equal to the difference between the fee otherwise chargeable and the reduced fee will be distributed by the applicable Trust Fund to the applicable Unitholders as management fee distributions, in the case of the Trust Funds, or paid directly by the Manager to an eligible Shareholder of a Corporate Class.

See “Fees and Expenses” and “Income Tax Considerations – Trust Funds – Taxation of Holders of a Trust Fund” and “Income Tax Considerations – Corporate Classes – Taxation of Holders of Shares.”

Operating Expenses: Except as noted below, the Manager is responsible for all costs and expenses of each of the following CI First Asset ETFs:

- CI First Asset 1-5 Year Laddered Government Strip Bond Index ETF
- CI First Asset Canadian Convertible Bond ETF
- CI First Asset Energy Giants Covered Call ETF
- CI First Asset Gold+ Giants Covered Call ETF
- CI First Asset Health Care Giants Covered Call ETF
- CI First Asset Morningstar Canada Dividend Target 30 Index ETF
- CI First Asset Morningstar Canada Momentum Index ETF
- CI First Asset Morningstar Canada Value Index ETF
- CI First Asset Morningstar International Momentum Index ETF
- CI First Asset Morningstar International Value Index ETF
- CI First Asset Morningstar National Bank Québec Index ETF
- CI First Asset Morningstar US Dividend Target 50 Index ETF
- CI First Asset Morningstar US Momentum Index ETF
- CI First Asset Morningstar US Value Index ETF
Despite the foregoing, the Manager is not responsible for the following costs and expenses of such CI First Asset ETFs: the Management Fee, any reasonable expenses related to the implementation and ongoing operation of an independent review committee (the “IRC”) under National Instrument 81-107 Independent Review Committee for Investment Funds (“NI 81-107”), brokerage expenses and commissions, the costs of any futures contracts, swaps, forwards or other financial instruments, including derivatives, used to achieve the investment objectives of the CI First Asset ETFs, income taxes, withholding taxes, any applicable provincial and federal sales, value added or goods and services taxes including taxes exigible under Part IX of the Excise Tax Act (Canada) and the regulations made thereunder (“Sales Taxes”), the costs of complying with any new governmental or regulatory requirement introduced after the CI First Asset ETF was established including, as applicable, any costs associated with the printing and distribution of any documents that the Canadian securities regulatory authorities require be sent or delivered to purchasers of Securities of the CI First Asset ETF, any transaction costs incurred by the Custodian and any extraordinary expenses. The costs and expenses for which the Manager is responsible include the fees payable to the Custodian, Registrar and Transfer Agent and TSX Trust Company, in its capacity as the plan agent for the Reinvestment Plan (the “Plan Agent”) and fees payable to other service providers, including the Index Providers (as defined herein), retained by the Manager as described under “Organization and Management Details of the CI First Asset ETFs – Duties and Services Provided by the Manager to the Trust Funds” and “Organization and Management Details of the CI First Asset ETFs – Duties and Services Provided by the Manager to the Corporate Classes”.

In respect of all of the other CI First Asset ETFs, in addition to the Management Fee, each CI First Asset ETF pays for all ordinary expenses incurred in connection with its operation and administration. Unless otherwise waived or reimbursed by the Manager, and subject to compliance with National Instrument 81-102 Investment Funds (“NI 81-102”), it is expected that the expenses for such CI First Asset ETFs will include, as applicable, without limitation: all costs of portfolio transactions; audit fees; fees payable to third party service providers; trustee and custodial expenses; valuation, accounting and record keeping costs; legal expenses; permitted prospectus preparation and filing expenses; costs associated with delivering documents to Securityholders; listing fees and expenses and other administrative expenses and costs incurred in connection with the continuous public filing requirements; costs and expenses of preparing financial and other reports, costs and expenses arising as a result of complying with all applicable laws, regulations and policies; CDS fees; bank related fees and interest charges; extraordinary expenses; Securityholder reports and servicing costs; registrar and transfer agent fees; fees and expenses of the members of the IRC; expenses related to compliance with NI 81-107; fees and expenses relating to
the voting of proxies by a third party; income taxes; all applicable Sales Taxes; brokerage expenses and commissions; and withholding taxes. Such expenses will also include expenses of any action, suit or other proceedings in which or in relation to which the Manager, the Custodian, the IRC and/or any of their respective officers, directors, employees, consultants or agents is entitled to indemnity by the CI First Asset ETF.

See “Fees and Expenses”.

**Expenses of the Issue:**

All expenses related to the issuance of Securities of a CI First Asset ETF shall be borne by that CI First Asset ETF unless otherwise waived or reimbursed by the Manager.

See “Fees and Expenses”.

**Fees and Expenses Payable Directly by Securityholders**

**Redemption fee:**

The Manager may, at its discretion, charge exchanging or redeeming Securityholders a redemption fee equal to a percentage of the exchange or redemption proceeds to offset certain transaction costs associated with the exchange or redemption of Securities. The Manager will publish the current redemption fee, if any, on its website, www.firstasset.com. Any such redemption fee charged by the Manager will accrue to the applicable CI First Asset ETF.

See “Exchange, Redemption and Switching of Securities”.

The redemption fee that may be charged in respect of a particular CI First Asset ETF is disclosed in the applicable ETF profile attached as Schedule A to this prospectus beginning on page 92.

**Switch Fees for Corporate Classes:**

Shareholders of a Corporate Class may have to pay their financial advisor, investment advisor or broker a transfer fee based on the value of any Shares that are switched.

See “Fees and Expenses” and “Exchange, Redemption and Switching of Shares – Switches for Corporate Classes”.
OVERVIEW OF THE LEGAL STRUCTURE OF THE CI FIRST ASSET ETFs

Each CI First Asset ETF is a mutual fund for Canadian securities law purposes and is established under the laws of Ontario. The promoter and manager of each CI First Asset ETF and the trustee of the Trust Funds is CI, a registered portfolio manager and investment fund manager. The head office of CI and the CI First Asset ETFs is located at 2 Queen Street East, 20th Floor, Toronto, Ontario M5C 3G7. CI is a wholly-owned subsidiary of CI Financial Corp. (TSX: CIX).

The following entities are Portfolio Managers to one or more CI First Asset ETFs:

- CI;
- Marret, an affiliate of the Manager; and
- Onex Credit.

The full name under which each CI First Asset ETF exists and carries on business is disclosed on the front cover of this prospectus. The TSX ticker symbol and a description of any material amendments to the constating documents of each CI First Asset ETF are set out in the applicable ETF profile attached as Schedule A to this prospectus beginning on page 92.

The Trust Funds exist pursuant to and are governed by the amended and restated declaration of trust for the CI First Asset ETFs, as supplemented, amended or amended and restated from time to time (the “Declaration of Trust”).

The Company is a mutual fund corporation amalgamated under the laws of Ontario. The authorized capital of the Company includes an unlimited number of non-cumulative, redeemable and non-voting Corporate Classes, issuable in an unlimited number of series, and one class of voting shares designated as “Class J Shares”. Each Corporate Class is a separate investment fund having specific investment objectives and is specifically referable to a separate portfolio of investments. Each Corporate Class currently consists of a series of Shares.

Pursuant to articles of amalgamation dated July 1, 2019, CI amalgamated with First Asset Investment Management Inc. (“First Asset”), and continued as CI Investments Inc. Effective upon the Amalgamation, CI became the trustee, promoter and manager of the Trust Funds and as the manager and promoter of the Corporate Classes.

Effective August 16, 2019, the name of CI First Asset Can-Material Covered Call ETF was changed to CI First Asset Gold+ Giants Covered Call ETF.

While each CI First Asset ETF is a mutual fund under the securities legislation of certain provinces and territories of Canada, certain CI First Asset ETFs are entitled to rely on exemptive relief from certain provisions of Canadian securities legislation applicable to conventional mutual funds. See “Exemptions and Approvals”.

INVESTMENT OBJECTIVES

The investment objectives of an investment fund describe the fundamental nature or fundamental features of the investment fund, that distinguish it from other investment funds. For a description of the investment objectives of a particular CI First Asset ETF, please see the applicable ETF profile attached as Schedule A to this prospectus beginning on page 92.

The investment objectives of a CI First Asset ETF may not be changed except with the approval of its Securityholders. See “Securityholder Matters”.

Change in an Index

Certain CI First Asset ETFs (each, an “Index ETF”) have been designed to replicate, to the extent possible, the performance of a benchmark or index (each, an “Index”), net of expenses. The Manager may, in its discretion and subject to obtaining any required Securityholder approval, change the Index tracked by an Index ETF to another widely-recognized Index in order to provide Securityholders with substantially the same exposure to the asset class to which the Index ETF is currently exposed. If the Manager changes the Index, or any replacement Index, the Manager will, at least 30 days prior to the effective date of such change, notify Securityholders by way of a press
release identifying the new Index, describing its constituent securities and specifying the reasons for the change in
the Index.

**Termination of the Indexes**

The provider of an Index tracked by an Index ETF (each, an “Index Provider”) calculates, determines and maintains
the Index. In the event that an Index Provider ceases to calculate an Index or the applicable license agreement
described under the heading “Other Material Facts” (each such license agreement, a “License Agreement”) is
terminated, the Manager may terminate an Index ETF on 60 days’ notice, change the investment objective of that
Index ETF or seek to replicate an alternative Index (subject to Securityholder approval if required in accordance with
the Declaration of Trust), or make such other arrangements as the Manager considers appropriate and in the best
interests of Securityholders in the circumstances.

If an alternate Index is selected, the investment objective of the Index ETF shall be to replicate, to the extent possible,
the performance of such alternate Index, net of expenses. The Manager will notify Securityholders, which notice
may be by way of press release, at least 30 days prior to the effective date of the selection of an alternate Index.

**Use of the Indexes**

The Manager and the Index ETFs are permitted to use the applicable Indexes provided by the Index Providers and to
use certain trademarks in connection with the operation of the Index ETFs pursuant to the applicable License
Agreements between the Manager and each Index Provider. The Manager and the Index ETFs do not accept
responsibility for or guarantee the accuracy or completeness of the Indexes or any data included in the Indexes.

**INVESTMENT STRATEGIES**

**Index ETFs**

The investment strategy of each Index ETF is to invest in and hold, to the extent possible, the Constituent Securities
(as defined herein) of the applicable Index in substantially the same proportion as they are reflected in the applicable
Index.

With respect to any Index ETF, the Manager may use a sampling strategy in selecting its investments to achieve its
objective. Sampling means that the Manager will use quantitative analysis to select securities from the Index to
obtain a representative sample of securities that resemble the Index in terms of key risk factors, performance
attributes, industry weightings, market capitalization and other appropriate financial characteristics. The quantity of
Constituent Securities selected using such sampling methodology will be based on a number of factors, including the
asset base of the applicable Index ETF.

“Constituent Securities” are the securities included in the investment portfolio or Index of an Index ETF from time
to time, or where an Index ETF uses a representative “sampling” methodology, the securities included in the
representative sample of issuers intended to replicate the Index as determined from time to time by the Manager
or the Index Provider, as the case may be.

The Manager may hedge currency risk associated with an investment in a security acquired in lieu of a Constituent
Security that is denominated in a different currency.

The portfolio of each Index ETF may, from time to time, also include a significant amount of cash and/or cash
equivalents.

**Sampling**

In accordance with applicable securities legislation, including NI 81-102, and as an alternative to or in conjunction
with investing in and holding the Constituent Securities of the applicable Index, an Index ETF may also invest in
securities other than Constituent Securities, including exchange-traded funds, mutual funds or other public
investment funds or derivative instruments ("Other Securities"), to obtain exposure to the performance of the Index in a manner that is consistent with the investment objective and investment strategies of the Index ETF, provided that where the Index ETF invests in another investment fund, no management fees or incentive fees are payable by the Index ETF that, to a reasonable person, would duplicate a fee payable by such other investment fund for the same service.

There may be instances in which the Manager chooses to overweight or underweight a Constituent Security or to purchase or sell securities that do not constitute Constituent Securities but which the Manager believes are appropriate substitutes for one or more Constituent Securities because they have economic characteristics that are substantially similar to those of the Constituent Securities. In addition, the Index ETFs may sell Constituent Securities in anticipation of their removal from the applicable Index and may purchase securities in anticipation of their addition to the Index.

**Rebalancing Events**

Whenever an Index Provider rebalances or adjusts an Index, including by adding securities to or subtracting securities from that Index or, if applicable, whenever the Manager determines that there should be a change to the representative sample of the Index, the applicable Index ETF may acquire and/or dispose of the appropriate number of securities through the applicable Designated Broker or Dealers in the open market.

**Actions Affecting Constituent Securities**

From time to time, certain corporate or other actions may be taken or proposed by an issuer included in a portfolio or Index of an Index ETF (a “Constituent Issuer”) or a third party that could affect a Constituent Security of an Index. Examples of such actions would be if a takeover bid or an issuer bid is made for a Constituent Security, or if a special dividend is paid on a Constituent Security. In each such case, the Manager, in its discretion, will determine what steps the relevant Index ETF will take to address the action, if any. In exercising such discretion, the Manager will generally take those steps necessary to ensure that such Index ETF continues to seek to track the applicable Index, to the extent reasonably possible and before fees and expenses.

**Active ETFs**

The investment strategy of each CI First Asset ETF other than the Index ETFs (each, an “Active ETF”) is to invest in and hold a portfolio of securities selected by the applicable Portfolio Manager in order to achieve its investment objective. Each Active ETF may invest in various securities and instruments which may include, but are not limited to, debt securities, equity securities, equity and equity related securities, futures contracts and exchange-traded funds. Equity related securities may include, but are not limited to, convertible debt, Income Trust (as defined herein) units, single issuer equity options, preferred shares and warrants. If market conditions require, in order to preserve capital, an Active ETF may seek to invest a substantial portfolio of its assets in cash and cash equivalents.

Each Active ETF may also invest in American Depositary Receipts (“ADRs”), American Depositary Shares (“ADSs”), Global Depositary Receipts (“GDRs”) or International Depositary Receipts (“IDRs”), each of which is a type of negotiable financial security that is traded on a local stock exchange but represent a security that is issued by a foreign publicly-listed company. Since these securities trade in local markets and are therefore available for trading during North American trading hours, it may be more efficient for a Portfolio Manager to gain exposure to the underlying foreign equity securities it wishes to hold in its portfolio through investments in ADRs, ADSs, GDRs or IDR representing the securities of these issuers.

“Income Trust” means a fund, trust, limited partnership, corporation or other entity, the securities of which are listed on a stock exchange or traded on a stock market, structured to own debt and/or equity of an underlying company or partnership, or a royalty in revenues generated by the assets thereof, which carries on an active business including royalty trusts, income funds, certain limited partnerships, certain corporations and other income vehicles including, without limitation, securities of an issuer that are typically issued in securities comprised of a dividend-
bearing common share and a promissory note, the two components of which, after an initial period during which separation is prohibited, can be split and traded separately, provided that the determination by the Manager that an issuer of securities is an Income Trust shall be conclusive for all purposes herein.

**General Investment Strategies for All CI First Asset ETFs**

General investment strategies employed by all CI First Asset ETFs are described below. To the extent that there is a conflict between the general investment strategies described below and the investment strategies of a particular CI First Asset ETF described in the applicable ETF profile attached as Schedule A to this prospectus, the description in the ETF profile shall prevail. For a description of the investment strategies of a particular CI First Asset ETF, please see the applicable ETF profile attached as Schedule A to this prospectus beginning on page 92.

**Investment in Other Investment Funds**

In accordance with applicable securities legislation, including any exemptions obtained therefrom, and as an alternative to or in conjunction with investing in and holding securities directly, a CI First Asset ETF may also invest in one or more other investment funds, including investment funds managed by the Manager (each, an “**Other Fund**”), provided that no management fees or incentive fees are payable by the CI First Asset ETF that, to a reasonable person, would duplicate a fee payable by the Other Fund for the same service. A CI First Asset ETF’s allocation to investments in other investment funds, if any, will vary from time to time depending on the relative size and liquidity of the investment fund and the ability of the applicable Portfolio Manager of the CI First Asset ETF to identify appropriate investment funds that are consistent with the CI First Asset ETF’s investment objectives and strategies.

The CI First Asset ETFs have obtained an exemption from certain provisions of NI 81-102 in order to permit each CI First Asset ETF to invest in certain ETFs, subject to conditions. Please see “**Exemptions and Approvals**” for more details.

**Use of Derivative Instruments**

A CI First Asset ETF may use derivative instruments to reduce transaction costs and increase the liquidity and efficiency of trading, in accordance with the CI First Asset ETF’s investment restrictions. A CI First Asset ETF may, from time to time, use derivatives to hedge its exposure to securities.

A CI First Asset ETF may invest in or use derivative instruments, including futures contracts, forward contracts and swaps, provided that the use of such derivative instruments is in compliance with NI 81-102 or the appropriate regulatory exemptions have been obtained, and is consistent with the investment objective and strategy of the CI First Asset ETF.

The Manager expects that a Trust Fund will not use derivative instruments for non-hedging purposes in a taxation year of a Trust Fund unless such Trust Fund qualifies as a mutual fund trust under the Tax Act throughout the taxation year.

A “**derivative**” is an instrument, agreement or security, the market price, value or payment obligations of which is derived from, referenced to or based on an underlying interest.

A “**forward contract**” is an agreement between two parties to buy or sell an asset at a specified point of time in the future at a predetermined price.

“**Futures contracts**” are standardized contracts entered into on domestic or foreign exchanges which call for the future delivery of specified quantities of various assets such as stocks, bonds, agricultural commodities, industrial commodities, currencies, financial instruments, energy products or metals at a specified time and place. The terms and conditions of futures contracts of a particular commodity are standardized and as such are not subject to any negotiation between the buyer and seller.
A “swap” is a financial derivative contract in which two counterparties agree to exchange cash flows determined with reference to prices of currencies, indices or interest rates, according to predetermined rules. At inception, this instrument typically has zero market value, but as market prices change the swap acquires value.

**Currency Hedging**

In the event that a CI First Asset ETF invests in securities that are denominated in a non-Canadian currency, the CI First Asset ETF may enter into one or more currency forward agreements that seek to hedge the currency risk associated with such an investment. At the discretion of the applicable Portfolio Manager, a CI First Asset ETF may choose to enter into currency forward agreements to hedge all or a portion of the value of the CI First Asset ETF’s non-Canadian currency exposure back to the Canadian dollar. All such currency forward agreements will be entered into in compliance with NI 81-102 with financial institutions that have a “designated rating” as defined in NI 81-102. Hedging currency exposure to reduce the impact of fluctuations in exchange rates is intended to reduce the direct exposure to foreign currency risk for Securityholders.

The currency hedging mandate applicable to a particular class of Securities shall not be changed by the Manager without first obtaining the approval of Securityholders of the affected class of Securities. The currency hedging strategies employed by a particular CI First Asset ETF are described in the applicable ETF profile attached as Schedule A to this prospectus beginning on page 92.

**Securities Lending, Repurchase and Reverse Repurchase Transactions**

A CI First Asset ETF may enter into securities lending transactions, repurchase and reverse repurchase transactions in accordance with NI 81-102 to earn additional income for the CI First Asset ETF. The Manager has entered into a written securities lending authorization agreement (the “Securities Lending Agreement”) with its sub-custodian, the Lending Agent and certain of its affiliates, pursuant to which the Lending Agent’s agent, CIBC Mellon Global Securities Services Company, administers securities lending transactions for the CI First Asset ETFs. The Lending Agent is not an affiliate or an associate of the Manager. The Securities Lending Agreement complies with the applicable provisions of NI 81-102 and all securities loans must qualify as “securities lending arrangements” for the purposes of the Tax Act.

The Manager manages the risks associated with securities lending by a CI First Asset ETF by requiring the Lending Agent to, among other things: (a) enter into securities lending transactions with borrowers selected by the Lending Agent on a basis of certain creditworthiness standards applied by the Lending Agent; (b) maintain appropriate internal controls and procedures which include, as applicable, transaction and credit limits for borrowers; (c) establish daily the market value of the securities loaned by a CI First Asset ETF under a securities lending transaction and the collateral held by the CI First Asset ETF; (d) if on any day the market value of the collateral held by a CI First Asset ETF is less than 102% of the market value of the borrowed securities, request that the borrower provide additional collateral to the CI First Asset ETF to make up the shortfall; and (e) ensure that the collateral to be delivered to a CI First Asset ETF is one or more of cash (if agreed to by the Manager and the applicable lending agent), qualified securities or securities immediately convertible into, or exchangeable for, securities of the same issuer, class or type, and same term, if applicable, as the securities being loaned by the CI First Asset ETF.

The Manager reviews its written policies and procedures at least annually to ensure that the risks associated with securities lending transactions are being properly managed. The Lending Agent reviews its written policies and procedures at least annually. The Lending Agent employs a risk management framework of counterparty limits and stringent collateral guidelines, including counterparty and program minimums and maximums for various security classes. Acceptable counterparties, counterparty limits and collateral guidelines are reviewed and amended as dictated by market conditions. At present, there are no simulations used to test the portfolios under stress conditions to measure risk in connection with the use of securities lending transactions.

**Short Selling Strategies**

Certain CI First Asset ETFs may engage in short selling in compliance with NI 81-102 in order to manage volatility or enhance the performance of the CI First Asset ETF in declining or volatile markets. Short selling is an investment
strategy whereby a CI First Asset ETF sells a security that it does not own on the basis that the applicable Portfolio Manager believes that the security is overvalued and that its market value will decline. The resulting trade creates a “short position” which will create a profit for the CI First Asset ETF if the market value of the security does, in fact, decline. A successful short strategy will allow a CI First Asset ETF to subsequently purchase the security (and thereby repay its “short position”) at a price that is lower than the price the CI First Asset ETF received for selling the securities, thereby creating a profit for the CI First Asset ETF.

In periods of little or negative corporate earnings growth and/or extreme market valuations, and in other circumstances when it appears likely that the market price of a particular security will decrease, short selling provides an opportunity for a CI First Asset ETF to control volatility and possibly enhance performance. Each Portfolio Manager is of the view that a CI First Asset ETF can benefit from the implementation and execution of a controlled and limited short selling strategy. This strategy would operate as a complement to a CI First Asset ETF’s primary strategy of purchasing securities with the expectation that they will appreciate in market value. Risks associated with short selling are managed by adhering to certain stringent controls.

Covered Call Option Writing Strategies of Certain CI First Asset ETFs

Certain CI First Asset ETFs may engage in covered call option writing strategies. The ETF profile for a CI First Asset ETF attached as Schedule A to this prospectus will identify whether the CI First Asset ETF engages in covered call option writing strategies.

Call options sold by a CI First Asset ETF may be either options traded on a Canadian or U.S. stock exchange or “over-the-counter” options sold pursuant to an agreement with a counterparty with a “designated rating” as defined in NI 81-102.

The applicable Portfolio Manager intends to close out any outstanding options that are in the money prior to their expiry date to avoid having the CI First Asset ETF’s portfolio securities called away pursuant to the terms of the option, but may allow portfolio securities to be called, at its discretion. Such Portfolio Manager may decide, in its discretion, not to sell call options on any CI First Asset ETF portfolio issuer in any month if it determines that conditions render it impracticable or undesirable to do so.

A CI First Asset ETF may close out options in advance of the taxation year-end to reduce the likelihood that gains distributed in any year are reversed in a subsequent year. A CI First Asset ETF may also sell portfolio securities that are in a loss position to reduce the capital gain that would otherwise be payable by the CI First Asset ETF by way of a special distribution in a particular calendar year in which the taxation year ends where the Manager determines that it is in the best interest of the CI First Asset ETF to do so.

The writing of call options by a CI First Asset ETF will involve the selling of call options in respect of approximately, and not more than, 25% (determined at the time of writing) of the securities of each issuer, or each issuer as part of a larger basket, in such CI First Asset ETF’s portfolio. The Manager may, from time-to-time and in its discretion, sell index call options instead of individual stock options, if it deems such index options to be an appropriate substitute. Such call options may be either exchange-traded options or over-the-counter options. Because call options will be written only in respect of securities that are in a CI First Asset ETF’s portfolio and because the investment criteria of each CI First Asset ETF prohibit the sale of securities subject to an outstanding option, the call options will be covered at all times. If the option is denominated in U.S. dollars, the applicable CI First Asset ETF may hedge its exposure to U.S. dollars back to Canadian dollars.

The holder of a call option purchased from a CI First Asset ETF will have the option, exercisable during a specific time period or at expiry, to purchase the securities underlying the option from the CI First Asset ETF at the strike price per security. By selling call options, the CI First Asset ETFs will receive option premiums, which are generally paid within one business day of the writing of the option. If at any time during the term of a call option or at expiry, the market price of the underlying securities is above the strike price, depending on the terms of the option the holder of the option may exercise the option and the CI First Asset ETF would be obligated to sell the securities to the holder at the strike price per security. Each CI First Asset ETF intends to repurchase a call option which is in-the-money by paying the market value of the call option but, at the Manager’s discretion, may allow CI First Asset ETF portfolio securities to be called. If, however, the option is out-of-the-money at expiration of the call option, the holder of the
option will likely not exercise the option and the option will expire. In each case, the applicable CI First Asset ETF will retain the option premium.

The amount of option premium depends upon, among other factors, the expected volatility of the price of the underlying security. The higher the volatility, the higher the option premium. In addition, the amount of the option premium will depend upon the difference between the strike price of the option and the market price of the underlying security at the time the option is written. The smaller the positive difference (or the larger the negative difference), the more likely it is that the option will become in-the-money during the term and, accordingly, the greater the option premium. The Manager intends that the options sold by each CI First Asset ETF will be sold at a strike price which is “at-the-money” (that is at or close to the current market price of the securities in the applicable CI First Asset ETF portfolio), but may sell options, on behalf of the CI First Asset ETF, in respect of the portfolio securities that are “out-of-the-money” or “in-the-money” at its discretion.

If a call option is written on a security (or a basket of securities) in a CI First Asset ETF’s portfolio, the amounts that the applicable CI First Asset ETF will be able to realize on the security (or basket of securities) during the term of the call option will be limited to the distributions received during such period plus an amount equal to the sum of the strike price and the premium received from writing the option. In essence, CI First Asset ETFs forgo potential returns resulting from any price appreciation of the security underlying the option above the strike price because the security will be called away or the applicable CI First Asset ETF will pay to close out the option by repurchasing the option at the then current market price of the option. The current market price of an in-the-money option may exceed the premium received when the at-the-market option was sold.

The use of call options may have the effect of limiting or reducing the total returns of a CI First Asset ETF, particularly in a rising market, since the premiums associated with writing covered call options may be outweighed by the cost of closing out outstanding options. However, the Portfolio Managers believe that in a slightly rising, flat or downward trending market, a portfolio that is subject to covered call option writing will generally provide higher relative returns and lower volatility than one on which no options are written.

OVERVIEW OF THE SECTORS THAT THE CI FIRST ASSET ETFS INVEST IN

For a description of the sectors in which a particular CI First Asset ETF invests, please see the applicable ETF profile attached as Schedule A to this prospectus beginning on page 92. Please also see “Investment Objectives” and “Investment Strategies” for additional information on the sectors applicable to each CI First Asset ETF.

INVESTMENT RESTRICTIONS

Subject to exemptive relief that has been obtained or will be obtained or has been applied for, each CI First Asset ETF is subject to certain investment restrictions and practices contained in Canadian securities legislation, including NI 81-102, which are designed in part to ensure that the investments of the CI First Asset ETF are diversified and relatively liquid and to ensure its proper administration. The investment restrictions and practices applicable to a CI First Asset ETF which are contained in Canadian securities legislation, including NI-81-102, may not be deviated from without an exemption from the Canadian securities regulatory authorities having jurisdiction over the CI First Asset ETF. See “Exemptions and Approvals”.

Tax Related Investment Restrictions Applicable to All Trust Funds

A Trust Fund will not make an investment or conduct any activity that would result in the Trust Fund (i) failing to qualify as a “unit trust” or “mutual fund trust” within the meaning of the Tax Act or (ii) being subject to the tax for “SIFT trusts” for purposes of the Tax Act. In addition, a Trust Fund will not (i) make or hold any investment in property that would be “taxable Canadian property” (if the definition of such term in the Tax Act were read without reference to paragraph (b) thereof) if more than 10% of the CI First Asset ETF’s property consisted of such property; (ii) invest in or hold (a) securities of or an interest in any non-resident entity, an interest in or a right or option to acquire such property, or an interest in a partnership which holds any such property if the Trust Fund would be required to include significant amounts in income pursuant to section 94.1 of the Tax Act, (b) an interest in a trust (or a partnership which holds such an interest) which would require the Trust Fund to report significant amounts of income in
connection with such interest pursuant to the rules in section 94.2 of the Tax Act, or (c) any interest in a non-resident trust other than an “exempt foreign trust” for the purposes of section 94 of the Tax Act (or a partnership which holds such an interest); (iii) invest in any security that would be a “tax shelter investment” within the meaning of section 143.2 of the Tax Act; or (iv) invest in any security of an issuer that would be a “foreign affiliate” of the Company for purposes of the Tax Act.

In addition, the Trust Fund may not enter into any arrangement (including the acquisition of securities for its portfolio) where the result is a “dividend rental arrangement” for the purposes of the Tax Act, and the Trust Fund may not engage in securities lending that does not constitute a “securities lending arrangement” for purposes of the Tax Act.

Investment restrictions, including additional tax-related investment restrictions specific to a particular CI First Asset ETF are described in the applicable ETF profile attached as Schedule A to this prospectus.

**Tax Related Investment Restrictions Applicable to All Corporate Classes**

The Company will not make an investment or conduct any activity that would result in the Company failing to qualify as a “mutual fund corporation” within the meaning of the Tax Act. In addition, the Company will not (i) make or hold any investment in property that would be “taxable Canadian property” (if the definition of such term in the Tax Act were read without reference to paragraph (b) thereof) if more than 10% of the Company’s property consisted of such property; (ii) invest in or hold (a) securities of or an interest in any non-resident entity, an interest in or a right or option to acquire such property, or an interest in a partnership which holds any such property if the Company (or the partnership) would be required to include significant amounts in income pursuant to section 94.1 of the Tax Act, (b) an interest in a trust (or a partnership which holds such an interest) which would require the Company (or the partnership) to report significant amounts of income in connection with such interest pursuant to the rules in section 94.2 of the Tax Act, or (c) any interest in a non-resident trust other than an “exempt foreign trust” for the purposes of section 94 of the Tax Act (or a partnership which holds such an interest); (iii) invest in any security that would be a “tax shelter investment” within the meaning of section 143.2 of the Tax Act; or (iv) invest in any security of an issuer that would be a “foreign affiliate” of the Company for purposes of the Tax Act.

In addition, the Company may not enter into any arrangement (including the acquisition of securities for its portfolio) where the result is a “dividend rental arrangement” for the purposes of the Tax Act, and the Company may not engage in securities lending that does not constitute a “securities lending arrangement” for purposes of the Tax Act.

**FEES AND EXPENSES**

**Fees and Expenses Payable by the CI First Asset ETFs**

**Management Fees**

Each class of Securities of a CI First Asset ETF pays an annual Management Fee to the Manager equal to a percentage of the NAV of that class, calculated daily and payable monthly in arrears, plus applicable taxes.

The Management Fee compensates the Manager for services it provides to a CI First Asset ETF including, without limitation and as applicable: investment advisory and portfolio management services, implementation of the CI First Asset ETF’s investment strategies, negotiating contracts with certain third-party service providers, including, but not limited to, index providers, investment managers, custodians, registrars, transfer agents, auditors and printers; authorizing the payment of operating expenses incurred on behalf of the CI First Asset ETF; maintaining certain accounting and financial records; calculating the amount and determining the frequency of distributions by the CI First Asset ETF; ensuring that Securityholders are provided with financial statements and other reports as are required from time to time by applicable law; ensuring that the CI First Asset ETF complies with all other regulatory requirements including continuous disclosure obligations under applicable securities laws; administering purchases, redemptions and other transactions in Securities; and arranging for any payments required upon termination of a CI First Asset ETF. The Portfolio Manager of each CI First Asset ETF is remunerated by the Manager out of the Management Fee it receives in respect of the applicable CI First Asset ETF. For the Management Fee payable by a particular CI First Asset ETF, please see the applicable ETF profile attached as Schedule A to this prospectus beginning on page 92.
Management Fee Distributions

To encourage very large investments in a Trust Fund, and to ensure the Management Fee is competitive for these investments, the Manager may at its discretion agree to charge a reduced fee as compared to the fee it otherwise would be entitled to receive from the Trust Fund with respect to investments in the Trust Fund by Unitholders that hold, on average during any period specified by the Manager from time to time, Units of the Trust Fund having a specified aggregate value. Such a reduction will be dependent upon a number of factors, including the amount invested, the total assets of the Trust Fund under administration and the expected amount of account activity. An amount equal to the difference between the fee otherwise chargeable and the reduced fee of the applicable Trust Fund will be distributed by the Trust Fund, at the discretion of the Manager, to those Unitholders as management fee distributions (generally representing an amount equal to the difference between the Management Fee otherwise chargeable by the Manager and a reduced fee determined by the Manager, at its discretion, from time to time, a “Management Fee Distribution”).

The availability and amount of Management Fee Distributions with respect to Units of a Trust Fund will be determined by the Manager. Management Fee Distributions for a Trust Fund will generally be calculated and applied based on a Unitholder’s average holdings of Units of the Trust Fund over each applicable period as specified by the Manager from time to time. Management Fee Distributions will be available only to beneficial owners of Units of a Trust Fund and not to the holdings of Units of the Trust Fund by dealers, brokers or other participants in CDS that hold Units of the Trust Fund on behalf of beneficial owners (“CDS Participants”). Management Fee Distributions will be paid first out of net income of the Trust Fund then out of capital gains of the Trust Fund and thereafter out of capital. In order to receive a Management Fee Distribution for any applicable period, a beneficial owner of Units of a Trust Fund must submit a claim for a Management Fee Distribution that is verified by a CDS Participant on the beneficial owner’s behalf and provide the Manager with such further information as the Manager may require in accordance with the terms and procedures established by the Manager from time to time.

The Manager reserves the right to discontinue or change Management Fee Distributions at any time. The tax consequences of Management Fee Distributions made by a Trust Fund generally will be borne by the Unitholders of the Trust Fund receiving these distributions from the Manager.

Management Fee Rebates

To achieve effective and competitive management fees, the Manager may reduce the fee borne by certain Shareholders of a Corporate Class who have signed an agreement with the Manager. The Manager will pay out the amount of the reduction in the form of a Management Fee Rebate directly to the eligible Shareholder. A “Management Fee Rebate” is an amount equal to the difference between the Management Fee otherwise chargeable by the Manager and a reduced fee determined by the Manager, at its discretion, from time to time, and that is payable, at the discretion of the Manager, to the applicable holders of Shares who hold large investments in the Corporate Class. The decision to pay Management Fee Rebates will be in the Manager’s discretion and will be dependent on a number of factors, including the size of the investment and a negotiated fee agreement between the Manager and the Shareholder.

The Manager reserves the right to discontinue or change Management Fee Rebates at any time.

Operating Expenses

Except as noted below, the Manager is responsible for all costs and expenses of each of the following CI First Asset ETFs:

- CI First Asset 1-5 Year Laddered Government Strip Bond Index ETF
- CI First Asset Canadian Convertible Bond ETF
- CI First Asset Energy Giants Covered Call ETF
- CI First Asset Gold Giants Covered Call ETF
- CI First Asset Health Care Giants Covered Call ETF
• CI First Asset Morningstar Canada Dividend Target 30 Index ETF
• CI First Asset Morningstar Canada Momentum Index ETF
• CI First Asset Morningstar Canada Value Index ETF
• CI First Asset Morningstar International Momentum Index ETF
• CI First Asset Morningstar International Value Index ETF
• CI First Asset Morningstar National Bank Québec Index ETF
• CI First Asset Morningstar US Dividend Target 50 Index ETF
• CI First Asset Morningstar US Momentum Index ETF
• CI First Asset Morningstar US Value Index ETF
• CI First Asset MSCI Canada Low Risk Weighted ETF
• CI First Asset MSCI Europe Low Risk Weighted ETF
• CI First Asset MSCI International Low Risk Weighted ETF
• CI First Asset MSCI USA Low Risk Weighted ETF
• CI First Asset MSCI World Low Risk Weighted ETF
• CI First Asset Tech Giants Covered Call ETF.

Despite the foregoing, the Manager is not responsible for the following costs and expenses of such CI First Asset ETFs: the Management Fee, any reasonable expenses related to the implementation and ongoing operation of an IRC under NI 81-107, brokerage expenses and commissions, the costs of any futures contracts, swaps, forwards or other financial instruments used to achieve the investment objectives of the CI First Asset ETFs, income taxes, withholding taxes, any applicable Sales Taxes, the costs of complying with any new governmental or regulatory requirement introduced after the CI First Asset ETF was established including, as applicable, any costs associated with the printing and distribution of any documents that the Canadian securities regulatory authorities require be sent or delivered to purchasers of Securities of the CI First Asset ETF, any transaction costs incurred by the Custodian, and any extraordinary expenses. The costs and expenses for which the Manager is responsible include the fees payable to the Custodian, the Registrar and Transfer Agent and the Plan Agent, and fees payable to other service providers, including the Index Providers, retained by the Manager as described under “Organization and Management Details of the CI First Asset ETFs – Duties and Services Provided by the Manager to the Trust Funds” and “Organization and Management Details of the CI First Asset ETFs – Duties and Services Provided by the Manager to the Corporate Classes”.

In respect of all of the other CI First Asset ETFs, in addition to the Management Fee, each CI First Asset ETF pays for all ordinary expenses incurred in connection with its operation and administration. Unless otherwise waived or reimbursed by the Manager, and subject to compliance with NI 81-102, it is expected that the expenses for a CI First Asset ETF will include, as applicable, without limitation: all costs of portfolio transactions; audit fees; fees payable to third party service providers; trustee and custodial expenses; valuation, accounting and record keeping costs; legal expenses; permitted prospectus preparation and filing expenses; costs associated with delivering documents to Securityholders; listing fees and expenses and other administrative expenses and costs incurred in connection with the continuous public filing requirements; costs and expenses of preparing financial and other reports, costs and expenses arising as a result of complying with all applicable laws, regulations and policies; CDS fees; bank related fees and interest charges; extraordinary expenses; Securityholder reports and servicing costs; registrar and transfer agent fees; fees and expenses of the members of the IRC; expenses related to compliance with NI 81-107; fees and expenses relating to the voting of proxies by a third party; income taxes; Sales Taxes; brokerage expenses and commissions; and withholding taxes. Such expenses will also include expenses of any action, suit or other proceedings in which or in relation to which the Manager, the Custodian, the IRC and/or any of their respective officers, directors, employees, consultants or agents is entitled to indemnity by a CI First Asset ETF.
Expenses of the Issue

All expenses related to the issuance of Securities are borne by the CI First Asset ETFs unless otherwise waived or reimbursed by the Manager.

Fees and Expenses Payable Directly by the Securityholders

Redemption Fee

The Manager may, at its discretion, charge exchanging or redeeming Securityholders a redemption fee equal to a percentage of the exchange or redemption proceeds to offset certain transaction costs associated with the exchange or redemption of Securities. Any such redemption fee charged by the Manager will accrue to the applicable CI First Asset ETF. The redemption fee will not be charged to a Securityholder in connection with the buying or selling of Securities of a CI First Asset ETF on the TSX.

Switch Fees for Corporate Classes

Shareholders of a Corporate Class may have to pay their financial advisor, investment advisor or broker a transfer fee based on the value of the Shares that are switched.

RISK FACTORS

In addition to the considerations set out elsewhere in this prospectus, below are certain considerations relating to an investment in Securities of a CI First Asset ETF which prospective investors should consider before purchasing such Securities.

The CI First Asset ETFs are subject to certain risks, which are described below. The risk factors described under the subheading “General Risk Factors” below are risk factors that are relevant to each CI First Asset ETF, whereas the risk factors described under “ETF-Specific Risk Factors” below (the “ETF-Specific Risk Factors”) are relevant to one or more (but not all) CI First Asset ETFs. For a list of which ETF-Specific Risk Factors apply to a particular CI First Asset ETF, please see the applicable ETF profile attached as Schedule A to this prospectus beginning on page 92.

General Risk Factors

Absence of an Active Market for the Securities and Lack of Operating History Risk

Certain CI First Asset ETFs may have limited operating history as exchange-traded funds. Although Securities of the CI First Asset ETFs may be listed on the TSX, there can be no assurance that an active public market for the Securities will develop or be sustained.

Capital Depreciation Risk

A CI First Asset ETF may make distributions comprised in whole or in part, of return of capital. A return of capital distribution is a return of a portion of an investor’s original investment and may, over time, result in the return of the entire amount of the original investment to the investor. This distribution should not be confused with yield or income generated by the CI First Asset ETF. Return of capital distributions will reduce the CI First Asset ETF’s NAV, which could reduce the CI First Asset ETF’s ability to generate future income.

Cease Trading of Securities Risk

If the securities of an issuer included in the portfolio of a CI First Asset ETF are cease-traded by order of the relevant Canadian securities regulatory authority or are halted from trading by the relevant stock exchange, the CI First Asset ETF may halt trading in its securities. Accordingly, securities of the CI First Asset ETFs bear the risk of cease trading orders against all issuers whose securities are included in its portfolio, not just one. If portfolio securities of a CI First Asset ETF are cease-traded by order of a Canadian securities regulatory authority, if normal trading of such securities is suspended on the relevant exchange, or if for any reason it is likely there will be no closing bid price for such
securities, the CI First Asset ETF may suspend the right to redeem securities for cash, subject to any required prior regulatory approval. If the right to redeem securities for cash is suspended, the CI First Asset ETF may return redemption requests to Securityholders who have submitted them. If securities are cease-traded, they may not be delivered on an exchange of a PNS for a Basket of Securities until such time as the cease-trade order is lifted.

**Concentration and Sector Risk**

To the extent that a CI First Asset ETF’s investments are concentrated in a small number of issuers, the CI First Asset ETF may be susceptible to loss due to adverse occurrences affecting those issuers.

Some CI First Asset ETFs concentrate their investments in a certain sector, geographic area or industry in the economy. This allows these CI First Asset ETFs to focus on that sector’s potential, but it also means that they are riskier than investment funds with broader diversification. Because securities in the same industry or geographic area tend to be affected by the same factors, sector-specific and country-specific funds tend to experience greater fluctuations in price. Such industry- and country-based risks, any of which may adversely affect the issuers in which a CI First Asset ETF invests, may include, but are not limited to, the following: general economic conditions or cyclical market patterns that could negatively affect credit quality or supply and demand in a particular industry or country; competition for resources, adverse labour relations, political or world events; obsolescence of technologies; loan growth; regulatory environment; and increased competition or new product introductions that may affect the profitability or viability of companies in an industry or geographic area. In addition, at times, such industry, geographic area or sector may be out of favor and underperform other industries, geographic locations or the market as a whole. These CI First Asset ETFs must continue to follow their investment objectives by investing in their particular sector or geographic area, even during periods when that sector or geographic area is performing poorly.

**Corresponding NAV Risk**

The Securities of the CI First Asset ETFs may trade below, at, or above their respective NAVs per Security, and the closing trading price of the Securities may differ from its NAV. The NAV per Security of a CI First Asset ETF will fluctuate with changes in the market value of the CI First Asset ETF’s holdings. Whether Securityholders of a CI First Asset ETF will realize gains or losses upon a sale of Securities will depend not upon the NAV but entirely upon whether the market price of Securities at the time of sale is above or below the Securityholder’s purchase price for the Securities. The market price of the Securities of a CI First Asset ETF will be determined by factors in addition to NAV such as relative supply of and demand for the Securities in the market, general market and economic conditions, and other factors. However, given that Dealers may subscribe for or exchange a PNS of a CI First Asset ETF at the applicable NAV per Security, the Manager expects that large discounts or premiums to the NAV per Security of the CI First Asset ETFs should not be sustained.

**Currency Exposure Risk**

As a portion of a CI First Asset ETF’s portfolio may be invested in securities traded in currencies other than the currency in which the class of Securities is denominated (“foreign currencies”), the NAV of such class of Securities, when measured in the base currency in which the class of Securities is denominated, will, to the extent this has not been hedged against, be affected by changes in the value of the foreign currencies relative to the base currency. Further, the Common Units may not be fully hedged, and the Unhedged Common Units will not be hedged at all. Accordingly no assurance can be given that a CI First Asset ETF’s portfolio will not be adversely impacted by changes in foreign exchange rates or other factors.

**Currency Hedging Risk**

The use of currency hedges by a CI First Asset ETF, if used, involves special risks, including the possible default by the other party to the transaction, illiquidity and, to the extent the applicable Portfolio Manager’s assessment of certain market movements is incorrect, the risk that the use of hedges could result in losses greater than if the hedging had not been used. Hedging arrangements may have the effect of limiting or reducing the total returns to a CI First Asset ETF if the applicable Portfolio Manager’s expectations concerning future events or market conditions prove to be
incorrect. In addition, the costs associated with a hedging program may outweigh the benefits of the arrangements in such circumstances.

**Cyber Security Risk**

With the increased use of technologies, such as the Internet, to conduct business, the CI First Asset ETFs are susceptible to operational, information security, and related risks through breaches in cyber security. In general, cyber incidents can result from deliberate attacks or unintentional events. Cyber-attacks include, but are not limited to, gaining unauthorized access to digital systems (e.g., through “hacking” or malicious software coding) for purposes of misappropriating assets or sensitive information, corrupting data, or causing operational disruption. Cyber-attacks may also be carried out in a manner that does not require gaining unauthorized access, such as causing denial-of-service attacks on websites (i.e. efforts to make network services unavailable to intended users). Cyber incidents affecting the CI First Asset ETFs, the Manager or the CI First Asset ETFs’ service providers (including, but not limited to, the CI First Asset ETFs’ custodian) have the ability to cause disruptions and impact each of their respective business operations, potentially resulting in financial losses, interference with the calculation of the NAV of a CI First Asset ETF, impediments to trading the portfolio securities of a CI First Asset ETF, the inability to process transactions in Securities, including redemptions of Securities, violations of applicable privacy and other laws, regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs associated with the implementation of any corrective measures. Similar adverse consequences could result from cyber incidents affecting the issuers of securities in which a CI First Asset ETF invests and counterparties with which a CI First Asset ETF engages in transactions.

The Manager has established risk management systems designed to reduce the risks to the CI First Asset ETFs associated with cyber security. However, there is no guarantee that such efforts will succeed. Furthermore, the Manager and the CI First Asset ETFs cannot control the cyber security plans and systems of the CI First Asset ETFs’ service providers, the issuers of securities in which a CI First Asset ETF invests, the counterparties with which a CI First Asset ETF engages in transactions, or any other third parties whose operations may affect a CI First Asset ETF or its Securityholders.

**Derivatives Risk**

A CI First Asset ETF may use various hedging transactions and may purchase and sell derivative instruments. A CI First Asset ETF’s use of derivative instruments involves risks different from, and possibly greater than, the risks associated with investing directly in loans and other traditional investments. Hedging with derivatives may not always be successful and could limit a CI First Asset ETF’s ability to participate in increases in the value of the CI First Asset ETF’s portfolio assets that are being hedged.

Amounts paid by the CI First Asset ETF as premiums and cash or other assets held in margin accounts are not otherwise available to the CI First Asset ETF for investment purposes and the CI First Asset ETF will incur trading costs, including trading commissions and option premiums in connection with transactions in derivatives.

The use of derivatives does not guarantee that there will not be a loss or that there will be a gain. Further, when a CI First Asset ETF invests in a derivative instrument, it could lose more than the principal amount invested. The following are some examples of the risks associated with the use of derivatives by a CI First Asset ETF:

- in the case of over-the-counter options and forward contracts, there is no guarantee that a market will exist for these investments when a CI First Asset ETF wants to close out its position; in the case of exchange-traded options and futures contracts, there may be a risk of a lack of liquidity when a CI First Asset ETF wants to close out its position;
- futures exchanges may impose daily trading limits on certain derivatives, which could prevent the CI First Asset ETF from closing out its position;
- if the other party to the derivative, in the case of over-the-counter transactions, is unable to fulfil its obligations, a CI First Asset ETF could experience a loss or fail to realize a gain;
• if a CI First Asset ETF has an open position in an options, futures or forward contract with a dealer who goes bankrupt, the CI First Asset ETF could experience a loss and, for an open futures contract, a loss of margin deposits with that dealer;

• if a derivative is based on a market index and trading is halted on a substantial number of securities in the index, or if there is a change in the composition of the index, it could have an adverse effect on the derivative;

• there may be mispricing or improper valuation and changes in the value of a derivative may not correlate perfectly with the underlying asset, rate or index; and

• the Tax Act or its interpretation may change in respect of the tax treatment of derivatives.

In addition, the use of futures contracts and options is a highly specialized activity which involves investment strategies and risks different from those associated with ordinary portfolio securities transactions, and there can be no guarantee that their use will increase a CI First Asset ETF’s return or successfully hedge its currency exposure. While the use of these instruments by a CI First Asset ETF may reduce certain risks associated with owning its portfolio securities, these techniques themselves entail certain other risks including lowering the CI First Asset ETF’s return. Certain strategies limit a CI First Asset ETF’s possibilities to realize gains, as well as its exposure to losses. A CI First Asset ETF could also experience losses if the prices of its options and futures positions were poorly correlated with the currencies being hedged, or if it could not close out its positions because of an illiquid secondary market. In addition, a CI First Asset ETF will incur transaction costs, including trading commissions and option premiums, in connection with its futures and options transactions. Futures markets are highly volatile and are influenced by numerous factors, such as changing supply and demand relationships, governmental programs and policies, national and international political and economic events, and changes in rates and prices. In addition, because of the low margin deposits required in futures trading, a high degree of leverage is typical of a futures trading account. As a result, a relatively small price movement in a futures contract may result in substantial losses to the trader. Futures trading may also be illiquid. Certain futures exchanges do not permit trading in particular contracts at prices that represent a fluctuation in price during a single day’s trading beyond certain specified limits. If prices fluctuate during a single day’s trading beyond those limits (which conditions have in the past sometimes lasted for several days in certain contracts) the trader could be prevented from promptly liquidating unfavourable positions and thus be subject to substantial losses.

**Designated Broker/Dealer Risk**

As a CI First Asset ETF will only issue Securities directly to the applicable Designated Broker (as defined herein) and Dealers, in the event that a purchasing Designated Broker or Dealer is unable to meet its settlement obligations, the resulting costs and losses incurred will be borne by the CI First Asset ETF.

**Early Closing Risk**

Unanticipated early closings of a stock exchange on which securities held by a CI First Asset ETF are listed may result in the CI First Asset ETF being unable to sell or buy securities on that day. If the TSX closes early on a day when a CI First Asset ETF needs to execute a high volume of securities trades late in day on which a session of the TSX is held (each, a “Trading Day”), the CI First Asset ETF may incur substantial trading losses.

**Exchange Risk**

In the event that the TSX closes on any day that it is normally open for trading, Securityholders of the CI First Asset ETFs will be unable to purchase or sell Securities of the CI First Asset ETFs on the TSX until it reopens and there is a possibility that, at the same time and for the same reason, the exchange and redemption of Securities may be suspended until the TSX reopens.

**Fund of Funds Investment Risk**

As permitted by securities legislation or an exemption therefrom, a CI First Asset ETF may invest in other exchange-traded funds, mutual funds, closed-end funds or public investment funds as part of its investment strategy. If a CI
First Asset ETF invests in such underlying funds, its investment performance may largely depend on the investment performance of the underlying funds in which it invests.

If a CI First Asset ETF invests in an investment fund that seeks to provide returns similar to the performance of a particular market index or industry sector index, there is a risk that such investment fund may not achieve the same return as its benchmark market or industry sector index due to differences in the actual weightings of securities held in the fund versus the weightings in the relevant index and due to the operating and administrative expenses of the fund. In addition, any such fund may not attempt to take defensive positions in declining markets. Accordingly, the adverse financial condition of an issuer represented in the portfolio of such fund will not necessarily result in the fund ceasing to hold the issuer’s securities, unless such securities are removed from the portfolio through the application of the fund’s investment methodology.

Additionally, if an underlying fund suspends redemptions, a CI First Asset ETF may be unable to accurately value part of its investment portfolio and may be unable to redeem its Securities. Underlying funds in which a CI First Asset ETF may invest can be expected to incur fees and expenses for operations, such as investment advisory and redemption fees, which would be in addition to those incurred by the CI First Asset ETF.

**Global Economic Conditions and Market Dislocation Risk**

General global economic conditions may affect a CI First Asset ETF’s activities. Interest rates, general levels of economic activity, fluctuations in the market prices of securities and other financial assets, and participation by other investors in the financial markets may affect the value of investments made by a CI First Asset ETF. Instability in the securities markets may increase the risks inherent in portfolio investments made by a CI First Asset ETF. Ongoing events in the fixed income markets have caused, and could cause, significant dislocations, illiquidity and volatility in the high-yield bond, leveraged loan and structured credit markets, as well as in the wider global financial markets. In addition, adverse economic events may impact the availability of credit to businesses generally and could lead to an overall weakening of the U.S. and global economies. Any resulting economic downturn could adversely affect the financial resources of the borrowers and their ability to make principal and interest payments on, or refinance, outstanding debt when due. In the event of borrower defaults, a CI First Asset ETF could incur losses.

In addition, global economic conditions may materially and adversely affect (i) the ability of a CI First Asset ETF, the borrowers or their respective affiliates to access the credit markets on favorable terms or at all in connection with the financing or refinancing of investments; (ii) the ability or willingness of certain counterparties to do business with a CI First Asset ETF or its affiliates; (iii) a CI First Asset ETF’s exposure to the credit risk of others in its dealings with various counterparties (for example, in connection with loan syndicates or the maintenance with financial institutions of reserves in cash or cash equivalents); (iv) demand for the products and services offered by the issuers or borrowers; (v) overall prospects of a CI First Asset ETF’s investments; and (vi) a CI First Asset ETF’s ability to exit its investments at desired times, on favorable terms or at all.

**Global Financial Developments Risk**

Significant events in foreign markets and economies can have material impacts on other markets worldwide, including Canada and the United States. Such events could, directly or indirectly, have a material effect on the prospects of the CI First Asset ETFs and the value of the securities in their portfolios.

Global financial markets have experienced a sharp increase in volatility in the last several years. This has been, in part, the result of the revaluation of assets on the balance sheets of international financial institutions and related securities. This has contributed to a reduction in liquidity among financial institutions and has reduced the availability of credit to those institutions and to the issuers who borrow from them. While central banks as well as global governments are attempting to restore much needed liquidity to the global economies, no assurance can be given that the combined impact of the significant revaluations and constraints on the availability of credit will not continue to materially and adversely affect economies around the world. No assurance can be given that this stimulus will continue or that if it continues, it will be successful or, that these economies will not be adversely affected by the inflationary pressures resulting from such stimulus or central banks’ efforts to slow inflation. Further, market concerns about the economies of certain European Union countries and their ability to continue to borrow may adversely impact global equity markets. Some of these economies have experienced significantly diminished growth
and some are experiencing or have experienced a recession. These market conditions and further volatility or illiquidity in capital markets may also adversely affect the prospects of a CI First Asset ETF and the value of a CI First Asset ETF’s portfolio. A substantial drop in the markets in which a CI First Asset ETF invests could be expected to have a negative effect on the CI First Asset ETF.

**Interest Rate Risk**

The value of the securities (especially fixed-income or dividend-paying equity securities) and any cash equivalents in a CI First Asset ETF’s portfolio may be affected by changes in the general level of interest rates. If interest rates fall, the value of the CI First Asset ETF’s Securities will tend to rise. If interest rates rise, the value of the CI First Asset ETF’s Securities will tend to fall. Depending on the CI First Asset ETF’s holdings, short-term interest rates can have a different influence on the CI First Asset ETF’s value than long-term interest rates. If the CI First Asset ETF invests primarily in debt securities with longer-term maturities, the biggest influence on the CI First Asset ETF’s value will be changes in the general level of long-term interest rates. If the CI First Asset ETF invests primarily in debt securities with shorter-term maturities, the biggest influence on the CI First Asset ETF’s value will be changes in the general level of shorter-term interest rates. Securityholders who wish to sell or redeem their Securities may, therefore, be exposed to the risk that the sale or redemption price of the Securities will be negatively affected by interest rate fluctuations.

**Legal and Regulatory Risk**

Legal and regulatory changes may occur that may adversely affect a CI First Asset ETF and which could make it more difficult, if not impossible, for the CI First Asset ETF to operate or to achieve its investment objectives. To the extent possible, the Manager will attempt to monitor such changes to determine the impact such changes may have on the CI First Asset ETFs and what can be done, if anything, to try and limit such impact.

There can be no assurance that applicable laws in Canada or in foreign jurisdictions, or other domestic or foreign legislation, legal and statutory rights will not be changed in a manner which adversely affects a CI First Asset ETF or its Securityholders. There can be no assurance that Canadian and foreign income tax, securities, and other applicable laws or the interpretation and application of such laws by courts or government authorities will not be changed in a manner which adversely affects a CI First Asset ETF, its Securityholders or distributions received by a CI First Asset ETF or by its Securityholders.

**Market Disruptions Risk**

Natural disasters, pandemic outbreaks, war and occupation, terrorism and related geopolitical risks may in the future lead to increased short-term market volatility and may have adverse long-term effects on world economies and markets generally, including U.S., Canadian and other economies and securities markets. The effects of future terrorist acts (or threats thereof), military action or similar events on the economies and securities markets of countries cannot be predicted. These events could also have an acute effect on individual issuers or related groups of issuers, including as a result of a disruption to business operations due to quarantined employees, customers and suppliers in affected areas and due to closure of offices, manufacturing facilities, warehouses and logistics supply chain. Such events could also cause disruptions to business operations resulting from travel restrictions and reduced consumer spending. These risks could also adversely affect securities markets, inflation and other factors relating to the portfolio securities of the CI First Asset ETFs. Such events could, directly or indirectly, have a material effect on the prospects of the CI First Asset ETFs, the value of the securities in the portfolio of the CI First Asset ETFs, and the productivity of the Manager’s or its suppliers’ workforce.

Upon the occurrence of a natural disaster such as flood, hurricane, or earthquake, or upon an incident of war, riot or civil unrest, the impacted country may not efficiently and quickly recover from such event, which could have a materially adverse effect on borrowers and other developing economic enterprises in such country.

**No Assurances on Achieving Investment Objectives**

There is no assurance that a CI First Asset ETF will achieve its investment objectives. There is no assurance that a CI First Asset ETF will be able to pay regular cash distributions on the Securities. The funds available for distributions to
Securityholders will vary according to, among other things, the interest, dividends and other distributions paid on the portfolio securities of the CI First Asset ETF, the level of option premiums received (if applicable) and the value of the securities comprising the portfolio of the CI First Asset ETF. As the interest, dividends and other distributions received by a CI First Asset ETF may not be sufficient to meet its objectives in respect of the payment of distributions, a CI First Asset ETF may depend on the realization of capital gains, and/or the receipt of option premiums (if applicable) to meet those objectives. Although many investors and financial market professionals price options based on the Black-Scholes Model, in practice actual option premiums are determined in the marketplace and there is no assurance that the premiums predicted by such a pricing model can be attained.

**Potential Conflicts of Interest**

The Manager, the Portfolio Managers, and their respective directors and officers and their respective affiliates and associates may engage in the promotion, management or investment management of other accounts, funds or trusts that invest primarily in the securities held by a CI First Asset ETF.

Although officers, directors and professional staff of the Manager and Portfolio Managers will devote as much time to the CI First Asset ETFs as is deemed appropriate to perform their respective duties, the staff of the Manager and Portfolio Managers may have conflicts in allocating their time and services among the CI First Asset ETFs and the other funds managed by them.

**Reliance on Historical Data Risk**

Past trends may not be repeated in the future. The accuracy of the historical data used by the Manager and the Portfolio Managers and those individuals who are principally responsible for providing administration and portfolio management services to the CI First Asset ETFs for research and development, which is often provided by third parties, cannot be guaranteed. The Manager and Portfolio Managers only seek to obtain such data from companies that it believes to be highly reliable and of high reputation.

**Reliance on Key Personnel Risk**

Securityholders of a CI First Asset ETF will be dependent on the abilities of the Manager and the applicable Portfolio Manager to effectively manage that CI First Asset ETF and its portfolio in a manner consistent with its investment objectives, investment strategies and investment restrictions.

The investment portfolio of an Active ETF will be actively managed by the applicable Portfolio Manager. Such Portfolio Manager will apply investment techniques and risk analyses in making investment decisions for the applicable Active ETF(s), but there can be no guarantee that these decisions will produce the desired results.

There is no certainty that the individuals who are principally responsible for providing administration and portfolio management services to the CI First Asset ETFs will continue to be employed by the Manager or the Portfolio Managers, as applicable.

**Restrictions on Trading Due to Status Risk**

Each Portfolio Manager seeks to avoid the risks associated with creating information barriers that would allow it to simultaneously have public and private information about a single issuer. If a Portfolio Manager or any of its personnel were to receive material non-public information about a particular obligor or asset, or have an interest in causing the applicable CI First Asset ETF to transact a particular asset, the Portfolio Manager may be prevented from causing the CI First Asset ETF to transact such asset due to internal restrictions imposed on the Portfolio Manager. Notwithstanding the maintenance of certain internal controls relating to the management of material non-public information, it is possible that such controls could fail and result in a Portfolio Manager, or one of its investment professionals, buying or selling an asset while, at least constructively, in possession of material non-public information. Inadvertent trading on material non-public information could have adverse effects on a Portfolio Manager’s reputation, result in the imposition of regulatory or financial sanctions, and as a consequence, negatively impact the Portfolio Manager’s ability to perform its investment management services to the applicable CI First Asset ETF.
Securities Lending, Repurchase and Reverse Repurchase Transaction Risk

The CI First Asset ETFs are authorized to enter into securities lending, repurchase and reverse repurchase transactions in accordance with NI 81-102. In a securities lending transaction, a CI First Asset ETF lends its portfolio securities through an authorized agent to another party (often called a “counterparty”) in exchange for a fee and a form of acceptable collateral. In a repurchase transaction, a CI First Asset ETF sells its portfolio securities for cash through an authorized agent while at the same time assuming an obligation to repurchase the same securities for cash (usually at a lower price) at a later date. In a reverse repurchase transaction, a CI First Asset ETF buys portfolio securities for cash while at the same time agreeing to resell the same securities for cash (usually at a higher price) at a later date. The following are some examples of the risks associated with securities lending, repurchase and reverse repurchase transactions:

- when entering into securities lending, repurchase and reverse repurchase transactions, a CI First Asset ETF is subject to the credit risk that the counterparty may default under the agreement and such CI First Asset ETF would be forced to make a claim in order to recover its investment;
- when recovering its investment on default, a CI First Asset ETF could incur a loss if the value of the portfolio securities loaned (in a securities lending transaction) or sold (in a repurchase transaction) has increased in value relative to the value of the collateral held by such CI First Asset ETF; and
- similarly, a CI First Asset ETF could incur a loss if the value of the portfolio securities it has purchased (in a reverse repurchase transaction) decreases below the amount of cash paid by such CI First Asset ETF to the counterparty.

The CI First Asset ETFs may engage in securities lending from time to time. When engaging in securities lending, a CI First Asset ETF will receive collateral in excess of the value of the securities loaned, and although such collateral is marked to market, the CI First Asset ETF may be exposed to the risk of loss should a borrower default on its obligation to return the borrowed securities and the collateral is insufficient to reconstitute the portfolio of loaned securities.

Securities Market Risk

The value of most securities, including a CI First Asset ETF’s portfolio securities, changes with securities market conditions. These conditions are affected by general economic and market conditions.

Specific Issuer Risk

The value of securities will vary positively or negatively with developments within the specific companies or governments that issue such securities.

Tax Risk

Trust Funds

It is anticipated that the Trust Funds will qualify, or will be deemed to qualify, at all times as “mutual fund trusts” within the meaning of the Tax Act. For the Trust Funds to qualify as “mutual fund trusts” they must comply on a continuous basis with certain requirements relating to the qualification of their Units for distribution to the public, the number of Unitholders of a particular class of Units of the Trust Funds and the dispersal of ownership of that class of their Units.

Currently, a trust will be deemed not to be a mutual fund trust if it is established or maintained primarily for the benefit of non-residents unless, at that time, all or substantially all of its property is property other than property that would be “taxable Canadian property” (if the definition of such term in the Tax Act were read without reference to paragraph (b) thereof). The current law does not provide any means of rectifying a loss of mutual fund trust status if this requirement is not met.

Provided a Trust Fund complies with its investment restrictions set forth under the heading “Investment Restrictions”, no more than 10% of the fair market value of the Trust Fund’s assets will at any time consist of property that would be “taxable Canadian property” (if the definition of such term in the Tax Act were read without reference to
paragraph (b) thereof. The Declaration of Trust for the Trust Funds also contains a restriction on the number of permitted non-resident Unitholders of the Trust Funds.

If a Trust Fund fails to qualify or were to cease to qualify as a mutual fund trust, the income tax considerations in respect of that Trust Fund as described under "Income Tax Considerations – Trust Funds" and "Income Tax Considerations – Taxation of Plans" would in some respects be materially and adversely different. For example, if a Trust Fund does not qualify as a mutual fund trust for the purposes of the Tax Act throughout a taxation year, the Trust Fund may be liable to pay alternative minimum tax and/or tax under Part XII.2 of the Tax Act, and would not be entitled to the Capital Gains Refund (as defined under "Income Tax Considerations – Trust Funds - Taxation of the Trust Funds"). In addition, if a Trust Fund does not qualify as a mutual fund trust, it may be subject to the “mark-to-market” rules under the Tax Act if more than 50% of the fair market value of the Units of the Trust Fund are held by "financial institutions" within the meaning of the Tax Act for purposes of the “mark-to-market” rules.

There can be no assurance that Canadian federal and provincial income tax laws respecting the treatment of mutual fund trusts will not be changed in a manner that adversely affects the Unitholders of the Trust Funds.

In determining its income for tax purposes, the Trust Funds treat gains and losses on dispositions of securities in the portfolio as capital gains and losses. Generally, a Trust Fund includes gains and deducts losses on income account in connection with investments made through certain derivatives, including short sales of securities other than Canadian securities in the case of certain Trust Funds that have made an election under subsection 39(4) of the Tax Act, except where such derivatives are used to hedge portfolio securities held on capital account provided there is sufficient linkage and recognizes such gains or losses for tax purposes at the time they are realized by the Trust Fund.

In addition, gains or losses in respect of foreign currency hedges entered into in respect of amounts invested in the Trust Funds’ portfolio should constitute capital gains and capital losses to a Trust Fund if the portfolio securities are capital property to the Trust Fund and there is sufficient linkage. Designations with respect to the Trust Funds’ income and capital gains will be made and reported to Unitholders of the Trust Funds on the foregoing basis. The practice of the Canada Revenue Agency (the “CRA”) is not to grant advance income tax rulings on the characterization of items as capital gains or income and no advance income tax ruling has been requested or obtained. If some or all of the transactions undertaken by the Trust Funds in respect of such dispositions or transactions were treated on income rather than capital account (whether because of the DFA Rules discussed under “Income Tax Considerations – Trust Funds – Taxation of the Trust Funds” or otherwise), the net income of the Trust Funds for tax purposes and the taxable component of distributions to Unitholders could increase. Any such redetermination by the CRA may result in the Trust Funds being liable for unremitting withholding taxes on prior distributions made to Unitholders of the Trust Funds who were not resident in Canada for the purposes of the Tax Act at the time of the distribution. Such potential liability may reduce the NAV of, or trading prices of, the Units of the Trust Funds.

Pursuant to rules in the Tax Act, if a Trust Fund experiences a “loss restriction event” it (i) will be deemed to have a year-end for tax purposes (which would result in an unscheduled distribution of the Trust Fund’s net income and net realized capital gains, if any, at such time to its Unitholders so that the Trust Fund is not liable for non-refundable income tax on such amounts under Part I of the Tax Act), and (ii) will become subject to the loss restriction rules generally applicable to a corporation that experiences an acquisition of control, including a deemed realization of any unrealized capital losses and restrictions on its ability to carry forward losses. Generally, the Trust Fund will be subject to a loss restriction event if a person becomes a "majority-interest beneficiary", or a group of persons becomes a "majority-interest group of beneficiaries", of the Trust Fund, as those terms are defined in the affiliated persons rules contained in the Tax Act, with certain modifications. Generally, a majority-interest beneficiary of a Trust Fund is a beneficiary in the income or capital, as the case may be, of the Trust Fund whose beneficial interests, together with the beneficial interests of persons and partnerships with whom the beneficiary is affiliated, have a fair market value that is greater than 50% of the fair market value of all the interests in the income or capital, as the case may be, of the Trust Fund. Please see “Income Tax Considerations – Trust Funds – Taxation of Holders of a Trust Fund” for the tax consequences of an unscheduled or other distribution to Unitholders. Trusts that qualify as “investment funds” as defined in the rules in the Tax Act relating to “loss restriction events” are generally excepted from the application of such rules. An “investment fund” for this purpose includes a trust that meets certain conditions, including satisfying certain of the conditions necessary to qualify as a “mutual fund trust” for purposes of the Tax Act, not using any property in the course of carrying on a business and complying with certain asset
diversification requirements. If a Trust Fund were not to qualify as an “investment fund”, it could potentially have a “loss restriction event” and thereby become subject to the related tax consequences described above.

The Tax Act contains rules concerning the taxation of publicly traded Canadian trusts and partnerships that own certain types of property defined as “non-portfolio property”. A trust that is subject to these rules is subject to trust level taxation, at rates comparable to those that apply to corporations, on the trust’s income earned from “non-portfolio property” to the extent that such income is distributed to its unitholders. The Trust Funds will not be subject to tax under these rules as long as the Trust Funds comply with their investment restrictions in this regard. If the Trust Funds are subject to tax under these rules, the after-tax return to its Unitholders could be reduced, particularly in the case of a Unitholder who is exempt from tax under the Tax Act or is a non-resident of Canada.

If a Trust Fund realizes capital gains as a result of the transfer or disposition of its property undertaken to permit an exchange or redemption of Units by a Unitholder, allocation of fund-level capital gains will follow the Declaration of Trust. Draft legislation released by the Minister of Finance (Canada) on July 30, 2019 proposed amendments to the Tax Act that would be effective for taxation years of the Trust Fund beginning on or after March 20, 2020. Such amendments would deny the Trust Fund a deduction for the portion of a capital gain of the Trust Fund designated to a Unitholder on an exchange or redemption of Units that is greater than the Unitholder’s accrued gain on those Units, where the Unitholder’s proceeds of disposition are reduced by the designation. If such proposed amendments to the Tax Act are enacted in their current form, any capital gains that would otherwise have been designated to redeeming Unitholders may be made payable to the remaining non-redeeming Unitholders to ensure that the Trust Fund will not be liable for non-refundable income tax thereon. Accordingly, the amounts of taxable distributions made to Unitholders of the Trust Funds may be greater than they would have been in the absence of such amendments.

Corporate Classes

If the Company ceases to qualify as a “mutual fund corporation” under the Tax Act, the income tax considerations described under the heading “Income Tax Considerations – Corporate Classes” and “Income Tax Considerations – Taxation of Plans” would be materially and adversely different in certain respects.

There can be no assurance that Canadian federal income tax laws and the administrative policies and assessing practices of the CRA respecting the treatment of mutual fund corporations will not be changed in a manner that adversely affects a Corporate Class or its Shareholders. For example, changes to tax legislation or the administration thereof could affect the taxation of a Corporate Class or the securities in its portfolio.

In determining their income for tax purposes, the Company treats gains or losses on the disposition of securities in its portfolios as capital gains and losses. Generally, the Company will include gains and deduct losses on income account in connection with investments made through certain derivatives, including certain short sales of securities, except where such derivatives are used to hedge portfolio securities held on capital account provided there is sufficient linkage and subject to the DFA Rules discussed under “Income Tax Considerations – Corporate Classes – Taxation of the Corporate Classes” or the short sale is a short sale of “Canadian securities” for purposes of the Tax Act, and will recognize such gains or losses for tax purposes at the time they are realized by the Company. The Company also intends to take the position that gains or losses in respect of foreign currency hedges entered into in respect of amounts invested in its portfolios will constitute capital gains and capital losses if the portfolio securities are capital property and there is sufficient linkage. Capital gains or losses in respect of foreign currency hedges will be taken into account in determining the Company’s net capital gains and any special distributions of Capital Gains Dividends as described under “Income Tax Considerations”. The CRA’s practice is not to grant advance income tax rulings on the characterization of items as capital gains or income and no advance income tax ruling has been requested or obtained. If some or all of these foregoing dispositions or transactions of the Company or any Corporate Class are determined not to be on capital account (whether because of the DFA Rules or otherwise), after-tax returns to Shareholders could be reduced, the Company may be subject to non-refundable income tax in respect of income from such transactions, and the Company may be subject to penalty taxes in respect of excessive capital gains dividend elections. Such potential liability may reduce the NAV of, or trading prices of, the Shares.
ETF-Specific Risk Factors

Benchmark Rates Risk

Regulators and law-enforcement agencies in a number of different jurisdictions have conducted and continue to conduct civil and criminal investigations into potential manipulation or attempted manipulation of submissions of London inter-bank offered rates ("LIBOR") to the British Bankers Association ("BBA"). There have also been allegations that member banks may have manipulated other inter-bank lending rates (such rates, together with LIBOR, the "Benchmark Rates"). Benchmark Rates are currently being reformed, including (i) the replacement of the BBA with ICE Benchmark Administration Ltd. as LIBOR administrator, which was completed on February 1, 2014, (ii) a reduction in the number of tenors and currencies for which certain Benchmark Rates are calculated, and (iii) modifications to the administration, submission and calculation procedures, including their regulatory status, in respect of certain Benchmark Rates. Investors should be aware that: (a) any of these changes or any other changes to Benchmark Rates could affect the level of the relevant published rate, including to cause it to be lower and/or more volatile than it would otherwise be; (b) if the applicable rate of interest on any loan is calculated with reference to a tenor or currency which is discontinued, such rate of interest may then be determined by the provisions of the affected loan, which may include determination by the relevant calculation agent in its discretion, or the loan may otherwise be subject to a degree of contractual uncertainty; (c) the administrators of Benchmark Rates will not have any involvement in a CI First Asset ETF’s investments and may take any actions in respect of Benchmark Rates without regard to the effect of such actions on such investments; (d) any uncertainty in the value of a Benchmark Rate or, the development of a widespread market view that a Benchmark Rate has been manipulated, or any uncertainty in the prominence of a Benchmark Rate as a benchmark interest rate due to the recent regulatory reform may adversely affect liquidity of the affected investments in the secondary market and their market value; and (e) an increase in alternative types of financing in place of Benchmark Rate-based loans (resulting from a decrease in the confidence of borrowers in such rates) may make it more difficult to source loans or reinvest proceeds in loans that satisfy the reinvestment criteria specified herein.

On July 27, 2017, the head of the UK Financial Conduct Authority ("FCA") made remarks indicating that the FCA does not intend to sustain LIBOR by using its influence or legal powers to persuade or compel banks to submit rates for the calculation of LIBOR as a benchmark rate beyond 2021. Accordingly, LIBOR may be discontinued as a benchmark rate by the end of 2021. It is not possible to predict the effects these developments or any discontinuance of LIBOR may have and investors should consider the future uncertainty with respect to LIBOR and its possible effects in making their investment decision with respect to Securities.

Any of the above or any other significant change to the setting of a Benchmark Rate could have a material adverse effect on the value of, and the amount payable under, (x) any loan which pay interest linked to a Benchmark Rate and (y) the applicable CI First Asset ETF’s investments.

Calculation and Termination of the Index Risk

Each Index is maintained and calculated by an Index Provider. Trading in Securities may be suspended for a period of time if, for whatever reason, the calculation of an Index is delayed.

In the event an Index ceases to be calculated or is discontinued, the Manager may terminate the applicable Index ETF, change the investment objective of that Index ETF, employ its strategy in respect of an alternative Index or make such other arrangement as the Manager considers appropriate and in the best interests of Securityholders in the circumstances.

Commodity Risk

A CI First Asset ETF may invest directly or indirectly in commodities, or gain exposure to commodities by investing in companies engaged in commodity-focused industries or by using exchange-traded funds. Commodity prices can fluctuate significantly in short time periods, which will have a direct or indirect impact on the value of the CI First Asset ETF. Commodity prices can change as a result of a number of factors including supply and demand, government and regulatory matters, speculation, international monetary and political factors, central bank activity and changes in interest rates and currency values. Direct investments in bullion may generate higher transaction and custody costs.
**Convertible Securities Risk**

A CI First Asset ETF’s portfolio may contain convertible securities which involve risks of default on interest and principal and price changes due to, without limitation, such factors as interest rates, general economic conditions and the issuer’s creditworthiness. Convertible securities may be less liquid than other securities and involve the risk that a Portfolio Manager may not be able to dispose of them at current market prices. During periods of thin trading, the spread between bid and ask prices is likely to increase. Convertible securities may experience greater price volatility than conventional debt securities, due to, among other things, the volatility of the underlying equity security. There is no guarantee that an investment in convertible securities of an issuer will provide a greater rate of return than either the equity or fixed income securities of such issuer, or any positive return at all. Convertible securities, such as convertible debentures, are often subordinate to conventional debt securities of an issuer, and the analysis of the creditworthiness of convertible securities may be more complex than for rated debt instruments. Generally, debt securities will decrease in value when interest rates rise and increase in value when interest rates decline. In addition, convertible securities typically contain provisions which allow the issuer of these securities to call or redeem the securities. In circumstances where an issuer has exercised its call or redemption right, a CI First Asset ETF would have to seek alternative investment opportunities.

**Credit Risk**

Credit risk is dependent upon a company’s financial strength and reflects the possibility that a borrower, or the counterparty to a derivatives contract, is unable or unwilling to repay the loan or obligation, either on time or at all. Companies and governments that borrow money, and the debt securities they issue, are rated by specialized rating agencies. Securities that have a low credit rating have high credit risk. Credit rating downgrades and defaults (failure to make interest or principal payment) may potentially reduce the CI First Asset ETF’s income and security price. A deterioration of an issuer’s financial strength may also affect the issuer’s ability to make dividend payments.

An issuer of debt instruments to which a CI First Asset ETF may be exposed may be unable to make interest payments or repay principal. Changes in an issuer’s financial strength or in an instrument’s credit rating may affect an instrument’s value and, thus, impact the performance of the applicable CI First Asset ETF.

**Equity Risk**

A CI First Asset ETF may invest in equities. Equities such as common shares give the holder part ownership in a company. The value of equity securities change with the fortunes of the company that issued them. General market conditions and the health of the economy as a whole can also affect equity prices. Equity related securities that provide indirect exposure to the equity securities of an issuer can also be affected by equity risk.

**First Lien Loan Risk**

Although the first lien loans in a CI First Asset ETF’s portfolio will generally be secured by specific collateral, there can be no assurance the liquidation of such collateral would satisfy a borrower’s obligation in the event of borrower default or that such collateral could be readily liquidated under such circumstances. In the event of bankruptcy of a borrower, delays or limitations could be experienced with respect to the ability to realize the benefits of any collateral securing a first lien loan.

A financial institution’s employment as an agent under a first lien loan might be terminated in the event that it fails to observe a requisite standard of care or becomes insolvent. A successor agent would generally be appointed to replace the terminated agent, and assets held by the agent under the loan agreement would likely remain available to holders of such indebtedness. However, if assets held by the terminated agent for the benefit of a CI First Asset ETF were determined to be subject to the claims of the agent’s general creditors, a CI First Asset ETF’s portfolio might incur certain costs and delays in realizing payment on a first lien loan or loan participations and could suffer a loss of principal and/or interest.

Many first lien loans included in a CI First Asset ETF’s portfolio may not be rated by an approved credit rating organization, will not be registered or prospectus qualified for securities law purposes and will not be listed on any securities exchange. In addition, the amount of public information available with respect to first lien loans generally may be less extensive than that available for registered or exchange listed securities. Economic and other events...
First lien loans are non-investment grade assets and may be regarded as predominantly speculative with respect to the issuers’ continuing ability to meet principal and interest payments. They may be more susceptible to real or perceived adverse economic and competitive industry conditions than higher rated securities. During periods of thin trading in these markets, this spread between bid and ask prices is likely to increase significantly and a CI First Asset ETF may have difficulty in accurately valuing or selling such securities. The yields and prices of lower rated first lien loans may tend to fluctuate more than those for investment grade rated securities. In addition, adverse publicity and investor perceptions about non-investment grade securities, whether or not based on fundamental analysis, may be a contributing factor in a decrease in the value and liquidity of such securities. A CI First Asset ETF may hold investments in first lien loans. These obligations are subject to unique risks, including, without limitation: (i) the possible invalidation of an investment transaction as a fraudulent conveyance under relevant creditors’ rights laws; (ii) so called lender liability claims by the issuer of the obligations; (iii) environmental liabilities that may arise with respect to collateral securing the obligations; and (iv) limitations on the ability of the CI First Asset ETF to directly enforce its rights with respect to participations. In analyzing each bank loan or participation, the CI First Asset ETF compares the relative significance of the risks against the expected benefits of the investment. Successful claims by third parties arising from these and other risks will be borne by the CI First Asset ETF. Investments in loan participations may also subject the CI First Asset ETF to the risk of counterparty default.

A CI First Asset ETF’s success in the area of loan investing will depend, in part, on its ability to purchase loans on terms that it deems attractive. In purchasing loans, a CI First Asset ETF will compete with a broad spectrum of investors and institutions. Increased competition for, or a diminution in the available supply of, qualifying loans could result in lower yields on such loans, which could reduce returns to investors.

Due to restrictions on transfers in loan agreements and the nature of the private syndication of senior loans, some senior loans are not as easily purchased or sold as publicly-traded securities. As a result, some senior loans are illiquid, which means that the CI First Asset ETF may be limited in its ability to sell those loans at an acceptable price when it wants to in order to generate cash, avoid losses or to meet repurchase requests.

Due to restrictions on transfers in loan agreements and the nature of the private syndication of senior loans including, for example, the lack of publicly-available information, some first lien loans are not as easily purchased or sold as publicly-traded securities. Some first lien loans and other portfolio investments are very thinly traded or no market for them exists, which may make it difficult for a CI First Asset ETF to value them or dispose of them at an acceptable price when it wants to.

Portfolio transactions in loans may take up to three weeks to settle, and in some cases much longer. Unlike the securities markets, there is no central clearinghouse for loan trades.

**Fixed Income Risk**

Generally, fixed income securities, including bonds and certain preferred shares, will decrease in value when interest rates rise and increase in value when interest rates decline. The NAV of a CI First Asset ETF holding such securities will fluctuate with interest rate changes and the corresponding changes in the value of the securities in the portfolio of the CI First Asset ETF. The value of fixed income securities is also affected by the risk of default in the payment of interest and principal and price changes due to such factors as general economic conditions and the issuer’s creditworthiness. Corporate bonds may not pay interest or their issuers may default on their obligations to pay interest and/or principal amounts. Certain of the bonds that may be included in the portfolio from time to time may be unsecured, which will increase the risk of loss in case of default or insolvency of the issuer. See “Interest Rate Risk” for additional risks relating to investing in fixed income securities.

**Foreign Currency Exposure Risk**

As a CI First Asset ETF’s portfolio may be invested in obligations traded in foreign currencies, the NAV of the CI First Asset ETF, when measured in Canadian dollars, will, to the extent this has not been hedged against, be affected by changes in the value of the U.S. dollar relative to the Canadian dollar. Changes in the currency exchange rates of the U.S. dollar relative to the Canadian dollar also may affect the value of dividends and interest earned, gains and losses
realized on the sale of securities and net investment income and gains, if any, to be distributed to shareholders by a CI First Asset ETF. The exchange rate between the U.S. dollar and the Canadian dollar is determined by the forces of supply and demand in foreign exchange markets and the relative merits of investments in the different countries, actual or anticipated changes in interest rates and other complex factors, as seen from an international perspective. Currency exchange rates may fluctuate significantly over short periods of time. Currency exchange rates also can be affected by intervention (or lack of intervention) by the United States or Canadian governments or central banks or by currency controls or political developments in the United States or Canada. Accordingly, the ability of a CI First Asset ETF to achieve its investment objective may depend, to a certain extent, on exchange rate movements. A CI First Asset ETF may not be fully hedged and distributions received on the CI First Asset ETF’s portfolio may not be hedged and accordingly no assurance can be given that the CI First Asset ETF will not be adversely impacted by changes in foreign exchange rates or other factors. The use of hedges, involves special risks, including the possible default by the other party to the transaction, illiquidity and, to the extent a Portfolio Manager’s assessment of certain market movements is incorrect, the risk that the use of hedges could result in losses greater than if the hedging had not been used. Hedging arrangements may have the effect of limiting or reducing the total returns to a CI First Asset ETF if the applicable Portfolio Manager’s expectations concerning future events or market conditions prove to be incorrect. In addition, the costs associated with a hedging program may outweigh the benefits of the arrangements in such circumstances.

**Foreign Investment Risk**

Investments in a CI First Asset ETF’s portfolio may, at any time, include investments in issuers established in jurisdictions outside Canada and the United States. Although most of such issuers will be subject to uniform accounting, auditing and financial reporting standards comparable to those applicable to Canadian and U.S. companies, some issuers may not be subject to such standards and, as a result, there may be less publicly available information about such issuers than a Canadian or U.S. company. Volume and liquidity in some foreign markets may be less than in Canada and the United States and, at times, volatility of price may be greater than in Canada or the United States. As a result, the price of such securities may be affected by conditions in the market of the jurisdiction in which the issuer is located or its securities are traded.

Generally, investments in foreign markets are subject to certain risks and the CI First Asset ETFs may be adversely affected by, among other things, political upheaval, financial troubles, natural disasters, reduced government oversight as compared to Canada, difficulty in enforcing contractual obligations, currency volatility and government intervention in markets. The value of a CI First Asset ETF’s portfolio that may be exposed to Russian securities (if any) involves certain risks associated with the settlement of portfolio transactions and loss of the CI First Asset ETF’s ownership rights in its portfolio securities, as a result of the system of share registration and custody in Russia. Canada, the United States and the European Union have imposed economic sanctions on certain Russian individuals and institutions, and could also institute broader sanctions on Russia. These sanctions, or even the threat of further sanctions, may result in the decline of the value and liquidity of Russian securities, a weakening of the ruble or other adverse consequences of the Russian economy. These sanctions could also result in the immediate freeze of Russian securities, impairing the ability of a CI First Asset ETF to buy, sell, receive or deliver those securities. Sanctions could also result in Russia taking counter measures or retaliatory actions which may further impair the value and liquidity of Russian securities.

**Foreign Markets Risk**

Participation in transactions by a CI First Asset ETF may involve the execution and clearing of trades on or subject to the rules of a foreign market. None of the Canadian securities regulatory authorities or Canadian exchanges regulates activities of any foreign markets, including the execution, delivery and clearing of transactions, or has the power to compel enforcement of any rule of a foreign market or any applicable foreign law. Generally, any foreign transaction will be governed by applicable foreign laws. This is true even if the foreign market is formally linked to a Canadian market so that a position taken on a market may be liquidated by a transaction on another market. Moreover, such laws or regulations will vary depending on the foreign country in which the transaction occurs. For these reasons, entities such as a CI First Asset ETF may not be afforded certain of the protective measures provided by Canadian legislation or Canadian exchanges. In particular, funds received from investors for transactions by a CI First Asset ETF
on foreign exchanges may not be provided the same protection as funds received in respect of transactions by the CI First Asset ETF on Canadian exchanges.

**Fund Corporation and Multi-Class/Series Risk**

Each Corporate Class is a separate share class of the Company and each class may be available in more than one series. Each class and series has its own fees and expenses which are tracked separately. Those fees and expenses will be deducted in calculating the NAV of that class or series, thereby reducing the NAV of the relevant class or series. If one class or series is unable to pay its expenses or liabilities, the Company is legally responsible to pay those expenses and as a result, the NAV of the other classes or series may also be reduced.

A mutual fund corporation is effectively permitted to flow through certain income to investors in the form of dividends. These are capital gains and dividends from taxable Canadian corporations. However, a mutual fund corporation cannot flow through other income including interest, trust income and foreign dividends. If this type of income, calculated for the Company as a whole, is greater than the expenses or other deductions from taxable income available to the Company, the Company would generally become taxable. The Manager will track the income and expenses of each class or series of shares of the Company separately, so that if the Company becomes taxable, the Manager would usually allocate the tax to those classes or series whose taxable income exceeded expenses.

If the Company has taxable net income, this could be disadvantageous for two types of investors: (a) investors in a Plan and (b) investors with a lower marginal tax rate than the Company. Investors in Plans do not immediately pay income tax on income received, therefore income that a fund is permitted to flow through to a Plan will not be subject to any immediate income tax. If the Company cannot distribute the income, investors in a Plan will indirectly bear the income tax incurred by the Company. The corporate tax rate applicable to mutual fund corporations is higher than some personal income tax rates, depending on the province or territory in which an investor resides and depending on the investor’s marginal tax rate. As such, if the income is taxed inside the Company rather than distributed to the investor (and the investor pays the tax), the investor may indirectly bear a higher rate of tax on that income.

**Illiquid Securities Risk**

There is no assurance that an adequate market will exist for the securities in the portfolio of a CI First Asset ETF. The Portfolio Managers may be unable to acquire or dispose of securities in quantities or at prices which are acceptable to the Portfolio Managers, if the market for such securities is illiquid, nor can it be predicted whether certain securities in the portfolio will trade at a discount to, a premium to, or at their respective par or NAVs.

**Index Risk**

In the event that an Index Provider ceases to publish the constituents of any applicable Index that is a core component of a CI First Asset ETF’s investment objectives, the Manager may terminate the CI First Asset ETF, change the investment objective of the CI First Asset ETF, employ its strategy in respect of an alternative index or make such other arrangements as the Manager considers appropriate and in the best interests of Securityholders of the CI First Asset ETF in the circumstances.

**International Portfolio Manager Risk**

The Portfolio Manager of a CI First Asset ETF may be resident outside of Canada and all or a substantial portion of its assets may be located outside of Canada. As a result, anyone seeking to enforce legal rights against such Portfolio Manager may find it difficult to do so.

**Investing in Europe Risk**

Most countries in Europe are members of the European Union, and many are also members of the European Monetary Union, which requires compliance with restrictions on inflation rates, deficits, and debt levels. Sovereign debt has risen to varying concerning degrees in recent years and months in the European Union’s member countries Greece, Spain, Italy, Portugal and Ireland, heightening market turbulence in Europe. Sovereign debt issues in these European countries have in the past and may in the future affect politics and economics in other member countries of the European Union. The European Union’s structure makes its members highly dependent on each other, which creates the possibility of contagion when crisis arises. If the politics and economics in other member countries of the
European Union are affected by the sovereign debt issues facing certain European countries currently, it may heighten European market volatility. Unemployment in certain European nations is historically high. In addition, the tight fiscal and monetary controls necessary to join the European Monetary Union can significantly affect every country in Europe.

**Investment Trust Investment Risk**

A CI First Asset ETF may invest in real estate, royalty, income and other investment trusts, which are investment vehicles in the form of trusts rather than corporations. To the extent that claims, whether in contract, in tort or as a result of tax or statutory liability, against an investment trust are not satisfied by the trust, investors in the investment trust, including a CI First Asset ETF, could be held liable for such obligations. Investment trusts generally seek to make this risk remote in the case of contract by including provisions in their agreements that the obligations of the investment trust will not be binding on investors personally. However, investment trusts could still have exposure to damage claims such as personal injury and environmental claims. Certain jurisdictions have enacted legislation to protect investors in investment trusts from the possibility of such liability.

**Liability of Unitholders**

The Declaration of Trust provides that no Unitholder of a Trust Fund will be subject to any personal liability whatsoever for any wilful or negligent acts or omissions or otherwise to any party in connection with the assets of the Trust Fund or the affairs of the Trust Fund. The Declaration of Trust also provides that the Trust Funds must indemnify and hold each Unitholder of that Trust Fund harmless from and against any and all claims and liabilities to which such Unitholder may become subject, by reason of being or having been a Unitholder of the Trust Funds and must reimburse such Unitholder for all legal and other expenses reasonably incurred in connection with any such claim or liability. Despite the foregoing, there can be no absolute certainty, outside of Ontario, that a claim will not be made against a Unitholder of a Trust Fund for liabilities which cannot be satisfied out of the assets of that Trust Fund.

**Passive Investment Risk**

In general, if an Index ETF uses a sampling methodology, or certain Other Securities, to construct its portfolio holdings, then that Index ETF will tend to have greater tracking error to the Index versus an exchange-traded fund that fully replicates the Index. In selecting securities for the Index ETFs, the Manager will not actively manage the Index ETFs by undertaking any fundamental analysis of the securities it invests in, nor will the Manager buy or sell securities for the Index ETFs based on the Manager’s market, financial or economic analysis. Because the Manager will not attempt to take defensive positions in declining markets, the adverse financial condition of a Constituent Issuer represented in the Index will not necessarily result in the Index ETFs ceasing to hold the Constituent Issuer’s securities, unless such securities are removed from the Index.

An Index ETF may have more of its assets invested in one or more issuers than is usually permitted for mutual funds. Consequently, an Index ETF’s portfolio may be less diversified when compared to a less concentrated investment portfolio. Also, the NAV of such Index ETFs may be more volatile than that of a more broadly-diversified portfolio and may fluctuate substantially over short periods of time. Although a more concentrated portfolio can sometimes result in increased liquidity risk, which may, in turn, have an effect on the ability of a mutual fund to satisfy redemptions, the Manager does not believe these risks are material for the Index ETFs.

**Preferred Shares Risk**

Preferred shares and debt securities involve risks of default on interest, dividends and/or principal and price changes due to such factors such as an issuer’s credit worthiness, changes in interest rates and general economic conditions. Unlike interest payments on a debt security, there is generally no obligation to make dividend payments on a preferred share (even if such dividends have accrued), and the payment of dividends on preferred shares may be suspended at any time. In the event that an issuer of preferred shares experiences economic difficulties, the issuer’s preferred shares may lose substantial value due to the reduced likelihood that a dividend will be declared and the fact that the preferred shares may be subordinated to other securities of the same issuer. In addition, the ability of the board of directors of an issuer to declare dividends (even if such dividends have accrued) on outstanding preferred shares may be constrained by restrictions imposed by such issuer’s lenders.
Many issuers of preferred shares have a right to prepay or call their securities. If interest rates fall, the issuer of preferred shares may call (or redeem) such preferred shares and replace them with a new preferred share issue at lower rates, conventional debt, or perhaps even equity. If preferred shares owned by a CI First Asset ETF are prepaid, called or redeemed, the CI First Asset ETF typically will be forced to reinvest proceeds at a time when yields on securities available in the market are lower than the yield on the security prepaid, called or redeemed. A CI First Asset ETF may also lose any premium it paid on the security.

During periods of rising interest rates, an issuer may, if it has such rights, exercise its rights to pay the redemption amount on preferred shares later than expected. Under these circumstances, the value of the preferred shares will decrease causing the value of the CI First Asset ETF’s investments to decline.

As many preferred shares pay dividends at a fixed rate, their market price can be sensitive to changes in interest rates in a manner similar to bonds in that, as interest rates decline the market value of fixed income securities tends to increase. Conversely, when interest rates increase, the market value of fixed income securities tends to decline. To the extent that a CI First Asset ETF invests in, or is exposed to, fixed rate securities, rising interest rates may cause the value of the CI First Asset ETF’s investments to decline significantly. The volatility of a security’s market value will differ depending upon the security’s duration, the issuer and the type of instrument. The longer the time to maturity the greater the potential for variations in value.

Finally, as many preferred shares allow holders to convert preferred shares into common shares of the issuer, their market price can be sensitive to changes in the value of the issuer’s common shares. To the extent that a CI First Asset ETF holds convertible preferred shares, declining common share values may also cause the value of the CI First Asset ETF’s investments to decline.

**Real Estate Investments Risk**

Investments in real estate investment trusts (“REITs”), real estate operating corporations (“REOCs”) and other real estate issuers are subject to the general risks associated with real property investments. Real property investments are affected by various factors including changes in general economic conditions (such as the levels of interest rates and the availability of long term mortgage financing) and in local conditions (such as oversupply of space or a reduction in demand for real estate in the area), the attractiveness of the properties to tenants, competition from other available space and various other factors. The value of real property and any improvements thereto may also depend on the credit and financial stability of the tenants. The income of a REIT, REOC or other real estate issuer that is available for payment to its unitholders or shareholders, as the case may be, would be adversely affected if a significant number of tenants were to become unable to meet their obligations to the REIT, REOC or other real estate issuer, or if the REIT, REOC or other real estate issuer was unable to lease a significant amount of available space in its properties on economically favourable lease terms.

**Rebalancing and Adjustment Risk**

Adjustments to Baskets of Securities held by an Index ETF to reflect the rebalancing of and adjustments to its Index may depend on the ability of the Manager and the Designated Broker to perform their respective obligations under the Designated Broker Agreement(s) (as defined herein). If the applicable Designated Broker fails to perform, the Index ETF would be required to sell or purchase, as the case may be, Constituent Securities of the Index in the market. If this happens, the Index ETF would incur additional transaction costs and security mis-weights that would cause the performance of the Index ETF to deviate more significantly from the performance of the Index than would otherwise be expected.

**Replication or Tracking Risk**

An investment in an Index ETF should be made with an understanding that the Index ETF will not replicate exactly the performance of the applicable Index. The total return generated by the securities held by an Index ETF will be reduced by the Management Fee payable to the Manager and transaction costs (including transaction costs incurred in adjusting the actual balance of the securities held by that Index ETF) as well as taxes and other expenses borne by that Index ETF whereas such transaction costs, taxes and expenses are not included in the calculation of the returns of the Index.
Also, deviations in the tracking of the Index by an Index ETF could occur for a variety of reasons, including if that Index ETF uses a sampling methodology or includes certain Other Securities in the portfolio of securities held by that Index ETF, or as a result of the costs, risks or other performance impacts of any currency hedging transactions employed by that Index ETF. Deviations may also occur if the Index ETF tenders securities under a successful takeover bid for less than all securities of a Constituent Issuer and the Constituent Issuer is not taken out of the applicable Index. In each such case, the Index ETFs would be required to buy replacement securities for more than the takeover bid proceeds. It is also possible that, for a period of time, the Index ETFs may not fully replicate the performance of the Index due to extraordinary circumstances.

Adjustments to the Basket of Securities necessitated by the rebalancing of or adjustment to an Index could affect the underlying market for Constituent Securities of that Index, which in turn would be reflected in the value of the Index. Similarly, subscriptions for Securities by the Designated Broker and Dealers may impact the market for Constituent Securities of an Index, as the Designated Broker or Dealer seeks to buy or borrow such securities to constitute Baskets of Securities to deliver to the applicable Index ETF as payment for the Securities to be issued.

*Risks Associated with Investing in Floating Rate Instruments*

A floating rate instrument is one whose terms provide for the adjustment of its interest rate whenever a specified benchmark changes. Floating rate instruments are frequently not rated by credit rating agencies. There may be no active secondary market with respect to a particular floating rate instrument purchased by a CI First Asset ETF. The absence of such an active secondary market could make it difficult for a CI First Asset ETF to dispose of the floating rate instrument involved in the event the issuer of the instrument defaulted on its payment obligations, and the CI First Asset ETF could, for this or other reasons, suffer a loss in the event of a default by the issuer. Floating rate instruments may be secured by assets of the issuer, bank letters of credit or other assets.

To the extent that a CI First Asset ETF holds floating rate instruments, the CI First Asset ETF’s yield may decline, and it may forego the opportunity for capital appreciation during periods when interest rates decline; however, during periods when interest rates increase, a CI First Asset ETF’s yield may increase, and they may have reduced risk of capital depreciation. See “Interest Rate Risk” for additional risks relating to investing in floating rate instruments.

*Risks Associated with Investments in Commercial Loans*

An investment in interests in syndicated, commercial bank loans, whether acquired through assignment or loan participation, may involve certain risks. Under the agreements governing most syndicated loans, should a CI First Asset ETF, as a holder of an interest in a syndicated loan, wish to call a default or exercise remedies against a borrower, it could not do so without the agreement of at least a majority of the lenders. Further, actions could be taken by a majority of the lenders, or in some cases, a single agent bank, without the consent of a CI First Asset ETF. The applicable CI First Asset ETF would, nevertheless, be liable to indemnify the agent bank for the CI First Asset ETF’s rateable share of expenses or other liabilities incurred in such connection and, generally, with respect to the administration and any renegotiation or enforcement of the syndicated loans. Moreover, an assignee or participant in a loan may not be entitled to certain gross-up payments in respect of withholding taxes and other indemnities that otherwise might be available to the original holder of the loan.

A CI First Asset ETF may invest in corporate secured and unsecured loans acquired through assignment or loan participations. While a CI First Asset ETF will favour acquiring loans through assignment (rather than loan participations), it may not always be able to do so. In purchasing loan participations, a CI First Asset ETF will usually have a contractual relationship only with the selling institution, and not the borrower. A CI First Asset ETF generally will have no right directly to enforce compliance by the borrower with the terms of the loan agreement, nor any rights of set-off against the borrower, nor will it have the right to object to certain changes to, or waivers under, the loan agreement agreed to by the selling institution. A CI First Asset ETF may not directly benefit from the collateral supporting the related secured loan and may be subject to any rights of set-off the borrower has against the selling institution.

In addition, in the event of the insolvency of the selling institution, under the laws of the United States and the states thereof, a CI First Asset ETF may be treated as a general creditor of such selling institution, and may not have any exclusive or senior claim with respect to the selling institution’s interest in, or the collateral with respect to, the secured loan.
Consequently, a CI First Asset ETF may be subject to the credit risk of the selling institution as well as of the borrower. Certain of the secured loans or loan participations may be governed by the law of a jurisdiction other than a United States jurisdiction which may present additional risks as regards the characterization under such laws of such loan participations in the event of the insolvency of the selling institution or the borrower.

Risks Associated with Investments in High Yield Bonds

A CI First Asset ETF may make investments in high yield bonds that are not investment grade. High yield corporate debt securities involve greater risks than investment grade debt securities, including greater risks of default in the payment of interest and principal, lower recovery rates on a security that is in default and greater price changes due to such factors as general economic conditions and the issuer’s creditworthiness. High yield debt securities may also be less liquid than investment grade debt securities. During periods of thin trading, the spreads between bid and ask prices are likely to increase significantly and a CI First Asset ETF may have difficulty selling such securities in the market at a perceived fair value or at all. Issuers of high yield bonds are more vulnerable to real or perceived economic changes, political changes or adverse industry developments. In addition, high yield bonds are frequently subordinated to the prior payment of senior indebtedness. If an issuer fails to pay principal or interest, a CI First Asset ETF may experience a decrease in income and a decline in the market value of its investments. A CI First Asset ETF may also incur additional expenses in seeking recovery from the issuer.

There are no formal exchanges on which such high yield corporate debt securities trade. Accordingly, there may be limited liquidity for holders of such debt securities. The investments of a CI First Asset ETF’s portfolio in bonds and debentures expose the CI First Asset ETF’s portfolio and the CI First Asset ETF to the credit risk of the underlying issuers including risk of default on interest and principal and the risk that the credit ratings of such issuers may be downgraded in certain circumstances. In addition, real or anticipated changes in the credit ratings on bonds and debentures held in a CI First Asset ETF’s portfolio may affect the market value of such bonds and debentures.

High yield corporate debt securities can also be regarded as a predominantly speculative investment with respect to the issuer’s continuing ability to meet principal and interest payments, involve certain greater risk exposure during adverse market conditions and may be subject to substantially greater price volatility, especially during times of adverse economic change. Global financial markets have experienced a significant volatility that has contributed to a reduction in liquidity and the availability of credit enhancing the likelihood of default by some issuers due to diminishing profitability or an inability to refinance existing debt.

High-yield securities that are rated BB or lower by S&P or Ba or lower by Moody’s are often referred to in the financial press as “junk bonds” and may include securities of issuers in default. “Junk bonds” are considered by the ratings agencies to be predominantly speculative and may involve major risk exposures such as: (i) vulnerability to economic downturns and changes in interest rates; (ii) sensitivity to adverse economic changes and corporate developments; (iii) redemption or call provisions which may be exercised at inopportune times; and (iv) difficulty in accurately valuing or disposing of such securities.

It is often more difficult to value lower rated securities than higher rated securities. If an issuer’s financial condition deteriorates, accurate financial and business information may be limited or unavailable. The lower rated investments may be thinly traded and there may be no established secondary market. Because of the lack of market pricing and current information for investments in lower rated securities, valuation of such investments is much more dependent on the judgment of the Manager than is the case with higher rated securities. In addition, relatively few institutional purchasers may hold a major portion of an issue of lower-rated securities at times. As a result, a CI First Asset ETF may be required to sell high yield bond investments at substantial losses or retain them indefinitely even where an issuer’s financial condition is deteriorating. Credit quality of non-investment grade securities can change suddenly and unexpectedly, and even recently issued credit ratings may not fully reflect the actual risks posed by a particular high-yield security.

Short Selling Risk

A CI First Asset ETF may engage in short-selling transactions, as permitted by applicable securities legislation. Generally speaking, short selling is a way of realizing a gain when a Portfolio Manager expects the price of a security to fall.

A short sale involves borrowing securities from a lender, which are then sold in the open market. At a future date, the same securities are bought back by a CI First Asset ETF from another seller and returned to the lender. Until the securities are returned by a CI First Asset ETF, assets of the CI First Asset ETF are deposited with the securities lender as collateral, and the CI First Asset ETF pays interest to the lender on the borrowed securities. During this time, the CI First Asset ETF also pays any dividends or distributions paid out on the borrowed securities to the lender. If the value of the securities falls between the time that the CI First Asset ETF borrows the securities and sells them, and the time it buys them back and returns them to the lender, the CI First Asset ETF makes a profit on the difference (minus the interest paid to the lender and any other expenses). Short selling involves certain risks. There is no assurance that securities will decline in value during the period of the short sale sufficient to offset the interest paid by a CI First Asset ETF and to make a profit for the CI First Asset ETF, and securities sold short may instead appreciate in value. A CI First Asset ETF may also experience difficulties repurchasing and returning the borrowed securities if a liquid market for the securities does not exist. The lender from whom a CI First Asset ETF has borrowed securities may become bankrupt and the CI First Asset ETF may lose the collateral it has deposited with the lender. If a CI First Asset ETF engages in short selling, it will adhere to controls and restrictions that are intended to help offset these risks as set out in NI 81-102.

Small Capitalization Risk

A CI First Asset ETF’s portfolio may contain companies with small capitalization. Capitalization is a measure of the value of a company. It is the current price of a company’s stock, multiplied by the number of shares issued by the company. Companies with small capitalization may not have a well-developed market for their securities. As a result, these securities may be difficult to trade, making their prices more volatile than those of large companies.

Trust Fund Multi-Class Risk

Some Trust Funds offer more than one class of Units. If one such Trust Fund cannot pay the expenses or satisfy the obligations entered into by the Trust Fund for the sole benefit of one of those classes of Units using such class of Units’ proportionate share of the assets, the Trust Fund may have to pay those expenses or satisfy those obligations out of another class of Units’ proportionate share of the assets, which would lower the investment return of such other class of Units. In addition, a creditor of a Trust Fund may seek to satisfy its claim from the assets of the Trust Fund as a whole, even though its claim or claims relate only to a particular class of Units.

Use of Covered Call Options Risk

As a result of a CI First Asset ETF’s covered call option writing program, the CI First Asset ETF is subject to the full risk of its investment position in the securities in its portfolio, including the securities that are subject to covered call options written by it, should the market price of such securities decline. In addition, the CI First Asset ETF is not expected to participate in a gain on a security subject to a covered call option, if the gain results in the market price of the security exceeding the exercise price of the covered call option. In such circumstances, the holder of the covered call option will likely exercise the covered call option. The premiums associated with writing covered call options may not exceed the returns that would have resulted if the CI First Asset ETF had remained directly invested in the securities subject to covered call options.

The use of covered call options may have the effect of limiting or reducing the total returns of a CI First Asset ETF if the applicable Portfolio Manager’s expectations concerning future events or market conditions prove to be incorrect. There can be no assurance that a liquid exchange or over-the-counter market will exist to permit a CI First Asset ETF to write covered call options on desired terms or to close out option positions should it desire to do so. The ability of a CI First Asset ETF to close out its positions may also be affected by exchange-imposed daily trading limits. In addition, exchanges may suspend the trading of options in volatile markets. If a CI First Asset ETF is unable to repurchase a covered call option that is in-the-money, it will be unable to realize its profits or limit its losses until such time as the covered call option it has written becomes exercisable or expires.

Derivative transactions also involve the risk of the possible default by the other party to the transaction (whether a clearing corporation in the case of exchange-traded instruments or other third party in the case of over-the-counter instruments) as the other party may be unable to meet its obligations.
In determining its income for tax purposes, the CI First Asset ETFs that write covered call options treat option premiums received on the writing of such options and any gains or losses sustained on closing out such options as capital gains and capital losses in accordance with the CRA’s published administrative policies. The CRA’s practice is not to grant advance income tax rulings on the characterization of items as capital or income and no advance income tax ruling has been applied for or received from the CRA.

If some or all of the transactions undertaken by a CI First Asset ETF in respect of covered call options in the CI First Asset ETF’s portfolio were treated on income rather than capital account (whether because of the DFA Rules discussed under “Income Tax Considerations – Trust Funds – Taxation of the Trust Funds”, “Income Tax Considerations – Corporate Class – Taxation of the Corporate Classes”, or otherwise), the net income of a Trust Fund for tax purposes and the taxable component of distributions to Securityholders of a Trust Fund could increase or, in the case of CI First Asset CanBanc Income Class ETF, (i) the after-tax returns to Shareholders could be reduced, (ii) the Company may be subject to non-refundable income tax in respect of income from such transactions, and (iii) the Company may be subject to penalty taxes in respect of excessive capital gains dividend elections. Any such redetermination by the CRA may result in the Trust Fund being liable for unremitted withholding taxes on prior distributions made to Securityholders who were not resident in Canada for the purposes of the Tax Act at the time of the distribution. Such potential liability may reduce the NAV of, or trading prices of, the Securities.

Use of the Index Risk

The Manager and the Index ETFs are permitted to use the Indexes pursuant to the License Agreements described below under “Material Contracts”. The Manager and the Index ETFs do not accept responsibility for or guarantee the accuracy and/or completeness of the Indexes or any data included in the Indexes.

U.S. Government Obligations Risk

U.S. government obligations may include direct obligations of the U.S. Treasury, including Treasury bills, notes and bonds, all of which are backed as to principal and interest payments by the full faith and credit of the U.S. Other obligations include those issued or guaranteed by U.S. government agencies or instrumentalities. These obligations may or may not be backed by the “full faith and credit” of the U.S. Securities which are backed by the full faith and credit of the U.S. include obligations of the Government National Mortgage Association, the Farmers Home Administration, and the Export-Import Bank. In the case of securities not backed by the full faith and credit of the U.S., a CI First Asset ETF must look principally to the federal agency issuing or guaranteeing the obligation for ultimate repayment and may not be able to assert a claim against the U.S. itself in the event the agency or instrumentality does not meet its commitments.

The total public debt of the United States and other countries around the globe as a percentage of gross domestic product has grown rapidly since the beginning of the 2008 financial downturn. Although high debt levels do not necessarily indicate or cause economic problems, they may create certain systemic risks if sound debt management practices are not implemented. A high national debt level may increase market pressures to meet government funding needs, which may drive debt cost higher and cause a country to sell additional debt, thereby increasing refinancing risk. A high national debt also raises concerns that a government will not be able to make principal or interest payments when they are due. Unsustainable debt levels can cause devaluations of currency, prevent a government from implementing an effective counter-cyclical fiscal policy in economic downturns, and contribute to market volatility.

In the past, U.S. sovereign credit has experienced downgrades and there can be no guarantee that it will not experience further downgrades in the future by rating agencies. The market prices and yields of securities supported by the full faith and credit of the U.S. Government may be adversely affected by a rating agency’s decision to downgrade the sovereign credit rating of the United States.

Withholding Tax Risk

A CI First Asset ETF may invest in global debt or equity securities. While the CI First Asset ETFs intend to make investments in such a manner as to minimize the amount of foreign taxes incurred under foreign tax laws and subject to any applicable tax conventions with respect to taxes on income and on capital, investments in global debt or equity securities may subject a CI First Asset ETF to foreign taxes on interest or dividends paid or credited to it or
any gains realized on the disposition of such securities. The return on a CI First Asset ETF’s portfolio will be net of such foreign withholding tax, unless the terms of the securities in such portfolio require the issuers of such securities to “gross-up” payments so that a holder of such securities receives the amount that it would have received in the absence of such withholding tax. There can be no assurances that (i) interest, dividends and gains on securities held in a CI First Asset ETF’s portfolio will not be subject to foreign withholding tax, or (ii) the terms of securities held in a CI First Asset ETF’s portfolio will provide for the gross-up referred to above. See “Income Tax Considerations” for a discussion of certain Canadian federal income tax considerations relating to foreign withholdings taxes paid by a CI First Asset ETF.

INVESTMENT RISK CLASSIFICATION METHODOLOGY

Risk Ratings of the CI First Asset ETFs

The investment risk level of each CI First Asset ETF is required to be determined in accordance with a standardized risk classification methodology that is based on its historical volatility, as measured by the 10-year standard deviation of its returns. As certain CI First Asset ETFs have less than 10 years of performance history, the Manager calculates the investment risk level of each such CI First Asset ETF by using a reference index that is expected to reasonably approximate the standard deviation of the applicable CI First Asset ETF. Once a CI First Asset ETF has 10 years of performance history, the methodology calculates the standard deviation of the CI First Asset ETF by using its performance history, rather than that of its reference index. Each CI First Asset ETF is assigned an investment risk rating in one of the following categories: low, low to medium, medium, medium to high or high risk.

The reference index used for each CI First Asset ETF that has less than 10 years of performance history is as follows. The returns of the reference indexes are in Canadian dollars unless otherwise noted.

</tbody>
</table>

On or about February 28, 2020, the Manager determined that the reference index of each CI First Asset ETF denoted with an asterisk (*) should be revised as the new index better approximate(s) the standard deviation of such CI First...
Asset ETF. The reference index changes did not result in any risk rating change and were not the result of changes to the investment objective, strategies or management of these CI First Asset ETFs.

Securityholders should know that other types of risks, both measurable and non-measurable, exist. Also, just as historical performance may not be indicative of future returns, historical volatility may not be indicative of future volatility. The risk rating of each CI First Asset ETF is reviewed annually and anytime it is no longer reasonable in the circumstances. A more detailed explanation of the risk classification methodology used to identify the risk rating is available on request, at no cost, by calling 416-642-1289 or toll free 1-877-642-1289 or by emailing info@firstasset.com.

**DISTRIBUTION/DIVIDEND POLICY**

For the distribution/dividend frequency of a particular CI First Asset ETF, please see the applicable ETF profile attached as Schedule A to this prospectus beginning on page 92.

Each CI First Asset ETF does not have a fixed distribution/dividend amount. The amount of ordinary cash distributions/dividends, if any, will be based on the Manager’s assessment of anticipated cash flow and anticipated expenses of a CI First Asset ETF from time to time. The date of any ordinary cash distribution of a CI First Asset ETF will be announced in advance by issuance of a press release. Subject to compliance with the investment objectives of a CI First Asset ETF, the Manager may, in its complete discretion, change the frequency of these distributions in respect of a CI First Asset ETF and any such change will be announced by press release.

Depending on the underlying investments of a Trust Fund, distributions on Units may consist of ordinary income, including foreign source income and taxable dividends from taxable Canadian corporations, interest or distributions received by the Trust Fund but may also include net realized capital gains, in any case, less the expenses of that Trust Fund and may include returns of capital. To the extent that the expenses of a Trust Fund exceed the income generated by such Trust Fund in any applicable distribution period, it is not expected that a distribution for that period will be paid.

The sources of income of the Corporate Classes are expected to include taxable capital gains as well as dividends from taxable Canadian corporations. However, to the extent that the Company earns net income, after expenses and other deductions (including any available loss carryforwards to the extent deductible), from other sources, including dividends and other income from non-Canadian sources and interest income, the Company will generally be subject to income tax on such income and no refund of such tax will be available. Distributions could include a return of capital. A return of capital is not directly subject to tax but will reduce the adjusted cost base of the Shares. See “Income Tax Considerations”.

Given the investment and distribution policies of the Company and taking into account the deduction of expenses, any applicable loss carryforwards and taxable dividends on shares of taxable Canadian corporations, the Manager does not expect that the Company will be subject to appreciable amounts of non-refundable Canadian income tax.

**Year-End Distributions**

If, in any taxation year, after the ordinary distributions, there would remain in a Trust Fund additional net income or net realized capital gains or in the case of the Corporate Classes, the Company would otherwise be liable for tax on net realized capital gains, or refundable tax in respect of dividends received from taxable Canadian corporations, (A) the Trust Fund will, (i) where such taxation year ends on December 15, after December 15 but on or before December 31 of the calendar year in which such taxation year ends, or (ii) in any other case, at the end of the taxation year, be required to pay or make payable such net income and net realized capital gains as one or more special year-end distributions in such year to Securityholders of record as of the close of business on the day that is one business day before such day when such amount became due and payable, as is necessary to ensure that the Trust Fund will not be liable for income tax on such amounts under Part I of the Tax Act (after taking into account all available deductions, credits and refunds) or (B) the Company, intends to pay, by the last day of that year, a special capital gains dividend and/or an ordinary dividend in order to ensure that the Company will not be liable for income tax on such amounts
under the Tax Act (after taking into account all available deductions, credits and refunds) or to recover refundable tax not otherwise recoverable upon payment of regular cash dividends. Such special distributions may be paid in the form of Securities of the relevant class of the CI First Asset ETF and/or cash. Any special distributions payable in Securities of the relevant class of a CI First Asset ETF will increase the aggregate adjusted cost base of a Securityholder’s Securities of that class. Immediately following payment of such a special distribution in Securities, the number of Securities outstanding will be automatically consolidated such that the number of Securities of a class outstanding after such distribution will be equal to the number of Securities of that class outstanding immediately prior to such distribution, except in the case of a non-resident Securityholder to the extent tax is required to be withheld in respect of the distribution. See “Income Tax Considerations – Trust Funds – Taxation of Holders of a Trust Fund” and “Income Tax Considerations – Corporate Classes – Taxation of Holders of Shares”.

Distribution Reinvestment Plan

At any time, a Securityholder may elect to participate in the Manager’s distribution reinvestment plan (the “Reinvestment Plan”) by contacting the CDS Participant through which the Securityholder holds its Securities. Under the Reinvestment Plan, cash distributions (net of any required withholding tax) will be used to acquire additional Securities of the same class of that CI First Asset ETF (the “Plan Securities”) from the market and will be credited to the account of the Securityholder (the “Plan Participant”) through CDS.

Any eligible Securityholder may enrol in the Reinvestment Plan by notifying the CDS Participant through which the Securityholder holds its Securities of such Securityholder’s intention to participate in the Reinvestment Plan. Under the Reinvestment Plan, cash distributions will be used to acquire Plan Securities in the market and will be credited to the account of the Plan Participant through CDS. The CDS Participant must, on behalf of each Plan Participant, elect on line via CDSX no later than 5:00 p.m. (Toronto time) on each applicable date determined by the Manager as a record date for the determination of Securityholders of a CI First Asset ETF entitled to receive a distribution (each, a “Distribution Record Date”) in respect of the next expected distribution in which the Securityholder wishes to participate. These elections are received directly by the Plan Agent via CDSX. If this election via CDSX is not received by the Plan Agent by the applicable deadline, the Securityholder will not participate in the Reinvestment Plan for that distribution.

The tax treatment to Securityholders of a CI First Asset ETF of reinvested distributions is discussed under the heading “Income Tax Considerations – Trust Funds – Taxation of Holders of a Trust Fund” and “Income Tax Considerations – Corporate Classes – Taxation of Holders of Shares”.

Fractional Securities

No fractional Plan Securities will be purchased or sold under the Reinvestment Plan. Payments in cash for any remaining uninvested funds may be made in lieu of fractional Plan Securities by the Plan Agent to CDS or CDS Participant, on a monthly or quarterly basis, as the case may be. Where applicable, CDS will, in turn, credit the Plan Participant, via the applicable CDS Participant.

Amendments, Suspension or Termination of the Reinvestment Plan

Any Plan Participant may withdraw from the Reinvestment Plan by contacting the CDS Participant through which the Securityholder holds its Securities.

Plan Participants may voluntarily terminate or modify their participation in the Reinvestment Plan. Plan Participants who no longer wish to participate in the Reinvestment Plan must notify their CDS Participant no later than 4:00 p.m. (Toronto time) at least two business days immediately prior to the applicable Distribution Record Date. If notice is received after this deadline, participation will continue for that distribution only. Future distributions will be made in cash to such Securityholders.

The Manager may terminate the Reinvestment Plan with respect to any CI First Asset ETF in its sole discretion, upon not less than 30 days’ notice to: (i) the Plan Participants, via the CDS Participants through which the Plan Participants hold their Securities, (ii) the Plan Agent, and (iii) the TSX (if applicable). The Manager may also amend, modify or suspend the Reinvestment Plan with respect to any CI First Asset ETF at any time in its sole discretion, provided that
it complies with certain requirements and gives notice of that amendment, modification or suspension (which notice may be given by issuing a press release containing a summary description of the amendment or in any other manner the Manager determines appropriate) to: (i) CDS Participants through which the Plan Participants hold their Securities, (ii) the Plan Agent, and (iii) the TSX (if applicable). The Reinvestment Plan will terminate automatically with respect to any CI First Asset ETF upon the termination of such CI First Asset ETF.

The Manager may adopt additional rules and regulations to facilitate the administration of the Reinvestment Plan, subject to the approval of the TSX (if required by the TSX rules). The Manager may, in its sole discretion, and upon at least 30 days’ written notice to the Plan Agent, remove the Plan Agent and appoint a new Plan Agent.

**Other Provisions Relating to the Reinvestment Plan**

Participation in the Reinvestment Plan is restricted to Securityholders who are residents of Canada for the purposes of the Tax Act. Partnerships (other than “Canadian partnerships” as defined in the Tax Act) are not eligible to participate in the Reinvestment Plan. Upon becoming a non-resident of Canada or a partnership (other than a Canadian partnership), a Plan Participant shall notify their CDS Participant and terminate participation in the Reinvestment Plan immediately. For the purpose of the Reinvestment Plan, the Plan Agent will not have any duty to inquire into the residency status or partnership status of Plan Participants, nor will the Plan Agent be required to know the residency status or partnership status of Plan Participants other than as notified by CDS or the Manager.

The automatic reinvestment of the distributions under the Reinvestment Plan will not relieve Plan Participants of any income tax applicable to such distributions. Each Plan Participant will be mailed annually the information necessary to enable such Plan Participant to complete an income tax return with respect to amounts paid or payable by the CI First Asset ETF to the Plan Participant in the preceding taxation year.

**PURCHASES OF SECURITIES**

**Investment in the CI First Asset ETFs**

In compliance with NI 81-102, each CI First Asset ETF was prohibited from issuing Securities to the public unless subscriptions aggregating not less than $500,000 were received and accepted by the CI First Asset ETF from investors other than persons or companies related to the Manager or its affiliates. Each CI First Asset ETF has received and accepted subscriptions aggregating not less than $500,000 from investors other than persons or companies related to the Manager or its affiliates, as of the date hereof.

**Issuance of Securities**

Securities of each CI First Asset ETF are being issued and sold on a continuous basis and there is no maximum number of Securities that may be issued.

**To Designated Brokers and Dealers**

All orders to purchase Securities directly from the CI First Asset ETFs must be placed by the applicable Designated Broker or Dealers. Each CI First Asset ETF reserves the absolute right to reject any subscription order placed by the Designated Broker and/or a Dealer. No fees will be payable by a CI First Asset ETF to the Designated Broker or a Dealer in connection with the issuance of Securities. On the issuance of Securities, the Manager may, at its discretion, charge an administrative fee to a Dealer or Designated Broker to offset any expenses (including any applicable TSX additional listing fees) incurred in issuing the Securities.

On any Trading Day, the Designated Broker or a Dealer may place a subscription order for the PNS or integral multiple PNS of a CI First Asset ETF.

If a subscription order is received by a CI First Asset ETF at or before 9:00 a.m. (Toronto time) on a Trading Day, or such other time prior to 4:00 p.m. (Toronto time) (the “Valuation Time”) on such Trading Day as the Manager may permit, and is accepted by the Manager, the CI First Asset ETF will generally issue to the Dealer or Designated Broker the PNS (or an integral multiple thereof) within two Trading Days from the effective date of the subscription order. The CI First Asset ETF must receive payment for the Securities subscribed for within two Trading Days from the
effective date of the subscription order. The effective date of a subscription order is the Trading Day on which the Valuation Time that applies to such subscription order takes place.

Unless the Manager shall otherwise agree or the Declaration of Trust shall otherwise provide, as payment for a PNS of a CI First Asset ETF, a Dealer or Designated Broker must deliver subscription proceeds consisting of a group of securities and/or assets determined by the Manager from time to time representing the constituents of the CI First Asset ETF (a “Basket of Securities”) and cash in an amount sufficient so that the value of the Basket of Securities and cash delivered is equal to the NAV of the applicable PNS of the CI First Asset ETF determined at the Valuation Time on the effective date of the subscription order.

The Manager may, in its complete discretion, instead accept subscription proceeds consisting of (i) cash only in an amount equal to the NAV of the applicable PNS of the CI First Asset ETF determined at the Valuation Time on the effective date of the subscription order, plus (ii) if applicable, any fees payable in connection with cash-only payments for subscriptions of a PNS of the applicable CI First Asset ETF, representing, as applicable, brokerage expenses, commissions, transaction costs and other costs or expenses that the CI First Asset ETF incurs or expects to incur in purchasing securities on the market with such cash proceeds.

The Manager will, except when circumstances prevent it from doing so, publish the applicable PNS for a CI First Asset ETF following the close of business on each Trading Day on its website, www.firstasset.com. The Manager may, at its discretion, increase or decrease the applicable PNS from time to time.

To the Applicable Designated Broker in Special Circumstances

Securities may be issued by an Index ETF to the applicable Designated Broker in connection with the rebalancing of and adjustments to the Index ETF as described under “Investment Strategies – Index ETFs – Rebalancing Events” and when cash redemptions of Securities occur as described below under “Exchange, Redemption and Switching of Securities – Redemption of Securities of a CI First Asset ETF for Cash”.

To Securityholders as Reinvested Distributions

In addition to the issuance of Securities as described above, Securities of a CI First Asset ETF may be issued to Securityholders on the automatic reinvestment of certain distributions in accordance with the distribution policy of the CI First Asset ETF. See “Distribution/Dividend Policy”.

Buying and Selling Securities of a CI First Asset ETF

The Securities are currently listed on the TSX and investors can buy or sell such Securities on the TSX through registered brokers and dealers in the province or territory where the investors reside.

Investors may incur customary brokerage commissions in buying or selling Securities. No fees are paid by investors to the Manager or a CI First Asset ETF in connection with buying or selling of Securities on the TSX.

Special Considerations for Securityholders

The provisions of the so-called “early warning” requirements set out in Canadian securities legislation do not apply in connection with the acquisition of Securities. In addition, each CI First Asset ETF is entitled to rely on exemptive relief from the Canadian securities regulatory authorities to permit a Securityholder to acquire more than 20% of the Securities of a CI First Asset ETF through purchases on the TSX without regard to the takeover bid requirements of applicable Canadian securities legislation.

Securities of each Index ETF are, in the opinion of the Manager, index participation units within the meaning of NI 81-102. A mutual fund wishing to invest in Securities of an Index ETF should make its own assessment of its ability to do so after careful consideration of the relevant provisions of NI 81-102, including but not limited to whether the Securities of the Index ETF should be considered index participation units, as well as the control, concentration and certain of the “fund-of-funds” restrictions of NI 81-102. No purchase of Securities of an Index ETF should be made solely in reliance on the above statements.
EXCHANGE, REDEMPTION AND SWITCHING OF SECURITIES

Exchange of Securities of a CI First Asset ETF at NAV per Security for Baskets of Securities and/or Cash

Securityholders of a CI First Asset ETF may exchange the applicable PNS (or an integral multiple thereof) of the CI First Asset ETF on any Trading Day for Baskets of Securities and cash, subject to the requirement that a minimum PNS be exchanged. To effect an exchange of Securities of a CI First Asset ETF, a Securityholder must submit an exchange request in the form and at the location prescribed by the CI First Asset ETF from time to time. The exchange price will be equal to the NAV of each PNS tendered for exchange determined at the Valuation Time on the effective date of the exchange request, payable by delivery of a Basket of Securities (constituted as most recently published prior to the effective date of the exchange request) and cash. The Securities will be redeemed in the exchange. The Manager will also make available to Dealers and the Designated Broker the applicable PNS to redeem Securities of a CI First Asset ETF on each Trading Day. The effective date of an exchange request is the Trading Day on which the Valuation Time that applies to such exchange request takes place.

Upon the request of a Securityholder, the Manager may, in its complete discretion, satisfy an exchange request by delivering cash only in an amount equal to the NAV of each PNS tendered for exchange determined at the Valuation Time on the effective date of the exchange request, provided that the Securityholder agrees to pay any fee payable in connection with cash-only payments for exchange of a PNS of the applicable CI First Asset ETF, representing, as applicable, brokerage expenses, commissions, transaction costs and other costs or expenses that the CI First Asset ETF incurs or expects to incur in selling securities on the market to obtain the necessary cash for the exchange.

If an exchange request is not received by the applicable cut-off time, the exchange request will be effective only on the next Trading Day. Settlement of exchanges for Baskets of Securities and/or cash will generally be made by the second Trading Day after the effective day of the exchange request.

If any securities in which a CI First Asset ETF has invested are cease traded at any time by order of a Canadian securities regulatory authority or other relevant regulator or stock exchange, the delivery of Baskets of Securities to a Securityholder, Dealer or Designated Broker on an exchange in the PNS may be postponed until such time as the transfer of the Baskets of Securities is permitted by law.

As described under “Book-Entry Only System”, registration of interests in, and transfers of, Securities will be made only through the book-entry only system of CDS. The redemption rights described below must be exercised through the CDS Participant through which the owner holds Securities. Beneficial owners of Securities should ensure that they provide redemption instructions to the CDS Participant through which they hold such Securities sufficiently in advance of the cut-off times described below to allow such CDS Participant to notify CDS and for CDS to notify the Registrar and Transfer Agent prior to the relevant cut-off time.

Redemption of Securities of a CI First Asset ETF for Cash

On any Trading Day, Securityholders of a CI First Asset ETF may redeem (i) Securities of the CI First Asset ETF for cash at a redemption price per Security equal to 95% of the closing price for the Securities on the TSX on the effective day of the redemption, subject to a maximum redemption price per Security equal to the NAV per Security on the effective day of redemption, less any applicable redemption fee determined by the Manager, in its sole discretion, from time to time, or (ii) a PNS of a CI First Asset ETF or a multiple PNS of a CI First Asset ETF for cash equal to the NAV of that number of Securities of the CI First Asset ETF less any applicable redemption fee determined by the Manager, in its sole discretion from time to time. Because Securityholders will generally be able to sell Securities at the market price on the TSX through a registered broker or dealer subject only to customary brokerage commissions, Securityholders of the CI First Asset ETFs are advised to consult their brokers, dealers or investment advisors before redeeming such Securities for cash. No fees or expenses are paid by Securityholders to the Manager or any CI First Asset ETF in connection with selling Securities on the TSX.

In order for a cash redemption to be effective on a Trading Day, a cash redemption request with respect to the applicable CI First Asset ETF must be delivered to the Manager in the form and at the location prescribed by the
Manager from time to time at or before 9:00 a.m. (Toronto time) on such Trading Day. Any cash redemption request received after such time will be effective only on the next Trading Day. The cash redemption request forms may be obtained from any registered broker or dealer. Where possible, payment of the redemption price will be made by no later than the second Trading Day after the effective day of the redemption.

Securityholders that have delivered a redemption request prior to the Distribution Record Date for any distribution will not be entitled to receive that distribution.

In connection with the redemption of Securities of a CI First Asset ETF, the CI First Asset ETF will generally dispose of securities or other financial instruments.

**Suspension of Exchanges and Redemptions**

The Manager may suspend the exchange or redemption of Securities of a CI First Asset ETF or payment of redemption proceeds of a CI First Asset ETF: (i) during any period when normal trading is suspended on a stock exchange or other market on which securities owned by the CI First Asset ETF are listed and traded, if these securities represent more than 50% by value or underlying market exposure of the total assets of the CI First Asset ETF, without allowance for liabilities, and if these securities are not traded on any other exchange that represents a reasonably practical alternative for the CI First Asset ETF; or (ii) with the prior permission of the Canadian securities regulatory authorities where required, for any period not exceeding 30 days during which the Manager determines that conditions exist which render impractical the sale of assets of the CI First Asset ETF or which impair the ability of the Custodian to determine the value of the assets of the CI First Asset ETF. The suspension may apply to all requests for exchange or redemption received prior to the suspension but as to which payment has not been made, as well as to all requests received while the suspension is in effect. All Securityholders making such requests shall be advised by the Manager of the suspension and that the exchange or redemption will be effected at a price determined on the Trading Day following the termination of the suspension. All such Securityholders shall have and shall be advised that they have the right to withdraw their requests for exchange or redemption. The suspension shall terminate in any event on the first day on which the condition giving rise to the suspension has ceased to exist, provided that no other condition under which a suspension is authorized then exists. To the extent not inconsistent with official rules and regulations promulgated by any government body having jurisdiction over a CI First Asset ETF, any declaration of suspension made by the Manager shall be conclusive.

**Redemption Fee**

The Manager may, at its discretion, charge exchanging or redeeming Securityholders a redemption fee equal to a percentage of the exchange or redemption proceeds to offset certain transaction costs associated with the exchange or redemption of Securities. The Manager will publish the current redemption fee, if any, on its website, www.firstasset.com. Any such redemption fee charged by the Manager will accrue to the applicable CI First Asset ETF.

The redemption fee that may be charged in respect of a particular CI First Asset ETF is disclosed in the applicable ETF profile attached as Schedule A to this prospectus beginning on page 92.

**Allocations of Capital Gains to Redeeming or Exchanging Unitholders**

Pursuant to the Declaration of Trust, a Trust Fund may allocate and designate as payable any capital gains realized by the Trust Fund as a result of any disposition of property of the Trust Fund undertaken to permit or facilitate the redemption or exchange of Units to a Unitholder whose Units are being redeemed or exchanged. Any such allocations and designations will reduce the redemption price otherwise payable to the redeeming Unitholder. As described under “Risk Factors – General Risk Factors – Tax Risk”, draft legislation released by the Minister of Finance (Canada) on July 30, 2019 proposed amendments to the Tax Act that would be effective for taxation years of the Trust Funds beginning on or after March 20, 2020. Such amendments would deny a Trust Fund a deduction for the portion of a capital gain of the Trust Fund designated to a Unitholder on a redemption of Units that is greater than the Unitholder’s accrued gain on those Units, where the Unitholder’s proceeds of disposition are reduced by the designation.
Switches for Corporate Classes

A Shareholder may Switch Shares of one Corporate Class to Shares of another Corporate Class through the facilities of CDS by contacting their financial advisor, investment advisor or broker. Initially, Shares may be switched in any week on Wednesday ("ETF Switch Date") of such week (or more or less frequently as may be determined by the Manager) by delivering written notice to the Registrar and Transfer Agent and surrendering such Shares through the facilities of CDS by 4:00 p.m. (Toronto time) at least one business day prior to the ETF Switch Date ("Switch Notice Date"). Written notice must contain the name of the Corporate Class, the TSX ticker symbol of the Shares and the number of Shares to be switched, and the name of the Corporate Class and the TSX ticker symbol of the Shares of the CI First Asset ETF to which the Shareholder wishes to Switch. The Manager may, in its discretion, change the frequency with which Shares may be switched at any time upon 30 days’ notice by way of press release.

A Shareholder will receive from the Company that whole number of Shares of the Corporate Class into which they have switched equal to the NAV per Share of the relevant series of Shares of the relevant Corporate Class on the applicable ETF Switch Date (the “Switch NAV Price”) that is being switched from, divided by the Switch NAV Price per Share of the CI First Asset ETF switched to. As no fraction of a Share will be issued upon any Switch, any remaining fractional Share of the Corporate Class out of which a Shareholder has switched will be redeemed in cash at the Switch NAV Price of such Share. The Company will, following the ETF Switch Date forward a cash payment to CDS equal to such amount. Generally, Shareholders may have to pay their financial advisor, investment advisor or broker a transfer fee based on the value of the Shares that are switched.

Under the Tax Act, a Switch of Shares held as capital property for purposes of the Tax Act from one Corporate Class ("switched Shares") to Shares of a different Corporate Class will constitute a disposition of such switched Shares at fair market value for the purposes of the Tax Act.

Costs Associated with Switches

Shareholders may have to pay their financial advisor, investment advisor or broker a transfer fee based on the value of the Shares that are switched.

Suspension and Restrictions on Switches

The Manager has the right to decline any Switch request. Switches will only be transacted if the following conditions are met: (i) the minimum size of any Switch is equal to or greater than 2,500 Shares; (ii) the ETF Switch Date does not occur between the ex-date and the record date of a dividend payable by the Corporate Class on the Shares; (iii) the Switch will not result in the Corporate Class failing to meet the TSX minimum listing requirements; and (iv) in the event the Shareholder has enrolled in the dividend reinvestment plan of the Corporate Class, such Shareholder remains enrolled in the dividend reinvestment plan for the Shares of the Corporate Class into which such Shareholder is switching.

Book-Entry Only System

Registration of interests in, and transfers of, Securities of a CI First Asset ETF will be made only through the book-entry only system of CDS. Securities of a CI First Asset ETF must be purchased, transferred and surrendered for redemption only through a CDS Participant. All rights of an owner of Securities must be exercised through, and all payments or other property to which such owner is entitled will be made or delivered by, CDS or the CDS Participant through which the owner holds such Securities. Upon buying Securities of a CI First Asset ETF, the owner will receive only the customary confirmation. References in this prospectus to a holder of Securities means, unless the context otherwise requires, the owner of the beneficial interest of such Securities.

Neither a CI First Asset ETF nor the Manager will have any liability for: (i) records maintained by CDS relating to the beneficial interests in Securities or the book entry accounts maintained by CDS; (ii) maintaining, supervising or reviewing any records relating to such beneficial ownership interests; or (iii) any advice or representation made or given by CDS and made or given with respect to the rules and regulations of CDS or any action taken by CDS or at the direction of the CDS Participants.
The ability of a beneficial owner of Securities of a CI First Asset ETF to pledge such Securities or otherwise take action with respect to such owner’s interest in such Securities (other than through a CDS Participant) may be limited due to the lack of a physical certificate.

A CI First Asset ETF has the option to terminate registration of Securities through the book-entry only system in which case certificates for Securities in fully registered form will be issued to beneficial owners of such Securities or to their nominees.

**Short-Term Trading**

Unlike conventional open-end mutual funds in which short term trading by investors may cause the mutual fund to incur additional unnecessary trading costs in connection with the purchase of additional portfolio securities and the sale of portfolio securities to fund securityholder redemptions, the Manager does not believe that it is necessary to impose any short-term trading restrictions on the CI First Asset ETFs at this time as: (i) the CI First Asset ETFs are exchange-traded funds that are primarily traded in the secondary market; and (ii) the few transactions involving Securityholders of the CI First Asset ETFs that do not occur on the secondary market involve Designated Brokers and Dealers, who can only purchase or redeem Securities in a PNS and on whom the Manager may impose an redemption fee. The redemption fee is intended to compensate the CI First Asset ETFs for any costs and expenses incurred by the CI First Asset ETFs in order to fund the redemption.

**PRIOR SALES**

**Trading Price and Volume**

The price ranges and volume of Securities of each CI First Asset ETF traded on the TSX for each month or partial month, as applicable, during the 12 months preceding the date of this prospectus are described in the ETF profiles attached as Schedule A to this prospectus beginning on page 92.

**INCOME TAX CONSIDERATIONS**

The following is, as of the date hereof, a summary of the principal Canadian federal income tax considerations under the Tax Act generally applicable to the acquisition, holding and disposition of Securities of a CI First Asset ETF by a Securityholder of the CI First Asset ETF who acquires Securities of the CI First Asset ETF pursuant to this prospectus. This summary only applies to a prospective Securityholder of a CI First Asset ETF who is an individual (other than a trust) resident in Canada for purposes of the Tax Act, who deals at arm’s length with the CI First Asset ETF and the Designated Broker or Dealer and is not affiliated with the CI First Asset ETF or the Designated Broker or Dealer and who holds Securities of the CI First Asset ETF as capital property (a “Holder”).

Generally, Securities of a CI First Asset ETF will be considered to be capital property to a Holder provided that the Holder does not hold such Units in the course of carrying on a business of buying and selling securities and has not acquired them in one or more transactions considered to be an adventure or concern in the nature of trade. Certain Holders who might not otherwise be considered to hold Securities of the CI First Asset ETF as capital property may, in certain circumstances, be entitled to have such Securities and all other “Canadian securities” owned or subsequently acquired by them treated as capital property by making the irrevocable election permitted by subsection 39(4) of the Tax Act. This summary does not apply to a Holder who has entered or will enter into a “derivative forward agreement” as that term is defined in the Tax Act with respect to the Securities or any Basket of Securities disposed of in exchange for Securities.

This summary is based on the facts disclosed herein and assumes that at all times each CI First Asset ETF will comply with its investment restrictions, that none of the issuers of the securities in the portfolio of a CI First Asset ETF will be foreign affiliates of the CI First Asset ETF or of any Holder and that none of the securities in the portfolio of a CI First Asset ETF will be a “tax shelter investment” within the meaning of section 143.2 of the Tax Act.

Further, this summary assumes that none of the securities in the portfolio of a CI First Asset ETF will be an “offshore investment fund property” (or an interest in a partnership that holds such property) that would require the CI First Asset ETF (or the partnership) to include significant amounts in income pursuant to section 94.1 of the Tax Act, or...
an interest in a trust (or a partnership which holds such an interest) which would require the CI First Asset ETF (or the partnership) to report significant amounts of income in connection with such interest pursuant to the rules in section 94.2 of the Tax Act, or an interest in a non-resident trust other than an “exempt foreign trust” as defined in section 94 of the Tax Act (or a partnership which holds such an interest).

This summary is also based on the assumption that no Trust Fund will be subject to the tax for SIFT trusts for purposes of the Tax Act.

This summary is based on the current provisions of the Tax Act, and an understanding of the current publicly available administrative policies and assessing practices of the CRA published in writing prior to the date hereof. This summary takes into account proposed amendments to the Tax Act publicly announced by the Minister of Finance (Canada) prior to the date hereof (the “Tax Amendments”). This description is not exhaustive of all Canadian federal income tax consequences and does not take into account or anticipate changes in the law or in administrative policy or assessing practice, whether by legislative, governmental or judicial action other than the Tax Amendments in their present form, nor does it take into account provincial, territorial or foreign tax considerations which may differ significantly from those discussed herein. There can be no assurance that the Tax Amendments will be enacted in the form publicly announced, or at all.

This summary is not exhaustive of all possible Canadian federal income tax considerations applicable to an investment in Securities of a CI First Asset ETF. This summary does not address the deductibility of interest on any funds borrowed by an investor to purchase Securities of a CI First Asset ETF. The income and other tax consequences of investing in Securities will vary depending on an investor’s particular circumstances including the province or territory in which the investor resides or carries on business. Accordingly, this summary is of a general nature only and is not intended to be, nor should it be construed to be, legal or tax advice to any investor in Securities of a CI First Asset ETF. Prospective investors should consult their own tax advisors with respect to the income tax consequences to them of an acquisition of Securities of a CI First Asset ETF based on their particular circumstances.

Trust Funds

Status of the Trust Funds

This summary is based on the assumption that each Trust Fund qualifies or will be deemed to qualify at all relevant times as a “mutual fund trust” within the meaning of the Tax Act, that each Trust Fund has elected or will elect under the Tax Act to be a mutual fund trust from the date it was established, and that each Trust Fund has not been established and has not and will not be maintained primarily for the benefit of non-residents at any time unless, at that time, substantially all of its property consists of property other than property that would be “taxable Canadian property” within the meaning of the Tax Act (if the definition of such term were read without reference to paragraph (b) of that definition).

If a Trust Fund were not to qualify or be deemed to qualify as a mutual fund trust at all times, the income tax considerations described below would, in some respects, be materially and adversely different in respect of that Trust Fund than would be the case if it were a mutual fund trust.

Provided the Units of a Trust Fund are listed on a “designated stock exchange” (within the meaning of the Tax Act, which currently includes the TSX) or the Trust Fund qualifies as a “mutual fund trust” within the meaning of the Tax Act, Units of that Trust Fund will be qualified investments under the Tax Act for a trust governed by a Plan. See “Income Tax Considerations – Taxation of Plans” for the consequences of holding Units in Plans.

Taxation of the Trust Funds

Each of the Trust Funds has elected or will elect to have a taxation year that ends on December 15 of each calendar year. A Trust Fund must pay tax on its net income (including net realized taxable capital gains) for a taxation year, less the portion thereof that it deducts in respect of the amount paid or payable (or deemed to be paid or payable) to its Unitholders in the calendar year in which the taxation year-end falls. An amount will be considered to be payable to a Unitholder of a Trust Fund in a calendar year if it is paid to the Unitholder in that year by the Trust Fund
or if the Unitholder is entitled in that year to enforce payment of the amount. The Declaration of Trust requires that sufficient amounts be paid or made payable in respect of each taxation year so that no Trust Fund is liable for any non-refundable income tax under Part I of the Tax Act.

A Trust Fund will be required to include in its income for each taxation year any dividends received (or deemed to be received) by it in such year on a security held in its portfolio.

With respect to indebtedness, including a convertible debenture, a Trust Fund will be required to include in its income for a taxation year all interest thereon that accrues (or is deemed to accrue) to it to the end of that year (or until the disposition of the indebtedness in the year) or that has become receivable or is received by the Trust Fund before the end of that year, including on a conversion, redemption or repayment on maturity, except to the extent that such interest was included in computing the Trust Fund’s income for a preceding taxation year, or in the case of the CI First Asset 1-5 Year Laddered Government Strip Bond ETF, may be considered a recovery of such Trust Fund’s cost and excluding any interest that accrued prior to the time of the acquisition of the indebtedness by the Trust Fund. With respect to Strip Bonds (as defined in Schedule A), the CI First Asset 1-5 Year Laddered Government Strip Bond ETF will generally be required to include annually in income notional interest deemed to have accrued on the Strip Bonds from the date of purchase, notwithstanding that there is no entitlement to periodic payments of interest under the Strip Bonds.

On a conversion by a Trust Fund of a convertible debenture into shares of a corporation, the Trust Fund will be considered not to have disposed of the convertible debenture and to have acquired the shares at a cost equal to the adjusted cost base to the Trust Fund of the convertible debenture immediately before the exchange.

On a conversion by a Trust Fund of a convertible debenture into units of a trust or partnership, the Trust Fund will be considered to have disposed of the convertible debenture for proceeds of disposition equal to the aggregate of the fair market value of the units so acquired at the time of the conversion (other than any units received in payment of interest) and the amount of any cash received in lieu of fractional units.

On a redemption or repayment of a convertible debenture, a Trust Fund will be considered to have disposed of the convertible debenture for proceeds of disposition equal to the amount received by the Trust Fund (other than any amount received on account of interest) on such redemption or repayment.

On any disposition by a Trust Fund of a convertible debenture, including on a conversion, interest accrued thereon to the date of disposition and not yet due will be included in computing the Trust Fund’s income, except to the extent such amount was otherwise included in the Trust Fund’s income, and will be excluded in computing the Trust Fund’s proceeds of disposition of the convertible debenture.

In general, a Trust Fund will realize a capital gain (or capital loss) upon the actual or deemed disposition of a security included in its portfolio to the extent the proceeds of disposition, net of any amounts included as interest on the disposition of the security and any reasonable costs of disposition, exceed (or are less than) the adjusted cost base of such security, unless the Trust Fund were considered to be trading or dealing in securities or otherwise carrying on a business of buying and selling securities or the Trust Fund has acquired the security in a transaction or transactions considered to be an adventure or concern in the nature of trade. Each Trust Fund purchases the securities in its portfolio with the objective of receiving distributions and income thereon and takes the position that gains and losses realized on the disposition of its securities are capital gains and capital losses. CI First Asset 1-5 Year Laddered Government Strip Bond ETF’s adjusted cost base of a Strip Bond generally will be the aggregate of such CI First Asset ETF’s cost of the Strip Bond and all amounts deemed to have accrued to such CI First Asset ETF as interest to the date of disposition or deemed disposition and included in such CI First Asset ETF’s income. Each Trust Fund has made an election under subsection 39(4) of the Tax Act so that all securities held by the Trust Fund that are “Canadian securities” (as defined in the Tax Act), including Canadian securities acquired in connection with a short sale, will be deemed to be capital property to the Trust Fund.

Each Trust Fund is entitled for each taxation year throughout which it is a mutual fund trust for purposes of the Tax Act to reduce (or receive a refund in respect of) its liability, if any, for tax on its net realized capital gains by an amount determined under the Tax Act based on the redemptions of Units during the year (the “Capital Gains Refund”). The Capital Gains Refund in a particular taxation year may not completely offset the tax liability of a Trust
Fund for such taxation year which may arise upon the sale or other disposition of securities included in the portfolio in connection with the redemption of Units.

In general, gains and losses realized by a Trust Fund from derivative transactions, including short sales of securities other than Canadian securities, will be on income account except where such derivatives are used to hedge portfolio securities held on capital account provided there is sufficient linkage, subject to the DFA Rules discussed below, and such gains and losses will be recognized for tax purposes at the time they are realized by the Trust Fund.

A loss realized by a Trust Fund on a disposition of capital property will be a suspended loss for purposes of the Tax Act if the Trust Fund, or a person affiliated with the Trust Fund, acquires a property (a “substituted property”) that is the same as or identical to the property disposed of, within 30 days before and 30 days after the disposition and the Trust Fund, or a person affiliated with the Trust Fund, owns the substituted property 30 days after the original disposition. If a loss is suspended, a Trust Fund cannot deduct the loss from the Trust Fund’s capital gains until the substituted property is disposed of and is not reacquired by the Trust Fund, or a person affiliated with the Trust Fund, within 30 days before and after the disposition.

Any premiums received on covered call options written by a Trust Fund which are not exercised prior to the end of the taxation year constitute capital gains of such Trust Fund in the taxation year received, unless such premiums are received by such Trust Fund as income from a business or such Trust Fund has engaged in a transaction or transactions considered to be an adventure or concern in the nature of trade. Each Trust Fund that writes covered call options purchases the securities in its portfolio with the objective of receiving dividends and distributions thereon over the life of the Trust Fund and writes covered call options with the objective of increasing the yield on the portfolio beyond the dividends and distributions received. Having regard to the foregoing, the covered option writing strategy of such Trust Funds, and in accordance with the CRA’s published administrative policies, transactions undertaken by such Trust Fund in respect of options on the securities in its portfolio are on capital account and such Trust Fund reports such transactions on capital account.

Premiums received by a Trust Fund on covered call options which are subsequently exercised are added in computing the proceeds of disposition of the Trust Fund of the securities disposed of by the Trust Fund upon the exercise of such call options. In addition, where a covered call option is exercised after the end of the taxation year in which it was granted and where this results in the Trust Fund disposing of securities, the Trust Fund’s capital gain in the previous taxation year in respect of the receipt of the option premium will be reversed.

The Trust Funds may enter into transactions denominated in currencies other than the Canadian dollar, including the writing of covered call options (in the case of certain Trust Funds) and the acquisition of securities in their portfolios. The cost and proceeds of disposition of securities, dividends, interest and all other amounts will be determined for the purposes of the Tax Act in Canadian dollars using the appropriate exchange rates determined in accordance with the detailed rules in the Tax Act in that regard. The amount of income, gains and losses realized by a Trust Fund may be affected by fluctuations in the value of foreign currencies relative to the Canadian dollar. Gains or losses in respect of currency hedges entered into in respect of covered call options or amounts invested in the portfolio of a Trust Fund should constitute capital gains and capital losses to the Trust Fund if the securities in the Trust Fund’s portfolio are capital property to the Trust Fund and provided there is sufficient linkage.

The Tax Act contains rules (the “DFA Rules”) that target certain financial arrangements (described in the DFA Rules as “derivative forward agreements”) that seek to reduce tax by converting, through the use of derivative contracts, the return on an investment that would have the character of ordinary income to capital gains. The DFA Rules are broad in scope and could apply to other agreements or transactions (including certain options). If the DFA Rules were to apply in respect of derivatives utilized by a Trust Fund, gains realized in respect of the property underlying such derivatives could be treated as ordinary income rather than capital gains. Based on the covered call option writing strategy of the Trust Funds, the writing of such call option will not be subject to the DFA Rules.

Certain of the Trust Funds may derive income or gains from investments in countries other than Canada, and as a result, may be liable to pay income or profits tax to such countries. To the extent that such foreign tax paid by such a Trust Fund exceeds 15% of the amount included in the Trust Fund’s income from such investments, such excess may generally be deducted by the Trust Fund in computing its net income for the purposes of the Tax Act. To the extent that such foreign tax paid does not exceed 15% of such amount and has not been deducted in computing a
Trust Fund’s income, the Trust Fund may designate in respect of a Holder a portion of its foreign source income that can reasonably be considered to be part of the Trust Fund’s income distributed to such Holder so that such income and a portion of the foreign tax paid by the Trust Fund may be regarded as foreign source income of, and foreign tax paid by, the Holder for the purposes of the foreign tax credit provisions of the Tax Act.

With respect to an issuer that is a trust resident in Canada whose units are included in the portfolio of a Trust Fund and held as capital property for the purposes of the Tax Act, and that is not subject in a taxation year to tax under the rules in the Tax Act applicable to certain publicly traded trusts and partnerships (the “SIFT Rules”), the Trust Fund will be required to include in the calculation of its income for a taxation year the net income, including net taxable capital gains, paid or payable to the Trust Fund by such trust in the calendar year in which that taxation year ends, notwithstanding that certain of such amounts may be reinvested in additional units of the trust. Provided that appropriate designations are made by such trust, net taxable capital gains realized by the trust, foreign source income of the trust and taxable dividends from taxable Canadian corporations received by the trust that are paid or payable by the trust to the Trust Fund will effectively retain their character in the hands of the Trust Fund. The Trust Fund will be required to reduce the adjusted cost base of units of such trust by any amount paid or payable by the trust to the Trust Fund except to the extent that the amount was included in calculating the income of the Trust Fund or was the Trust Fund’s share of the non-taxable portion of capital gains of the trust, the taxable portion of which was designated in respect of the Trust Fund. If the adjusted cost base to the Trust Fund of such units becomes a negative amount at any time in a taxation year of the Trust Fund, that negative amount will be deemed to be a capital gain realized by the Trust Fund in that taxation year and the Trust Fund’s adjusted cost base of such units will be increased by the amount of such deemed capital gain to zero.

With respect to an issuer structured as a trust that is not resident in Canada, a Trust Fund will be required to include in the calculation of its income for a taxation year the net income for Canadian federal income tax purposes, including net taxable capital gains, paid or payable to the Trust Fund by the issuer in the year, notwithstanding that certain of such amounts may be reinvested in additional units of the issuer. Provided the units of the issuer are held by the Trust Fund as capital property for purposes of the Tax Act, the Trust Fund will be required to reduce the adjusted cost base of units of the issuer by an amount paid or payable by the issuer to the Trust Fund, except to the extent that the amount was included in calculating the income of the Trust Fund. If the adjusted cost base to the Trust Fund of such units becomes a negative amount at any time in a taxation year of the Trust Fund, that negative amount will be deemed to be a capital gain realized by the Trust Fund in that taxation year and the Trust Fund’s adjusted cost base of such units will be reset to zero.

With respect to an issuer that is a limited partnership whose securities are included in a Trust Fund’s portfolio and held as capital property for the purposes of the Tax Act, and that is not subject in a taxation year to tax under the SIFT Rules, the Trust Fund is required to include or, subject to certain restrictions, is entitled to deduct, in computing its income, its share of the net income or loss for tax purposes of the limited partnership allocated to the Trust Fund for the fiscal period of the limited partnership ending in the Trust Fund’s taxation year, whether or not a distribution is received. In general, the adjusted cost base of such securities is such securities’ cost to the Trust Fund plus the share of the income of the limited partnership allocated to the Trust Fund for fiscal years of the limited partnership ending before the particular time less the share of losses of the limited partnership allocated to the Trust Fund for fiscal years of the limited partnership ending before the particular time, and less the Trust Fund’s share of any distributions received from the limited partnership before the particular time. If the adjusted cost base to the Trust Fund of the securities of such a limited partnership is negative at the end of the fiscal year of the limited partnership, the amount by which it is negative is deemed to be a capital gain realized by the Trust Fund and the Trust Fund’s adjusted cost base of such securities is increased by the amount of such deemed capital gain.

Under the SIFT Rules, each issuer of securities in a Trust Fund’s portfolio that is a “SIFT trust” or “SIFT partnership” as defined under the SIFT Rules (which will generally include Income Trusts, other than certain real estate investment trusts, and certain partnerships, the units of which are listed or traded on a stock exchange or other public market) will be subject to a special tax in respect of (i) income from business carried on in Canada, and (ii) certain income and capital gains in respect of “non-portfolio properties” (collectively, “Non-Portfolio Income”). Non-Portfolio Income that is earned by a partnership that is a SIFT partnership or that is distributed by a SIFT trust to its unitholders will be taxed at a rate that is equivalent to the federal general corporate tax rate plus a prescribed amount on account of provincial tax. Non-Portfolio Income that is earned by a partnership that is a SIFT partnership, or becomes
payable by an issuer that is a SIFT trust, will generally be taxed as though it were a taxable dividend from a taxable Canadian corporation and will be deemed to be an “eligible dividend” eligible for the enhanced gross-up and tax credit rules.

The Portfolio Managers expect that most of the Income Trusts resident in Canada the units of which are included in the portfolio of a Trust Fund will be characterized as Income Trusts not subject to tax under the SIFT Rules.

A Trust Fund is entitled to deduct an amount equal to the reasonable expenses that it incurs in the course of issuing Units. Such issue expenses paid by a Trust Fund and not reimbursed are deductible by the Trust Fund rateably over a five-year period subject to reduction in any taxation year which is less than 365 days. In computing its income under the Tax Act, a Trust Fund may deduct reasonable administrative and other expenses incurred to earn income.

Losses incurred by a Trust Fund in a taxation year cannot be allocated to Holders, but may be deducted by the Trust Fund in future years in accordance with the Tax Act.

**Taxation of Holders of a Trust Fund**

A Holder will generally be required to include in computing income for a particular taxation year of the Holder such portion of the net income of a Trust Fund, including the taxable portion of any net realized capital gains, as is paid or becomes payable to the Holder in that particular taxation year (whether in cash or in Units, whether such amount is automatically reinvested in additional Units of the Trust Fund pursuant to the Reinvestment Plan or whether as a Management Fee Distribution). Amounts paid or payable by a Trust Fund to a Holder after December 15 and before the end of the calendar year are deemed to have been paid or become payable to the Holder on December 15.

Under the Tax Act, a Trust Fund is permitted to deduct in computing its income for a taxation year an amount that is less than the amount of its distributions of income for the year, to the extent necessary to enable the Trust Fund to use, in that year, losses from prior years without affecting the ability of the Trust Fund to distribute its income annually. In such circumstances, the amount distributed to a Holder of a Trust Fund but not deducted by the Trust Fund will not be included in the Holder’s income. However, the adjusted cost base of the Holder’s Units of the Trust Fund will be reduced by such amount. The non-taxable portion of a Trust Fund’s net realized capital gains for a taxation year, the taxable portion of which was designated in respect of a Holder in the calendar year in which that taxation year ends, that is paid or becomes payable to the Holder in the calendar year in which that taxation year ends will not be included in computing the Holder’s income for the year. Any other amount in excess of a Holder’s share of the net income of a Trust Fund for a taxation year that is paid or becomes payable to the Holder in the calendar year in which that taxation year ends (i.e. returns of capital) will not generally be included in the Holder’s income for the year, but will reduce the adjusted cost base of the Holder’s Units of the Trust Fund. To the extent that the adjusted cost base of a Unit of a Trust Fund to a Holder would otherwise be a negative amount, the negative amount will be deemed to be a capital gain and the adjusted cost base of the Unit to the Holder will be increased by the amount of such deemed capital gain to zero.

Provided that appropriate designations are made by a Trust Fund, such portion of the net realized taxable capital gains of the Trust Fund, the taxable dividends received or deemed to be received by the Trust Fund on shares of taxable Canadian corporations and foreign source income as is paid or becomes payable to a Holder will effectively retain its character and be treated as such in the hands of the Holder for purposes of the Tax Act. To the extent that amounts are designated as taxable dividends from taxable Canadian corporations, the gross-up and dividend tax credit rules will apply.

Any loss of a Trust Fund for purposes of the Tax Act cannot be allocated to, and cannot be treated as a loss of, a Holder.

On the disposition or deemed disposition of a Unit of a Trust Fund, including on a redemption, a Holder will realize a capital gain (or capital loss) to the extent that the Holder’s proceeds of disposition (which do not include any amount of capital gains payable by the Trust Fund to the Holder which represents capital gains realized by the Trust Fund in connection with dispositions to fund the redemption), net of any reasonable costs of disposition, exceed (or are less than) the adjusted cost base of the Unit. For the purpose of determining the adjusted cost base of a Holder’s Units of a particular class of a Trust Fund, when additional Units of that class of the Trust Fund are acquired by the
Holder (pursuant to the Reinvestment Plan or otherwise), the cost of the newly acquired Units of that class of the Trust Fund will be averaged with the adjusted cost base of all Units of the same class of the Trust Fund owned by the Holder as capital property immediately before that time. For this purpose, the cost of Units that have been issued on a distribution will generally be equal to the amount of the distribution. A consolidation of Units of a Trust Fund following a distribution paid in the form of additional Units of the Trust Fund will not be regarded as a disposition of Units of the Trust Fund and will not affect the aggregate adjusted cost base to a Holder.

In the case of an exchange of Units for a Basket of Securities, a Holder’s proceeds of disposition of Units would generally be equal to the aggregate of the fair market value of the distributed property and the amount of any cash received, less any capital gain realized by the Trust Fund on the disposition of such distributed property. The cost to a Holder of any property received from the Trust Fund upon the exchange will generally be equal to the fair market value of such property at the time of the distribution, less any amount that is deductible as interest accrued on such property to the date of distribution and not yet due. In the case of an exchange of Units for a Basket of Securities, the investor may receive securities that may or may not be qualified investments under the Tax Act for Plans. If such securities are not qualified investments for Plans, such Plans (and, in the case of certain Plans, the annuitants, beneficiaries or subscribers thereunder or holders thereof) may be subject to adverse tax consequences. Investors should consult their own tax counsel for advice on whether or not such securities would be qualified investments for Plans.

Pursuant to the Declaration of Trust, a Trust Fund may allocate and designate as payable any capital gains realized by the Trust Fund as a result of any disposition of property of the Trust Fund undertaken to permit or facilitate the redemption or exchange of Units to a Holder whose Units are being redeemed or exchanged. Any such allocations and designations will reduce the redemption price otherwise payable to the Holder and therefore the Holder’s proceeds of disposition. As described under “Risk Factors – General Risk Factors – Tax Risk”, draft legislation released by the Minister of Finance (Canada) on July 30, 2019 proposed amendments to the Tax Act that would be effective for taxation years of the Trust Funds beginning on or after March 20, 2020. Such amendments would deny a Trust Fund a deduction for the portion of a capital gain of the Trust Fund designated to a Unitholder in a redemption of Units that is greater than the Unitholder’s accrued gain on those Units, where the Unitholder’s proceeds of disposition are reduced by the designation.

In general, one-half of any capital gain (a “taxable capital gain”) realized by a Holder on the disposition of Units of a Trust Fund or a taxable capital gain designated by the Trust Fund in respect of the Holder in a taxation year of the Holder will be included in computing the Holder’s income for that year and one-half of any capital loss (an “allowable capital loss”) realized by the Holder in a taxation year of the Holder must be deducted from taxable capital gains realized by the Holder in the taxation year or designated by the Trust Fund in respect of the Holder in the taxation year in accordance with the detailed provisions of the Tax Act. Allowable capital losses for a taxation year in excess of taxable capital gains for that taxation year may be carried back and deducted in any of the three preceding taxation years or carried forward and deducted in any subsequent taxation year against net taxable capital gains in accordance with the provisions of the Tax Act.

Each Holder who pays for Units of a Trust Fund by delivering a Basket of Securities will be disposing of securities in exchange for Units. Assuming that such securities are held by the Holder as capital property for purposes of the Tax Act, the Holder will generally realize a capital gain (or a capital loss) in the taxation year of the Holder in which the disposition of such securities takes place to the extent that the proceeds of disposition for such securities, net of any reasonable costs of disposition, exceed (or are less than) the adjusted cost base of such securities to the Holder. For this purpose, the proceeds of disposition to the Holder of securities disposed of will equal the aggregate of the fair market value of the Units received for the securities. The cost to a Holder of Units acquired in exchange for a Basket of Securities and cash (if any) will be equal to the aggregate of the cash paid (if any) to a Trust Fund plus the fair market value of the securities disposed of in exchange for Units at the time of disposition, which sum would generally be equal to or would approximate the fair market value of the Units received as consideration in exchange for a Basket of Securities and cash (if any).

A Holder will be required to compute all amounts, including the adjusted cost base of Units of the applicable Trust Fund and proceeds of disposition, in Canadian dollars in accordance with the detailed rules in the Tax Act. Accordingly, all U.S. dollar amounts relevant in computing any amount under the Tax Act with respect to the US$
Common Units, including the acquisition, holding or disposition thereof, will be determined for purposes of the Tax Act in Canadian dollars at the appropriate exchange rate prevailing on the date of the transaction in accordance with the rules in the Tax Act. Holders of US$ Common Units may realize gains and losses by virtue of the fluctuation in the value of U.S. dollars relative to Canadian dollars. Amounts designated by a Trust Fund to a Holder of the Trust Fund as taxable capital gains or dividends from taxable Canadian corporations, and taxable capital gains realized on the disposition of Units of the Trust Fund may increase the Holder’s liability for alternative minimum tax.

**Tax Implications of the Trust Fund’s Distribution Policy**

The NAV per Unit of a Trust Fund will, in part, reflect income and capital gains that the Trust Fund has accrued or realized, but not yet paid out as a distribution. Accordingly, an investor who acquires Units of a Trust Fund at any time in the year, including on a reinvestment of distributions or a distribution of Units, but prior to a distribution being paid or made payable will have to pay tax on the entire distribution (to the extent it is a taxable distribution) notwithstanding that such amounts may have been reflected in the price paid by the investor for the Units. Further, where an investor acquires Units in a calendar year after December 15 of such year, such investor may become taxable on income earned or capital gains realized in the taxation year ending on December 15 of such calendar year but that had not been made payable before the Units were acquired.

**Corporate Classes**

**Status of the Company**

The Company intends at all relevant times to qualify as a “mutual fund corporation” as defined in the Tax Act.

If the Company were not to qualify as a mutual fund corporation at all times, the income tax considerations described below would, in some respects, be materially and adversely different.

Provided the Shares of the Corporate Classes are listed on a “designated stock exchange” (within the meaning of the Tax Act, which currently includes the TSX) or the Company qualifies as a “mutual fund corporation” within the meaning of the Tax Act, Shares of the Corporate Classes will be qualified investments under the Tax Act for a trust governed by a Plan. See “Income Tax Considerations – Taxation of Plans” for the consequences of holding Shares in Plans.

**Taxation of the Corporate Classes**

Each of the Corporate Classes is a separate Corporate Class of the Company. Although the Company may issue any number of Corporate Classes, in any number of series, it must (like any other mutual fund corporation with a multi-class structure) compute its income and net capital gains for tax purposes as a single entity. All of the Company’s revenues, deductible expenses, non-capital losses, capital gains and capital losses in connection with all of its investment portfolios, and other items relevant to its tax position (including the tax attributes of all of its assets), will be taken into account in determining the income (and taxable income) or loss of the Company and applicable taxes payable by the Company as a whole. For example, expenses, tax deductions and losses arising from the Company’s investments and activities in respect of one Corporate Class may be deducted or offset against income or gains arising from the Company’s investments and activities in respect of other Corporate Classes. As a result of the Company being required to calculate its income as a single entity and not being able to flow all of its income through to its shareholders, the overall result for a Holder of a particular Corporate Class will differ from what would be the case if the Holder had invested in a mutual fund trust, or a single-class mutual fund corporation, that made the same investments as the particular Corporate Class.

The Company will, on a discretionary basis, allocate the income, capital gains, losses, and taxes payable and recoverable of the Company to each of the Corporate Classes.

Capital gains may be realized by the Company in a variety of circumstances, including on the disposition of portfolio assets of the Company as a result of shareholders of the Company switching their shares for shares of another Corporate Class.
The Company has elected in accordance with the Tax Act to have each of its "Canadian securities" treated as capital property.

As a mutual fund corporation, the Company is entitled, in certain circumstances, to a refund of tax paid by it in respect of its net realized capital gains determined on a formula basis that is based in part on the redemption of the Shares and switching of Shares for Shares of another Corporate Class ("Capital Gains Redemption"). Also, as a mutual fund corporation, the Company is entitled to maintain a capital gains dividend account in respect of its net realized capital gains and from which it may elect to pay dividends ("Capital Gains Dividends") which are treated as capital gains in the hands of Holders (see "Taxation of Holders of Shares" below). In certain circumstances where the Company has recognized a capital gain in a taxation year, it may elect not to pay Capital Gains Dividends in that taxation year in respect thereof and instead pay refundable capital gains tax, which may in the future be fully or partially refundable upon the payment of sufficient Capital Gains Dividends and/or Capital Gains Redemptions. Where the Company has realized a capital loss in a taxation year, it may carry such capital loss back three years or forward indefinitely to offset capital gains recognized by the Company in accordance with the rules of the Tax Act.

In computing income for a taxation year, the Company is required to include in income all dividends received by the Company in the year (other than Capital Gains Dividends received from other ETFs that are mutual fund corporations which are treated as capital gains in the hands of the Company). In computing taxable income, the Company is generally permitted to deduct all dividends received by it from taxable Canadian corporations.

The Company qualifies as a "financial intermediary corporation" (as defined in the Tax Act) and, thus, is not subject to tax under Part IV.1 of the Tax Act on dividends received by the Company and is not generally liable to tax under Part VI.1 of the Tax Act on dividends paid by the Company on "taxable preferred shares" (as defined in the Tax Act). As a mutual fund corporation (which is not an "investment corporation" as defined in the Tax Act), the Company is generally subject to a refundable tax under Part IV of the Tax Act on taxable dividends received by the Company during the year to the extent that such dividends were deductible in computing the Company’s taxable income for the year. This tax is fully refundable upon payment by the Company of sufficient dividends other than Capital Gains Dividends ("Ordinary Dividends").

With respect to indebtedness, the Company is required to include in its income for a taxation year all interest thereon that accrues (or is deemed to accrue) to it to the end of that year (or until the disposition of the indebtedness in the year) or that has become receivable or is received by the Company before the end of that year, including on a conversion, redemption or repayment on maturity, except to the extent that such interest was included in computing the Company’s income for a preceding year and excluding any interest that accrued prior to the time of the acquisition of the indebtedness by the Company.

To the extent that the Company earns net income (other than dividends from taxable Canadian corporations and taxable capital gains and after available deductions), including in respect of interest and dividends and other income from non-Canadian sources (including income from other ETFs that are not resident in Canada), the Company will be subject to income tax on such net income at rates applicable to mutual fund corporations and no refund will be available in respect thereof.

Premiums received on covered call options written by CI First Asset CanBanc Income Class ETF which are not exercised prior to the end of the year will constitute capital gains of the Company in the year received, unless such premiums are received by the Company as income from a business or the Company has engaged in a transaction or transactions considered to be an adventure in the nature of trade. CI First Asset CanBanc Income Class ETF purchases the securities in its portfolio with the objective of receiving dividends thereon over the life of CI First Asset CanBanc Income Class ETF and writes covered call options with the objective of increasing the yield on its portfolio beyond the dividends received. Having regard to the foregoing, and in accordance with the CRA’s published administrative policies, transactions undertaken by CI First Asset CanBanc Income Class ETF in respect of options on the securities in its portfolio written as described in “Investment Strategies – Covered Call Option Writing Strategies of Certain CI First Asset ETFs” are on capital account and the Company reports such transactions on capital account.

Premiums received by the Company on covered call options which are subsequently exercised will be added in computing the proceeds of disposition to the Company of the securities disposed of by the Company upon the exercise of such call options. In addition, where a covered call option is exercised after the end of the year in which
it was granted and where this results in the Company disposing of securities, the Company’s capital gain in the previous year in respect of the receipt of the option premium will be reversed.

In general, gains and losses realized by the Company from derivative transactions, including short sales of securities other than Canadian securities, will be on income account except where such derivatives are used to hedge portfolio securities held on capital account provided there is sufficient linkage, subject to the DFA Rules discussed below, and such gains and losses will be recognized for tax purposes at the time they are realized by the Company.

The Corporate Classes may enter into transactions (including, in the case of CI First Asset CanBanc Income Class ETF, the writing of call options) denominated in currencies other than the Canadian dollar. The cost and proceeds of disposition of securities, dividends, interest and all other amounts will be determined for the purposes of the Tax Act in Canadian dollars using the appropriate exchange rates determined in accordance with the detailed rules in the Tax Act in that regard. The amount of income, gains and losses realized by a Corporate Class may be affected by fluctuations in the value of foreign currencies relative to the Canadian dollar. Gains or losses in respect of currency hedges entered into in respect of amounts invested in the portfolio of a Corporate Class and gains or losses in respect of currency hedges entered into in respect of covered call options written in respect of securities held in the portfolio of CI First Asset CanBanc Income Class ETF will constitute capital gains and capital losses to the Company if the securities in the Corporate Class’s portfolio are capital property to the Corporate Class and provided there is sufficient linkage.

The DFA Rules are broad in scope and could apply to other agreements or transactions (including certain options). If the DFA Rules were to apply in respect of derivatives utilized by a Corporate Class, gains realized in respect of the property underlying such derivatives could be treated as ordinary income rather than capital gains. Based on the covered call option writing strategy of CI First Asset CanBanc Income Class ETF, the writing of such call options should not be subject to the DFA Rules.

The Company may, at its option, pay special year-end dividends to Holders in the form of (a) a Capital Gains Dividend where the Company has net taxable capital gains upon which it would otherwise be subject to tax, or in order to recover refundable tax not otherwise recoverable upon payment of regular cash distributions, or (b) in the form of an Ordinary Dividend in order to recover refundable Part IV tax not otherwise recoverable upon payment of regular cash distributions.

The Company is entitled to deduct an amount equal to the reasonable expenses that it incurs in the course of issuing Shares of a Corporate Class. Such issue expenses paid by the Corporate Class and not reimbursed are deductible by the Company rateably over a five-year period subject to reduction in any taxation year which is less than 365 days. Generally, the Company is also entitled to deduct reasonable administrative and other ongoing expenses incurred by it for the purpose of earning income. Any non-capital losses incurred by the Company may generally be carried forward or back in accordance with the rules and limitations contained in the Tax Act and deducted in computing the taxable income of the Company.

A loss realized by the Company on a disposition of capital property will be a suspended loss for purposes of the Tax Act if the Company, or a person affiliated with the Company, acquires a property (a "substituted property") that is the same or identical to the property disposed of, within 30 days before and 30 days after the disposition and the Company, or a person affiliated with the Company, owns the substituted property 30 days after the original disposition. If a loss is suspended, the Company cannot deduct the loss from the Company’s capital gains until the substituted property is sold and is not reacquired within 30 days before and after the sale.

With respect to an income trust (including another ETF that is structured as a trust) that is resident in Canada whose units are included in the Company’s investment portfolio and held by the Company as capital property for the purposes of the Tax Act, and that is not subject in a taxation year to tax under the SIFT Rules, the Company is required to include in its income for a taxation year such portion of the net income and the taxable portion of net realized capital gains of such income trust as is paid or becomes payable to the Company by such trust in the calendar year in which that year of the Company ends, notwithstanding that certain of such amounts may be reinvested in additional securities of the income trust. Provided appropriate designations are made by the income trusts, any net taxable capital gains realized by the income trusts and taxable dividends received by the income trusts from taxable Canadian corporations that are paid or become payable to the Company effectively retain their character as such in
the hands of the Company. The Company is generally required to reduce the adjusted cost base of the units of such an income trust to the extent that all amounts paid or payable in a year by the income trust to the Company exceed the sum of the amounts included in the income of the Company for the year and the Company’s share of the non-taxable portion of capital gains of such income trust for the year, the taxable portion of which was designated in respect of the Company. To the extent that the adjusted cost base to the Company of the units of such income trust would otherwise be less than zero, the negative amount is deemed to be a capital gain realized by the Company and the Company’s adjusted cost base of such units will be increased by the amount of such deemed capital gain to zero.

Under the SIFT Rules, each issuer in the portfolio of the Company that is a SIFT trust of SIFT Partnership as defined under the SIFT Rules (which will generally include Income Trusts, other than certain real estate investment trusts, the units of which are listed or traded on a stock exchange or other public market) will be subject to a special tax in respect of its Non-Portfolio Income. Non-Portfolio Income that is earned by a partnership that is a SIFT partnership or that is distributed by a SIFT trust to its unitholders will be taxed at a rate that is equivalent to the federal general corporate tax rate plus a prescribed amount on account of provincial tax. Non-Portfolio Income that is earned by a partnership that is a SIFT partnership, or becomes payable by an issuer that is a SIFT trust, will generally be taxed as though it were a taxable dividend from a taxable Canadian corporation.

The Manager expects that most of the Income Trusts resident in Canada the units of which are included in the Company’s investment portfolio will be characterized as Income Trusts not subject to tax under the SIFT Rules.

The Company may derive income or gains from investments in countries other than Canada and, as a result, may be liable to pay income or profits tax to such countries. Generally, in computing the amount of its Canadian income taxes, the Company will be entitled to claim credits in respect of foreign taxes paid by the Company and foreign taxes withheld at source to the extent permitted by the detailed rules in the Tax Act. To the extent that a tax credit is not claimed, the Company will generally be able to deduct any foreign withholding taxes paid in computing its income.

Given the investment and distribution policies of the Company, and taking into account the deduction of expenses, any applicable loss carryforwards and taxable dividends on shares of taxable Canadian corporations, the Company does not expect to be subject to any appreciable amounts of non-refundable Canadian income tax.

**Taxation of Holders of Shares**

A Holder will be required to include in his or her income the Canadian dollar amount of any Ordinary Dividends paid on Shares of a Corporate Class, whether received in cash, in the form of Shares or as cash which is reinvested in additional shares. The dividend gross-up and tax credit treatment normally applicable to taxable dividends (including eligible dividends) paid by a taxable Canadian corporation will generally apply to such dividends.

If the Company pays a return of capital, such amount will generally not be taxable but will reduce the adjusted cost base of the Holder’s Shares of a Corporate Class in respect of which the return of capital was paid. However, where such returns of capital are reinvested in new Shares of the Corporate Class, the Holder’s overall adjusted cost base of such Shares will not be reduced. In the circumstance that reductions to the adjusted cost base of a Holder’s Shares of a Corporate Class would result in such adjusted cost base becoming a negative amount, that amount will be treated as a capital gain realized by the Holder of the Shares of the Corporate Class and the adjusted cost base will then be zero.

Capital Gains Dividends will be paid to Shareholders, at the discretion of the Company’s board of directors with respect to the timing, the amount and, if applicable, the Corporate Classes on which the dividends will be paid, out of the capital gains realized by the Company, including capital gains realized on the disposition of portfolio assets occurring as a result of Holders switching their Shares of a Corporate Class into shares of another Corporate Class, if applicable. The amount of a Capital Gains Dividend paid to a Holder will be treated as a capital gain in the hands of the Holder from the disposition of capital property in the taxation year in which the Capital Gains Dividend is received, and will be subject to the general rules relating to the taxation of capital gains which are described below.

Where an Ordinary Dividend or a Capital Gains Dividend is paid in Shares of a Corporate Class, or in cash which is reinvested in Shares of the Corporate Class, the cost of such Shares will be equal to the amount of the dividend. The adjusted cost base of each Share of a Corporate Class to a Holder will generally be the weighted average of the cost
of the Shares of the Corporate Class acquired by the Holder at a particular time and the aggregate adjusted cost base
of any Shares of the same class and series held as capital property immediately before the particular time.

Generally, a Holder who receives a Management Fee Rebate in a particular taxation year will include the amount of
such rebate in income for that year. Shareholders should consult their own tax advisors with respect to the tax
treatment of Management Fee Rebates.

Under the Tax Act, the switch by a Holder of Shares of a Corporate Class into shares of another Corporate Class will
be a disposition of the switched Shares for purposes of the Tax Act for proceeds of disposition equal to the fair
market value, at the time of the switch, of the shares of the other Corporate Class received pursuant to the switch.
As a result, a Holder of such Shares may realize a capital gain or capital loss on such switched Shares as discussed
below. The cost of the shares of the other Corporate Class acquired on the switch will be equal to the fair market
value of the switched Shares at the time of the switch. Any redemption of fractional Shares for cash proceeds as the
result of a switch will also result in a capital gain (or capital loss) to the holder of such Shares.

Upon the actual or deemed disposition of a Share of a Corporate Class, including the redemption of a Share of a
Corporate Class for cash proceeds or on a switch, a capital gain (or a capital loss) will generally be realized to the
extent that the proceeds of disposition of the Share exceed (or are exceeded by) the aggregate of the adjusted cost
date to the holder of such Share and the costs of disposition. One-half of a capital gain (a “taxable capital gain”) real
ized on the disposition will be included in income as a taxable capital gain. One-half of any capital loss (an
“allowable capital loss”) realized may be deducted against any taxable capital gains, subject to and in accordance
with the detailed rules of the Tax Act. Allowable capital losses for a taxation year in excess of taxable capital gains
for that taxation year may be carried back and deducted in any of the three preceding taxation years or carried
forward and deducted in any subsequent taxation year against taxable capital gains in accordance with the detailed
provisions of the Tax Act.

In certain situations where a Holder disposes of Shares of a Corporate Class of the Company and would otherwise
realize a capital loss, the loss will be denied. This may occur if the Holder, the Holder’s spouse or another person
affiliated with the Holder (including a corporation controlled by the Holder) has acquired Shares of a Corporate Class
of the Company which are considered to be “substituted property” within 30 days before or after the Holder disposed
of the Shares of the Corporate Class. For this purpose, Shares of the same Corporate Class of the Company that are
disposed of by the Holder are considered to be “substituted property”, and under current published administrative
policy of the CRA, Shares of another Corporate Class of the Company may also be considered to be “substituted
property”. The amount of the denied capital loss will generally be added in computing the aggregate adjusted cost
date to the owner of the Shares which are “substituted property”.

Where Shares of a Corporate Class are exchanged by a redeeming Holder for Baskets of Securities, or where
securities are received by a Holder on a distribution in specie on the termination of a Corporate Class, the proceeds
der by disposition to the Holder will be equal to the fair market value of the securities so received, plus the amount of
any cash received on the exchange. The cost for tax purposes of securities acquired by a redeeming Holder on the
exchange or redemption of Shares of a Corporate Class will generally be the fair market value of such securities at
that time.

In general terms, individuals (other than certain trusts) who realize net taxable capital gains or receive dividends
from a Corporate Class may be subject to an alternative minimum tax under the Tax Act.

**Tax Implications of the Corporate Classes’ Distribution Policy**

The NAV per Share of a Corporate Class will, in part, reflect income and capital gains of the Corporate Class that have
accrued or been realized, but have not been distributed. Having regard to the distribution policy of the Corporate
Classes, an investor acquiring Shares of a Corporate Class, including on a reinvestment of dividends or a dividend
paid in Shares, may become taxable on the investor’s share of taxable dividends and capital gains of the Corporate
Class notwithstanding that such amounts may have been reflected in the price paid by the investor for the Shares.
This could be particularly significant if an investor acquires Shares near year-end before a special year-end
distribution is paid.
Taxation of Plans

Amounts of income and capital gains included in a Plan’s income from Securities are generally not taxable under Part I of the Tax Act provided the Securities are “qualified investments” for the Plan and in the case of certain Plans, not “prohibited investments” for the Plan. However, amounts withdrawn from a Plan may be subject to tax (other than a return of contributions from a RESP or certain withdrawals from a RDSP, and withdrawals from a TFSA).

Investors should consult with their own advisors regarding the tax implications of establishing, amending, terminating or withdrawing amounts from a Plan.

Eligibility for Investment

Provided that a Trust Fund qualifies or is deemed to qualify as a mutual fund trust or the Company qualifies as a mutual fund corporation within the meaning of the Tax Act, as applicable, or the Securities of the applicable CI First Asset ETF are listed on a designated stock exchange within the meaning of the Tax Act (which currently includes the TSX), the Securities of that CI First Asset ETF will be “qualified investments” for the Plan for purposes of the Tax Act.

Notwithstanding that Securities of a CI First Asset ETF may be “qualified investments” for a Plan, the holder of a TFSA or RDSP, the annuitant under an RRSP or RRIF and the subscriber of an RESP (each a “Plan Holder”) will be subject to a penalty tax in respect of Securities held by such TFSA, RDSP, RRSP, RRIF or RESP, as the case may be, if such Securities are a “prohibited investment” for such Plans for the purposes of the Tax Act. Generally, Securities of a CI First Asset ETF would be a prohibited investment for a Plan if the Plan Holder (i) does not deal at arm’s length with the applicable Trust Fund or the Company, as applicable, for purposes of the Tax Act; or (ii) has a “significant interest” as defined in the Tax Act in the applicable Trust Fund or the Company, as applicable.

Securities of a CI First Asset ETF will not be a “prohibited investment” if such Securities are “excluded property” as defined in the Tax Act for your Plan. Under a safe harbour for new mutual funds, Securities of a CI First Asset ETF may be “excluded property” at any time during the first 24 months of the CI First Asset ETF’s existence provided that, as applicable, the CI First Asset ETF is, or is deemed to be, a mutual fund trust under the Tax Act, or the Company is a mutual fund corporation, and the CI First Asset ETF remains in substantial compliance with the requirements of NI 81-102 or follows a reasonable policy of investment diversification within the period. Investors should consult their own tax advisors for advice with respect to whether Securities of a CI First Asset ETF would be a “prohibited investment” for their Plans.

Securities received on the redemption of Shares or Units of a CI First Asset ETF, as applicable, may not be “qualified investments” for Plans. Investors should consult their own tax advisors for advice on whether or not such securities would be “qualified investments” and not “prohibited investments” for their Plans.

ORGANIZATION AND MANAGEMENT DETAILS OF THE CI FIRST ASSET ETFS

Manager of the CI First Asset ETFs

CI, a registered portfolio manager and investment fund manager, is the promoter and manager of each CI First Asset ETF and the trustee of the Trust Funds. The Manager’s principal office is located at 2 Queen Street East, 20th Floor, Toronto, Ontario MSC 3G7. The Manager is a wholly-owned subsidiary of CI Financial Corp. (TSX: CIX). The Manager performs or arranges for the performance of management services for each CI First Asset ETF, is responsible for the administration of each CI First Asset ETF, and provides investment advisory and portfolio management services to the CI Advised ETFs (as defined herein). The Manager is entitled to receive fees as compensation for management services rendered to each CI First Asset ETF.

Duties and Services Provided by the Manager to the Trust Funds

Pursuant to the Declaration of Trust, unless a Portfolio Manager has been appointed in respect of a Trust Fund, the Manager is responsible for execution of each Trust Fund’s investment strategy, and also provides and/or arranges for the provision of required administrative services to the Trust Fund including, without limitation: investment advisory and portfolio management services, implementation of the Trust Fund’s investment strategies, negotiating contracts with certain third-party service providers, including, but not limited to, investment managers, custodians, registrars, transfer agents, auditors and printers; authorizing the payment of operating expenses incurred on behalf
of the Trust Fund; maintaining accounting records; preparing the reports to Unitholders and to the applicable Canadian securities regulatory authorities; calculating the amount and determining the frequency of distributions by the Trust Fund; preparing financial statements, income tax returns and financial and accounting information as required; ensuring that Unitholders are provided with financial statements and other reports as are required from time to time by applicable law; ensuring that the Trust Fund complies with all other regulatory requirements including continuous disclosure obligations under applicable securities laws; administering purchases, redemptions and other transactions in Units; arranging for any payments required upon termination of the Trust Funds; and dealing and communicating with Unitholders. The Manager will provide office facilities and personnel to carry out these services, if not otherwise furnished by any other service provider to the Trust Funds. The Manager will also monitor the investment strategy of each Trust Fund to ensure that each Trust Fund complies with its investment objective, investment strategies and investment restrictions and practices.

No manager of a Trust Fund shall be a person who (i) is not a resident of Canada for purposes of the Tax Act, or (ii) does not agree to carry out its functions of managing the Trust Fund in Canada.

Pursuant to the Declaration of Trust, the Manager has full authority and responsibility to manage and direct the business and affairs of each Trust Fund, to make all decisions regarding the business of the Trust Fund and to bind the Trust Fund. The Manager may delegate certain of its powers to third parties where, in the discretion of the Manager, it would be in the best interests of the Trust Funds to do so.

The Manager is required to exercise its powers and discharge its duties honestly, in good faith and in the best interests of the Unitholders of the Trust Funds, and to exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances. The Declaration of Trust provides that the Manager will not be liable to a Trust Fund or to any Unitholder or any other person for any loss or damage relating to any matter regarding that Trust Fund, including any loss or diminution of value of the assets of the Trust Fund if it has satisfied its standard of care set forth above.

The Manager and each of its directors, officers, employees and agents may be indemnified out of the assets of a Trust Fund from and against all claims whatsoever, including costs, charges and expenses in connection therewith, brought, commenced or prosecuted against it for or in respect of any act, deed, matter or thing whatsoever made, done or omitted in or in relation to the execution of its duties to the Trust Fund as long as the person acted honestly and in good faith with a view to the best interests of the Trust Fund.

The Manager may resign upon 90 days’ prior written notice to the Trustee (defined below) or upon such lesser notice period as the Trustee may accept. The Manager may also be removed by the Trustee on at least 90 days’ written notice to the Manager. The Trustee shall make every effort to select and appoint a successor manager prior to the effective date of the Manager’s resignation.

The Manager is entitled to fees for its services as manager under the Declaration of Trust as described under “Fees and Expenses” and will be reimbursed for all reasonable costs and expenses incurred by the Manager on behalf of a Trust Fund. The Manager may, in its discretion, terminate a Trust Fund without the approval of Unitholders if, in its opinion, it is no longer economically feasible to continue the Trust Fund and/or it would otherwise be in the best interests of Unitholders to terminate the Trust Fund.

The administration and management services of the Manager under the Declaration of Trust are not exclusive and nothing in the Declaration of Trust prevents the Manager from providing similar administrative and management services to other investment funds and other clients (whether or not their investment objectives and policies are similar to those of a Trust Fund) or from engaging in other activities.

**Duties and Services Provided by the Manager to the Corporate Classes**

Pursuant to the master management agreement dated September 18, 2015 between the Company and the Manager, as amended (the “Management Agreement”), the Manager is responsible for execution of each Corporate Class’ investment strategy and also provides and arranges for the provision of required administrative services to the Corporate Classes including, without limitation: authorizing the payment of operating expenses incurred on behalf of the Corporate Classes; preparing or causing to be prepared financial statements, financial and accounting information as required by the Corporate Classes; ensuring that the Shareholders of the Corporate Classes are
provided with financial statements (including semi-annual and annual financial statements) and other reports as are required by applicable law from time to time; ensuring that the Corporate Classes comply with regulatory requirements; preparing or causing to be prepared the reports of the Corporate Classes to Shareholders and the Canadian securities regulatory authorities; providing each of the Custodian and Valuation Agent with information and reports necessary for it to fulfil its responsibilities; determining the amount of distributions to be made by the Corporate Classes; and negotiating contractual agreements with third-party providers of services, including but not limited to, investment advisors, custodians, valuation agents, registrars, transfer agents, distribution agents, auditors and printers.

Any directors, officers or employees of the Manager who are also officers of the Company shall be paid by the Manager for serving in such capacity and shall not receive any remuneration directly from the Company.

**Details of the Management Agreement**

Pursuant to the Management Agreement, the Manager shall exercise the powers and discharge the duties of its office honestly, in good faith and in the best interests of the Corporate Classes and, in connection therewith, shall exercise the degree of care, diligence and skill that a reasonably prudent manager would exercise in similar circumstances. The Management Agreement provides that the Manager will not be liable in any way for default, failure or defect in the portfolio of any Corporate Class if it has satisfied the duties and standard of care, diligence and skill set forth above. The Manager is reimbursed by a Corporate Class for all reasonable costs and expenses incurred by the Manager on behalf of the Corporate Class as described above under the heading “Fees and Expenses”. In addition, the Manager and each of its directors, officers, employees, shareholders and agents are indemnified by each Corporate Class for all liabilities, costs and expenses incurred in connection with any action, suit or proceeding that is proposed or commenced, or other claim that is made against, the Manager, or any of its directors, officers, employees, shareholders or agents, in the exercise of its duties as Manager, except those resulting from the Manager’s wilful misconduct, bad faith, negligence, disregard of the Manager’s standard of care or material breach or default by the Manager of its obligations under the Management Agreement.

The Manager may resign as manager of a Corporate Class upon 60 days’ notice to the Shareholders of the Corporate Class and the Corporate Class. If the Manager resigns it may appoint its successor but, unless its successor is an affiliate of the Manager, its successor must be approved by the Shareholders of the Corporate Class. If the Manager is in material default of its obligations to a Corporate Class under the Management Agreement and such default has not been cured within 30 days after notice of same has been given to the Manager or upon certain actions relating to the bankruptcy or insolvency of the Manager, the Corporate Class shall give notice thereof to the Shareholders of the Corporate Class and the Shareholders may remove the Manager and appoint a successor manager. The Manager may resign on 20 business days’ written notice to a Corporate Class if the Corporate Class is in breach or default of the provisions of the Management Agreement and, if capable of being cured, such breach or default has not been cured by the Corporate Class within 20 business days’ notice of such breach or default to the Corporate Class. The Manager is deemed to resign if an order is made or a resolution is passed or other proceeding is taken for the dissolution of the Manager, or upon certain events of insolvency or bankruptcy with respect to the Manager.

In addition, if the Manager purchases or sells portfolio securities or takes any other action with respect to the portfolio of a Corporate Class that through inadvertence violates any investment objective, strategy or restriction applicable to the Corporate Class as described herein set forth and the violation has or will have a material adverse effect on the portfolio of the Corporate Class, then it will not be considered a material breach for purposes of any termination right in the Management Agreement if the Manager takes action that returns the portfolio of the Corporate Class to compliance with such investment objective, strategy or restriction within the cure period described above. In the event that the Manager resigns or is removed as described above, the Company shall promptly appoint a successor manager to carry out the activities of the Manager until a meeting of the Shareholders of the relevant Corporate Class is held to confirm such appointment by extraordinary resolution. The removal or resignation of the Manager will only become effective upon the appointment of a replacement manager. If, within 90 days from the notice of resignation or removal of the Manager, the Company has not appointed a replacement manager, the Shares of the relevant Corporate Class will be redeemed and the Corporate Class will be terminated.
The administration and management services of the Manager under the Management Agreement are not exclusive and nothing in the Management Agreement prevents the Manager from providing similar administrative and management services to other investment funds and other clients (whether or not their investment objectives and policies are similar to those of any of the Corporate Classes) or from engaging in other activities.

**Directors and Executive Officers of the Manager**

The name, municipality of residence, position and principal occupation of each of the directors and executive officers of the Manager are as follows:

<table>
<thead>
<tr>
<th>Name and municipality of residence</th>

</table>

Except where another company is disclosed above, all directors and executive officers have held position(s) with CI Investments Inc. for the last five (5) consecutive years. Where a director or executive officer has held multiple positions within CI Investments Inc. or another company for the last five (5) consecutive years, the above table generally sets out only the current or most recently-held position(s) held at such company. The start date for each position generally refers to the date on which the director or executive officer commenced the applicable position(s).

Elsa Li currently acts as corporate secretary for the Manager.
Directors and Executive Officers of the Company

As each Corporate Class is a class of shares in the capital of the Company, governance and management decisions are ultimately made by the board of directors of the Company. The Company’s board of directors may consist of a minimum of one and a maximum of 10 directors. The Company’s board of directors is currently composed of five directors, two of whom are unrelated directors within the meaning of the rules of the TSX and “independent” within the meaning of applicable securities legislation. Directors are appointed to serve on the board of directors until such time as they retire or are removed and successors are appointed. The name, municipality of residence, position with the Company and principal occupation of each of the directors and executive officers of the Company are as follows:

<table>
<thead>
<tr>
<th>Name and Municipality of Residence</th>
<th>Date Individual became a Director</th>
<th>Position with the Company</th>
<th>Principal Occupation</th>

Where a person has held multiple positions within a company, the above table generally sets out the current or most recently-held position or positions held at that company, while the start date generally refers to the date of the first position held at that company or the first of the listed positions held by the person at that company. Each director will hold his or her position until the next annual meeting of Shareholders of the Company or until his or her successor is elected or appointed.
Portfolio Managers

CI

The Manager’s portfolio management team is responsible for executing the investment strategy for the following CI First Asset ETFs (collectively, the “CI Advised ETFs”):

</tbody>
</table>

During the past five years, all of the individuals named above have been employed with Marret in different capacities.

Investment decisions by the above-named portfolio managers are not subject to oversight, approval or ratification of a committee.

**Marret Advisory Agreements**

Marret provides investment advisory and portfolio management services to CI First Asset Investment Grade Bond ETF pursuant to an investment advisory agreement between the Manager and Marret made as of August 19, 2016.
(the “FIG Agreement”), and to CI First Asset Enhanced Government Bond ETF and CI First Asset Enhanced Short Duration Bond ETF pursuant to an amended and restated investment advisory agreement between the Manager and Marret made as of July 20, 2018 (together with the FIG Agreement, the “Marret Advisory Agreements”). Decisions regarding the purchase and sale of portfolio securities and the execution of transactions for the portfolio will be made by Marret, in accordance with and subject to the terms of each applicable Marret Advisory Agreement. Subject to the terms of each Marret Advisory Agreement, Marret will implement the investment strategies of each Marret Advised ETF on an ongoing basis.

Under each Marret Advisory Agreement, Marret shall exercise its powers and duties fairly, honestly, in good faith and in the best interests of the applicable Marret Advised ETF and, in connection therewith, shall devote such time and attention, and shall exercise such degree of care, diligence and skill as reasonably may be expected of a prudent and experienced investment advisor in comparable circumstances. Each Marret Advisory Agreement provides that Marret will not be liable in any way under the agreement for any error of judgement or any other act or omission provided that Marret acted in good faith and in accordance with the standard of care.

Pursuant to each Marret Advisory Agreement, the Manager shall indemnify and save harmless Marret, its directors, officers, employees, agents and representatives from and against any claims or actions, and all expenses which Marret may incur, arising by reason of Marret having been engaged by the Manager under the applicable Marret Advisory Agreement or by reason of Marret performing its obligations under the applicable Marret Advisory Agreement, other than a claim or action resulting from the breach of Marret’s duties and obligations under the applicable Marret Advisory Agreement, or for any breach of its warranties or any misrepresentation by it set forth in the applicable Marret Advisory Agreement, or the failure of Marret to exercise its powers and duties under the applicable Marret Advisory Agreement in accordance with its standard of care, or to the extent Marret has been negligent, fraudulent or in willful default, in willful misfeasance or in bad faith in the exercise of its powers and duties under the applicable Marret Advisory Agreement.

Each Marret Advisory Agreement may be terminated by either party at any time by providing the other party 30 days’ prior written notice of termination. In the event that a Marret Advisory Agreement is terminated as provided above, the Manager shall promptly appoint a successor portfolio manager to carry out the activities of Marret in respect of the applicable Marret Advised ETF.

Marret will receive from the Manager such portion of the Management Fee as they may agree.

**Onex Credit**

Onex Credit is the portfolio manager of CI First Asset Active Credit ETF. The head office of the Onex Credit is located at 930 Sylvan Avenue, Englewood Cliffs, New Jersey 07632, U.S.A.

The following representatives of Onex Credit are primarily responsible for the management of CI First Asset Active Credit ETF’s portfolio:

<table>
<thead>
<tr>

</tbody>
</table>
During the past five years, all of the individuals named above have been employed or engaged as a director of Onex Credit. Stuart Kovensky is a co-founder and director of Onex Credit, and assumed the role of Chief Executive Officer in 2019.

Investment decisions by the above-named portfolio managers are not subject to oversight, approval or ratification of a committee.

**Onex Credit Advisory Agreement**

Onex Credit provides investment advisory and portfolio management services to CI First Asset Active Credit ETF with respect to its portfolio pursuant to a portfolio management sub-advisory agreement (the "Onex Credit Advisory Agreement") between CI First Asset Active Credit ETF, the Manager and Onex Credit. Decisions regarding the purchase and sale of portfolio securities and the execution of transactions for the portfolio are made by Onex Credit, in accordance with and subject to the terms of the Onex Credit Advisory Agreement. Subject to the terms of the Onex Credit Advisory Agreement, Onex Credit implements the investment strategies of CI First Asset Active Credit ETF’s portfolio on an ongoing basis.

Under the Onex Credit Advisory Agreement, Onex Credit covenants to act at all times on a basis which is fair and reasonable to CI First Asset Active Credit ETF, to act honestly and in good faith with a view to the best interests of CI First Asset Active Credit ETF and, in connection therewith, to exercise the degree of care, diligence and skill that a reasonably prudent portfolio manager would exercise in comparable circumstances. The Onex Credit Advisory Agreement provides that neither Onex Credit nor any of its directors, officers or employees will be liable in any way for any default, failure or defect of the assets of CI First Asset Active Credit ETF if Onex Credit has satisfied its duties and the standard of care, diligence and skill set out above. Onex Credit gives no warranty as to the performance or profitability of CI First Asset Active Credit ETF, nor any guaranty that the investment objectives, expectations or targets of CI First Asset Active Credit ETF will be achieved. Pursuant to the Onex Credit Advisory Agreement, the Manager and Trustee, on behalf of CI First Asset Active Credit ETF, agrees to indemnify Onex Credit, its directors, officers and employees and save them harmless, including out of the property and assets of CI First Asset Active Credit ETF, in respect of all losses (other than loss of profits), expenses, costs, claims, actions, damages or liabilities (including legal costs on a solicitor-and-client basis) whatsoever which they may suffer or incur as a result of the willful misconduct, fraud, gross negligence, breach or reckless disregard of the duties of the Manager or the Trustee under the Onex Credit Advisory Agreement or their respective directors, officers or employees or a material breach of the Trustee and/or the Manager’s obligations under the Onex Credit Advisory Agreement. The Trustee, on behalf of CI First Asset Active Credit ETF, further agrees to indemnify Onex Credit, each of its directors, officers, employees, shareholders and agents for all liabilities, costs and expenses incurred in connection with any action, suit or proceeding that is proposed or commenced, or other claim that is made against, Onex Credit, or any of its directors, officers, employees, shareholders or agents, in the exercise of its duties as Portfolio Manager, except those resulting from Onex Credit’s willful misconduct, fraud, gross negligence or breach or reckless disregard of the duties or standards of care, diligence and skill of Onex Credit under the Onex Credit Advisory Agreement or its directors, officers or employees or a material breach of Onex Credit’s obligations under the Onex Credit Advisory Agreement. Pursuant to the Onex Credit Advisory Agreement, Onex Credit agrees to indemnify the Manager and the Trustee, and their respective directors, officers and employees and save them harmless in respect of all direct losses (other than loss of profits), expenses, costs, claims, actions, damages or liabilities (including legal costs on a solicitor-and-client basis) whatsoever which they may suffer or incur as a result of the willful misconduct, fraud, gross negligence or breach or reckless disregard of the duties or standards of care, diligence and skill of Onex Credit under the Onex Credit Advisory Agreement or its directors, officers or employees or a material breach of Onex Credit’s obligations under the Onex Credit Advisory Agreement.

The Onex Credit Advisory Agreement, unless terminated as described below, will continue until the earlier of (i) the effective date of the termination of the Manager as the manager of CI First Asset Active Credit ETF, (ii) the effective date of the termination of the Trustee as the trustee of CI First Asset Active Credit ETF, (iii) the effective date of dissolution or winding-up of CI First Asset Active Credit ETF, and (iv) the effective date of the amalgamation or merger of CI First Asset Active Credit ETF with another entity. Onex Credit may terminate the Onex Credit Advisory Agreement, without payment of any penalty, (i) upon 180 days’ written notice to the Manager and the Trustee, (ii)
if either the Manager or the Trustee is in material breach of the provisions of the Onex Credit Advisory Agreement and such breach has not been cured within 30 business days after notice thereof has been given to the party in breach, unless such material breach cannot be cured within 30 business days’ notice and the Manager or the Trustee commences the cure within the 30 business day period and completes the cure within 45 days of such notice, (iii) if there is a material change in the investment guidelines which Onex Credit has not agreed, other than a change to the investment restrictions required to be made pursuant to applicable law; (iv) if there is a dissolution and commencement of winding-up of CI First Asset Active Credit ETF, (v) if CI First Asset Active Credit ETF becomes bankrupt or insolvent or makes a general assignment for the benefit of its creditors or a receiver is appointed in respect of CI First Asset Active Credit ETF or a substantial portion of its assets, (vi) if the assets of CI First Asset Active Credit ETF become subject to seizure or confiscation by any public or governmental organization; or (vii) if the Manager has acted with wilful misconduct, fraud or gross negligence, or has breached or recklessly disregarded its duties and standard of care, diligence and skill prescribed by the Declaration of Trust, and as a result of such action there has been a material adverse effect on Onex Credit.

First Asset may terminate the Onex Credit Advisory Agreement, without payment of any penalty, (i) upon 180 days’ written notice to Onex Credit, (ii) if Onex Credit commits a material breach which breach has not been cured within 30 business days after notice thereof has been given to Onex Credit by the Manager or Trustee, unless such material breach cannot be cured within 30 business days’ notice and Onex Credit commences the cure within the 30 business day period and completes the cure within 45 days of such notice, (iii) if there is a dissolution and commencement of winding-up of Onex Credit, (iv) if Onex Credit becomes bankrupt or insolvent or makes a general assignment for the benefit of its creditors or a receiver is appointed in respect of Onex Credit or a substantial portion of its assets, (v) if the assets of Onex Credit have become subject to seizure or confiscation by any public or governmental organization, (vi) if Onex Credit has lost any registration, licence or other authorization required by it or is otherwise deemed unable to perform its obligations hereunder; or (vii) if Onex Credit has acted with wilful misconduct, fraud or gross negligence, or has breached or recklessly disregarded its duties and standard of care, diligence and skill prescribed by the Onex Credit Advisory Agreement, and as a result of such action there has been a material adverse effect on CI First Asset Active Credit ETF.

In the event that the Onex Credit Advisory Agreement is terminated as provided above, First Asset shall promptly appoint a successor portfolio manager to carry out the activities of the portfolio manager of CI First Asset Active Credit ETF.

Onex Credit’s fees are paid out of the Management Fee paid to the Manager.

**Designated Brokers**

The Manager, on behalf of each CI First Asset ETF, and, in the case of the Corporate Classes, the Company, have entered into an agreement with a registered dealer (a “**Designated Broker Agreement**”) pursuant to which the registered dealer (each such registered dealer, a “**Designated Broker**”) has agreed to perform certain duties relating to that CI First Asset ETF including, without limitation: (i) to subscribe for a sufficient number of Securities of that CI First Asset ETF to satisfy the TSX’s original listing requirements; (ii) to subscribe for Securities of that CI First Asset ETF on an ongoing basis, and (iii) to post a liquid two way market for the trading of Securities of that CI First Asset ETF on the TSX. Payment for Securities of a CI First Asset ETF must be made by the Designated Broker, and those Securities will be issued, by no later than the second Trading Day after the subscription notice has been delivered.

Securities do not represent an interest or an obligation of such Designated Broker or Dealers or any affiliate thereof and a Securityholder of a CI First Asset ETF will not have any recourse against any such parties in respect of amounts payable by the CI First Asset ETF to such Designated Broker or Dealers.

**Brokerage Arrangements**

Each Portfolio Manager is responsible for selecting members of securities exchanges, brokers and investment dealers for the execution of transactions in respect of the applicable CI First Asset ETF’s investments and, when applicable, the negotiation of commissions in connection therewith. The CI First Asset ETFs are responsible to pay any commissions negotiated in relation to these brokerage arrangements, except where prohibited by applicable law. Each Portfolio Manager has established policies and procedures for selecting markets, brokers and investment
dealers for the execution of transactions in respect of the applicable CI First Asset ETFs’ investments and for seeking to obtain the best price and execution for those transactions.

The name of any broker or third party that provides research and/or order execution goods and services through a soft dollar arrangement with the Portfolio Managers will be provided upon request by contacting the Portfolio Managers at 1-800-792-9355 or by e-mail at service@ci.com.

**CI Advised ETFs and Marret Advised ETFs**

Each of CI and Marret follow the same policies and procedures with respect to the allocation of brokerage business. Each of the Portfolio Manager’s allocation of brokerage business for effecting portfolio transactions on behalf of a CI First Asset ETF is based on decisions made by the portfolio managers, analysts and traders of the Portfolio Manager, and will only be made in compliance with applicable law and in accordance with the Portfolio Manager’s policies and procedures. The Portfolio Manager does not allocate brokerage business to affiliates. The allocation of business among brokers is based on a number of factors including, but not limited to, the quality of service and the terms offered for specific transactions including price, volume, speed and certainty of execution, the competitiveness of commission terms and prices, the range of brokerage services provided, the quality of research provided, total transaction cost, the broker’s capital strength and stability and the Portfolio Manager’s knowledge of any actual or apparent operational problems of the brokers. These same factors are used by the Portfolio Manager in making a good-faith determination as to the reasonableness of the commission rate and such other benefits that may be derived by the CI First Asset ETF.

In addition, each Portfolio Manager may, consistent with its duty to seek best price and execution, utilize the services of soft dollar brokerage firms. A portion of the commissions generated through the use of soft dollar brokerage accounts are used to pay for order execution and research goods and services which may include, but are not limited to, order management systems, trading software and raw market data, custody, clearance and settlement services, databases, analytical software and research reports. The order execution and research goods and services may be provided directly from the soft dollar brokerage firm, or indirectly from a third party.

Since the date of the CI Advised ETFs’ last prospectus, certain brokerage transactions have been directed to soft dollar brokers in return for the provision of qualified order execution and research goods. None of these services were provided by an affiliated entity.

**CI First Asset Active Credit ETF**

Onex Credit is responsible for selecting members of securities exchanges, brokers and investment dealers for the execution of transactions in respect of CI First Asset Active Credit ETF’s investments and, when applicable, the negotiation of commissions in connection therewith. CI First Asset Active Credit ETF is responsible for paying those commissions.

Onex Credit’s allocation of brokerage business to companies, including those that furnish statistical, research or other services to CI First Asset Active Credit ETF, is based on decisions made by the portfolio managers, analysts and traders of Onex Credit and will only be made in compliance with applicable law and in accordance with Onex Credit’s policies and procedures. Onex Credit does not generally allocate brokerage business to affiliates. The allocation of business among brokers is based on a number of factors, including: (i) the nature and character of the security or instrument being traded and the markets in which it is purchased or sold; (ii) the desired timing of the transaction; (iii) Onex Credit’s knowledge of the expected commission rates and spreads currently available; (iv) the activity existing and expected in the market for the particular security or instrument; (v) the full range of brokerage services provided; (vi) the broker’s or dealer’s capital strength and stability, as well as its execution, clearance and settlement capabilities; (vii) the quality of research and research services provided; (viii) the reasonableness of the commission or its equivalent for the specific transaction; and (ix) the reputation of a broker or dealer and Onex Credit’s knowledge of any actual or apparent operational problems of a broker or dealer. Onex Credit may place transactions with a broker or dealer that (i) provides Onex Credit (or an affiliate) with the opportunity to participate in capital introduction events sponsored by the broker or dealer or (ii) refers investors to products advised by Onex Credit (or an affiliate), if otherwise consistent with seeking best execution; provided Onex Credit is not selecting the broker-dealer in recognition of the opportunity to participate in such capital introduction events or the referral of investors.
Conflicts of Interest

The Manager, the Portfolio Managers and their affiliates are engaged in a wide range of investment management, investment advisory and other business activities. The services provided by the Manager under the Declaration of Trust and the Portfolio Managers under the applicable investment advisory agreements are not exclusive and nothing in the agreement prevents the Manager, the Portfolio Managers or any of their affiliates from providing similar services to other investment funds or clients (whether or not their investment objectives, strategies and policies are similar to those of the CI First Asset ETFs) or from engaging in other activities. The Manager and Portfolio Managers therefore will have conflicts of interest in allocating management time, services and functions to the CI First Asset ETFs and the other persons for which they provide similar services. The Manager’s or Portfolio Managers’ investment decisions for the CI First Asset ETFs will be made independently of those made on behalf of their other clients or for their own investments. On occasion, however, the Manager or the Portfolio Managers will make the same investment for a CI First Asset ETF and for one or more of their other clients. If a CI First Asset ETF and one or more of the other clients of the Manager or the Portfolio Managers, as applicable, or any of their respective affiliates, are engaged in the purchase or sale of the same security, the transactions will be effected on an equitable basis. In this regard, the Manager or Portfolio Managers will generally endeavour to allocate investment opportunities to the CI First Asset ETFs on a pro rata basis.

The Manager and the Portfolio Managers may trade and make investments for their own accounts, and the Manager and the Portfolio Managers currently trade and manage and will continue to trade and manage accounts other than a CI First Asset ETF’s accounts utilizing trading and investment strategies which are the same as or different from the ones to be utilized in making investment decisions for the CI First Asset ETF. In addition, in proprietary trading and investment, the Manager and the Portfolio Managers may take positions the same as, different than or opposite to those of a CI First Asset ETF. Furthermore, all of the positions held by accounts owned, managed or controlled by the Manager will be aggregated for purposes of applying certain position limits. As a result, a CI First Asset ETF may not be able to enter into or maintain certain positions if such positions, when added to the positions already held by the CI First Asset ETF and such other accounts, would exceed applicable limits. All of such trading and investment activities may also increase the level of competition experienced with respect to priorities of order entry and allocations of executed trades. See “Risk Factors”.

The Manager and the Portfolio Managers may at times have interests that differ from the interests of the Securityholders. Where the Manager or the Portfolio Managers or their affiliates otherwise perceive in the course of business, that they are or may be in a material conflict of interest position, the matter will be referred to the IRC. The IRC will consider all matters referred to it and provide its recommendations to the Manager as soon as possible.

In evaluating these conflicts of interest, potential investors should be aware that the Manager and the Portfolio Managers each have a responsibility to the Securityholders to exercise good faith and fairness in all dealings affecting the CI First Asset ETFs. Securityholders should be aware that the performance by the Manager and the Portfolio Managers of their responsibilities to the CI First Asset ETFs will be measured in accordance with (i) the provisions of the agreement by which each of the Manager and the Portfolio Managers have been appointed to their positions with the CI First Asset ETFs; and (ii) applicable laws.

A registered dealer acts as a Designated Broker, and one or more registered dealers may act as a Dealer and/or a market maker. These relationships may create actual or perceived conflicts of interest which investors should consider in relation to an investment in a CI First Asset ETF. In particular, by virtue of these relationships, these registered dealers may profit from the sale and trading of Securities. The Designated Broker, as market maker of the CI First Asset ETFs in the secondary market, may therefore have economic interests which differ from and may be adverse to those of Securityholders.

Any such registered dealer and its affiliates may, at present or in the future, engage in business with the CI First Asset ETFs, the issuers of securities making up the investment portfolio of the CI First Asset ETFs, or with the Manager or any funds sponsored by the Manager or its affiliates, including by making loans, entering into derivative transactions or providing advisory or agency services. In addition, the relationship between any such registered dealer and its affiliates, and the Manager and its affiliates may extend to other activities, such as being part of a distribution syndicate for other funds sponsored by the Manager or its affiliates.
No Designated Broker or Dealer has been involved in the preparation of this prospectus or has performed any review of the contents of this prospectus. The applicable Designated Broker and Dealers do not act as underwriters of any CI First Asset ETF in connection with the distribution of Securities under this prospectus. Securities of the CI First Asset ETFs do not represent an interest or an obligation of any Designated Broker, any Dealer or any affiliate thereof, and a Securityholder does not have any recourse against any such parties in respect of amounts payable by a CI First Asset ETF to the applicable Designated Broker or Dealers. The Canadian securities regulators have provided the CI First Asset ETFs with a decision exempting the CI First Asset ETFs from the requirement to include a certificate of any underwriter in the prospectus.

**Independent Review Committee**

NI 81-107 requires the CI First Asset ETFs to establish an independent review committee to whom the Manager must refer conflict of interest matters for review or approval. NI 81-107 also imposes obligations upon the Manager to establish written policies and procedures for dealing with conflict of interest matters, maintain records in respect of these matters and provide assistance to the IRC in carrying out its functions. The IRC will be required to conduct regular assessments and provide reports to the Manager and to Securityholders in respect of its functions.

The funds in the First Asset family all share the same IRC. The fees and expenses of the IRC are borne and shared by all of the funds in the First Asset family. Each fund is also responsible for all expenses associated with insuring and indemnifying the IRC members.

Set out below is a list of the individuals who comprise the independent review committee for the CI First Asset ETFs.

* John Reucassel and Stuart Hensman resigned as members of the IRC effective August 15, 2019 and April 3, 2020, respectively. James McPhedran and Donna Toth were appointed as members of the IRC effective September 19, 2019 and April 3, 2020, respectively.

Each member of the IRC is independent of the Manager, the Manager’s affiliates and the CI First Asset ETFs. The IRC provides independent oversight and impartial judgment on conflicts of interest involving the CI First Asset ETFs. Its mandate is to consider matters relating to conflicts of interest and recommend to the Manager what action the Manager should take to achieve a fair and reasonable result for the CI First Asset ETFs in those circumstances; and to review and advise on or consent to, if appropriate, any other matter required by the Declaration of Trust and by applicable securities laws, regulations and rules. The IRC meets at least quarterly.

The IRC will prepare a report, at least annually, of its activities for Securityholders which will be available on the CI First Asset ETF’s website at www.firstasset.com, or at the Securityholder’s request at no cost, by contacting the Manager at info@firstasset.com.
The IRC members perform a similar function as the independent review committee for other investment funds managed by the Manager or the Manager’s affiliates. The Chair of the IRC is paid $88,000 annually and each member other than the Chair is paid $72,000. Members of the IRC are also paid a meeting fee of $1,500 per meeting after the sixth meeting attended and are reimbursed for their expenses which are typically nominal and associated with travel and the administration of meetings. Their annual fees are allocated across all investment funds managed by the Manager with the result that only a small portion of such fees were allocated to any single fund.

As of April 15, 2020, the members of the IRC did not beneficially own, directly or indirectly, in aggregate, any material amount of issued and outstanding securities of the CI First Asset ETFs, (ii) any class or series of voting or equity securities of the Manager or (iii) any material amount of any class or series of voting or equity securities of any material service provider to the CI First Asset ETFs or to the Manager.

The Trustee

CI is also the trustee of the Trust Funds (in such capacity, the “Trustee”) pursuant to the Declaration of Trust. The Trustee may resign and be discharged from all further duties under the Declaration of Trust upon 90 days’ prior written notice to the Manager or upon such lesser notice as the Manager may accept. No Trustee of a Trust Fund shall be a person who (i) is not a resident of Canada for the purposes of the Tax Act, or (ii) does not agree to carry out its functions of managing the Trust Fund in Canada, and exercise the main powers and discretions of the trustee of the Trust Fund in Canada. The Manager shall make every effort to select and appoint a successor trustee prior to the effective date of the Trustee’s resignation. If the Manager fails to appoint a successor trustee within 90 days after notice is given or a vacancy occurs, the Manager shall call a meeting of Unitholders of the Trust Fund within 60 days thereafter for the purpose of appointing a successor trustee. If there is no manager, five Unitholders of a Trust Fund may call a meeting of Unitholders of the Trust Fund within 31 days after notice is given or a vacancy occurs for the purpose of appointing a successor trustee. In each case, if, upon the expiry of a further 30 days, neither the Manager nor the Unitholders of a Trust Fund have appointed a successor trustee, the Trust Fund shall be terminated and the property of the Trust Fund shall be distributed in accordance with the terms of the Declaration of Trust.

The Trustee is required to exercise its powers and discharge its duties honestly, in good faith and in the best interests of the Trust Funds, and to exercise the degree of care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances. The Declaration of Trust provides that the Trustee will not be liable in carrying out its duties under the Declaration of Trust as long as the Trustee has adhered to its standard of care set out above. In addition, the Declaration of Trust contains other customary provisions limiting the liability of the Trustee and indemnifying the Trustee in respect of certain liabilities incurred by it in carrying out its duties.

The Trustee will not receive any fees from the Trust Funds but will be reimbursed for all expenses and liabilities that it properly incurs in carrying out activities on behalf of the Trust Funds.

Custodian

The Custodian is the custodian of the assets of each CI First Asset ETF pursuant to a custodial services agreement dated as of May 17, 2006 between the Manager, as manager and trustee of the CI First Asset ETFs, CIBC Mellon Global Securities Services Company, Canadian Imperial Bank of Commerce, The Bank of New York Mellon and CIBC Mellon Trust Company, as may be further supplemented, amended and/or amended and restated from time to time (the “Custody Agreement”). The Custodian is located in Toronto, Ontario. Pursuant to the Custody Agreement, the Custodian is required to exercise its duties with the same degree of care, diligence and skill that a reasonably prudent person would exercise in the same circumstances, or, if higher, the degree of care, diligence and skill that the Custodian exercises in respect of its own property of a similar nature in its custody. Provided the Custodian has not breached its standard of care as set out in the Custody Agreement, the Custodian shall not be responsible for the holding or control of any property of a CI First Asset ETF which is not directly held by the Custodian, including any property of a CI First Asset ETF that is loaned or pledged to a counterparty.

Under the Custody Agreement, the Manager, for and on behalf of the CI First Asset ETFs, shall pay fees to the Custodian at such rate as determined by the parties from time to time and shall reimburse the Custodian for all
reasonable expenses and disbursements incurred in the performance of its duties under the Custody Agreement. The CI First Asset ETFs shall also indemnify the Custodian or any of its officers, directors, employees or agents for any loss, damage or expense, including reasonable counsel fees and expenses, arising in connection with the Custody Agreement, except to the extent caused by a breach by the Custodian of its standard of care or a material breach of the Custody Agreement. The Manager and the CI First Asset ETFs will be indemnified in certain circumstances as set out in the Custody Agreement. Either party may terminate the Custody Agreement upon at least 90 days written notice or immediately if the other party becomes insolvent, or makes an assignment for the benefit of creditors, or a petition in bankruptcy is filed by or against that party and is not discharged within 30 days, or proceedings for the appointment of a receiver for that party are commenced and not discontinued within 30 days.

Valuation Agent

The Manager has retained the Valuation Agent to provide accounting and valuation services in respect of the CI First Asset ETFs pursuant to the amended and restated fund administration services agreement between the Manager and the Valuation Agent made as of January 11, 2011, as may be further supplemented, amended and/or amended and restated from time to time.

Auditors

Ernst & Young LLP is the auditor of the CI First Asset ETFs. The office of the auditors is located at Ernst & Young Tower, 100 Adelaide Street West, P.O. Box 1, Toronto, Ontario, M5H 0B3 Canada.

Registrar and Transfer Agent

The Registrar and Transfer Agent, at its principal offices in Toronto, Ontario, is the registrar and transfer agent for each CI First Asset ETF pursuant to a master registrar and transfer agency agreement.

Lending Agent

The Lending Agent is the lending agent for the CI First Asset ETFs pursuant to the Securities Lending Agreement. The Lending Agent is located in New York, New York. The Manager and the Lending Agent may each terminate the Securities Lending Agreement upon 15 business days’ written notice to the other at any time. The Lending Agent is not an affiliate of the Manager.

Under the Securities Lending Agreement, the collateral posted by a securities borrower to a CI First Asset ETF is required to have an aggregate value of not less than 102% of the market value of the loaned securities. In addition to the collateral held by a CI First Asset ETF, each CI First Asset ETF also benefits from a borrower default indemnity provided by the Lending Agent. The Lending Agent’s indemnity provides for the replacement of a number of securities equal to the number of unreturned loaned securities.

Promoter

The Manager took the initiative in founding and organizing the CI First Asset ETFs and accordingly, the Manager is the promoter of the CI First Asset ETFs within the meaning of securities legislation of certain provinces and territories of Canada. Except as otherwise described herein, the Manager will not receive any benefits, directly or indirectly, from the issuance of securities of the CI First Asset ETF offered hereunder.

Accounting and Reporting

A CI First Asset ETF’s fiscal year is the calendar year or such other fiscal period permitted under the Tax Act as that CI First Asset ETF elects. The annual financial statements of a CI First Asset ETF shall be audited by that CI First Asset ETF’s auditors in accordance with Canadian generally accepted auditing standards. The auditors will be asked to report on the fair presentation of the annual financial statements in accordance with the International Financial Reporting Standards. The Manager will arrange for a CI First Asset ETF’s compliance with all applicable reporting and administrative requirements.
The Manager will keep, or arrange for the keeping of, adequate books and records reflecting the activities of the Company and each CI First Asset ETF. A Securityholder or his or her duly authorized representative will have the right to examine the books and records of the Company or a CI First Asset ETF during normal business hours at the offices of the Manager or such other location as the Manager shall determine. Notwithstanding the foregoing, a Securityholder shall not have access to any information that, in the opinion of the Manager, should be kept confidential in the interests of the Company or a CI First Asset ETF.

CALCULATION OF NAV

The NAV per Security of a class of a CI First Asset ETF will be computed by adding up the cash, securities and other assets of the CI First Asset ETF allocated to the class pro rata, less the liabilities (including, in respect of the Company, the redemption value of the Class J Shares) allocated to the class pro rata, and dividing the value of the net assets of that class by the total number of Securities of that class that are outstanding. The NAV per Security of each class of a CI First Asset ETF so determined will be adjusted to the nearest cent per Security of that class and will remain in effect until the time as at which the next determination of the NAV per Security of that class of the CI First Asset ETF is made. The NAV per Security of each class of a CI First Asset ETF will be calculated on each Trading Day.

In the case of a Trust Fund that offers US$ Common Units in addition to Common Units, the NAV per Common Unit will be calculated in Canadian dollars and the NAV per US$ Common Unit will also be calculated in U.S. dollars based on the prevailing exchange rate determined by the Manager from time to time.

Typically, the NAV per Security of a CI First Asset ETF will be calculated at its applicable Valuation Time. The NAV per Security of each class of a CI First Asset ETF may be determined at an earlier Valuation Time if the TSX and/or the principal exchange for the securities held by the CI First Asset ETF closes earlier on that Trading Day.

Valuation Policies and Procedures of the CI First Asset ETFs

The Manager will use the following valuation procedures in determining the NAV of each CI First Asset ETF on each Trading Day:

1. The value of any cash on hand, on deposit or on call, bills and notes and accounts receivable, prepaid expenses, cash dividends to be received and interest accrued and not yet received, will be deemed to be the face amount thereof, unless the Manager determines that any such deposit, call loan, bill, note or account receivable is not worth the face amount thereof, in which event the value thereof will be deemed to be such value as the Manager determines, on such basis and in such manner as may be approved by the board of directors of the Manager to be the reasonable value thereof.

2. The value of any bond, debenture or other debt obligation will be the price provided by a pricing vendor selected by the Manager. The vendor will determine the price from quotes received from one or more dealers in the applicable bond, debenture or debt obligation, selected for this purpose by pricing vendor.

3. The value of any security, commodity or interest therein which is listed or dealt in upon a stock exchange will be determined by:
   
   (a) in the case of securities which were traded on that Trading Day, the close price of such securities as determined at the applicable Valuation Time; and
   
   (b) in the case of securities not traded on that Trading Day, a price estimated to be the fair value thereof by the Manager on such basis and in such manner as may be approved of by the board of directors of the Manager, such price being between the closing asked and bid prices for the securities or interest therein as reported by any report in common use or authorized as official by a stock exchange.

4. Long positions in clearing corporation options, options on futures, over-the-counter options, debt-like securities and listed warrants will be valued at the current market value thereof. Where a covered clearing corporation option, option on futures or over-the-counter option is written, the premium received shall be reflected as a deferred credit which shall be valued at an amount equal to the current market value of the
clearing corporation option, option on futures or over-the-counter option that would have the effect of closing the position. Any difference resulting from any revaluation shall be treated as an unrealized gain or loss on investment. The deferred credit shall be added in arriving at the NAV of such instrument. The securities, if any, which are the subject of a written clearing corporation option or over-the-counter option shall be valued at the current market value. The value of a future contract or a swap or forward contract shall be the gain or loss with respect thereto that will be realized if, on that Trading Day, the position in the futures contract, or the swap, or the forward contract, as the case may be, were to be closed out unless “daily limits” are in effect, in which case fair value shall be based on the current market value of the underlying interest. Margin paid or deposited in respect of futures contracts, swaps and forward contracts shall be reflected as an account receivable and margin consisting of assets other than cash shall be noted as held as margin.

5. In the case of any security or property for which no price quotations are available as provided above, the value thereof will be determined from time to time by the Manager, where applicable, in accordance with the principles described in paragraph 3(b) above, except that the Manager may use, for the purpose of determining the sale price or the ask and bid price of such security or interest, any public quotations in common use which may be available, or where such principles are not applicable, in such manner as may be approved of by the board of directors of the Manager.

6. The liabilities of a CI First Asset ETF will include:

- all bills, notes and accounts payable of which the CI First Asset ETF is an obligor;
- all brokerage expenses of the CI First Asset ETF;
- all Management Fees of the CI First Asset ETF;
- all contractual obligations of the CI First Asset ETF for the payment of money or property, including the amount of any unpaid distribution credited to Securityholders of the CI First Asset ETF on or before that Trading Day;
- all derivative liability from the written options of the CI First Asset ETF;
- all allowances of the CI First Asset ETF authorized or approved by the Manager for taxes (if any) or contingencies; and
- all other liabilities of the CI First Asset ETF of whatsoever kind and nature.

7. Each transaction of purchase or sale of a portfolio asset effected by a CI First Asset ETF shall be reflected by no later than the next time that the NAV of the CI First Asset ETF and the NAV per Security of the CI First Asset ETF is calculated. Prior to the calculation of the NAV of each class of the CI First Asset ETF, any non-Canadian denominated assets and liabilities of the common class of the CI First Asset ETF will be translated into Canadian currency at the prevailing rate of exchange, as determined by the Manager, on the applicable Trading Day.

In calculating the NAV of a CI First Asset ETF, the CI First Asset ETF will generally value its investments based on the market value of its investments at the time the NAV of the CI First Asset ETF is calculated. If no market value is available for an investment of the CI First Asset ETF or if the Manager determines that such value is inappropriate in the circumstances (i.e., when the value of an investment of the CI First Asset ETF has been materially changed by effects occurring after the market closes), the Manager will value such investments using methods that have generally been adopted by the marketplace. Fair valuing the investments of a CI First Asset ETF may be appropriate if: (i) market quotations do not accurately reflect the fair value of an investment; (ii) an investment’s value has been materially affected by events occurring after the close of the exchange or market on which the investment is principally traded; (iii) a trading halt closes an exchange or market early; or (iv) other events result in an exchange or market delaying its normal close. The risk in fair valuing an investment of a CI First Asset ETF is that the value of the investment may be higher or lower than the price that the CI First Asset ETF may be able to realize if the investment had to be sold.
In determining the NAV of a CI First Asset ETF, Securities of the CI First Asset ETF subscribed for will be deemed to be outstanding immediately following the calculation of the applicable NAV per Security that is the issue price of the Securities and the amount payable in connection with the issuance shall then be deemed to be an asset of the CI First Asset ETF. Securities of a CI First Asset ETF that are being redeemed shall be deemed to remain outstanding until immediately following the calculation of the applicable NAV per Security that is the redemption price of the Securities and thereafter, the redemption proceeds, until paid, will be a liability of the CI First Asset ETF.

Reporting of NAV

Following the Valuation Time on the Trading Day, the most recent NAV or NAV per Security of a CI First Asset ETF will be made available to persons or companies, at no cost, by calling the Manager at 416-642-1289 or toll free 1-877-642-1289, or checking the CI First Asset ETF’s website at www.firstasset.com.

ATTRIBUTES OF THE SECURITIES

Description of the Securities Distributed

Each Trust Fund is authorized to issue an unlimited number of redeemable, transferable Common Units and/or Unhedged Common Units, as applicable. In addition, CI First Asset Active Credit ETF, CI First Asset Enhanced Government Bond ETF, CI First Asset Enhanced Short Duration Bond ETF and CI First Asset Investment Grade Bond ETF are each offering hedged and/or unhedged US$ Common Units, as applicable. Each Unit represents an undivided interest in the net assets of that Trust Fund pursuant to this prospectus.

On December 16, 2004, the Trust Beneficiaries’ Liability Act, 2004 (Ontario) came into force. This statute provides that holders of units of a trust are not, as beneficiaries, liable for any default, obligation or liability of the trust if, when the default occurs or the liability arises: (i) the trust is a reporting issuer under the Securities Act (Ontario); and (ii) the trust is governed by the laws of Ontario. Each Trust Fund is a reporting issuer under the Securities Act (Ontario) and is governed by the laws of Ontario by virtue of the provisions of the Declaration of Trust.

Each Corporate Class is authorized to issue an unlimited number of Shares. The Shares are Canadian dollar denominated.

Each Security of a class of a CI First Asset ETF entitles the owner to one vote at meetings of Securityholders of the CI First Asset ETF. Each Security of a class of a CI First Asset ETF is entitled to participate equally with all other Securities of the same class of the CI First Asset ETF with respect to all payments made to Securityholders of that class, other than Management Fee Distributions or Management Fee Rebates, as applicable, including dividends and distributions (including distributions of net income and net realized capital gains in the case of the Trust Funds) and, on liquidation, to participate equally in the net assets of that class of the CI First Asset ETF remaining after satisfaction of any outstanding liabilities that are attributable to that class of Securities of the CI First Asset ETF.

Notwithstanding the foregoing, pursuant to the Declaration of Trust, a Trust Fund may allocate and designate as payable any capital gains realized by the Trust Fund as a result of any disposition of property of the Trust Fund undertaken to permit or facilitate the redemption or exchange of Units of the Trust Fund to a Unitholder whose Units of the CI First Asset ETF are being redeemed or exchanged. All Units of a Trust Fund will be fully paid, with no liability for future assessments, when issued and will not be transferable except by operation of law. Unitholders of a Trust Fund are entitled to require the Trust Fund to redeem their Units as outlined under the heading “Exchange, Redemption and Switching of Securities”.

Exchange of Securities for Baskets of Securities

Securityholders of a CI First Asset ETF may exchange the applicable PNS (or an integral multiple thereof) of the CI First Asset ETF on any Trading Day for Baskets of Securities and/or cash, subject to the requirement that a minimum PNS be exchanged. See “Exchange, Redemption and Switching of Securities”.
Redemptions of Securities for Cash

On any Trading Day, Securityholders of a CI First Asset ETF may redeem Securities of the CI First Asset ETF for cash at a redemption price per Security equal to 95% of the closing price for the Securities on the TSX on the effective day of the redemption, subject to a maximum redemption price per Security equal to the NAV per Security on the effective date of the redemption. See “Exchange, Redemption and Switching of Securities”.

Switches for Corporate Classes

Shareholders may Switch Shares of one Corporate Class to Shares of another Corporate Class through the facilities of CDS by contacting their financial advisor, investment advisor or broker. Initially, Shares may be switched in any week on Wednesday (or if such Wednesday is not a business day, the next business day). See “Exchange, Redemption and Switching of Securities – Switches for Corporate Classes” and “Income Tax Considerations – Corporate Classes – Taxation of holders of Shares”.

Modification of Terms

Any amendment to the Declaration of Trust that creates a new class of Units of a Trust Fund will not require notice to existing Unitholders of the Trust Fund unless such amendment in some way affects the rights of existing holders of Units or the value of their investment. An amendment such as the re-designation of a class of Units of a Trust Fund, or the termination of a class of Units of the Trust Fund, which has an effect on a Unitholder’s holdings will only become effective after 30 days’ notice to Unitholders of the applicable classes of Units of the Trust Fund.

All other rights attached to the Units of a Trust Fund may only be modified, amended or varied in accordance with the terms of the Declaration of Trust. See “Securityholder Matters — Amendments to the Declaration of Trust”.

The rights attached to the Shares of a Corporate Class may only be modified, amended or varied in accordance with the terms of the articles of the Company and applicable law. See “Securityholder Matters — Matters Requiring Securityholder Approval”.

Voting Rights in the Portfolio Securities

Holders of Securities of a CI First Asset ETF will not have any voting rights in respect of the securities in the CI First Asset ETF’s portfolio.

SECURITYHOLDER MATTERS

Meetings of Securityholders

Meetings of Securityholders of a CI First Asset ETF will be held if called by the Manager or upon the written request to the Manager of Securityholders of the CI First Asset ETF holding not less than 25% of the then outstanding Securities of the CI First Asset ETF.

Matters Requiring Securityholder Approval

In addition to certain matters required by corporate law (in the case of a Corporate Class), NI 81-102 requires a meeting of Securityholders of a CI First Asset ETF to be called to approve certain changes described in NI 81-102. In the absence of an exemption, the Manager will seek Securityholder approval for any such change.

The Manager will also seek Securityholder approval of any matter which is required by the constitutive documents of a CI First Asset ETF, by the laws applicable to the CI First Asset ETF or by any agreement to be submitted to a vote of the Securityholders.

In addition, the auditors of a CI First Asset ETF may not be changed unless:

(i) the IRC of the CI First Asset ETF has approved the change; and

(ii) Securityholders have received at least 60 days’ notice before the effective date of the change.
Approval of Securityholders of a CI First Asset ETF will be deemed to have been given if expressed by resolution passed at a meeting of Securityholders, duly called on at least 21-days’ notice and held for the purpose of considering the same, by at least a majority of the votes cast.

Amendments to the Declaration of Trust

If a Unitholder meeting is required to amend a provision of the Declaration of Trust, no change proposed at a meeting of Unitholders of a Trust Fund shall take effect until the Manager has obtained the prior approval of not less than a majority of the votes cast at such meeting of Unitholders of the Trust Fund or, if separate class meetings are required, at meetings of each class of Unitholders of the Trust Fund.

Subject to any longer notice requirements imposed under securities legislation, the Trustee is entitled to amend the Declaration of Trust by giving not less than 30-days’ notice to Unitholders of each Trust Fund affected by the proposed amendment in circumstances where:

(a) the securities legislation requires that written notice be given to Unitholders of that Trust Fund before the change takes effect;
(b) the change would not be prohibited by the securities legislation; or
(c) the Trustee reasonably believes that the proposed amendment has the potential to adversely impact the financial interests or rights of the Unitholders of that Trust Fund, so that it is equitable to give Unitholders of that Trust Fund advance notice of the proposed change.

All Unitholders of Trust Fund shall be bound by an amendment affecting the Trust Fund from the effective date of the amendment.

The Trustee may amend the Declaration of Trust with respect to any Trust Fund without the approval of or prior notice to any Unitholders of that Trust Fund, if the Trustee reasonably believes that the proposed amendment does not have the potential to adversely impact the financial interests or rights of Unitholders of a Trust Fund or that the proposed amendment is necessary to:

(a) ensure compliance with applicable laws, regulations or policies of any governmental authority having jurisdiction over the Trust Fund or the distribution of its Units;
(b) remove any conflicts or other inconsistencies which may exist between any terms of the Declaration of Trust and any provisions of any applicable laws, regulations or policies affecting the Trust Fund, the Trustee or its agents;
(c) make any change or correction in the Declaration of Trust which is a typographical correction or is required to cure or correct any ambiguity or defective or inconsistent provision, clerical omission or error contained therein;
(d) facilitate the administration of the Trust Fund as a mutual fund trust or make amendments or adjustments in response to any existing or proposed amendments to the Tax Act or its administration which might otherwise adversely affect the tax status of a Trust Fund or its Unitholders;
(e) protect the Unitholders of the Trust Fund; or
(f) make any change or correction which is necessary or desirable for the purpose of bringing the Declaration of Trust into conformity with current market practice within the securities or investment fund industries or curing or correcting any administrative difficulty.
Permitted Mergers

A CI First Asset ETF may, without Securityholders' approval, enter into a merger or other similar transaction which has the effect of combining the funds or their assets (a "Permitted Merger") with any other investment fund or funds that have investment objectives that are similar to the applicable CI First Asset ETF's portfolio, subject to:

(a) approval of the merger by the CI First Asset ETF’s IRC in accordance with NI 81-107;
(b) the CI First Asset ETF being reorganized with, or its assets being transferred to, another mutual fund to which NI 81-102 and NI 81-107 apply, and that is managed by the Manager, or an affiliate of the Manager;
(c) compliance with certain other requirements of applicable securities legislation; and
(d) Securityholders have received at least 60 days’ notice which notice may be by way of press release, before the effective date of the Permitted Merger.

In connection with a Permitted Merger, the merging funds will be valued at their respective NAVs for the purpose of such transaction.

Reporting to Securityholders

The Manager, on behalf of a CI First Asset ETF, will in accordance with applicable laws furnish to each Securityholder and the Company's board of directors, unaudited semi-annual financial statements and an interim management report of fund performance for the CI First Asset ETF within 60 days of the end of each semi-annual period and audited annual financial statements and an annual management report of fund performance for the CI First Asset ETF within 90 days of the end of each financial year. Both the semi-annual and the annual financial statements of each CI First Asset ETF will contain a statement of financial position, a statement of comprehensive income, a statement of changes in equity, a statement of cashflows and a statement of investment portfolio.

Any tax information necessary for Securityholders to prepare their annual federal income tax returns will also be distributed to them within 90 days after the end of each taxation year of the CI First Asset ETFs. Neither the Manager nor the Registrar and Transfer Agent are responsible for tracking the adjusted cost base of a Securityholder’s Securities. Securityholders should consult with their tax or investment adviser in respect of how to compute the adjusted cost base of their Securities and in particular how designations made by the CI First Asset ETF to a Securityholder affect the Securityholder’s tax position.

The NAV per Security of each CI First Asset ETF will be determined by the Manager on each Trading Day and will usually be published daily in the financial press.

TERMINATION OF THE CI FIRST ASSET ETFs

Subject to complying with applicable securities law, the Manager may terminate a CI First Asset ETF (and the Company may redeem the Shares of a Corporate Class) at its discretion. on at least 60 days advance written notice to Shareholders of the CI First Asset ETF.

If a Trust Fund is terminated, the Trustee is empowered to take all steps necessary to effect the termination of the Trust Fund. Prior to terminating a Trust Fund, the Trustee may discharge all of the liabilities of the Trust Fund and distribute the net assets of the Trust Fund to the Unitholders of the Trust Fund.

Upon termination of a CI First Asset ETF, each Securityholder of the CI First Asset ETF shall be entitled to receive at the Valuation Time on the termination date out of the assets of the CI First Asset ETF: (i) payment for that Securityholder’s Securities at the NAV per Security for that class of Securities of the CI First Asset ETF determined at the Valuation Time on the termination date; plus (ii) where applicable, any net income and net realized capital gains that are owing to or otherwise attributable to such Securityholder’s Securities that have not otherwise been paid to such Securityholder; less (iii) any applicable redemption charges and any taxes that are required to be deducted. Payment shall be made by cheque or other means of payment payable to such Securityholder and drawn on the CI First Asset ETF’s bankers and may be mailed by ordinary post to such Securityholder’s last address appearing in the
registers of Securityholders of that CI First Asset ETF or may be delivered by such other means of delivery acceptable to both the Manager and such Securityholder.

The rights of Securityholders to exchange, redeem and convert Securities of a CI First Asset ETF described under “Exchange, Redemption and Switching of Securities” will cease as and from the date of termination of the CI First Asset ETF.

Procedure on Termination

The Trustee (in the case of a Trust Fund) or the Manager, on behalf of the Company (in the case of a Corporate Class), shall be entitled to retain out of any assets of a CI First Asset ETF, at the date of termination of the CI First Asset ETF, full provision for all costs, charges, expenses, claims and demands incurred or believed by the Trustee or the Manager, as applicable, to be due or to become due in connection with or arising out of the termination of the CI First Asset ETF and the distribution of its assets to the Securityholders of the CI First Asset ETF. Out of the moneys so retained, the Trustee or the Manager, as applicable are entitled to be indemnified and saved harmless against all costs, charges, expenses, claims and demands.

PLAN OF DISTRIBUTION

Securities of each CI First Asset ETF are being offered for sale on a continuous basis by this prospectus and there is no maximum number of Securities of a CI First Asset ETF that may be issued. The Securities of each CI First Asset ETF are offered for sale at a price equal to the NAV of such class of Securities determined at the Valuation Time on the effective date of the subscription order.

The Securities of each CI First Asset ETF are currently listed on the TSX and investors can buy or sell such Securities on the TSX through registered brokers and dealers in the province or territory where the investors reside.

Investors may incur customary brokerage commissions in buying or selling Securities of the CI First Asset ETFs. No fees are paid by investors to the Manager or any CI First Asset ETF in connection with buying or selling of Securities on the TSX.

Non-Resident Securityholders

At no time may (i) non-residents of Canada, (ii) partnerships that are not Canadian partnerships or (iii) a combination of non-residents of Canada and such partnerships (all as defined in the Tax Act) be the beneficial owners of a majority of the shares of the Company or the Units of a Trust Fund (on either a number of shares or Units, or fair market value basis) and the Manager shall inform the Registrar and Transfer Agent of the Company or Trust Fund, as applicable, of this restriction. The Manager may require declarations as to the jurisdictions in which a beneficial owner of shares or Units, as applicable is resident and, if a partnership, its status as a Canadian partnership. If the Manager becomes aware, as a result of requiring such declarations as to beneficial ownership or otherwise, that the beneficial owners of 40% of the shares of the Company or the Units of a CI First Asset ETF then outstanding (on either a number of shares or Units, or fair market value basis) are, or may be, non-residents and/or partnerships that are not Canadian partnerships, or that such a situation is imminent, the Manager may make a public announcement thereof. If the Manager determines that more than 40% of the shares of the Company or the Units of a CI First Asset ETF (on either a number of shares or Units, or fair market value basis) are beneficially held by non-residents and/or partnerships that are not Canadian partnerships, the Manager may send a notice to such non-residents and/or partnerships, chosen in inverse order to the order of acquisition or in such manner as the Manager may consider equitable and practicable, requiring them to sell their shares of the Company or Units, as applicable, or a portion thereof within a specified period of not less than 30 days. If the shareholders or Unitholders, as applicable, receiving such notice have not sold the specified number of shares of the Company or Units, as applicable, or provided the Manager with satisfactory evidence that they are not non-residents or partnerships other than Canadian partnerships within such period, the Manager may on behalf of such shareholders or Unitholders, as applicable, sell such shares of the Company or Units, as applicable, and, in the interim, shall suspend the voting and distribution rights attached to such shares of the Company or Units, as applicable. Upon such sale, the affected holders shall cease to be beneficial
holders of shares of the Company or Units, as applicable, and their rights shall be limited to receiving the net proceeds of sale of such shares of the Company or Units, as applicable.

Notwithstanding the foregoing, the Manager may determine not to take any of the actions described above if the Manager has been advised by legal counsel that the failure to take any of such actions would not adversely impact the status of the Company as a mutual fund corporation, or the status of a Trust Fund as a mutual fund trust, for purposes of the Tax Act or, alternatively, may take such other action or actions as may be necessary to maintain the status of the Company as a mutual fund corporation, or the Trust Fund as a mutual fund trust, for purposes of the Tax Act.

RELATIONSHIP BETWEEN THE CI FIRST ASSET ETFS AND THE DEALERS

The Manager, on behalf of a CI First Asset ETF, and the Company (in the case of a Corporate Class) may enter into various agreements (each, a “Dealer Agreement”) with registered dealers (that may or may not be a Designated Broker) (each such registered dealer, a “Dealer”) pursuant to which the Dealers may subscribe for Securities of the CI First Asset ETF as described under “Purchases of Securities”. Such registered dealers may be related to the Manager or the Company. See “Organization and Management Details of the CI First Asset ETFs - Conflicts of Interest”.

A Dealer Agreement may be terminated by the registered dealer at any time by notice to the Manager, provided that, except in certain conditions, no such termination will be permitted after the registered dealer has subscribed for Securities of the CI First Asset ETF and such subscription has been accepted by the Manager.

No Designated Broker or Dealer has been involved in the preparation of this prospectus, nor has it performed any review of the contents of this prospectus. The applicable Designated Broker and Dealers do not act as underwriters of any CI First Asset ETF in connection with the distribution of its Securities under this prospectus. See “Organization and Management Details of the CI First Asset ETFs - Conflicts of Interest”.

PRINCIPAL HOLDERS OF SECURITIES

CDS & Co., the nominee of CDS, is the registered owner of the Securities of each of the CI First Asset ETFs, which it holds for various brokers and other persons on behalf of their clients and others. From time to time, a CI First Asset ETF or another investment fund managed by the Manager or an affiliate thereof, may beneficially own, directly or indirectly, more than 10% of the outstanding Securities of a CI First Asset ETF.

All of the issued and outstanding Class J Shares of the Company are owned by First Asset ETF Adminco Ltd. (“Adminco”). Independent directors of the Company own an aggregate of 50% of the common shares of Adminco, and certain individuals own an aggregate of 50% of the common shares of Adminco. The Class J Shares and Adminco common shares are held in escrow pursuant to the Escrow Agreements (as defined herein).

The “Escrow Agreements” consist of (i) the escrow agreement dated August 18, 2010 among Adminco, Computershare Trust Company of Canada, as escrow agent (the “Escrow Agent”) and the Company in respect of the Class J Shares, as amended from time to time; and (ii) the escrow agreement dated August 18, 2010 among Adminco, the Escrow Agent, the independent directors of the Company and certain employees of the Manager, as restated on December 19, 2012, as amended from time to time, each in respect of the common shares of Adminco.

PROXY VOTING DISCLOSURE FOR PORTFOLIO SECURITIES HELD

The proxy voting record for each CI First Asset ETF for the annual period from July 1 to June 30 will be available at any time after August 31 following the end of that annual period, to any Securityholder on request, at no cost, and will also be available on the internet at www.firstasset.com. Information contained on a CI First Asset ETF’s website is not part of this prospectus and is not incorporated herein by reference.
The Manager’s Proxy Voting Policy

The proxies associated with the portfolio securities held by each CI Advised ETFs will be voted by the Portfolio Manager in accordance with the Manager’s proxy voting policy and guidelines, which has been designed to provide general guidance, in compliance with the applicable Canadian legislation, for the voting of proxies. The Manager is responsible for completing and executing all corporate actions including the voting of proxies on behalf of each of the CI Advised ETF. The Portfolio Manager will vote all proxies in the best interests of the Securityholders of each CI Advised ETF, as determined solely by the Portfolio Manager and subject to its proxy voting policy and applicable Canadian legislation.

The Manager’s proxy voting policy sets out the voting procedures to be followed in voting routine and non-routine matters, together with general guidelines suggesting a process to be followed in determining how and whether to vote proxies. Although the proxy voting policy allows for the creation of a standing policy for voting on certain routine matters, each routine and non-routine matter must be assessed on a case-by-case basis to determine whether the applicable standing policy or general proxy voting policy should be followed. The proxy voting policy also addresses situations in which the Portfolio Manager may not be able to vote, or where the costs of voting outweigh the benefits.

Situations may exist in which, in relation to proxy voting matters, the Portfolio Manager or the Manager may be aware of an actual, potential, or perceived conflict between its interest and the interests of securityholders. Any conflicts of interests which may arise in connection with the voting of proxies must be reported immediately to the Manager’s chief compliance officer. Where the Manager is aware of such a conflict, it must bring the matter to the attention of its independent review committee. The independent review committee will, prior to the vote deadline date, review any such matter, and will take the necessary steps to ensure that the proxy is voted in accordance with what the independent review committee believes to be the best interests of securityholders, and in a manner consistent with the proxy voting policy. Where it is deemed advisable to maintain impartiality, the Manager’s independent review committee may choose to seek out and follow the voting recommendation of an independent proxy research and voting service.

The Manager’s current proxy voting policy and procedures are available to Securityholders of the CI Advised ETFs on request, at no cost, by calling toll-free 1-800-792-9355 or by writing to CI at 2 Queen Street East, 20th Floor, Toronto, Ontario M5C 3G7.

Marret’s Proxy Voting Policy

The proxies associated with the portfolio securities held by each Marret Advised ETFs will be voted by Marret in accordance with Marret’s proxy voting policy and guidelines, which have been designed to provide general guidance, in compliance with the applicable legislation, for the voting of proxies. Marret is responsible for completing and executing all corporate actions including the voting of proxies on behalf of each Marret Advised ETF. Marret will vote all proxies in the best interests of the Securityholders of each Marret Advised ETF, as determined solely by Marret and subject to the Marret’s proxy voting policy and applicable Canadian legislation.

The proxy voting policy sets out the voting procedures to be followed by Marret in voting routine and non-routine matters, together with general guidelines suggesting a process to be followed in determining how and whether to vote proxies. Although the proxy voting policy allows for the creation of a standing policy for voting on certain routine matters, each routine and non-routine matter must be assessed on a case-by-case basis to determine whether the applicable standing policy or the general proxy voting policy should be followed. Marret will evaluate the issue on a case-by-case basis and cast a Marret Advised ETF’s vote in a manner that, in Marret’s view, will maximize the value of the Marret Advised ETF’s investment. The proxy voting policy also addresses situations in which Marret may not be able to vote, or where the costs of voting outweigh the benefits.

Any conflicts of interests which may arise in connection with the voting of proxies must be reported immediately to Marret’s chief compliance officer and the Manager’s chief compliance officer, and if necessary, referred to the IRC. The proxy voting policy includes procedures intended to ensure that proxies associated with portfolio securities of a Marret Advised ETF are received and voted by Marret on behalf of the Marret Advised ETF in accordance with the proxy voting policy. Proxies must be voted in a timely manner and in the best interests of clients.
Marret’s current proxy voting policy and procedures are available to Securityholders of the Marret Advised ETFs on request, at no cost, by calling collect 416-214-5800, or by writing to Marret at 2 Queen Street East, 12th Floor, Toronto, Ontario M5C 3G7.

**Onex Credit’s Voting Policy**

The proxies associated with the portfolio securities held by CI First Asset Active Credit ETF will be voted by Onex Credit in accordance with Onex Credit’s proxy voting policy. Onex Credit is responsible for completing and executing all corporate actions including the voting of proxies on behalf of CI First Asset Active Credit ETF. Onex Credit is responsible for maintaining records of all proxies voted.

Generally, Onex Credit will vote in favor of routine corporate housekeeping proposals, including election of directors (where no corporate governance issues are implicated), selection of auditors, and increases in or reclassification of common stock. For other proposals, including more complex, non-routine matters (i.e., certain issues related to the compensation and liability of directors, amendments to the organizational documents of an issuer, share and debt issuances, related party transactions, reorganizations, restructurings, shareholder proposals and proposals relating to corporate social responsibility) Onex Credit shall determine whether a proposal is in the best interests of its clients and may take into account the following factors, among others:

- whether the proposal was recommended by management and Onex Credit’s opinion of management;
- whether the proposal acts to entrench existing management; and
- whether the proposal fairly compensates management for past and future performance.

Any conflicts of interests which may arise in connection with the voting of proxies must be reported immediately to Onex Credit’s chief compliance officer and the Manager’s chief compliance officer, and if necessary, referred to the IRC. Onex Credit’s proxy voting policy includes procedures intended to ensure that proxies associated with portfolio securities of CI First Asset Active Credit ETF are received and voted by Onex Credit on behalf of CI First Asset Active Credit ETF in accordance with Onex Credit’s proxy voting policy. Proxies must be voted in a timely manner and in the best interests of clients.

**MATERIAL CONTRACTS**

The only contracts material to the CI First Asset ETFs, as applicable, are the:

- **Declaration of Trust.** For additional disclosure related to the Declaration of Trust, see "Organization and Management Details of the CI First Asset ETF – The Trustee", "Attributes of Securities – Modification of Terms", and "Securityholder Matters – Amendments to the Declaration of Trust";

- **Management Agreement.** For additional disclosure related to the Management Agreement, including relevant termination provisions and other key terms of the agreement, see "Organization and Management Details of the CI First Asset ETFs – Manager of the CI First Asset ETFs", "Organization and Management Details of the CI First Asset ETFs – Duties and Services Provided by the Manager to the Corporate Classes", "Organization and Management Details of the CI First Asset ETFs – Details of the Management Agreement", "Organization and Management Details of the CI First Asset ETFs – Conflicts of Interest", and "Other Material Facts – Management of the CI First Asset ETFs";

- **Custody Agreement.** For additional disclosure related to the Custody Agreement, see "Organization and Management Details of the CI First Asset ETF – Custodian";

- **Marret and Onex Advisory Agreements.** For additional disclosure related to the Marret Advisory Agreements and the Onex Advisory Agreement, see "Organization and Management Details of the CI First Asset ETF – Portfolio Managers";
(e) **License Agreements.** For additional disclosure related to the License Agreements, see “Other Material Facts”; and

(f) **Escrow Agreements.** For additional disclosure related to the Escrow Agreements see “Principal Holders of Securities”.

Copies of these agreements may be examined at the head office of the Manager which is located at 2 Queen Street East, 20th Floor, Toronto, Ontario M5C 3G7.

**LEGAL AND ADMINISTRATIVE PROCEEDINGS**

The CI First Asset ETFs are not involved in any legal proceedings, nor is the Manager aware of existing or pending legal or arbitration proceedings involving the CI First Asset ETFs.

**EXPERTS**

Ernst & Young LLP, the auditors of the CI First Asset ETFs, have consented to the use of their reports dated March 24, 2020 to the securityholders of each of the CI First Asset ETFs, on the statements of financial position as at December 31, 2019 and 2018 (if applicable), and the statements of comprehensive income, changes in net assets attributable to holders of redeemable securities and cash flows for the applicable years then ended (if applicable), and notes to the financial statements, including a summary of significant accounting policies. Ernst & Young LLP has confirmed that they are independent with respect to the CI First Asset ETFs within the meaning of the Rules of Professional Conduct of the Chartered Professional Accountants of Ontario.

**EXEMPTIONS AND APPROVALS**

The CI First Asset ETFs have obtained exemptive relief from the Canadian securities regulatory authorities, subject to applicable conditions:

(a) to permit a Securityholder to acquire more than 20% of the Securities through purchases on the TSX without regard to the takeover bid requirements of applicable Canadian securities legislation;

(b) to relieve the CI First Asset ETFs from the requirement that a prospectus contain a certificate of the underwriters;

(c) to permit CI First Asset U.S. & Canada Lifeco Income ETF to purchase certain securities such that, immediately after the transaction, more than 10% of its net assets would be invested in the securities of one issuer for the purposes of determining compliance with the concentration restriction in subsection 2.1(1) of NI 81-102, subject to certain conditions;

(d) to permit CI First Asset U.S. & Canada Lifeco Income ETF to present performance data provided it presents past performance data for the period when it existed prior to its conversion to an exchange traded mutual fund;

(e) to permit CI First Asset CanBanc Income Class ETF to purchase certain securities such that, immediately after the transaction, more than 10% of its net assets would be invested in the securities of one issuer for the purposes of determining compliance with the concentration restriction in subsection 2.1(1) of NI 81-102, subject to certain conditions;

(f) to permit a CI First Asset ETF to: (i) invest up to 100% of its net asset value in securities of any exchange-traded mutual fund that is not an index participation unit (“IPU”) and is a reporting issuer in Canada (each, a “Canadian Underlying ETF”); (b) invest up to 10% of its net asset value in securities of exchange-traded mutual funds that are not IPU and are not reporting issuers in Canada, but whose securities are listed for trading on a stock exchange in the United States (each, a “U.S. Underlying ETF”); and (b) pay brokerage commissions in relation to its purchase and sale of securities of Canadian Underlying ETFs and U.S. Underlying ETFs;
(g) to permit a CI First Asset ETF to use references to Lipper Leader ratings and Lipper Awards in sales communications;

(h) to permit the disclosure and marketing of annual FundGrade A+ Awards and monthly FundGrade Ratings;

(i) to permit each Corporate Class to dispense with an audit committee, pursuant to subsection 158(1.1) of the Business Corporations Act (Ontario), for as long as applicable securities legislation does not require the Corporate Class to have an audit committee and, in accordance with National Instrument 81-106 Investment Fund Continuous Disclosure, the board of directors of the Company will approve the financial statements of the Corporate Class before such financial statements are filed or made available to investors;

(j) to permit the Manager to call meetings of the CI First Asset ETFs using the Notice-and-Access Procedure as permitted by the terms of the relief;

(k) to permit each CI First Asset ETF to deposit portfolio assets with a borrowing agent (that is not the CI First Asset ETF’s custodian or sub-custodian) as security in connection with a short sale of securities, provided that the aggregate market value of the portfolio assets being deposited, excluding the aggregate market value of the proceeds from outstanding short sales of securities held by the borrowing agent, does not exceed 10% of the net asset value of the CI First Asset ETF at the time of deposit;

(l) to permit each CI First Asset ETF to invest more than 10% of its net assets in debt obligations issued or guaranteed by either the Federal National Mortgage Association (“Fannie Mae”) or the Federal Home Loan Mortgage Corporation (“Freddie Mac”, and such debt obligations, “Fannie or Freddie Securities”) by purchasing securities of an issuer, entering into a specified derivative transaction or purchasing index participation units, provided that: (a) such investments are consistent with the CI First Asset ETF’s investment objective; (b) the Fannie or Freddie Securities or the corporate debt of Fannie Mae or Freddie Mac (“Fannie or Freddie Debt”), as applicable, maintain a credit rating assigned by Standard & Poor’s Rating Services (Canada) or an equivalent rating assigned by one or more other designated rating organizations to a Fannie or Freddie Security or Fannie or Freddie Debt, as applicable, that is not less than the credit rating when assigned by such designated rating organization to the debt of the United States government of approximately the same term as the remaining term to maturity of, and denominated in the same currency as, the Fannie or Freddie Security or the Fannie or Freddie Debt, as applicable; and (c) such rating is not less than a credit rating of BBB- assigned by Standard & Poor’s Rating Services or an equivalent rating by one or more other designated rating organizations; and

(m) to permit each CI First Asset ETF, subject to certain conditions, to: (a) purchase and/or hold securities of TOPIX Exchange Traded Fund, NEXT FUNDS Nomura Shareholder Yield 70 ETF, iShares FTSE A50 China Index ETF and the ChinaAMC CSI 300 Index ETF (together, the “Foreign Underlying ETFs”); (b) purchase and/or hold securities of one or more ETFs which are, or will be, listed and traded on the London Stock Exchange and managed by BlackRock Asset Management Ireland Limited or its affiliate (each, a “Dublin iShare ETF”); and (c) purchase and/or hold a security of another investment fund managed by the Manager or its affiliate that holds more than 10% of its net asset value in securities of one or more Foreign Underlying ETFs or Dublin iShare ETFs.

OTHER MATERIAL FACTS

International Information Reporting

Pursuant to the Canada-United States Enhanced Tax Information Exchange Agreement entered into between Canada and the United States on February 5, 2014 (the “IGA”) and Part XVIII of the Tax Act (collectively “FATCA”) and the Organization for Economic Co-operation and Development Common Reporting Standard (as implemented in Canada by Part XIX of the Tax Act, “CRS”), the dealers through which Securityholders hold their Securities have due diligence
and reporting obligations. Generally, Securityholders (or in the case of certain Securityholders that are entities, the “controlling persons” thereof) will be required by law to provide their dealer with information relating to their citizenship or tax residence and, if applicable, their foreign tax identification number. If a Securityholders (or, if applicable, any of its controlling persons) does not provide the information or, for FATCA purposes, is identified as a U.S. resident or U.S. citizen (including a U.S. citizen living in Canada) or, for CRS purposes, is identified as a tax resident of a country other than Canada or the U.S., information about the Securityholder (or, if applicable, its controlling persons) and their investment in a CI First Asset ETF will generally be reported to the CRA, unless the Securities are held within a Plan. The CRA will provide that information to, in the case of FATCA, the U.S. Internal Revenue Service and in the case of CRS, the relevant tax authority of any country that is a signatory of the Multilateral Competent Authority Agreement on Automatic Exchange of Financial Account Information or that has otherwise agreed to a bilateral information exchange with Canada under CRS.

Management of the CI First Asset ETFs

The Manager may, at any time and without seeking Securityholder approval, assign the Declaration of Trust or the Management Agreement, as applicable, to an affiliate.

Index Information - Morningstar® Indexes

The Manager has entered into a License Agreement dated November 8, 2011, as amended by the first amending agreement dated January 6, 2012 with Morningstar Research Inc. (the “Morningstar License Agreement”) pursuant to which it has the right, on and subject to the terms of the Morningstar License Agreement, to use the following Indexes as a basis for the operation of certain of the CI First Asset ETFs and to use certain trademarks in connection with certain of the CI First Asset ETFs: Morningstar® Canada Target Dividend Index™, Morningstar® US Target Dividend Index™, Morningstar® Canada Target Momentum Index™, Morningstar® US Target Momentum Index™, Morningstar® Developed Markets ex-North America Target Momentum Index™, Morningstar® Canada Target Value Index™, Morningstar® US Target Value Index™, Morningstar® Developed Markets ex-North America Target Value Index™ and Morningstar® National Bank Québec Index™. The Morningstar License Agreement is for a term of five (5) years and will automatically renew for successive one (1) year terms unless either party provides written notice no less than 90 days prior to the end of the current term of such party’s intention to not renew. If the Morningstar License Agreement is terminated in respect of a CI First Asset ETF for any reason, the Manager will no longer be able to operate that CI First Asset ETF based on the applicable Index.

Index Information – MSCI Indexes

The Manager has entered into a license agreement originally dated December 1, 2013, as amended and restated from time to time, with MSCI Inc. (the “MSCI License Agreement”) pursuant to which it has the right, on and subject to the terms of the MSCI License Agreement, to use the following Indexes (the “MSCI Indexes”) as a basis for the operation of certain of the CI First Asset ETFs and to use certain trademarks in connection with certain of the CI First Asset ETFs: MSCI Canada Quality Index, MSCI Canada Risk Weighted Index, MSCI USA Risk Weighted Top 150 Index, MSCI Europe Risk Weighted Top 100 Index, MSCI World Risk Weighted Top 200 Index, MSCI EAFE Risk Weighted Top 175 Index, and The MSCI License Agreement is for an initial term of 3 years and will automatically renew for successive 1-year terms unless either party provides written notice no less than 90 days prior to the end of the current term of each party’s intention to not renew. If the MSCI License Agreement is terminated in respect of a CI First Asset ETF for any reason, the Manager will no longer be able to operate that CI First Asset ETF based on the applicable Index.

WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT SHALL ANY OF THE MSCI PARTIES HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, SPECIAL, PUNITIVE, CONSEQUENTIAL OR ANY OTHER DAMAGES (INCLUDING LOST PROFITS) EVEN IF NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES.

No purchaser, seller or holder of Securities of the CI First Asset ETFs, or any other person or entity, should use or refer to any MSCI trade name, trademark or service mark to sponsor, endorse, market or promote this security without first contacting MSCI to determine whether MSCI’s permission is required. Under no circumstances may any person or entity claim any affiliation with MSCI without the prior written permission of MSCI.

Index Information – CIBC Indexes

The Manager has entered into a license agreement (the “CIBC License Agreement”) with Canadian Imperial Bank of Commerce (“CIBC”) pursuant to which it has the exclusive right, on and subject to the terms of the CIBC License Agreement, to use the following Indexes (the “CIBC Indexes”) in Canada for ETFs as a basis for the operation of certain of the CI First Asset ETFs and to use certain trademarks in connection with certain of the CI First Asset ETFs: CIBC Canadian Buyback Index, CIBC U.S. Buyback Index and CIBC U.S. TrendLeaders Index. If the CIBC License Agreement is terminated in respect of a CI First Asset ETF for any reason, the Manager will no longer be able to operate that CI First Asset ETF based on the applicable Index. The Index Provider has contracted with Solactive AG (the “Index Calculation Agent”) to administer and calculate the Indexes. The Index Calculation Agent independently calculates and publishes the Indexes. The Index Calculation Agent is not related to the Manager or CIBC. The Index Calculation Agent has no obligation to continue to publish, and may discontinue publication of, any of the Indexes.

Disclaimer – CIBC

THE INDEX PROVIDER AND THE INDEX CALCULATION AGENT DO NOT GUARANTEE THE ACCURACY OR COMPLETENESS OF THE INDEXES, ANY DATA INCLUDED THEREIN, OR ANY DATA FROM WHICH IT IS DERIVED, AND THE INDEX PROVIDER AND THE INDEX CALCULATION AGENT HAVE NO LIABILITY FOR ANY ERRORS, OMISSIONS, OR INTERRUPTIONS THEREIN. THE INDEX PROVIDER AND THE INDEX CALCULATION AGENT DO NOT MAKE ANY WARRANTY, EXPRESS OR IMPLIED, AS TO RESULTS TO BE OBTAINED FROM USE OF INFORMATION PROVIDED BY THE INDEX PROVIDER OR THE INDEX CALCULATION AGENT IN RESPECT OF THE INDEXES AND THE INDEX PROVIDER AND THE INDEX CALCULATION AGENT EXPRESSLY DISCLAIM ALL WARRANTIES OF SUITABILITY WITH RESPECT THERETO. WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT SHALL THE INDEX PROVIDER OR THE INDEX CALCULATION AGENT HAVE ANY LIABILITY FOR ANY SPECIAL, PUNITIVE, INDIRECT, OR CONSEQUENTIAL DAMAGES (INCLUDING LOST PROFITS), EVEN IF NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES.

Neither the Index Provider, the Index Calculation Agent, nor any of their respective affiliates are involved in the operation of the CI First Asset ETFs, or distribution of Securities of the CI First Asset ETFs (other than, in the case of the Index Provider or its affiliates, as Designated Broker or Dealer, as described under the heading “Organization and Management Details of the CI First Asset ETFs - Conflicts of Interest”), or shall have any liability therefor, or for the failure of any of the CI First Asset ETFs to achieve its investment objective.

The securities are not sponsored, promoted, sold or supported in any other manner by the Index Provider or the Index Calculation Agent, nor do the Index Provider or the Index Calculation Agent offer any express or implicit guarantee or assurance either with regard to the results of using the Indexes or the index prices at any time or in any other respect. The Index Calculation Agent uses its best efforts to ensure that the Indexes are calculated correctly. Irrespective of its obligations towards the Manager, neither the Index Calculation Agent nor the Index Provider has any obligation to point out errors in the Indexes to third parties including but not limited to investors and/or financial intermediaries of the CI First Asset ETFs. The publication of the Indexes by the Index Calculation Agent does not constitute a recommendation by the Index Calculation Agent to invest capital in the CI First Asset ETFs nor does it in
any way represent an assurance or opinion of the Index Calculation Agent or with regard to any investment in the CI First Asset ETFs.

Certain trademarks of the Index Provider and/or certain of its affiliates and have been licensed for use for certain purposes by the Manager. The CI First Asset ETFs are not sponsored, guaranteed, endorsed, sold or promoted by CIBC or any of its affiliates, and neither CIBC nor any of its affiliates makes any representation whatsoever regarding the advisability of investing in securities of the CI First Asset ETFs.

Index Information – FTSE Indexes

The Manager has entered into a license agreement dated June 1, 2012, originally with TSX Inc., doing business as PC-Bond, and now with FTSE Global Debt Capital Markets Inc. (the “FTSE License Agreement”) pursuant to which it has the right, on and subject to the terms of the License Agreement, to use the FTSE 1-5 Year Laddered Government Strip Bond Index™ and the FTSE Canada Short Term Government Bond Index as a basis for the operation of certain CI First Asset ETFs and to use certain trademarks in connection with the CI First Asset ETFs.

Under the terms of the FTSE License Agreement, CI has agreed to include the following language in this prospectus:

The CI First Asset ETFs are not sponsored, endorsed, sold or promoted by FTSE Global Debt Capital Markets Inc. (“FTDCM”), FTSE International Limited (“FTSE”), the London Stock Exchange Group companies (the “Exchange”) or TSX Inc. (together with FTDCM, FTSE and the Exchange the “Licensor Parties”). The Licensor Parties make no warranty or representation whatsoever, expressly or impliedly, either as to the results to be obtained from the use of any Index and/or the figure at which any Index stands at any particular time on any given day or otherwise. Each Index is compiled and calculated by FTDCM and all copyright in the Index values and constituent lists vests in FTDCM. The Licensor Parties shall not be liable (whether in negligence or otherwise) to any person for any error in any Index and the Licensor Parties shall not be under any obligation to advise any person of any error therein.

“FTSE Canada 1-5 Year Laddered Government Bond Index™” is a trademark of FTSE Global Debt Capital Markets Inc., incorporating “FTSE®” under license. “FTSE®” is a trademark of the London Stock Exchange Group companies and is used by FTDCM under license.

Purchasers’ Statutory Rights of Withdrawal and Rescission

Securities legislation in certain of the provinces and territories of Canada provides purchasers with the right to withdraw from an agreement to purchase ETF securities within 48 hours after the receipt of a confirmation of a purchase of such securities. In several of the provinces and territories, the securities legislation further provides a purchaser with remedies for rescission or, in some jurisdictions, revisions of the price or damages if the prospectus and any amendment contains a misrepresentation, or non-delivery of the ETF Facts, provided that the remedies for rescission, revisions of the price or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser’s province or territory.

The purchaser should refer to the applicable provisions of the securities legislation of the province or territory for the particulars of these rights or should consult with a legal advisor.

Documents Incorporated by Reference

Additional information about each of the CI First Asset ETFs is, or will be, available in the following documents:

(a) the most recently filed comparative annual financial statements of the CI First Asset ETFs, together with the accompanying reports of the auditor;

(b) any interim financial statements of the CI First Asset ETFs filed after those annual financial statements;

(c) the most recently filed annual management reports of fund performance of the CI First Asset ETFs;
(d) any interim management reports of fund performance of the CI First Asset ETFs filed after that most recently filed annual management reports of fund performance of the CI First Asset ETFs; and

(e) the most recently filed ETF Facts of the CI First Asset ETFs.

These documents are or will be incorporated by reference into this prospectus, which means that they legally form part of this document just as if they were printed as part of this document. You can obtain a copy of these documents, at your request, and at no cost, by calling 416-642-1289 or toll free 1-877-642-1289 or by contacting your dealer. These documents are available at no cost on the CI First Asset ETF’s website at www.firstasset.com. These documents and other information about the CI First Asset ETFs will also be available on the internet at www.sedar.com.

In addition to the documents listed above, any documents of the type described above that are filed on behalf of the CI First Asset ETFs after the date of this prospectus and before the termination of the distribution of the CI First Asset ETFs are deemed to be incorporated by reference into this prospectus.
### SCHEDULE A - ETF PROFILES

CI First Asset 1-5 Year Laddered Government Strip Bond Index ETF (“BXF”)

ETF Details

*TSX Ticker Symbol:* BXF

*Portfolio Adviser:* CI

*Annual Management Fee:* 0.20% of NAV

*Redemption Fee:* Up to 0.05% of the exchange or redemption proceeds

*Distribution Frequency:* At least quarterly

Material Amendments to the Constaing Documents of the ETF since Inception

None.

Investment Objectives

BXF has been designed to replicate, to the extent possible, the performance of a Canadian 1-5 year laddered government strip bond index, net of expenses. The current index is the FTSE Canada 1-5 Year Laddered Government Strip Bond Index™ (the “Index”). BXF invests primarily in Strip Bonds, both coupons and residuals, derived from Canadian federal and provincial government bonds issued domestically in Canada and denominated in Canadian dollars.

“Strip Bonds” means Canadian federal and provincial bonds that have been separated into their component parts (each interest payment and the single principal payment). Once separated, each of the component parts of the original bond can trade and is registered as a separate security, allowing the holder to receive a single known payment on a specific date. Interest payments are known as “coupons” and the final payment at maturity is known as the “residual”. Both coupons and residuals are also known as “zero coupon” bonds. Strip Bonds are available in terms to maturity ranging from less than 1 month to over 50 years. Both coupons and residuals are handled on a book-based settlement system, whereby the physical securities are held on behalf of all holders by major trust companies or CDS, until maturity.

Investment Strategies

BXF invests in a portfolio that consists primarily of Strip Bonds, both coupons and residuals, derived from bonds issued by the Government of Canada (including Crown Corporations) and Canadian provincial bonds (including provincially guaranteed debt securities) issued domestically in Canada and denominated in Canadian dollars with an investment grade rating and a remaining effective term to maturity of between zero and six years.

A Strip Bond is created from existing conventional bonds by a trustee who, following deposit of the bond, separates each of the coupon payments, as well as the principal payment, from one another. Once separated, each cash flow (piece of the original bond) can trade and is registered as a separate security, allowing the holder to receive a single known payment on a specific date. The interest payments are known as “coupons” after their source of cash flow, and the final payment at maturity is known as the “residual” since it is what is left over after the coupons are stripped off. Both coupons and residuals are known as “zero coupon” bonds or “zeros”. The strip bond market in Canada has grown substantially since the late 1980s and is now an integral part of Canadian fixed-income markets with an overall market capitalization of over $100 billion.

The laddered strategy is intended to allocate the fixed income capital over a range of maturities. Generally, government bonds with a term to maturity of up to six years are less sensitive to interest changes than bonds with longer maturities and thus they exhibit lower price volatility.
For more information on the investment strategies of BXF, please see “Investment Strategies – Index ETFs” in the body of the prospectus.

Overview of the Sectors that the ETF Invests In

The Index measures potential returns of a portfolio of Strip Bonds, both coupons and residuals, derived from bonds issued by the Government of Canada (including Crown Corporations) and Canadian provincial bonds (including provincially guaranteed debt securities) issued domestically in Canada and denominated in Canadian dollars based upon five distinct annual groupings of maturity. The Index seeks to maintain a continuous maturity laddered portfolio, meaning that securities holdings are scheduled to mature in a proportional, annual sequential pattern. The Index will initially be comprised of approximately 25 securities, five of which will be equally weighted in each of the five maturity groupings. The Index is rebalanced annually in June. Further information about the Index, including a description of its methodology, is available from the Index Provider on its website.

Investment Restrictions Specific to the ETF

None.

Risk Factors

In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to BXF:

- calculation and termination of the index risk
- credit risk
- fixed income risk
- illiquid securities risk
- liability of Unitholders risk
- passive investment risk
- rebalancing and adjustment risk
- replication or tracking risk
- use of the index risk

CI First Asset Active Canadian Dividend ETF ("FDV")

ETF Details

**TSX Ticker Symbol:** FDV  
**Portfolio Manager:** CI  
**Annual Management Fee:** 0.55% of NAV  
**Redemption Fee:** Up to 0.25% of the exchange or redemption proceeds  
**Distribution Frequency:** At least quarterly

Material Amendments to the Constating Documents of the ETF since Inception

None.

**Investment Objectives**

FDV’s investment objective is to seek long-term total returns consisting of regular dividend income and long-term capital appreciation from an actively managed portfolio comprised primarily of dividend-paying and other equity securities of Canadian issuers.

**Investment Strategies**

FDV invests in an actively managed portfolio comprised primarily of dividend-paying and other equity securities of Canadian issuers. FDV may also invest up to 30% of its NAV in dividend-paying and other equity securities of non-Canadian issuers.

The Portfolio Manager’s investment process incorporates both a top-down approach to sector allocation and a bottom-up approach to security selection. Specifically, in constructing and managing the portfolio, the Portfolio Manager intends to apply a top-down, macroeconomic approach to sector allocation and rotation, based on its views of the stage of the economic cycle. In selecting individual securities within a particular sector, the Portfolio Manager intends to use a research driven, fundamental approach that highlights issuers that are either undervalued in the Portfolio Manager’s opinion, or have attractive valuations relative to their peers in the sector.

At the discretion of the Portfolio Manager, the Portfolio Manager may choose to enter into currency forward agreements in compliance with NI 81-102 to hedge all or a portion of the value of FDV’s non-Canadian currency exposure back to the Canadian dollar.

**Overview of the Sectors that the ETF Invests In**

FDV invests primarily in dividend-paying and other equity securities of Canadian issuers. FDV may also invest in dividend-paying and other equity securities of non-Canadian issuers.

**Investment Restrictions Specific to the ETF**

FDV will not (i) invest in or hold (a) securities of or an interest in any non-resident entity, an interest in or a right or option to acquire such property, or an interest in a partnership which holds any such property if FDV (or the partnership) would be required to include significant amounts in income pursuant to section 94.1 of the Tax Act, (b) an interest in a trust (or a partnership which holds such an interest) which would require FDV (or the partnership) to report significant amounts of income in connection with such interest pursuant to the rules in section 94.2 of the Tax Act, or (c) any interest in a non-resident trust other than an “exempt foreign trust” for the purposes of section 94 of the Tax Act (or a partnership which holds such an interest); (ii) invest in any security that would be a “tax shelter
investment” within the meaning of section 143.2 of the Tax Act; or (iii) invest in any security of an issuer that would be a “foreign affiliate” of FDV for purposes of the Tax Act.

Risk Factors

In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to FDV:

- convertible securities risk
- credit risk
- equity risk
- foreign investment risk
- foreign markets risk
- illiquid securities risk
- investment trust investment risk
- liability of Unitholders risk
- short selling risk
- small capitalization risk
- withholding tax risk

Investment Objectives

FAO’s investment objective is to maximize long term risk-adjusted total returns, delivered through cash distributions and long term capital appreciation, in a manner consistent with preservation of capital and prudent risk management by actively investing primarily in Credit Securities (as defined herein) of North American issuers.

Investment Strategies

The Portfolio Manager seeks to achieve the investment objective of FAO through the application of specialized analysis and expertise, and invests in a portfolio consisting primarily of corporate fixed income instruments (“Credit Securities”) of North American issuers, including high yield bonds (senior secured and senior unsecured), investment grade bonds, senior floating rate loans of varying maturities and other floating rate fixed income securities. The Portfolio Manager’s portfolio credit selection process is rooted in independent research that evaluates an issuer’s entire capital structure. The relative allocation among types of Credit Securities and individual issuers will be based primarily on the Portfolio Manager’s view of macro-economic conditions combined with ongoing bottom-up fundamental credit analysis and its assessment of which instruments offer the most attractive relative value on a risk-return basis, both within an issuer’s capital structure and across other issuers’ capital structures. The ability to allocate between types of Credit Securities enables the Portfolio Manager to adjust the credit and duration profile of the portfolio, with a view to allowing FAO the opportunity to achieve its investment objective in all interest rate environments and manage duration when necessary. The investment strategy is designed to offer capital preservation, liquidity and diversification but with greater flexibility to mitigate downside risk while preserving the ability to benefit from rising rates if the opportunity exists. At any time, FAO’s portfolio may consist primarily of non-investment grade securities, and may include government bonds.

If market conditions require, in order to preserve capital, FAO may seek to invest a substantial portion of its assets in cash and cash equivalents.

At the discretion of the Portfolio Manager, FAO may choose to enter into currency forward agreements or other derivatives to hedge all or a portion of the value of FAO’s foreign currency exposure, provided that, with respect to non-Canadian dollar denominated assets attributable to the Common Units, it is intended that at all times at least 90% of the value of FAO’s foreign currency exposure (other than individual currency exposure which the Portfolio Manager in its sole discretion determines is impractical to hedge or is non-material) will be hedged back to the Canadian dollar. All such currency forward agreements or other derivatives will be entered into in compliance with NI 81-102 with financial institutions that have a “designated rating” as defined in NI 81-102.
Overview of the Sectors that the ETF Invests In

FAO invests in an actively managed portfolio comprised of a broad range of fixed income securities, primarily non-investment grade, both fixed and floating rates and focused on North America.

Investment Restrictions Specific to the ETF

FAO will not (i) invest in or hold (a) securities of or an interest in any non-resident entity, an interest in or a right or option to acquire such property, or an interest in a partnership which holds any such property if FAO (or the partnership) would be required to include significant amounts in income pursuant to section 94.1 of the Tax Act, (b) an interest in a trust (or a partnership which holds such an interest) which would require FAO (or the partnership) to report significant amounts of income in connection with such interest pursuant to the rules in section 94.2 of the Tax Act, or (c) any interest in a non-resident trust other than an “exempt foreign trust” for the purposes of section 94 of the Tax Act (or a partnership which holds such an interest); (ii) invest in any security that would be a “tax shelter investment” within the meaning of section 143.2 of the Tax Act; or (iii) invest in any security of an issuer that would be a “foreign affiliate” of FAO for purposes of the Tax Act.

Risk Factors

In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to FAO:

- benchmark rates risk
- first lien loan risk
- fixed income risk
- foreign currency exposure risk
- foreign markets risk
- illiquid securities risk
- international Portfolio Manager risk
- liability of Unitholders risk
- potential implications of Brexit risk
- risks associated with investing in floating rate instruments
- risks associated with investments in high yield bonds
- risks associated with investments in commercial loans
- trust fund multi-class risk
- U.S. government obligations risk
- withholding tax risk

CI First Asset Active Utility & Infrastructure ETF (“FAI”)

ETF Details

TSX Ticker Symbol: FAI

Portfolio Manager: CI

Annual Management Fee: 0.65% of NAV

Redemption Fee: Up to 0.25% of the exchange or redemption proceeds

Distribution Frequency: Monthly

Material Amendments to the Constating Documents of the ETF since Inception

FAI was originally established as a closed-end investment trust under the laws of Ontario. On January 16, 2015, pursuant to amendments to its declaration of trust approved at an adjourned meeting of unitholders held on December 18, 2014, First Asset Pipes & Power Income Fund converted from a closed-end fund into an ETF and was renamed First Asset Active Utility & Infrastructure ETF. In connection with the conversion, the declaration of trust was amended and restated, among other matters, in order to effect the conversion and to permit FAI to offer Common Units. The units of First Asset Pipes & Power Income Fund outstanding on the date of the conversion were redesignated as Common Units of FAI and continue to be listed on the TSX.

Investment Objectives

FAI’s investment objectives are to provide Unitholders with monthly cash distributions and the opportunity for capital appreciation from an actively managed portfolio comprised primarily of equity securities of Utility and Infrastructure Issuers.

“Utility and Infrastructure Issuers” are issuers that: derive their revenue from the distribution, wholesale or retail, of oil, natural gas or other refined products typically pursuant to fixed rate transportation tolls or from power generation and sale including hydroelectric, gas-fired, coal-fired and wind, among others, typically pursuant to long term fixed price contracts; service and support these industries; or are otherwise in the energy infrastructure industry, provided that the determination by the Portfolio Manager that an Issuer is a Utility and Infrastructure Issuer shall be conclusive for all purposes.

Investment Strategies

FAI invests in an actively managed portfolio comprised primarily of equity securities of Utility and Infrastructure Issuers in accordance with the provisions of NI-81-102.

The Portfolio Manager will not (a) invest in a Utility and Infrastructure Issuer unless its securities are listed on a North American stock exchange, and (b) purchase securities of an Issuer if, after such purchase, more than 30% of its NAV would be comprised of securities solely listed on non-Canadian stock exchanges.

“Issuer” means a corporation, trust, limited partnership or other entity, the securities of which are listed on a stock exchange or traded on a stock market including, without limitation, Income Participating Securities and Income Deposit Securities, provided that the determination by the Manager that an issuer of securities is an Issuer shall be conclusive for all purposes.

“Income Participating Securities” or “Income Deposit Securities” mean the securities of an Issuer that are typically issued in securities comprised of a dividend-bearing common share and a promissory note, the two components of which, after an initial period during which separation is prohibited, can be split and traded separately.
At the discretion of the Portfolio Manager, the Portfolio Manager may choose to enter into currency forward agreements in compliance with NI 81-102 to hedge all or a portion of the value of FAI’s non-Canadian currency exposure back to the Canadian dollar.

Overview of the Sectors that the ETF Invests In

FAI invests primarily in securities of Utility and Infrastructure Issuers.

Investment Restrictions Specific to the ETF

FAI will not (i) invest in or hold (a) securities of or an interest in any non-resident entity, an interest in or a right or option to acquire such property, or an interest in a partnership which holds any such property if FAI (or the partnership) would be required to include significant amounts in income pursuant to section 94.1 of the Tax Act, (b) an interest in a trust (or a partnership which holds such an interest) which would require FAI (or the partnership) to report significant amounts of income in connection with such interest pursuant to the rules in section 94.2 of the Tax Act, or (c) any interest in a non-resident trust other than an “exempt foreign trust” for the purposes of section 94 of the Tax Act (or a partnership which holds such an interest); (ii) invest in any security that would be a “tax shelter investment” within the meaning of section 143.2 of the Tax Act; or (iii) invest in any security of an issuer that would be a “foreign affiliate” of FAI for purposes of the Tax Act.

Risk Factors

In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to FAI:

- commodity risk
- convertible securities risk
- credit risk
- equity risk
- foreign investment risk
- foreign markets risk
- illiquid securities risk
- investment trust investment risk
- liability of Unitholders risk
- short selling risk
- small capitalization risk
- withholding tax risk

CI First Asset Canadian Buyback Index ETF ("FBE")

ETF Details

**TSX Ticker Symbol:** FBE

**Portfolio Adviser:** CI

**Annual Management Fee:** 0.60% of NAV

**Redemption Fee:** Up to 0.25% of the exchange or redemption proceeds

**Distribution Frequency:** At least quarterly

Material Amendments to the Constating Documents of the ETF since Inception

None.

Investment Objectives

FBE has been designed to replicate the performance of the CIBC Canadian Buyback Index (the "Index"), net of expenses. FBE invests primarily in equity securities of issuers listed on the TSX.

Investment Strategies

For a description of the investment strategies of FBE, please see “Investment Strategies – Index ETFs” in the body of the prospectus.

Overview of the Sectors that the ETF Invests In

The Index is comprised of an equally weighted portfolio of equity securities of TSX-listed companies with active share buyback programs that have significantly and consistently reduced issued and outstanding share count. The Index was developed by CIBC World Markets based on empirical evidence that shows that highly profitable companies with excellent core business models often have cash flows that exceed the required re-investment needed to support intrinsic growth, which cash flows are frequently used to implement share buyback programs. The Index uses a proprietary rules-based methodology to select its constituent securities. To qualify for inclusion in the Index an equity security must, among other requirements: (i) trade on the TSX; (ii) meet a minimum market capitalization threshold; and (iii) meet a minimum average daily traded dollar value volume threshold. The Index is reconstituted monthly and rebalanced quarterly to equal weight. Further information about the Index, including a description of its methodology, is available from the Index Provider on its website.

Investment Restrictions Specific to the ETF

FBE will not (i) invest in or hold (a) securities of or an interest in any non-resident entity, an interest in or a right or option to acquire such property, or an interest in a partnership which holds any such property if FBE (or the partnership) would be required to include significant amounts in income pursuant to section 94.1 of the Tax Act, (b) an interest in a trust (or a partnership which holds such an interest) which would require FBE (or the partnership) to report significant amounts of income in connection with such interest pursuant to the rules in section 94.2 of the Tax Act, or (c) any interest in a non-resident trust other than an "exempt foreign trust" for the purposes of section 94 of the Tax Act (or a partnership which holds such an interest); (ii) invest in any security that would be a "tax shelter investment" within the meaning of section 143.2 of the Tax Act; or (iii) invest in any security of an issuer that would be a "foreign affiliate" of FBE for purposes of the Tax Act.
Risk Factors

In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to FBE:

- calculation and termination of the index risk
- credit risk
- equity risk
- passive investment risk
- rebalancing and adjustment risk
- replication or tracking risk
- use of the index risk

CI First Asset Canadian Convertible Bond ETF ("CXF")

ETF Details

TSX Ticker Symbol: CXF
Portfolio Manager: CI
Annual Management Fee: 0.65% of NAV
Redemption Fee: Up to 0.05% of the exchange or redemption proceeds
Distribution Frequency: Monthly

Material Amendments to the Constating Documents of the ETF since Inception
None.

Investment Objectives

CXF’s investment objectives are to provide Unitholders with (i) quarterly cash distributions, and (ii) the opportunity for capital appreciation by investing on a capitalization-weighted basis in a portfolio (the “CXF Portfolio”) of Convertible Bonds of Canadian issuers. Inclusion of a Convertible Bond in the CXF Portfolio is based upon the following criteria (the “Eligibility Criteria”): (i) minimum market capitalization outstanding of $50 million; (ii) minimum trailing 30 day average daily volume traded of $150 thousand (the “Liquidity Threshold”); (iii) publicly traded on a stock exchange in Canada; (iv) not currently in default of payment of either interest or principal; and (v) at least 31 days to maturity (either term or next call), provided that, to the extent that an index is developed and published which establishes criteria and methodologies, which are, in the opinion of the Portfolio Manager, similar to that of CXF, the Portfolio Manager may decide, in its discretion, to track that index and invest pursuant to such index’s methodology.

“Convertible Bonds” means unsecured, subordinated debentures of issuers that can be converted into equity securities of the issuers at a specified price at the option of the holder, and excludes Synthetic Convertible Securities.

“Synthetic Convertible Security” means a combination of a debt instrument and an equity option that when combined behave in a manner similar to a convertible debenture, and includes instruments issued by financial institutions which offer combined exposure to the credit and equity option of an issuer.

Investment Strategies

CXF invests on a capitalization-weighted basis in Convertible Bonds which meet the Eligibility Criteria. Capitalization weightings are determined on the basis of a Convertible Bond’s relative market capitalization to the total market capitalization of Convertible Bonds included in the CXF Portfolio, on initial investment and on quarterly rebalancings. The CXF Portfolio will be rebalanced quarterly, at the end of each quarter, and will add new issues and issues which newly meet the Eligibility Criteria at that time. Once included in the CXF Portfolio, a Convertible Bond will be removed from the CXF Portfolio for any of the following reasons: (i) if its market capitalization drops below $30 million for two consecutive quarters; (ii) if its trailing 30-day average trailing volume traded drops below $75 thousand for two consecutive quarters; and (iii) if it otherwise no longer meets the other requirements of the Eligibility Criteria. The Portfolio Manager may alter the Liquidity Threshold, either up or down, at its discretion, and correspondingly the levels at which a Convertible Bond will be removed from the CXF Portfolio. Convertible Bonds may also be included in, or excluded from, the CXF Portfolio in the sole discretion of the Portfolio Manager. Accordingly, at any given time, the CXF Portfolio may include Convertible Bonds which would otherwise not meet the Eligibility Criteria, and may likewise exclude Convertible Bonds that on their face appear to meet the Eligibility Criteria.

CXF will invest in Convertible Bonds, and may, from time to time, invest in other portfolio securities and instruments which may include, but are not limited to, securities of exchange-traded funds, mutual funds or other public...
investment funds or derivative instruments and a significant amount of cash and/or cash equivalents. The Portfolio Manager may use a sampling methodology in selecting investments for CXF. Sampling means that the Portfolio Manager will use quantitative analysis to select securities from the Convertible Bonds meeting the Eligibility Criteria, in order to obtain a representative sample of securities that resemble the universe in terms of key risk factors, performance attributes, industry weightings, market capitalization and other appropriate financial characteristics. The quantity of constituent securities selected using such sampling methodology will be based on a number of factors, including the asset base of CXF.

In accordance with applicable securities legislation, including NI 81-102, and as an alternative to or in conjunction with investing in and holding the constituent securities, CXF may invest in securities other than Constituent Securities included in the CXF Portfolio, including securities of exchange-traded funds, mutual funds or other public investment funds or derivative instruments, in a manner that is consistent with its investment objectives and investment strategies, provided that where CXF invests in another investment fund, no management fees or incentive fees are payable by CXF that, to a reasonable person, would duplicate a fee payable by such other investment fund for the same service.

CXF may use derivative instruments for hedging all or a portion of the value of CXF’s non-Canadian currency exposure back to the Canadian dollar. CXF may also use derivative instruments to reduce transaction costs and increase the liquidity and efficiency of trading, in accordance with its investment restrictions. CXF may, from time to time, use derivatives to hedge its exposure to equity securities and may use various hedging activities to manage portfolio and currency risk.

**Overview of the Sectors that the ETF Invests In**

CXF invests primarily in Convertible Bonds of Canadian issuers.

**Investment Restrictions Specific to the ETF**

None.

**Risk Factors**

In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to CXF:

- convertible securities risk
- credit risk
- fixed income risk
- illiquid securities risk
- investment trust investment risk
- liability of Unitholder risks
- risks associated with investments in high yield bonds
- short selling risk

CI First Asset Canadian REIT ETF ("RIT")

ETF Details

TSX Ticker Symbol: RIT

Portfolio Manager: CI

Annual Management Fee: 0.75% of NAV

Redemption Fee: Up to 0.25% of the exchange or redemption proceeds

Distribution Frequency: Monthly

Material Amendments to the Constituting Documents of the ETF since Inception

RIT was originally established as a closed-end investment trust under the laws of Ontario. Effective on July 14, 2015, First Asset Canadian REIT Income Fund converted to an ETF, was renamed First Asset Canadian REIT ETF and was permitted to offer Common Units. The units of First Asset Canadian REIT Income Fund outstanding on the date of conversion were redesignated as Common Units of RIT and continue to be listed on the TSX.

Investment Objectives

RIT’s investment objective is to seek long-term total returns consisting of regular income and long-term capital appreciation from an actively managed portfolio comprised primarily of securities of Canadian REITs, REOCs and entities involved in real estate related services.

Investment Strategies

RIT invests in an actively managed portfolio comprised primarily of securities of Canadian REITs, REOCs and entities involved in real estate related services. RIT may also invest up to 30% of its NAV in securities of non-Canadian REITs, REOCs and entities involved in real estate related services.

At the discretion of the Portfolio Manager, the Portfolio Manager may choose to enter into currency forward agreements in compliance with NI 81-102 to hedge all or a portion of the value of RIT’s non-Canadian currency exposure back to the Canadian dollar.

Overview of the Sectors that the ETF Invests In

RIT invests primarily in securities of REITs, REOCs and corporations involved in real estate related services.

Investment Restrictions Specific to the ETF

RIT will not (i) invest in or hold (a) securities of or an interest in any non-resident entity, an interest in or a right or option to acquire such property, or an interest in a partnership which holds any such property if RIT (or the partnership) would be required to include significant amounts in income pursuant to section 94.1 of the Tax Act, (b) an interest in a trust (or a partnership which holds such an interest) which would require RIT (or the partnership) to report significant amounts of income in connection with such interest pursuant to the rules in section 94.2 of the Tax Act, or (c) any interest in a non-resident trust other than an “exempt foreign trust” for the purposes of section 94 of the Tax Act (or a partnership which holds such an interest); (ii) invest in any security that would be a “tax shelter investment” within the meaning of section 143.2 of the Tax Act; or (iii) invest in any security of an issuer that would be a “foreign affiliate” of RIT for purposes of the Tax Act.
Risk Factors

In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to RIT:

- convertible securities risk
- credit risk
- equity risk
- foreign investment risk
- foreign markets risk
- illiquid securities risk
- investment trust investment risk
- liability of Unitholders risk
- real estate investment risk
- short selling risk
- small capitalization risk
- withholding tax risk

CI First Asset CanBanc Income Class ETF (“CIC”)

ETF Details

TSX Ticker Symbol: CIC

Portfolio Manager: CI

Annual Management Fee: 0.65% of NAV

Redemption Fee: Up to 0.25% of the exchange or redemption proceeds

Distribution Frequency: Quarterly

Material Amendments to the Constating Documents of the ETF since Inception

None.

Investment Objectives

CIC’s investment objective is to provide Shareholders with (i) quarterly distributions; (ii) the opportunity for capital appreciation; and (iii) lower overall volatility of portfolio returns than would be experienced by owning a portfolio of common shares of the Bank of Montreal, Canadian Imperial Bank of Commerce, National Bank of Canada, Royal Bank of Canada, The Bank of Nova Scotia and The Toronto-Dominion Bank (collectively, the “Banks”) directly.

Investment Strategies

CIC invests in a portfolio consisting of common shares of the Banks. Each month CIC sells call options on approximately, and not more than, 25% (determined at the time of writing) of the common shares of each issuer held in its portfolio. Call options sold by CIC may be either options traded on a North American stock exchange or “over-the-counter” options sold pursuant to an agreement with a counterparty with an approved credit rating as defined in NI 81-102, and the Manager of CIC intends that such options will be sold at a strike price which is “at-the-money” (that is at or close to the current market price of the portfolio securities in respect of which the options are being sold).

CIC’s portfolio will be rebalanced as soon as practicable in the determination of the Portfolio Manager each calendar quarter, so that immediately following such rebalancing, CIC’s portfolio issuers are approximately equally weighted.

Overview of the Sectors that the ETF Invests In

Investment Restrictions Specific to the ETF

None.

Risk Factors

In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to CIC:

- credit risk
- equity risk
- foreign investment risk
- fund corporation and multi-class/series risk
- illiquid securities risk
- Use of covered call options risk

Material Amendments to the Constating Documents of the ETF since Inception
None.

Investment Objectives
CSY's investment objective is to seek to provide Shareholders with (i) long term capital appreciation with an attractive risk-adjusted rate of return; and (ii) consistent dividend income gained through investing in equity securities of primarily large capitalization Canadian issuers.

Investment Strategies
CSY uses a multi-factor portfolio optimization strategy to allocate its assets to gain exposure to equity securities of primarily large capitalization Canadian issuers in order to try to create a well-diversified portfolio with strong fundamentals, attractive levels of dividend income and a historical risk adjusted rate of return greater than a broad capitalization weighted Canadian equity fund. CSY may invest directly in equity securities and/or indirectly in such securities through Other Funds, including those managed by CI.

CSY will invest in a portfolio comprised of various securities and instruments which may include, but are not limited to, equity securities, futures contracts and exchange-traded funds. If market conditions require, in order to preserve capital, CSY may seek to invest a substantial portion of its assets in cash and cash equivalents.

Overview of the Sectors that the ETF Invests In
CSY will invest in equity securities of primarily large capitalization Canadian issuers, either directly or indirectly through Other Funds in accordance with NI 81-102.

Investment Restrictions Specific to the ETF
None.

Risk Factors
In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to CSY:

- credit risk
- equity risk
- foreign investment risk
- fund corporation and multi-class/series risk
- illiquid securities risk
• use of covered call options risk

CI First Asset Energy Giants Covered Call ETF ("NXF")

ETF Details

TSX Ticker Symbol: NXF (Common Units), NXF.B (Unhedged Common Units)

Portfolio Manager: CI

Annual Management Fee: 0.65% of NAV

Redemption Fee: Up to 0.05% of the exchange or redemption proceeds

Distribution Frequency: At least quarterly

Material Amendments to the Constating Documents of the ETF since Inception

None.

Investment Objectives

NXF’s investment objective is to provide Unitholders, through an actively managed portfolio, as described below, with (i) quarterly cash distributions, (ii) the opportunity for capital appreciation by investing on an equal weight basis in a portfolio of equity securities of the 15 largest non-Canadian Energy Companies measured by US$ market capitalization with common stock or ADRs listed on a Canadian or U.S. stock exchange, and (iii) lower overall volatility of returns on the portfolio than would be experienced by owning a portfolio of securities of such issuers directly. NXF’s portfolio is rebalanced quarterly in order to maintain an approximately equal weighting, and each month the Portfolio Manager employs a covered call option writing program on approximately, and not more than, 25% of the securities of each portfolio issuer. Options may be written on each individual portfolio issuer, or on a basket basis, encompassing more than one portfolio security, in the discretion of the Portfolio Manager, in order to seek to earn attractive tax effective income from dividends, distributions and call option premiums, lower the overall volatility of returns associated with owning a portfolio of these securities, and to generate capital appreciation.

“Energy Company” means an issuer classified within either the “Integrated Oil & Gas” or “Oil & Gas Exploration & Production” Global Industry Classification Standard (GICS) sub-industry groups, or otherwise determined by the Manager to derive their revenue primarily from the exploration for and production of oil and natural gas.

Investment Strategies

NXF invests in a portfolio of equity securities of the 15 largest non-Canadian Energy Companies measured by US$ market capitalization with common stock or ADRs listed on a Canadian or U.S. stock exchange.

NXF’s portfolio was initially approximately equally weighted, and each month the Portfolio Manager employs a covered call option writing program on approximately, and not more than, 25% (determined at the time of writing) of the securities of each portfolio issuer, in order to seek to earn attractive tax effective income from dividends, distributions and call option premiums, lower the overall volatility of returns associated with owning a portfolio of these securities, and to generate capital appreciation. Call options may be sold on each individual portfolio security or may be sold on a basket basis, encompassing more than one portfolio security, in the discretion of the Portfolio Manager.

NXF’s portfolio will be rebalanced as soon as practicable, in the determination of the Portfolio Manager, at the end of each calendar quarter, so that immediately following such rebalancing, NXF’s portfolio issuers are approximately equally weighted. In order to facilitate distributions and/or pay expenses of NXF, the Portfolio Manager may sell portfolio securities of NXF at its discretion in which case the weighting of the portfolio will be affected.

It is intended that at all times at least 90% of the value of the foreign currency exposure attributable to the Common Units, if any, will be hedged back to the Canadian dollar. All such currency forward agreements or other derivatives will be entered into in compliance with NI 81-102 with financial institutions that have a “designated rating” as
defined in NI 81-102. The foreign currency exposure attributable to the Unhedged Common Units will not be hedged back to the Canadian dollar.

**Overview of the Sectors that the ETF Invests In**

NXF invests primarily in securities of the largest non-Canadian Energy Companies.

**Investment Restrictions Specific to the ETF**

None.

**Risk Factors**

In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to NXF:

- commodity risk
- investment trust investment risk
- liability of Unitholder risk
- foreign markets risk
- foreign investment risk
- equity risk
- illiquid securities risk
- use of covered call options risk
- short selling risk
- trust fund multi-class risk
- withholding tax risk

CI First Asset Enhanced Government Bond ETF ("FGO")

ETF Details

**TSX Ticker Symbol:** FGO (Common Units), FGO.U (US$ Common Units)

**Portfolio Manager:** Marret

**Annual Management Fee:** 0.55% of NAV

**Redemption Fee:** Up to 0.25% of the exchange or redemption proceeds

**Distribution Frequency:** Quarterly

Material Amendments to the Constituting Documents of the ETF since Inception

None.

Investment Objectives

FGO’s investment objective is to provide long-term total returns through interest income and capital appreciation. FGO will primarily invest in government debt, but may also invest in other debt instruments across the credit spectrum including cash, corporate debt, and debt and credit derivatives.

Investment Strategies

FGO’s portfolio (the "FGO Portfolio") will consist primarily of government debt, but may also hold other debt instruments across the credit spectrum including cash, investment-grade corporate debt, high-yield corporate debt, government debt futures, convertible debentures and credit derivatives. The Manager has full flexibility with regards to duration positioning and will seek to provide optimal exposure through changing market conditions.

It is intended that, at all times, at least 50% of the FGO Portfolio will consist of government debt. During periods of weak economic growth and widening credit spreads, the Manager has discretion to invest up to 100% of the FGO Portfolio in Government of Canada bonds and U.S. Treasury securities. Government debt issued by other developed countries may also be added tactically on a currency-hedged basis. Additionally, FGO may use government debt or futures to hedge the interest rate risk of the FGO Portfolio.

Investment-grade and high-yield corporate debt securities may be domiciled in Canada, the U.S. or Europe with the intention of creating interest income and capital gains from narrowing credit spreads. One source of narrowing credit spreads may be discounts on new issues. The FGO Portfolio is expected to be widely diversified by industry and company. At no time will more than 25% of the FGO Portfolio be comprised of high-yield corporate debt securities.

When the Manager deems appropriate or in the event of adverse market, economic and/or political conditions, the FGO Portfolio may primarily consist of very short-term government debt, such as U.S. Treasury securities (cash equivalents) and, to a lesser extent, cash.

It is intended that at all times (i) at least 90% of the non-Canadian currency exposure attributable to the Common Units will be hedged to the Canadian dollar and (ii) at least 90% of the non-U.S. currency exposure attributable to the US$ Common Units will be hedged to the U.S. dollar. The Manager may choose not to hedge any individual currency exposure to the extent that the Manager, in its sole discretion, deems it impractical or determines, in its sole discretion, that the exposure is non-material.

As soon as practicable following the end of each month, the Manager intends to publish on its website at www.firstasset.com a summary of the investment portfolio disclosing the top ten positions held by FGO expressed as an absolute percentage of the net assets of FGO.
Overview of the Sectors that the ETF Invests In

The FGO Portfolio will consist primarily of government debt, but may also hold other debt instruments across the credit spectrum including cash, corporate debt, and debt and credit derivatives.

Investment Restrictions Specific to the ETF

FGO will not (i) invest in or hold (a) securities of or an interest in any non-resident entity, an interest in or a right or option to acquire such property, or an interest in a partnership which holds any such property if FGO (or the partnership) would be required to include significant amounts in income pursuant to section 94.1 of the Tax Act, (b) an interest in a trust (or a partnership which holds such an interest) which would require FGO (or the partnership) to report significant amounts of income in connection with such interest pursuant to the rules in section 94.2 of the Tax Act, or (c) any interest in a non-resident trust other than an “exempt foreign trust” for the purposes of section 94 of the Tax Act (or a partnership which holds such an interest); (ii) invest in any security that would be a “tax shelter investment” within the meaning of section 143.2 of the Tax Act; (iii) invest in any security of an issuer that would be a “foreign affiliate” of FGO for purposes of the Tax Act; or (iv) enter into any arrangement (including the acquisition of securities for the FGO Portfolio) where the result is a “dividend rental arrangement” for purposes of the Tax Act (including any amendment to such definition).

Risk Factors

In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to FGO:

- credit risk
- first lien loan risk
- fixed income risk
- foreign markets risk
- illiquid securities risk
- risks associated with investments in commercial loans
- trust fund multi-class risk
- withholding tax risk

CI First Asset Enhanced Short Duration Bond ETF ("FSB")

ETF Details

**TSX Ticker Symbol:** FSB (Common Units), FSB.U (US$ Common Units)

**Portfolio Manager:** Marret

**Annual Management Fee:** 0.60% of NAV

**Redemption Fee:** Up to 0.25% of the exchange or redemption proceeds

**Distribution Frequency:** Monthly

Material Amendments to the Constating Documents of the ETF since Inception

None.

Investment Objectives

FSB's investment objective is to provide absolute returns through interest income and capital gains and its risk objective is to have very low volatility and positive returns over any twelve-month period. FSB will primarily invest in debt instruments across the credit spectrum including cash, government debt, investment-grade corporate debt, high-yield corporate debt, government debt futures, convertible debentures and credit derivatives. FSB’s strategy will primarily focus on U.S. and Canadian corporate bonds and will include the use of government bond futures to manage the duration of the fund according to the volatility objectives. To minimize interest rate volatility, FSB would typically target an overall portfolio duration of less than 2 years.

Investment Strategies

FSB’s portfolio consists primarily of debt instruments across the credit spectrum including cash, government debt, investment-grade corporate debt, high-yield corporate debt, government debt futures, convertible debentures and credit derivatives. To minimize interest rate volatility, FSB would typically target an overall portfolio duration of less than 2 years.

"Government Debt" - During periods of weak economic growth and widening credit spreads, FSB expects to make significant investments in Government of Canada and U.S. Treasury securities. Government debt issued by other developed countries may also be added tactically on a currency-hedged basis. Additionally, FSB will use government debt or futures to hedge the interest rate risk of its corporate debt in order to isolate the credit risk of such holdings.

"Investment-grade and High-yield Corporate Debt" - Investment-grade corporate debt securities may be domiciled in Canada, the U.S. or Europe with the intention of creating interest income and capital gains from narrowing credit spreads.

High-yield corporate debt securities will primarily be higher quality, very liquid, shorter in duration and domiciled in the U.S. or Canada with the intention of creating interest income and capital gains from narrowing credit spreads.

With regards to both investment-grade and high-yield corporate debt, one source of narrowing credit spreads may be discounts on new issues. The FSB’s portfolio will be widely diversified by industry and company.

"Cash and Cash-Equivalents" - When the Portfolio Manager deems appropriate or in the event of adverse market, economic and/or political conditions, the portfolio may primarily consist of cash and/or cash equivalents.

It is intended that at all times (i) at least 90% of the non-Canadian currency exposure attributable to the Common Units will be hedged to the Canadian dollar and (ii) at least 90% of the non-U.S. currency exposure attributable to
the US$ Common Units will be hedged to the U.S. dollar. The Portfolio Manager may choose not to hedge any individual currency exposure to the extent that the Portfolio Manager, in its sole discretion, deems it impractical or determines, in its sole discretion, that the exposure is non-material.

Overview of the Sectors that the ETF Invests In

FSB invests primarily in debt instruments across the credit spectrum including cash, government debt, investment-grade corporate debt, high-yield corporate debt, government debt futures, convertible debentures and credit derivatives. When the Portfolio Manager deems appropriate or in the event of adverse market, economic and/or political conditions, the portfolio may consist primarily of cash and/or cash equivalents.

Investment Restrictions Specific to the ETF

FSB will not (i) invest in or hold (a) securities of or an interest in any non-resident entity, an interest in or a right or option to acquire such property, or an interest in a partnership which holds any such property if FSB would be required to include significant amounts in income pursuant to section 94.1 of the Tax Act, (b) an interest in a trust (or a partnership which holds such an interest) which would require the FSB (or the partnership) to report significant amounts of income in connection with such interest pursuant to the rules in section 94.2 of the Tax Act, or (c) any interest in a non-resident trust other than an “exempt foreign trust” for the purposes of section 94 of the Tax Act (or a partnership which holds such an interest); (ii) invest in any security that would be a “tax shelter investment” within the meaning of section 143.2 of the Tax Act; or (iii) invest in any security of an issuer that would be a “foreign affiliate” of FSB for purposes of the Tax Act.

Risk Factors

In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to FSB:

- convertible securities risk
- credit risk
- first lien loan risk
- fixed income risk
- foreign markets risk
- foreign investment risk
- illiquid securities risk
- liability of Unitholders risk
- risks associated with investments in commercial loans
- risks associated with investments in high yield bonds
- short selling risk
- trust fund multi-class risk
- withholding tax risk

CI First Asset European Bank ETF (“FHB”)

ETF Details

**TSX Ticker Symbol:** FHB

**Portfolio Manager:** CI

**Annual Management Fee:** 0.85% of NAV

**Redemption Fee:** Up to 0.25% of the exchange or redemption proceeds

**Distribution Frequency:** At least quarterly

Material Amendments to the Constating Documents of the ETF since Inception

None.

**Investment Objectives**

FHB’s investment objective is to seek long-term total returns consisting of long-term capital appreciation and regular dividend income from an actively managed portfolio comprised primarily of equity securities of European banks.

**Investment Strategies**

FHB seeks to achieve its investment objective through the application of specialized analysis and expertise and intends to invest in a portfolio of equity securities that in the view of the Portfolio Manager represents a diversified portfolio of the most attractive opportunities in the European banking sector. FHB’s investments may be selected from any subsector or capitalization level of the European banking sector and may include investments in European non-bank financial services issuers. Generally, the portfolio will consist of between 20 and 30 holdings, and may include ADRs, ADSs, GDRs and IDRs. ADRs, ADSs, GDRs and IDRs are each a type of negotiable financial security that is traded on a local stock exchange but represent a security that is issued by a foreign publicly-listed company. Since these securities trade in local markets and are therefore available for trading during North American trading hours, it may be more efficient for the Portfolio Manager to gain exposure to the underlying foreign equity securities it wishes to hold in its portfolio through investments in ADRs, ADSs, GDRs or IDRs representing the securities of these issuers.

The Portfolio Manager believes that: (a) valuations in the various financial services subsectors, including European banks, around the globe represent the expectations and analysis formed by generalist investors and, as a result, the prices of these securities often do not reflect their intrinsic value, (b) there are opportunities to exploit by applying its specialized expertise, and (c) differences between price and intrinsic value may exist for differing time horizons, and therefore it may be appropriate to adopt varying strategies to capitalize on these different time periods. The Portfolio Manager’s primary focus during the recovery phase of the credit cycle will be on fundamental analysis, seeking to find banks priced at valuations that do not reflect their earnings capacity in a normal economic, credit and interest rate environment. However, the Portfolio Manager will utilize a multi-strategy approach which, in addition to fundamental analysis, may include, without limitation, an analysis of the relative value between issuers.

At the discretion of the Portfolio Manager, the Portfolio Manager may choose to enter into currency forward agreements in compliance with NI 81-102 to hedge all or a portion of the value of FHB’s non-Canadian currency exposure back to the Canadian dollar.

**Overview of the Sectors that the ETF Invests In**

FHB invests in an actively managed portfolio comprised primarily of equity securities of European banks.
**Investment Restrictions Specific to the ETF**

FHB will not (i) invest in or hold (a) securities of or an interest in any non-resident entity, an interest in or a right or option to acquire such property, or an interest in a partnership which holds any such property if FHB (or the partnership) would be required to include significant amounts in income pursuant to section 94.1 of the Tax Act, (b) an interest in a trust (or a partnership which holds such an interest) which would require FHB (or the partnership) to report significant amounts of income in connection with such interest pursuant to the rules in section 94.2 of the Tax Act, or (c) any interest in a non-resident trust other than an “exempt foreign trust” for the purposes of section 94 of the Tax Act (or a partnership which holds such an interest); (ii) invest in any security that would be a “tax shelter investment” within the meaning of section 143.2 of the Tax Act; or (iii) invest in any security of an issuer that would be a “foreign affiliate” of FHB for purposes of the Tax Act.

**Risk Factors**

In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to FHB:

- convertible securities risk
- credit risk
- equity risk
- foreign investment risk
- foreign markets risk
- illiquid securities risk
- investing in Europe risk
- investment trust investment risk
- liability of Unitholder risk
- potential implications of Brexit risk
- small capitalization risk
- short selling risk
- withholding tax risk

CI First Asset Global Financial Sector ETF (“FSF”)

ETF Details

TSX Ticker Symbol: FSF
Portfolio Manager: CI
Annual Management Fee: 0.85% of NAV
Redemption Fee: Up to 0.25% of the exchange or redemption proceeds
Distribution Frequency: At least quarterly

Material Amendments to the Constating Documents of the ETF since Inception
None.

Investment Objectives

FSF’s investment objective is to seek long-term total returns consisting of long-term capital appreciation and regular dividend income from an actively managed portfolio composed primarily of securities of issuers in the global financial services sector across developed and emerging markets. Under normal market conditions, FSF will invest primarily in equity and equity related securities.

Investment Strategies

FSF invests in an actively managed portfolio comprised primarily of securities of issuers that derive their revenue from the financial services sector, including but not limited to, banking, insurance, payments, brokerage, wealth management, consumer finance and leasing. The Portfolio Manager’s determination that an issuer is in the global financial services sector shall be conclusive for all purposes.

Overview of the Sectors that the ETF Invests In

FSF invests primarily of securities of issuers that derive their revenue from the financial services sector.

Investment Restrictions Specific to the ETF

FSF will not (i) invest in or hold (a) securities of or an interest in any non-resident entity, an interest in or a right or option to acquire such property, or an interest in a partnership which holds any such property if FSF (or the partnership) would be required to include significant amounts in income pursuant to section 94.1 of the Tax Act, (b) an interest in a trust (or a partnership which holds such an interest) which would require FSF (or the partnership) to report significant amounts of income in connection with such interest pursuant to the rules in section 94.2 of the Tax Act, or (c) any interest in a non-resident trust other than an “exempt foreign trust” for the purposes of section 94 of the Tax Act (or a partnership which holds such an interest); (ii) invest in any security that would be a “tax shelter investment” within the meaning of section 143.2 of the Tax Act; or (iii) invest in any security of an issuer that would be a “foreign affiliate” of FSF for purposes of the Tax Act.

Risk Factors

In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to FSF:

- withholding tax risk
- foreign markets risk
• foreign investment risk
• equity risk
• liability of Unitholders risk
• small capitalization risk
• short selling risk

CI First Asset Gold® Giants Covered Call ETF (“CGXF”)

ETF Details

*TSX Ticker Symbol:* CGXF  
*Portfolio Manager:* CI  
*Annual Management Fee:* 0.65% of NAV  
*Redemption Fee:* Up to 0.05% of the exchange or redemption proceeds  
*Distribution Frequency:* At least quarterly

Material Amendments to the Constating Documents of the ETF since Inception

At a special meeting of Unitholders of CGXF held on July 24, 2019, Unitholders of CGXF approved an amendment to the investment objective of CGXF.

Investment Objectives

CGXF’s investment objective is to provide Unitholders, through an actively managed portfolio, with (i) quarterly cash distributions, (ii) the opportunity for capital appreciation by investing on an equal weight basis in a portfolio of securities of the 15 largest Gold and Precious Metals Companies measured by market capitalization listed on a North American stock exchange that have liquid options markets and (iii) lower overall volatility of returns on the portfolio than would be experienced by owning a portfolio of securities of such issuers directly.

Investment Strategies

CGXF invests in a portfolio of securities of the 15 largest Gold and Precious Metals Companies measured by market capitalization listed on a North American stock exchange.

“Gold and Precious Metals Companies” are generally producers or companies predominantly involved in the mining, fabrication, processing, marketing or distribution of metals, including gold, silver, platinum group and palladium, and diamonds.

Each month the Portfolio Manager employs a covered call option writing program on approximately, and not more than, 25% (determined at the time of writing) of the securities of each portfolio issuer, in order to seek to earn attractive tax effective income from dividends, distributions and call option premiums, lower the overall volatility of returns associated with owning a portfolio of these securities, and to generate capital appreciation. Call options may be sold on each individual portfolio security or may be sold on a basket basis, encompassing more than one portfolio security, in the discretion of the Portfolio Manager.

CGXF’s portfolio will be rebalanced as soon as practicable, in the determination of the Portfolio Manager, at the end of each calendar quarter, so that immediately following such rebalancing, CGXF’s portfolio issuers are approximately equally weighted. In order to facilitate distributions and/or pay expenses of CGXF, the Portfolio Manager may sell portfolio securities of CGXF at its discretion in which case the weighting of the portfolio will be affected.

At the discretion of the Portfolio Manager, the Portfolio Manager may choose to enter into currency forward agreements to hedge all or a portion of the value of the CI First Asset ETF’s non-Canadian currency exposure back to
the Canadian dollar. All such currency forward agreements or other derivatives will be entered into in compliance with NI 81-102 with financial institutions that have a “designated rating” as defined in NI 81-102.

Overview of the Sectors that the ETF Invests In

CGXF invests primarily in securities of the 15 largest Gold and Precious Metals Companies measured by market capitalization listed on a North American stock exchange.

Investment Restrictions Specific to the ETF

None.

Risk Factors

In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to CGXF:

- commodity risk
- investment trust investment risk
- equity risk
- illiquid securities risk
- liability of Unitholders risk
- credit risk
- use of covered call options risk
- index risk
- short selling risk
- foreign currency exposure risk
- foreign markets risk
- withholding tax risk

CI First Asset Health Care Giants Covered Call ETF (“FHI”)  

ETF Details  

**TSX Ticker Symbol:** FHI (Common Units); FHI.B (Unhedged Common Units)  

**Portfolio Manager:** CI  

**Annual Management Fee:** 0.65% of the NAV  

**Redemption Fee:** Up to 0.05% of the exchange or redemption proceeds  

**Distribution Frequency:** At least quarterly  

Material Amendments to the Constating Documents of the ETF since Inception  

None.  

Investment Objectives  

FHI’s investment objectives are to provide holders, through an actively managed portfolio, with (i) regular cash distributions, (ii) the opportunity for capital appreciation by investing on an equal weight basis in a portfolio (the “FHI Portfolio”) of securities of the 20 health care companies, as determined by the Manager in its discretion, with the largest market capitalization listed on a North American stock exchange, and (iii) lower overall volatility of returns on the FHI Portfolio than would be experienced by owning a portfolio of securities of such issuers directly, by employing a covered call option writing program.  

Investment Strategies  

FHI invests in companies in the health care sector, which includes companies which are involved in medical services or health care, including biotechnology research and production, drugs and pharmaceuticals and health care facilities and services, as well as companies that service those companies, provided however, that the determination of what constitutes a health care company shall be at the sole discretion of the portfolio manager. Out of the universe of health care companies whose securities are listed on a North American stock exchange, FHI will invest in the 20 largest measured by market capitalization. FHI will generally invest in health care companies with a market capitalization in excess of $1 billion and which pay dividends on their common shares.  

The FHI Portfolio will be initially approximately equal weighted. FHI may invest in a variety of portfolio securities and instruments which may include, but are not limited to, equity securities and equity-related securities. Equity-related securities may include, but are not limited to, convertible debt, income trust units, single issuer equity options, preferred shares and warrants. If market conditions require, in order to preserve capital, FHI may seek to invest a substantial portfolio of its assets in cash and cash equivalents.  

As an alternative to or in conjunction with investing in and holding the constituent securities, FHI may invest in or use certain other securities to obtain exposure to the performance of the applicable portfolio securities. In accordance with applicable securities legislation, including NI 81-102, and as an alternative to or in conjunction with investing in and holding the Constituent Securities, FHI may also invest in other securities in a manner that is consistent with the investment objectives and investment strategies of FHI, provided that where FHI invests in another investment fund, no management fees or incentive fees are payable by FHI that, to a reasonable person, would duplicate a fee payable by such other investment fund for the same service. In addition to having the ability to write call options on individual securities or on a basket basis, FHI may, from time-to-time, write index options, instead of individual stock options, to the extent available and deemed to be an appropriate substitute by the Manager, in its discretion.
The FHI Portfolio will be rebalanced as soon as practicable, in the determination of the Manager, at the end of each calendar quarter, so that immediately following such rebalancing FHI’s portfolio issuers are approximately equally weighted. In order to facilitate distributions and/or pay expenses of FHI, the Manager may sell portfolio securities of FHI at its discretion in which case the weighting of the portfolio will be affected.

The Manager believes that the portfolio securities of FHI are attractive long-term investments, but that they may exhibit significant price volatility for the foreseeable future. Accordingly, the Manager believes that an investment strategy which incorporates writing call options to capitalize on this volatility while retaining all the upside on a significant portion of the FHI Portfolio is an attractive risk-adjusted way to own a portfolio of such securities. Options may be written on each individual FHI Portfolio issuer, or on a basket basis, encompassing more than one portfolio security, in the discretion of the Manager, in order to seek to earn attractive tax effective income from dividends, distributions and call option premiums, lower the overall volatility of returns associated with owning a portfolio of these securities, and to generate capital appreciation. This strategy does not involve managing the FHI Portfolio to achieve a specific distribution target, but generates attractive option premiums to provide downside protection, lower overall volatility of returns and increased cash flow available for distribution. The Manager believes that the size neutral approach to investing afforded by equal weighting, combined with the call option writing, is a balanced approach that provides attractive risk adjusted returns under a variety of market conditions.

It is intended that at all times at least 90% of the value of the foreign currency exposure attributable to the Common Units will be hedged back to the Canadian dollar. The foreign currency exposure attributable to the Unhedged Common Units will not be hedged back to the Canadian dollar.

Overview of the Sectors that the ETF Invests In

FHI invests in a portfolio consisting of securities of the 20 largest health care companies measured by market capitalization listed on a North American stock exchange.

Investment Restrictions Specific to the ETF

None.

Risk Factors

In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to FHI:

- equity risk
- illiquid securities risk
- investment trust investment risk
- trust fund multi-class risk
- use of covered call options risk
- withholding tax risk

CI First Asset Investment Grade Bond ETF (“FIG”)

ETF Details

**TSX Ticker Symbol:** FIG (Common Units), FIG.U (US$ Common Units)

**Portfolio Manager:** Marret

**Annual Management Fee:** 0.65% of NAV

**Redemption Fee:** Up to 0.25% of the exchange or redemption proceeds

**Distribution Frequency:** Monthly

Material Amendments to the Constating Documents of the ETF since Inception

FIG was originally established as a closed-end investment trust under the laws of Ontario. On August 19, 2016, in accordance with the terms of its declaration of trust, Marret Investment Grade Bond Fund converted from a closed-end fund into an ETF and was renamed First Asset Investment Grade Bond ETF. The units of Marret Investment Grade Bond Fund outstanding on the date of conversion were redesignated as Common Units of FIG and continue to be listed on the TSX.

**Investment Objectives**

FIG’s investment objectives are: (i) to provide Unitholders with monthly cash distributions; and (ii) to maximize total returns for Unitholders consisting primarily of monthly distributions, while reducing risk and preserving capital. Under normal market conditions, FIG will be primarily invested in investment grade bonds and investment grade debt securities.

**Investment Strategies**

FIG’s portfolio consists primarily of U.S., Canadian and European investment grade bonds and investment grade debt securities. FIG may also invest up to 20% of the portfolio in non-investment grade debt securities or high-yield corporate bonds rated, in each case, BB- or better (by Standard and Poors, or the equivalent rating of another nationally recognized credit rating agency).

In addition, FIG will not purchase debt securities other than investment grade debt securities and non-investment grade debt securities or high-yield corporate bonds rated BB- or better (by Standard and Poors, or the equivalent rating of another nationally recognized credit rating agency), provided that such non-investment grade debt securities or high-yield corporate bonds will not exceed 20% of the NAV of FIG at the time of purchase; and in the case where any such securities are downgraded by any qualified credit rating agency causing this restriction to be contravened, the Portfolio Manager will replace such securities as soon as reasonably practicable, but in any event within 90 days.

FIG’s portfolio may also consist of additional securities including Canadian Government and Canadian Government guaranteed securities, Provincial Government and Provincial Government guaranteed securities, U.S. Treasury securities and bonds issued or guaranteed by European Governments or their agencies. If the Portfolio Manager deems it appropriate under certain market conditions, in order to preserve cash, FIG’s portfolio may consist entirely of Government and Government guaranteed securities, or cash and/or cash equivalents.

At the discretion of the Portfolio Manager, other than in respect of the currency exposure attributable to the US$ Common Units, the Portfolio Manager may choose to enter into currency forward agreements in compliance with NI 81-102 to hedge all or a portion of the value of FIG’s non-Canadian currency exposure back to the Canadian dollar.
In respect of the non-U.S. currency exposure attributable to the US$ Common Units, at the discretion of the Portfolio Manager, the Portfolio Manager may enter into currency forward agreements in compliance with NI 81-102 to hedge all or a portion of the value of the FIG’s non-U.S. currency exposure attributable to the US$ Common Units back to the U.S. dollar.

**Overview of the Sectors that the ETF Invests In**

FIG invests primarily of U.S., Canadian and European investment grade bonds and investment grade debt securities. The portfolio may also consist of additional securities including Canadian Government and Canadian Government guaranteed securities, Provincial Government and Provincial Government guaranteed securities, U.S. Treasury securities and bonds issued or guaranteed by European Governments or their agencies.

**Investment Restrictions Specific to the ETF**

FIG will not (i) invest in or hold (a) securities of or an interest in any non-resident entity, an interest in or a right or option to acquire such property, or an interest in a partnership which holds any such property if FIG (or the partnership) would be required to include significant amounts in income pursuant to section 94.1 of the Tax Act, (b) an interest in a trust (or a partnership which holds such an interest) which would require FIG (or the partnership) to report significant amounts of income in connection with such interest pursuant to the rules in section 94.2 of the Tax Act, or (c) any interest in a non-resident trust other than an “exempt foreign trust” for the purposes of section 94 of the Tax Act (or a partnership which holds such an interest); (ii) invest in any security that would be a “tax shelter investment” within the meaning of section 143.2 of the Tax Act; or (iii) invest in any security of an issuer that would be a “foreign affiliate” of FIG for purposes of the Tax Act.

FIG will not enter into any arrangement (including the acquisition of securities for FIG’s portfolio) where the result is a “dividend rental arrangement” for purposes of the Tax Act (including any amendment to such definition).

**Risk Factors**

In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to FIG:

- convertible securities risk
- credit risk
- equity risk
- fixed income risk
- foreign investment risk
- foreign markets risk
- investment trust investment risk
- illiquid securities risk
- liability of Unitholders risk
- short selling risk
- small capitalization risk
- trust fund multi-class risk
- withholding tax risk

CI First Asset Long Duration Fixed Income ETF (“FLB”)

ETF Details

*TSX Ticker Symbol:* FLB  
*Portfolio Manager:* CI  
*Annual Management Fee:* 0.30% of NAV  
*Redemption Fee:* Up to 0.25% of the exchange or redemption proceeds  
*Distribution Frequency:* At least quarterly

Material Amendments to the Constating Documents of the ETF since Inception

None.

Investment Objectives

FLB’s investment objective is to provide Unitholders with: (a) regular distributions; and (b) the opportunity for capital appreciation from the performance of a portfolio comprised primarily of longer dated Canadian, U.S. and developed market government issued fixed income securities.

Investment Strategies

FLB invests in an actively managed portfolio comprised primarily of longer dated developed market Canadian and U.S. government issued fixed income securities in order to provide Unitholders with the opportunity for growth of their investment value through any capital appreciation of the portfolio and distributions.

Under normal market conditions, FLB’s portfolio will be invested: (i) as to not less than 50% in bonds issued by the federal and regional governments of Canada (including both non-agency, agency/crown corporations) with a term to maturity of greater than nine years; (ii) as to not more than 50% in U.S. Government Long Treasury Securities; (iii) as to not more than 20% in Investment Grade Corporate Debt of North American Issuers; (iv) as to not more than 25% in cash or cash equivalents. At any time, the portfolio duration will ordinarily be within two years of the duration of the Fund’s benchmark index, currently, the FTSE Canada Long Term Government Bond Index. At any time, no more than 49% of the assets of FLB will be invested in fixed income securities of issuers other than governments of Canada and the United States.

“Corporate Debt” means debt securities issued by corporations, trusts or limited partnerships.

“Investment Grade” means a rating from DBRS Limited of P3 (low) or higher for preferred shares or a rating of BBB (low) or higher for Corporate Debt, or comparable ratings from another recognized ratings agency.

“U.S. Government Long Treasury Securities” means publicly issued, U.S. Treasury securities that have a remaining maturity of 9 or more years.

The Portfolio Manager will endeavour to limit the U.S. dollar exposure of FLB’s portfolio to no more than 25% and may therefore from time to time enter into currency forward agreements in compliance with NI 81-102 with financial institutions that have a “designated rating” as defined in NI 81-102.

Overview of the Sectors that the ETF Invests In

FLB invests primarily in longer dated Canadian, U.S. and developed market government issued fixed income securities.
**Investment Restrictions Specific to the ETF**

FLB will not (i) invest in or hold (a) securities of or an interest in any non-resident entity, an interest in or a right or option to acquire such property, or an interest in a partnership which holds any such property if FLB (or the partnership) would be required to include significant amounts in income pursuant to section 94.1 of the Tax Act, (b) an interest in a trust (or a partnership which holds such an interest) which would require FLB (or the partnership) to report significant amounts of income in connection with such interest pursuant to the rules in section 94.2 of the Tax Act, or (c) any interest in a non-resident trust other than an “exempt foreign trust” for the purposes of section 94 of the Tax Act (or a partnership which holds such an interest); (ii) invest in any security that would be a “tax shelter investment” within the meaning of section 143.2 of the Tax Act; or (iii) invest in any security of an issuer that would be a “foreign affiliate” of FLB for purposes of the Tax Act.

FLB will not enter into any arrangement (including the acquisition of securities for FLB’s portfolio) where the result is a “dividend rental arrangement” for purposes of the Tax Act (including any amendment to such definition).

**Risk Factors**

In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to FLB:

- credit risk
- equity risk
- foreign investment risk
- foreign markets risk
- investment trust investment risk
- liability of Unitholder risk
- preferred shares risk
- short selling risk
- withholding tax risk

CI First Asset Morningstar Canada Dividend Target 30 Index ETF ("DXM")

ETF Details

*TSX Ticker Symbol:* DXM

*Portfolio Adviser:* CI

*Annual Management Fee:* 0.60% of NAV

*Redemption Fee:* Up to 0.05% of the exchange or redemption proceeds

*Distribution Frequency:* At least quarterly

Material Amendments to the Constating Documents of the ETF since Inception

None.

Investment Objectives

DXM has been designed to replicate, to the extent possible, the performance of the Morningstar® Canada Target Dividend Index™ (the "Index"), net of expenses. DXM invests in equity securities of the largest and most liquid Canadian public issuers based upon proprietary research generated by Morningstar, and is designed to provide diversified exposure to Canadian dividend paying companies.

Investment Strategies

For a description of the investment strategies of DXM, please see “Investment Strategies – Index ETFs” in the body of the prospectus.

Overview of the Sectors that the ETF Invests In

The Index reflects the performance of 30 dividend paying Canada based equities. The securities are selected from a universe comprised of securities trading on the TSX and are classified as Canadian securities by Morningstar. To qualify for inclusion in the Index: (i) the principal exchange for Constituent Securities must be the TSX, (ii) the Constituent Issuers must be classified as a Canadian issuer based on country of incorporation, primary stock market activities and headquarters and primary business activities, (iii) the Constituent Securities must be one of the 100 stocks with the highest 12-month average trading volume and have an expected dividend yield greater than 1%, (iv) the average monthly volume (12 month) of the Constituent Securities must be greater than $200 million or the average daily volume (3 month) must be greater than $10 million, and (v) the Constituent Securities must be common shares or units of income trusts. The Index is rebalanced quarterly and is comprised of 30 issuers. Further information about the Index, including a description of its methodology, is available from the Index Provider on its website.

Investment Restrictions Specific to the ETF

None.

Risk Factors

CI First Asset Morningstar Canada Momentum Index ETF (“WXM”)

ETF Details

- **TSX Ticker Symbol:** WXM
- **Portfolio Adviser:** CI
- **Annual Management Fee:** 0.60% of NAV
- **Redemption Fee:** Up to 0.05% of the exchange or redemption proceeds
- **Distribution Frequency:** At least quarterly

Material Amendments to the Constating Documents of the ETF since Inception

None.

Investment Objectives

WXM has been designed to replicate, to the extent possible, the performance of the Morningstar® Canada Target Momentum Index™ (the “Index”), net of expenses. WXM invests in equity securities of the largest and most liquid Canadian issuers based on proprietary research generated by Morningstar, and is designed to provide diversified exposure to Canadian issuers which have demonstrated, among other things, positive momentum in earnings and price.

Investment Strategies

For a description of the investment strategies of WXM, please see “Investment Strategies – Index ETFs” in the body of the prospectus.

Overview of the Sectors that the ETF Invests In

The Index is comprised of liquid equity securities of Canadian companies screened for above average returns on equity, with an emphasis on upward earnings estimate revisions and technical price momentum indicators. To qualify for inclusion in the Index: (i) the Constituent Securities must trade on the TSX, (ii) the Constituent Issuers must be classified as a Canadian issuer based on country of incorporation, primary stock market activities and headquarters and primary business activities, (iii) the Constituent Securities must demonstrate average monthly volume (12 month) in the top third of stocks in the investible universe, (iv) the Constituent Securities must be common shares or units of income trusts, and (v) the Constituent Issuers must exhibit a combination of above average returns on assets and equity, upward earnings estimate revisions and technical price momentum indicators. The Index is rebalanced quarterly and is comprised of 30 issuers. Further information about the Index, including a description of its methodology, is available from the Index Provider on its website.

Investment Restrictions Specific to the ETF

None.

Risk Factors

In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to WXM:

- calculation and termination of the index risk
- equity risk
• illiquid securities risk
• investment trust investment risk
• passive investment risk
• rebalancing and adjustment risk
• replication or tracking risk
• use of the index risk

CI First Asset Morningstar International Momentum Index ETF ("ZXM")

ETF Details

**TSX Ticker Symbol:** ZXM (Common Units), ZXM.B (Unhedged Common Units)

**Portfolio Adviser:** CI

**Annual Management Fee:** 0.60% of NAV

**Redemption Fee:** Up to 0.25% of the exchange or redemption proceeds

**Distribution Frequency:** At least quarterly

Material Amendments to the Constating Documents of the ETF since Inception

None.

Investment Objectives

ZXM has been designed to replicate, to the extent possible, the performance of the Morningstar® Developed Markets ex-North America Target Momentum Index™ (the "Index"), net of expenses. ZXM invests in equity securities of the largest and most liquid issuers from countries classified by Morningstar as developed markets, excluding the U.S. and Canada, based on proprietary research generated by Morningstar, and is designed to provide diversified exposure to issuers from developed markets, excluding the U.S. and Canada, which have demonstrated, among other things, positive momentum in earnings and price.

Investment Strategies

It is intended that, except as described below, at all times at least 90% of the foreign currency denominated assets held by ZXM attributable to the Common Units will be hedged back to the Canadian dollar. The Manager may choose not to hedge any individual currency exposure to the extent that the Manager, in its sole discretion, deems it impractical or determines, in its sole discretion, that the exposure is non-material. Hedging currency exposure to reduce the impact of fluctuations in exchange rates is intended to reduce the direct exposure to foreign currency risk for Unit holders. The currency hedging mandate applicable to a particular class of Units shall not be changed by the Manager without first obtaining approval of Unitholders of the affected class of Units.

The exposure in relation to the Unhedged Common Units to currencies other than the Canadian dollar will not be hedged back to the Canadian dollar.

For more information on the investment strategies of ZXM, please see “Investment Strategies – Index ETFs” in the body of the prospectus.

Overview of the Sectors that the ETF Invests In

The Index is comprised of liquid equity securities of developed markets companies, excluding the U.S. and Canada, as determined by Morningstar, displaying above average return on equity, with added emphasis on upward revisions of fiscal earnings estimates and technical price momentum indicators. To qualify for inclusion in the Index: (i) the Constituent Securities must be a part of the Morningstar® Developed ex-US Index™, (ii) the Constituent Issuer must be classified as a developed markets issuer (excluding the U.S. and Canada) using a rules based approach having regard primarily to country of incorporation of the issuer and country of primary listing of the security, (iii) the Constituent Securities must meet minimum liquidity and market capitalization requirements, and (iv) the Constituent Securities must exhibit a combination of above average returns on equity, upward fiscal earnings estimate revisions and technical price momentum indicators. The Index is rebalanced quarterly. Further information about the Index, including a description of its methodology, is available from the Index Provider on its website.
Investment Restrictions Specific to the ETF

None.

Risk Factors

In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to ZXM:

- calculation and termination of the index risk
- equity risk
- foreign investment risk
- foreign markets risk
- illiquid securities risk
- investment trust investment risk
- passive investment risk
- potential implications of Brexit risk
- rebalancing and adjustment risk
- replication or tracking risk
- trust fund multi-class risk
- use of the index risk
- withholding tax risk

**Portfolio Adviser:** CI  
**Annual Management Fee:** 0.50% of NAV  
**Redemption Fee:** Up to 0.05% of the exchange or redemption proceeds  
**Distribution Frequency:** At least quarterly

Material Amendments to the Constating Documents of the ETF since Inception

None.

Investment Objectives

QXM has been designed to replicate, to the extent possible, the performance of the Morningstar® National Bank Québec Index™ (the “Index”), net of expenses. QXM invests in equity securities of issuers with a minimum float capitalization of $150 million and which are headquartered in the Province of Québec.

Investment Strategies

For a description of the investment strategies of QXM, please see “Investment Strategies – Index ETFs” in the body of the prospectus.

Overview of the Sectors that the ETF Invests In

The Index is rebalanced semi-annually. Each Constituent Issuer in the Index is capped at 5% at each date on which Morningstar rebalances an Index (the “Index Rebalancing Date”). To qualify for inclusion in the Index, (i) the Constituent Issuers must be incorporated in Canada, (ii) the Constituent Issuers must have an administrative head office located in the Province of Quebec, (iii) the Constituent Securities must be listed on the TSX for a minimum of 12 full calendar months as of month-end prior to the applicable Index Rebalancing Date (6 months for shares of float capitalization equal to or greater than $1 billion), (iv) the Constituent Securities must be common shares or units of income trusts, (v) the issuer of the Constituent Securities must have a float capitalization equal to or greater than $150 million at the time of initial addition to the index, (vi) the Constituent Securities must have a minimum share price of $1.00 and must adhere to the following liquidity conditions: (1) maximum of twenty (20) non-trading days over the previous 12 full calendar months as of the month end prior to the applicable Index Rebalancing Date, and (2) minimum trading volume of $50 million over the days over the previous 12 full calendar months as of the month end prior to the applicable Index Rebalancing Date.

Investment Restrictions Specific to the ETF

None.

Risk Factors
In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to QXM:

- calculation and termination of the index risk
- equity risk
- illiquid securities risk
- investment trust investment risk
- passive investment risk
- rebalancing and adjustment risk
- replication or tracking risk
- use of the index risk

CI First Asset Morningstar US Dividend Target 50 Index ETF ("UXM")

ETF Details

TSX Ticker Symbol: UXM (Common Units), UXM.B (Unhedged Common Units)

Portfolio Adviser: CI

Annual Management Fee: 0.60% of NAV

Redemption Fee: Up to 0.05% of the exchange or redemption proceeds

Distribution Frequency: At least quarterly

Material Amendments to the Constating Documents of the ETF since Inception

None.

Investment Objectives

UXM has been designed to replicate, to the extent possible, the performance of the Morningstar® US Target Dividend Index™ (the "Index"), net of expenses. UXM invests in equity securities of the largest and most liquid U.S. public issuers based on proprietary research generated by Morningstar, and is designed to provide diversified exposure to U.S. dividend paying companies.

Investment Strategies

It is intended that, except as described below, at all times at least 90% of the foreign currency denominated assets held by UXM attributable to the Common Units will be hedged back to the Canadian dollar. The Manager may choose not to hedge any individual currency exposure to the extent that the Manager, in its sole discretion, deems it impractical or determines, in its sole discretion, that the exposure is non-material. Hedging currency exposure to reduce the impact of fluctuations in exchange rates is intended to reduce the direct exposure to foreign currency risk for Unitholders. The currency hedging mandate applicable to a particular class of Units shall not be changed by the Manager without first obtaining approval of Unitholders of the affected class of Units.

The exposure in relation to the Unhedged Common Units to currencies other than the Canadian dollar will not be hedged back to the Canadian dollar.

For more information on the investment strategies of UXM, please see “Investment Strategies – Index ETFs” in the body of the prospectus.

Overview of the Sectors that the ETF Invests In

The Index reflects the performance of 50 dividend paying U.S. based equities. The securities are selected from a universe comprised of securities trading on one of the three major exchanges in the U.S. and are classified as U.S. securities by Morningstar. To qualify for inclusion in the Index: (i) the Constituent Securities must trade on the NYSE, NYSE Amex or NASDAQ exchange, (ii) the Constituent Issuers must be classified as a U.S. issuer based on country of incorporation, primary stock market activities and headquarters and primary business activities, (iii) the Constituent Securities must demonstrate average daily volume (3 month) in the top third of stocks in the investible universe, and (iv) the Constituent Securities must have an expected dividend yield greater than 0%. The Index is rebalanced quarterly and is comprised of 50 issuers. Further information about the Index, including a description of its methodology, is available from the Index Provider on its website.
Investment Restrictions Specific to the ETF

None.

CI First Asset Morningstar US Momentum Index ETF ("YXM")

ETF Details

**TSX Ticker Symbol:** YXM (Common Units), YXM.B (Unhedged Common Units)

**Portfolio Adviser:** CI

**Annual Management Fee:** 0.60% of NAV

**Redemption Fee:** Up to 0.05% of the exchange or redemption proceeds

**Distribution Frequency:** At least quarterly

Material Amendments to the Constating Documents of the ETF since Inception

None.

Investment Objectives

YXM has been designed to replicate, to the extent possible, the performance of the Morningstar® US Target Momentum Index™ (the "Index"), net of expenses. YXM invests in equity securities of the largest and most liquid U.S. issuers based on proprietary research generated by Morningstar, and is designed to provide diversified exposure to U.S issuers which have demonstrated, among other things, positive momentum in earnings and price.

Investment Strategies

It is intended that, except as described below, at all times at least 90% of the foreign currency denominated assets held by YXM attributable to the Common Units will be hedged back to the Canadian dollar. The Manager may choose not to hedge any individual currency exposure to the extent that the Manager, in its sole discretion, deems it impractical or determines, in its sole discretion, that the exposure is non-material. Hedging currency exposure to reduce the impact of fluctuations in exchange rates is intended to reduce the direct exposure to foreign currency risk for Unitholders. The currency hedging mandate applicable to a particular class of Units shall not be changed by the Manager without first obtaining approval of Unitholders of the affected class of Units.

The exposure in relation to the Unhedged Common Units to currencies other than the Canadian dollar will not be hedged back to the Canadian dollar.

For more information on the investment strategies of YXM, please see “Investment Strategies – Index ETFs” in the body of the prospectus.

Overview of the Sectors that the ETF Invests In

The Index is comprised of liquid equity securities of U.S. companies displaying above average return on equity, with added emphasis on upward revisions of fiscal earnings estimates and technical price momentum indicators. To qualify for inclusion in the Index: (i) the Constituent Securities must trade on the NYSE, NYSE Amex or NASDAQ exchange, (ii) the Constituent Issuer must be classified as a U.S. issuer based on country of incorporation, primary stock market activities, location of headquarters and primary business activities, (iii) the Constituent Securities must not be American depositary receipts or American depositary shares, fixed-dividend shares, convertible notes, warrants or rights, or tracking stock, (iv) the Constituent Securities must be common shares, (v) the Constituent Securities must have a market capitalization exceeding US$500 million, and (vi) the Constituent Securities must exhibit a combination of above average returns on equity, upward fiscal earnings estimate revisions and technical price momentum indicators. The Index is rebalanced quarterly and is comprised of 50 issuers. Further information about the Index, including a description of its methodology, is available from the Index Provider on its website.
Investment Restrictions Specific to the ETF

None.

Risk Factors

In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to YXM:

- calculation and termination of the index risk
- equity risk
- withholding tax risk
- illiquid securities risk
- foreign investment risk
- foreign markets risk
- investment trust investment risk
- passive investment risk
- rebalancing and adjustment risk
- replication or tracking risk
- trust fund multi-class risk
- use of the index risk

CI First Asset Morningstar US Value Index ETF (“XXM”)

ETF Details

TSX Ticker Symbol: XXM (Common Units), XXM.B (Unhedged Common Units)

Portfolio Adviser: CI

Annual Management Fee: 0.60% of NAV

Redemption Fee: Up to 0.05% of the exchange or redemption proceeds

Distribution Frequency: At least quarterly

Material Amendments to the Constituting Documents of the ETF since Inception

None.

Investment Objectives

XXM has been designed to replicate, to the extent possible, the performance of the Morningstar® US Target Value Index™ (the “Index”), net of expenses. XXM invests in equity securities of the largest and most liquid U.S. issuers based on proprietary research generated by Morningstar, and is designed to provide diversified exposure to U.S. issuers which are considered to be “good value” based on characteristics like low price to earnings and low price to cash flow ratios.

Investment Strategies

It is intended that, except as described below, at all times at least 90% of the foreign currency denominated assets held by XXM attributable to the Common Units will be hedged back to the Canadian dollar. The Manager may choose not to hedge any individual currency exposure to the extent that the Manager, in its sole discretion, deems it impractical or determines, in its sole discretion, that the exposure is non-material. Hedging currency exposure to reduce the impact of fluctuations in exchange rates is intended to reduce the direct exposure to foreign currency risk for Unitholders. The currency hedging mandate applicable to a particular class of Units shall not be changed by the Manager without first obtaining approval of Unitholders of the affected class of Units.

The exposure in relation to the Unhedged Common Units to currencies other than the Canadian dollar will not be hedged back to the Canadian dollar.

For more information on the investment strategies of XXM, please see “Investment Strategies – Index ETFs” in the body of the prospectus.

Overview of the Sectors that the ETF Invests In

The Index is comprised of liquid equity securities of U.S. companies displaying low price to earnings ratios, low price to cash flow ratios, low price to book value and sales and upward earnings estimate revisions. To qualify for inclusion in the Index: (i) the Constituent Securities must trade on the NYSE, NYSE Amex or NASDAQ exchange, (ii) the Constituent Issuer must be classified as a U.S. issuer based on country of incorporation, primary stock market activities, location of headquarters and primary business activities, (iii) the Constituent Securities must not be American depositary receipts or American depositary shares, fixed-dividend shares, convertible notes, warrants or rights, or tracking stock, (iv) the Constituent Securities must be common shares, (v) the Constituent Securities must have a market capitalization exceeding US$500 million, and (vi) the Constituent Securities must exhibit a combination of low price to earnings ratios, low price to cash flow ratios, low price to book value and price to sales ratios and upward fiscal earnings estimate revisions. The Index is rebalanced quarterly and is comprised of 50 issuers.
Further information about the Index, including a description of its methodology, is available from the Index Provider on its website.

**Investment Restrictions Specific to the ETF**

CI First Asset MSCI Canada Low Risk Weighted ETF (“RWC”)  

ETF Details  

TSX Ticker Symbol: RWC  
Portfolio Adviser: CI  
Annual Management Fee: 0.60% of NAV  
Redemption Fee: Up to 0.05% of the exchange or redemption proceeds  
Distribution Frequency: At least quarterly  

Material Amendments to the Constating Documents of the ETF since Inception  
None.

Investment Objectives  

RWC has been designed to replicate, to the extent possible, the performance of the MSCI Canada Risk Weighted Index (the “Index”), net of expenses.

Investment Strategies  

Please see “Investment Strategies – Index ETFs” in the body of the prospectus.

Overview of the Sectors that the ETF Invests In  

The Index is based on a traditional market capitalization weighted parent index, the MSCI Canada Index, which includes Canadian large and mid-capitalization stocks. Constructed using a simple, but effective and transparent process, the Index reweights each security of the parent index so that stocks with lower risk are given higher index weights. The Index seeks to emphasize stocks with lower historical return variance and tends to have a bias towards lower size and lower risk stocks. Historically, the Index has exhibited lower realized volatility in comparison to its parent index, while maintaining reasonable liquidity and capacity. Further information about the Index, including a description of its methodology, is available from the Index Provider on its website.

Investment Restrictions Specific to the ETF  

None.

Risk Factors  

In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to RWC:

- equity risk  
- illiquid securities risk  
- investment trust investment risk  
- calculation and termination of the index risk  
- passive investment risk  
- rebalancing and adjustment risk  
- replication or tracking risk  
- use of the index risk

CI First Asset MSCI Canada Quality Index Class ETF ("FQC")

ETF Details

**TSX Ticker Symbol:** FQC  
**Portfolio Manager:** CI  
**Annual Management Fee:** 0.60% of NAV  
**Redemption Fee:** Up to 0.25% of the exchange or redemption proceeds  
**Distribution Frequency:** Quarterly

Material Amendments to the Constating Documents of the ETF since Inception

None.

Investment Objectives

FQC’s investment objective is to replicate, to the extent possible, the performance of the MSCI Canada Quality Index, net of expenses. The MSCI Canada Quality Index is based on the MSCI Canada Index, its parent index, which includes large and mid-cap stocks of the Canadian equity market.

Investment Strategies

The investment strategy of the FQC is to invest in and hold the Constituent Securities of the applicable Index in substantially the same proportion as they are reflected in such Index. FQC may use a sampling strategy to achieve its objectives, if such an approach is appropriate in the discretion of the Manager.

The current Index for FQC is the MSCI Canada Quality Index. The Index is based on the MSCI Canada Index, its parent index, which includes large and mid-cap stocks of the Canadian equity market. The Index aims to capture the performance of quality growth stocks by identifying stocks with high quality scores based on three main fundamental variables: high return on equity, stable year-over-year earnings growth and low financial leverage. Further information about the Index, including a description of its methodology, is available from the Index Provider on its website at www.msci.com.

For more information on the investment strategies of FQC, please see “Investment Strategies – Index ETFs” in the body of the prospectus.

Overview of the Sectors that the ETF Invests In

FQC will invest in large and mid-cap stocks of the Canadian equity market. Further information about the Index, including a description of its methodology, is available from the Index Provider on its website.

Investment Restrictions Specific to the ETF

None.

Risk Factors

In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to FQC:

- calculation and termination of the index risk
• credit risk
• equity risk
• foreign investment risk
• fund corporation and multi-class/series risk
• illiquid securities risk
• passive investment risk
• rebalancing and adjustment risk
• replication or tracking risk
• use of covered call options risk
• use of the Index risk

CI First Asset MSCI Europe Low Risk Weighted ETF ("RWE")

ETF Details

**TSX Ticker Symbol:** RWE (Common Units), RWE.B (Unhedged Common Units)

**Portfolio Adviser:** CI

**Annual Management Fee:** 0.60% of NAV

**Redemption Fee:** Up to 0.25% of the exchange or redemption proceeds

**Distribution Frequency:** At least quarterly

Material Amendments to the Constating Documents of the ETF since Inception

None.

Investment Objectives

RWE (other than the Unhedged Common Units) has been designed to replicate, to the extent possible, the performance of the MSCI Europe Risk Weighted Top 100 Index (CAD Hedged) (the “Hedged Index”), net of expenses. In respect of the Unhedged Common Units, RWE has been designed to replicate, to the extent possible, the performance of the MSCI Europe Risk Weighted Top 100 Index (CAD Hedged) (the “Unhedged Index” and, together with the Hedged Index, the “Indexes”), net of expenses.

Investment Strategies

It is intended that, except as described below, at all times at least 90% of the foreign currency denominated assets held by RWE attributable to the Common Units will be hedged back to the Canadian dollar. The Manager may choose not to hedge any individual currency exposure to the extent that the Manager, in its sole discretion, deems it impractical or determines, in its sole discretion, that the exposure is non-material. Hedging currency exposure to reduce the impact of fluctuations in exchange rates is intended to reduce the direct exposure to foreign currency risk for Unitholders. The currency hedging mandate applicable to a particular class of Units shall not be changed by the Manager without first obtaining approval of Unitholders of the affected class of Units.

The exposure in relation to the Unhedged Common Units to currencies other than the Canadian dollar will not be hedged back to the Canadian dollar.

For more information on the investment strategies of RWE, please see “Investment Strategies – Index ETFs” in the body of the prospectus.

Overview of the Sectors that the ETF Invests In

Each of the Indexes is based on a traditional market capitalization weighted parent index, the MSCI Europe Index, which includes developed Europe large and mid-capitalization stocks. Constructed using a simple, but effective and transparent process, each security of the parent index is reweighted so that stocks with lower risk are given higher index weights. The final constituents of the Indexes are determined by ranking these security level risk weights and taking the top 100 subset securities. The Indexes seek to emphasize stocks with lower historical return variance and tend to have a bias towards lower size and lower risk stocks. Historically, the Indexes have exhibited lower realized volatility in comparison to its parent index, while maintaining reasonable liquidity and capacity. Further information about the Index, including a description of its methodology, is available from the Index Provider on its website.

The only difference between the Indexes is that the Hedged Index is 100% hedged to the Canadian dollar by notionally “selling” each foreign currency forward at the one-month forward exchange rate at the end of each month.
Investment Restrictions Specific to the ETF

None.

Risk Factors

In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to RWE:

- calculation and termination of the index risk
- equity risk
- foreign investment risk
- foreign markets risk
- illiquid securities risk
- investment trust investment risk
- passive investment risk
- potential implications of Brexit risk
- rebalancing and adjustment risk
- replication or tracking risk
- trust fund multi-class risk
- use of the index risk
- withholding tax risk

CI First Asset MSCI International Low Risk Weighted ETF (“RWX”)

ETF Details

TSX Ticker Symbol: RWX (Common Units), RWX.B (Unhedged Common Units)

Portfolio Adviser: CI

Annual Management Fee: 0.60% of NAV

Redemption Fee: Up to 0.25% of the exchange or redemption proceeds

Distribution Frequency: At least quarterly

Material Amendments to the Constating Documents of the ETF since Inception

None.

Investment Objectives

RWX (other than the Unhedged Common Units) has been designed to replicate, to the extent possible, the performance of the MSCI EAFE Risk Weighted Top 175 Index (CAD Hedged) (the “Hedged Index”), net of expenses. In respect of the Unhedged Common Units, RWX has been designed to replicate, to the extent possible, the performance of the MSCI EAFE Risk Weighted Top 175 Index, net of expenses (the “Unhedged Index” and, together with the Hedged Index, the “Indexes”). Under normal market conditions, RWX invests in large and mid-cap equity securities with lower historical return variance and tends to have a bias towards lower size and lower risk stocks.

Investment Strategies

It is intended that, except as described below, at all times at least 90% of the foreign currency denominated assets held by RWX attributable to the Common Units will be hedged back to the Canadian dollar. The Manager may choose not to hedge any individual currency exposure to the extent that the Manager, in its sole discretion, deems it impractical or determines, in its sole discretion, that the exposure is non-material. Hedging currency exposure to reduce the impact of fluctuations in exchange rates is intended to reduce the direct exposure to foreign currency risk for Unitholders. The currency hedging mandate applicable to a particular class of Units shall not be changed by the Manager without first obtaining approval of Unitholders of the affected class of Units.

The exposure in relation to the Unhedged Common Units to currencies other than the Canadian dollar will not be hedged back to the Canadian dollar.

For more information on the investment strategies of RWX, please see “Investment Strategies – Index ETFs” in the body of the prospectus.

Overview of the Sectors that the ETF Invests In

Each of the Indexes is based on a traditional market capitalization weighted parent index, the MSCI EAFE Index, which includes large and mid-capitalization stocks. Constructed using a simple, but effective and transparent process, each security of the parent index is reweighted so that stocks with lower risk are given higher index weights. The final constituents of the Indexes are determined by ranking these security level risk weights and taking the top 175 subset securities. The Indexes seek to emphasize stocks with lower historical return variance and tend to have a bias towards lower size and lower risk stocks. Historically, the Indexes have exhibited lower realized volatility in comparison to its parent index, while maintaining reasonable liquidity and capacity. Further information about the Index, including a description of its methodology, is available from the Index Provider on its website.
The only difference between the Indexes is that the Hedged Index is 100% hedged to the Canadian dollar by notionally "selling" each foreign currency forward at the one-month forward exchange rate at the end of each month. The Indexes are rebalanced semi-annually in May and November.

**Investment Restrictions Specific to the ETF**

None.

**Risk Factors**

In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to RWX:

- calculation and termination of the index risk
- equity risk
- foreign investment risk
- foreign markets risk
- illiquid securities risk
- investment trust investment risk
- passive investment risk
- potential implications of Brexit risk
- rebalancing and adjustment risk
- replication or tracking risk
- trust fund multi-class risk
- use of the index risk
- withholding tax risk

CI First Asset MSCI USA Low Risk Weighted ETF (“RWU”)

ETF Details

*TSX Ticker Symbol:* RWU (Common Units), RWU.B (Unhedged Common Units)

*Portfolio Adviser:* CI

*Annual Management Fee:* 0.60% of NAV

*Redemption Fee:* Up to 0.05% of the exchange or redemption proceeds

*Distribution Frequency:* At least quarterly

Material Amendments to the Constating Documents of the ETF since Inception

None.

Investment Objectives

RWU (other than the Unhedged Common Units) has been designed to replicate, to the extent possible, the performance of the MSCI USA Risk Weighted Top 150 Index (CAD Hedged) (the “Hedged Index”), net of expenses. In respect of the Unhedged Common Units, RWU has been designed to replicate, to the extent possible, the performance of the MSCI USA Risk Weighted Top 150 Index (the “Unhedged Index” and, together with the Hedged Index, the “Indexes”), net of expenses.

Investment Strategies

It is intended that, except as described below, at all times at least 90% of the foreign currency denominated assets held by RWU attributable to the Common Units will be hedged back to the Canadian dollar. The Manager may choose not to hedge any individual currency exposure to the extent that the Manager, in its sole discretion, deems it impractical or determines, in its sole discretion, that the exposure is non-material. Hedging currency exposure to reduce the impact of fluctuations in exchange rates is intended to reduce the direct exposure to foreign currency risk for Unitholders. The currency hedging mandate applicable to a particular class of Units shall not be changed by the Manager without first obtaining approval of Unitholders of the affected class of Units.

The exposure in relation to the Unhedged Common Units to currencies other than the Canadian dollar will not be hedged back to the Canadian dollar.

For more information on the investment strategies of RWU, please see “Investment Strategies – Index ETFs” in the body of the prospectus.

Overview of the Sectors that the ETF Invests In

Each of the Indexes is based on a traditional market capitalization weighted parent index, the MSCI USA Index, which includes U.S. large and mid-capitalization stocks. Constructed using a simple, but effective and transparent process, each security of the parent index is reweighted so that stocks with lower risk are given higher index weights. The final constituents of the Indexes are determined by ranking these security level risk weights and taking the top 150 subset securities. The Indexes seek to emphasize stocks with lower historical return variance and tend to have a bias towards lower size and lower risk stocks. Historically, the Indexes have exhibited lower realized volatility in comparison to its parent index, while maintaining reasonable liquidity and capacity. Further information about the Index, including a description of its methodology, is available from the Index Provider on its website.

CI First Asset Preferred Share ETF ("FPR")

ETF Details

*TSX Ticker Symbol:* FPR

*Portfolio Manager:* CI

*Annual Management Fee:* 0.65% of NAV

*Redemption Fee:* Up to 0.25% of the exchange or redemption proceeds

*Distribution Frequency:* At least quarterly

Material Amendments to the Constating Documents of the ETF since Inception

None.

Investment Objectives

FPR’s investment objective is to provide Unitholders with: (a) regular distributions; and (b) the opportunity for capital appreciation from the performance of a portfolio comprised primarily of preferred shares of North American issuers.

Investment Strategies

FPR invests in an actively managed portfolio comprised primarily of Investment Grade preferred shares and to a lesser extent Investment Grade Corporate Debt and Convertible Bonds in order to provide Unitholders with the opportunity for growth of their investment value through any capital appreciation of the portfolio and distributions.

“Convertible Bonds” means debt securities issued by corporations, trusts or limited partnerships, the terms of which provide the holder with the right to receive payments of interest and give the holder the right to convert such debt securities into equity securities and for the purposes hereof includes any securities received in connection with any such conversion.

“Corporate Debt” means debt securities issued by corporations, trusts or limited partnerships.

“Investment Grade” means a rating from DBRS Limited of P3 (low) or higher for preferred shares or a rating of BBB (low) or higher for Corporate Debt, or comparable ratings from another recognized ratings agency.

At least 75% of the preferred shares and Corporate Debt. Corporate Debt in the portfolio of FPR shall be rated Investment Grade at the end of every reporting period (June 30th and December 31st).

FPR will not acquire preferred shares, Corporate Debt or Convertible Bonds for which a market quotation is not generally available and will not purchase Preferred Shares, Corporate Debt or Convertible Bonds that are in arrears in dividends, distributions, interest or principal payments, as applicable, at the time of investment.

Under normal market conditions, FPR’s portfolio will be invested: (i) as to not less than 50% in Preferred Shares; (ii) as to not more than 50% in Corporate Debt; (iii) as to not more than 30% in Convertible Bonds; (iv) as to not more than 50% in cash or cash equivalents, provided however that at discretion of the Portfolio Manager, FPR may invest up to 100% of the portfolio in cash or cash equivalents.

At the discretion of the Manager, FPR may choose to enter into currency forward agreements to hedge all or a portion of the value of FPR’s non-Canadian currency exposure back to the Canadian dollar. All such currency forward agreements will be entered into in compliance with NI 81-102 with financial institutions that have a “designated rating” as defined in NI 81-102.
Overview of the Sectors that the ETF Invests In

FPR invests primarily in investment grade (rated P(3) or higher by DBRS) preferred shares issued by North American corporations and to a lesser extent investment grade (rated BBB or higher by DBRS) Corporate Debt and Convertible Bonds issued by North American corporations, trust or limited partnerships.

Investment Restrictions Specific to the ETF

FBR will not (i) invest in or hold (a) securities of or an interest in any non-resident entity, an interest in or a right or option to acquire such property, or an interest in a partnership which holds any such property if FPR (or the partnership) would be required to include significant amounts in income pursuant to section 94.1 of the Tax Act, (b) an interest in a trust (or a partnership which holds such an interest) which would require FPR (or the partnership) to report significant amounts of income in connection with such interest pursuant to the rules in section 94.2 of the Tax Act, or (c) any interest in a non-resident trust other than an “exempt foreign trust” for the purposes of section 94 of the Tax Act (or a partnership which holds such an interest); (ii) invest in any security that would be a “tax shelter investment” within the meaning of section 143.2 of the Tax Act; or (iii) invest in any security of an issuer that would be a “foreign affiliate” of FPR for purposes of the Tax Act.

FPR will not enter into any arrangement (including the acquisition of securities for FPR’s portfolio) where the result is a “dividend rental arrangement” for purposes of the Tax Act (including any amendment to such definition).

Risk Factors

In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to FPR:

- convertible securities risk
- credit risk
- foreign investment risk
- foreign markets risk
- investment trust investment risk
- liability of Unitholder risk
- preferred shares risk
- short selling risk
- withholding tax risk

CI First Asset Short Term Government Bond Index Class ETF ("FGB")

ETF Details

*TSX Ticker Symbol*: FGB  
*Portfolio Manager*: CI  
*Annual Management Fee*: 0.25% of NAV  
*Redemption Fee*: Up to 0.25% of the exchange or redemption proceeds  
*Distribution Frequency*: Monthly

Material Amendments to the Constating Documents of the ETF since Inception

None.

Investment Objectives

FGB’s investment objective is to replicate, to the extent possible, the performance of a Canadian short-term government bond index (the “Index”), currently the FTSE Canada Short Term Government Bond Index, net of expenses. Under normal market conditions, FGB primarily invests in Canadian federal, provincial and municipal bonds issued domestically in Canada and denominated in Canadian dollars.

Investment Strategies

The investment strategy of the FGB is to invest in and hold the Constituent Securities of the applicable Index in substantially the same proportion as they are reflected in such Index. FGB may use a sampling strategy to achieve its objectives, if such an approach is appropriate in the discretion of the Manager.

The current Index for FGB is the FTSE Canada Short Term Government Bond Index. The Index is a market capitalization weighted index consisting of a broadly diversified range which may include any or all of Canadian federal, provincial and municipal bonds. The securities included in the Index consist primarily of semi-annual pay fixed rate bonds issued domestically in Canada and denominated in Canadian dollars, with an investment grade rating and an effective term to maturity of between one and five years. Returns for the Index are calculated daily and are weighted by market capitalization, so that the return on a bond influences the return on the Index in proportion to the bond’s market value. The Index uses a rules-based methodology, which changes over time to reflect market developments. The Index is rebalanced daily. Further information about the Index, including a description of its methodology, is available from the Index Provider on its website.

Overview of the Sectors that the ETF Invests In

FGB primarily invests in Canadian federal, provincial and municipal bonds issued domestically in Canada.

Investment Restrictions Specific to the ETF

None.

Risk Factors

In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to FGB:

- calculation and termination of the index risk
• credit risk
• equity risk
• fund corporation and multi-class/series risk
• illiquid securities risk
• passive investment risk
• replication or tracking risk
• rebalancing and adjustment risk
• use of covered call options risk
• use of the Index risk

CI First Asset Tech Giants Covered Call ETF ("TXF")

ETF Details

**TSX Ticker Symbol:** TXF (Common Units), TXF.B (Unhedged Common Units)

**Portfolio Manager:** CI

**Annual Management Fee:** 0.65% of NAV

**Redemption Fee:** Up to 0.05% of the exchange or redemption proceeds

**Distribution Frequency:** At least quarterly

Material Amendments to the Constating Documents of the ETF since Inception

On June 4, 2018, Unitholders of TXF approved amendments to the to TXF’s investment objectives in response to changes to the Global Industry Classification Standard ("GICS"). The amendments to TXF’s investment objectives became effective on September 28, 2018.

Investment Objectives

TXF’s investment objective is to provide Unitholders, through an actively managed portfolio, with (i) quarterly cash distributions, (ii) the opportunity for capital appreciation by investing on an equal weight basis in a portfolio of securities of the 25 largest technology issuers measured by market capitalization, whose common shares are listed on a North American stock exchange in the GICS Information Technology Sector, as well as those in the GICS Internet & Direct Marketing Retail, Interactive Home Entertainment and Interactive Media & Services Sub-Industries, and excluding those in the GICS Data Processing & Outsourced Services Sub-Industry, and (iii) lower overall volatility of returns on the portfolio than would be experienced by owning a portfolio of securities of such issuers directly, by employing a covered call option writing program.

Investment Strategies

TXF invests in a portfolio of securities of the 25 largest technology companies measured by market capitalization listed on a North American stock exchange.

Each month the Portfolio Manager employs a covered call option writing program on approximately, and not more than, 25% (determined at the time of writing) of the securities of each portfolio issuer, in order to seek to earn attractive tax effective income from dividends, distributions and call option premiums, lower the overall volatility of returns associated with owning a portfolio of these securities, and to generate capital appreciation. Call options may be sold on each individual portfolio security or may be sold on a basket basis, encompassing more than one portfolio security, in the discretion of the Portfolio Manager.

TXF’s portfolio will be rebalanced as soon as practicable, in the determination of the Portfolio Manager, at the end of each calendar quarter, so that immediately following such rebalancing, TXF’s portfolio issuers are approximately equally weighted. In order to facilitate distributions and/or pay expenses of TXF, the Portfolio Manager may sell portfolio securities of TXF at its discretion in which case the weighting of the portfolio will be affected.

It is intended that at all times at least 90% of the value of the foreign currency exposure attributable to the Common Units, if any, will be hedged back to the Canadian dollar. All such currency forward agreements or other derivatives will be entered into in compliance with NI 81-102 with financial institutions that have a "designated rating" as defined in NI 81-102. The foreign currency exposure attributable to the Unhedged Common Units will not be hedged back to the Canadian dollar.
Overview of the Sectors that the ETF Invests In

TXF invests primarily in securities of the largest technology companies listed on a North American stock exchange.

Investment Restrictions Specific to the ETF

None.

Risk Factors

In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to TXF:

- equity risk
- foreign investment risk
- foreign markets risk
- illiquid securities risk
- investment trust investment risk
- liability of Unitholder risk
- short selling risk
- trust fund multi-class risk
- use of covered call options risk
- withholding tax risk

CI First Asset U.S. & Canada Lifeco Income ETF (“FLI”)

ETF Details

**TSX Ticker Symbol:** FLI

**Portfolio Manager:** CI

**Annual Management Fee:** 0.75% of NAV

**Redemption Fee:** Up to 0.05% of the exchange or redemption proceeds

**Distribution Frequency:** At least quarterly

Material Amendments to the Constating Documents of the ETF since Inception

FLI was originally established as a closed-end investment trust under the laws of Ontario. On September 3, 2014, pursuant to the provisions of the Declaration of Trust, First Asset U.S. & Canada Lifeco Income Fund automatically converted from a closed-end fund into an ETF and was renamed First Asset U.S. & Canada Lifeco Income ETF. In connection with the conversion, the Declaration of Trust was amended and restated, among other matters, in order to effect the conversion and to permit FLI to offer Common Units. The units of First Asset U.S. & Canada Lifeco Income Fund outstanding on the date of the conversion were redesignated as Common Units of FLI and continue to be listed on the TSX.

Investment Objectives

FLI’s investment objectives are to provide Unitholders with (i) quarterly cash distributions; (ii) the opportunity for capital appreciation; and (iii) lower overall volatility of portfolio returns than would be experienced by owning a portfolio of publicly-traded common equity securities of the ten largest U.S. and Canadian life insurance companies by market capitalization directly.

Investment Strategies

FLI invests in a portfolio of publicly-traded common equity securities of the ten largest Lifecos by market capitalization.

Each month the Portfolio Manager employs a covered call option writing program on approximately, and not more than, 25% (determined at the time of writing) of the securities of each U.S. or Canadian life insurance company (a “Lifeco Company”) held in the portfolio issuer, in order to seek to earn attractive tax effective income from dividends, distributions and call option premiums, lower the overall volatility of returns associated with owning a portfolio of these securities, and to generate capital appreciation. The Portfolio Manager will write options on the same percentage of the portfolio securities of each Lifeco Company. See “Investment Strategies – Covered Call Option Writing Strategies of Certain CI First Asset ETFs” in the body of the prospectus for more details regarding FLI’s covered call option writing strategy. Because FLI may write covered call options on up to 25% of the securities of each portfolio issuer held by it from time to time, 25% of such securities shall not be available for securities lending.

The Portfolio Manager believes that the portfolio securities of FLI are attractive long-term investments, but that they may exhibit significant price volatility for the foreseeable future. Accordingly, the Portfolio Manager believes that an investment strategy which incorporates selling call options to capitalize on this volatility while retaining all the upside on a significant portion of FLI’s portfolio is an attractive risk adjusted way to own a portfolio of such securities.

This strategy does not involve managing FLI’s portfolio to achieve a specific distribution target, but generates attractive option premiums to provide downside protection, lower overall volatility of returns and increased cash flow available for distribution. The Portfolio Manager believes that the size neutral approach to investing afforded
by equal weighting, combined with the call option writing, is a balanced approach that provides attractive risk
adjusted returns under a variety of market conditions.

FLI’s portfolio will be rebalanced and reconstituted annually after each calendar year or in connection with corporate
events, such as mergers or take-over bids, so that immediately following such rebalancing, the portfolio will be
comprised of publicly-traded common equity securities of the Lifeco Companies on an approximately equal weight
basis based on the market capitalization at the end of the calendar year with respect to an annual rebalancing or the
prior business day with respect to other rebalancings. To the extent there is any uncertainty over what constitutes
a Lifeco Company, the Portfolio Manager’s determination shall be conclusive for all purposes.

In order to facilitate distributions and/or pay expenses of FLI, the Portfolio Manager may sell portfolio securities at
its discretion in which case the weighting of the portfolio will be affected. FLI may also sell portfolio securities that
are in a loss position to reduce the capital gain that would otherwise be payable by FLI by way of a special distribution
in a particular year where the Manager determines that it is in the best interests of FLI to do so.

In the Portfolio Manager’s discretion surplus cash from time to time will be invested by FLI in portfolio securities
generally on an approximately pro rata basis at the time of investment.

At the discretion of the Portfolio Manager, the Portfolio Manager may choose to enter into currency forward
agreements in compliance with NI 81-102 to hedge all or a portion of the value of FLI’s non-Canadian currency
exposure back to the Canadian dollar.

Overview of the Sectors that the ETF Invests In

FLI invests in a portfolio of publicly-traded common equity securities of the ten largest U.S. and Canadian life
insurance companies by market capitalization.

Investment Restrictions Specific to the ETF

None.

Risk Factors

In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the
body of the prospectus, the following risk factors are applicable to FLI:

- equity risk
- foreign markets risk
- liability of Unitholder risk
- short selling risk
- use of covered call options risk

CI First Asset U.S. Buyback Index ETF (“FBU”)

ETF Details

TSX Ticker Symbol: FBU
Portfolio Adviser: CI
Annual Management Fee: 0.60% of NAV
Redemption Fee: Up to 0.25% of the exchange or redemption proceeds
Distribution Frequency: At least quarterly

Material Amendments to the Constating Documents of the ETF since Inception

None.

Investment Objectives

FBU has been designed to replicate the performance of the CIBC U.S. Buyback Index (the “Index”), net of expenses. FBU invests primarily in equity securities of issuers included in the Solactive U.S. Large Cap Index.

Investment Strategies

It is intended that, except as described below, at all times at least 90% of the foreign currency denominated assets held by FBU will be hedged back to the Canadian dollar. The Manager may choose not to hedge any individual currency exposure to the extent that the Manager, in its sole discretion, deems it impractical or determines, in its sole discretion, that the exposure is non-material. Hedging currency exposure to reduce the impact of fluctuations in exchange rates is intended to reduce the direct exposure to foreign currency risk for Unitholders.

For more information on the investment strategies of FBU, please see “Investment Strategies – Index ETFs” in the body of the prospectus.

Overview of the Sectors that the ETF Invests In

FBU invests primarily in equity securities of issuers included in the Solactive U.S. Large Cap Index. The Index is comprised of an equally weighted portfolio of equity securities of U.S. companies with active share buyback programs that have significantly and consistently reduced issued and outstanding share count. The Index was developed by CIBC World Markets based on empirical evidence that shows that highly profitable companies with excellent core business models often have cash flows that exceed the required re-investment needed to support intrinsic growth, which cash flows are frequently used to implement share buyback programs. The Index uses a proprietary rules-based methodology to select its constituent securities. To qualify for inclusion in the Index an equity security must be a constituent of the Solactive U.S. Large Cap Index. The Index is reconstituted and rebalanced quarterly to equal weight. Further information about the Index, including a description of its methodology, is available from the Index Provider on its website.

Investment Restrictions Specific to the ETF

FBU will not (i) invest in or hold (a) securities of or an interest in any non-resident entity, an interest in or a right or option to acquire such property, or an interest in a partnership which holds any such property if FBU (or the partnership) would be required to include significant amounts in income pursuant to section 94.1 of the Tax Act, (b) an interest in a trust (or a partnership which holds such an interest) which would require FBU (or the partnership) to report significant amounts of income in connection with such interest pursuant to the rules in section 94.2 of the Tax Act, or (c) any interest in a non-resident trust other than an “exempt foreign trust” for the purposes of section
94 of the Tax Act (or a partnership which holds such an interest); (ii) invest in any security that would be a “tax shelter investment” within the meaning of section 143.2 of the Tax Act; or (iii) invest in any security of an issuer that would be a “foreign affiliate” of FBU for purposes of the Tax Act.

Risk Factors

In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to FBU:

- calculation and termination of the index risk
- credit risk
- equity risk
- foreign investment risk
- foreign markets risk
- passive investment risk
- rebalancing and adjustment risk
- replication or tracking risk
- use of the index risk
- withholding tax risk

CI First Asset U.S. TrendLeaders Index ETF (“SID”)

ETF Details

**TSX Ticker Symbol:** SID  
**Portfolio Adviser:** CI  
**Annual Management Fee:** 0.75% of NAV  
**Redemption Fee:** Up to 0.25% of the exchange or redemption proceeds  
**Distribution Frequency:** At least quarterly

Material Amendments to the Constatting Documents of the ETF since Inception

None.

Investment Objectives

SID has been designed to replicate the performance of the CIBC U.S. TrendLeaders Index (the “Index”), net of expenses. SID invests primarily in equity securities of issuers included in the Solactive U.S. Large and Midcap Index.

Investment Strategies

It is intended that, except as described below, at all times at least 90% of the foreign currency denominated assets held by SID will be hedged back to the Canadian dollar. The Manager may choose not to hedge any individual currency exposure to the extent that the Manager, in its sole discretion, deems it impractical or determines, in its sole discretion, that the exposure is non-material. Hedging currency exposure to reduce the impact of fluctuations in exchange rates is intended to reduce the direct exposure to foreign currency risk for Unitholders.

In the event that the eligible stocks, after certain filter criteria are applied, result in the number of eligible stocks falling below the required minimum of 30 from the Solactive US Large Cap Index and 20 from the Solactive US Mid Cap Subgroup, the Index in the following month will be linked to the performance of an equally weighted basket of SPDR S&P 500 Trust ETF, iShares iBoxx $ Investment Grade Corporate Bond ETF and SPDR Gold Shares.

For more information on the investment strategies of SID, please see “Investment Strategies – Index ETFs” in the body of the prospectus.

Overview of the Sectors that the ETF Invests In

The Index is comprised of a portfolio of equity securities of U.S. companies. The Index employs a proprietary rules-based model developed by CIBC World Markets which systematically and objectively selects and ranks securities based on the duration and longevity of certain underlying trend-strengths and incorporates an objective quantitative filter for technical factors. The Index was developed based on the empirical evidence that shows that equity securities with the highest trend scores will continue to generate better absolute and relative returns on a more frequent basis and will undergo different cycles of mean-reversion, mostly tied to the duration of the period during which the trend factors are expanding or contracting. To qualify for inclusion in the Index an equity security must: (i) be a constituent of the Solactive U.S. Large and Midcap Index; and (ii) meet a minimum average daily traded dollar value volume threshold. The Index is reconstituted and rebalanced monthly in order to remove constituents with weakening or stagnating trend scores and replace with a new set of higher trend-scoring constituents. Further information about the Index, including a description of its methodology, is available from the Index Provider on its website.
Investment Restrictions Specific to the ETF

SID will not (i) invest in or hold (a) securities of or an interest in any non-resident entity, an interest in or a right or option to acquire such property, or an interest in a partnership which holds any such property if SID (or the partnership) would be required to include significant amounts in income pursuant to section 94.1 of the Tax Act, (b) an interest in a trust (or a partnership which holds such an interest) which would require SID (or the partnership) to report significant amounts of income in connection with such interest pursuant to the rules in section 94.2 of the Tax Act, or (c) any interest in a non-resident trust other than an “exempt foreign trust” for the purposes of section 94 of the Tax Act (or a partnership which holds such an interest); (ii) invest in any security that would be a “tax shelter investment” within the meaning of section 143.2 of the Tax Act; or (iii) invest in any security of an issuer that would be a “foreign affiliate” of SID for purposes of the Tax Act.

Risk Factors

In addition to the general risk factors described under the subheading “Risk Factors – General Risk Factors” in the body of the prospectus, the following risk factors are applicable to SID:

- calculation and termination of the index risk
- credit risk
- equity risk
- foreign investment risk
- foreign markets risk
- passive investment risk
- rebalancing and adjustment risk
- replication or tracking risk
- use of the index risk
- withholding tax risk
