We have audited the accompanying financial statements of each of the Funds, which comprise the statements of financial position as at December 31, 2017 and 2016, and the statements of comprehensive income, changes in net assets attributable to holders of redeemable securities and cash flows for the years then ended, and a summary of significant accounting policies and other explanatory information.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITORS' RESPONSIBILITY

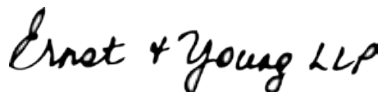

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds as at December 31, 2017 and 2016, and their financial performance and their cash flows for the years then ended in accordance with International Financial Reporting Standards.

First Asset Canadian Convertible Bond Fund

FUND SPECIFIC NOTES TO FINANCIAL STATEMENTS

December 31, 2017

(A) THE FUND

First Asset Canadian Convertible Bond Fund (the "Fund") is an open-end mutual fund established by way of a Declaration of Trust, made as of October 23, 2009 under the laws of the Province of Ontario under the name Canadian Convertible Bond Fund. On June 4, 2012, the Fund changed its name to First Asset Canadian Convertible Bond Fund.

Effective as of close of business on March 10, 2017, the following Funds merged:

Terminating Fund	Continuing Fund
First Asset Canadian Convertible Debenture Fund	First Asset Canadian Convertible Bond Fund

The Manager adopted the acquisition method of accounting for the merger of the Funds. Under this method, one of the Funds is identified as the acquiring Fund and is referred to as the "Continuing Fund", and the other Fund involved in the merger is referred to as the "Terminating Fund". This identification is based on a comparison of the relative net asset value of the Funds as well as consideration of the continuation of such aspects of the Continuing Fund as investment objectives and practices and type of portfolio securities.

Effective as of the close of business on March 10, 2017, the Continuing Fund acquired all of the net assets of the Terminating Fund in exchange for securities in the Continuing Fund. The value of the securities of the Continuing Fund issued in connection with this merger, was equal to the net assets transferred from the Terminating Fund. The cost associated with the merger was borne by the Manager.

The merger occurred on a tax-deferred basis.

Terminating Fund	Continuing Fund	Net Assets Acquired (\$)	Class A Securities Issued
First Asset Canadian Convertible Debenture Fund	First Asset Canadian Convertible Bond Fund	33,544,606	3,215,549

The Terminating Fund's results are not included in these financial statements.

The Fund's investment objectives are to provide holders with quarterly distributions and the opportunity for capital appreciation through investment predominantly in Canadian debentures that are convertible into equity of Canadian issuers, investments in convertible debentures of non-Canadian issuers, as well as fixed income instruments and equities.

The Manager, Trustee, Administrator and Investment Advisor of the Fund is First Asset Investment Management Inc. ("First Asset").

(B) FAIR VALUE OF FINANCIAL INSTRUMENTS (cont'd)

The following section discusses the significant unobservable inputs for Level 3 positions and quantitatively outlines the inputs used to calculate fair value in accordance with IFRS 13, *Fair Value Measurement*.

As at December 31, 2017

Recovery Rate and Liquidation Price

A common approach for valuing bonds issued by companies facing significant financial distress is to use the recovery rate method, where the expected recovery rate is a key input. The expected recovery rate is the proportion that an entity can expect to recover on its initial investment given the current financial distress, and the potential for the issuer to continue facing financial distress. For bonds, the liquidation approach is used, which is similar to the recovery rate method, and uses the liquidation prices as a key input.

	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs	Value of Inputs Used
Genalta Power Inc., 11.00%, May 31, 2018	1,375,000	Weighted Average Recovery	EBITDA Multiple	8x
Genalta Power Inc., 8.00%, May 31, 2018	1,150,000	Weighted Average Recovery	EBITDA Multiple	8x

Genalta Power Inc. ("Genalta") is a company incorporated and with primary operations in Alberta, Canada. Genalta builds, owns, operates and maintains independent power production facilities fuelled by waste, excess or underutilized energy sources. Genalta aims to enable clients to dispose of waste energy efficiently, while producing power to create discounted energy solutions or energy that can be sold back on to the power grids.

As at December 31, 2017, the valuation technique used to price Genalta Power Inc.'s fixed income investment is the weighted average recovery technique, which estimates scenarios in which the company will succeed in capital transactions to pay down all their remaining debt, or a liquidation sale of the assets through the Companies' Creditor Arrangement Act ("CCAA").

Sensitivity Analysis of Level 3 Financial Assets and Liabilities

The following table summarizes the potential effect of using reasonably possible alternative assumptions for financial assets and financial liabilities held as at December 31, 2017 that are classified in Level 3 of the fair value hierarchy.

	Valuation Techniques	Significant Unobservable Inputs	Lower Range	Upper Range	Lower Range (\$)	Upper Range (\$)
Genalta Power Inc., 11.00%, May 31, 2018	Weighted Average Recovery	EBITDA Multiple	5x	10x	825,000	1,732,500
Genalta Power Inc., 8.00%, May 31, 2018	Weighted Average Recovery	EBITDA Multiple	5x	10x	690,000	1,449,000

As at December 31, 2016

Recovery Rate and Liquidation Price

A common approach for valuing bonds issued by companies facing significant financial distress is to use the recovery rate method, where the expected recovery rate is a key input. The expected recovery rate is the proportion that an entity can expect to recover on its initial investment given the current financial distress, and the potential for the issuer to continue facing financial distress. For bonds, the liquidation approach is used, which is similar to the recovery rate method, and uses the liquidation prices as a key input.

	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs	Value of Inputs Used

Other price risk

The table below indicates how net assets attributable to holders of redeemable securities would have increased or decreased had the value of the Fund's benchmark(s) increased or decreased by 10%. This change is estimated based on the historical correlation between the return of the Fund's securities as compared to the return of the benchmark(s), as at year end, with all other variables held constant. The historical correlation may not be representative of the future correlation, and accordingly the impact on net assets attributable to holders of redeemable securities could be different.

(D) RELATED PARTY TRANSACTIONS

The Fund invests in redeemable securities of other investment funds ("underlying funds") managed by First Asset to gain exposure to the investment objectives and strategies of the underlying funds. Each underlying fund is generally financed through the capital invested by the Fund, along with other investors, which entitles securityholders to a proportionate share of the underlying fund's net assets. The Fund does not provide additional financial or other support to the underlying funds. All underlying funds were established in and carry out their operations in Canada. The Fund's interests in underlying funds are reported at fair value in its Statements of Financial Position and in its Schedule of Investment Portfolio, which represents the Fund's maximum exposure to financial loss.

First Asset Canadian Dividend Opportunity Fund

FUND SPECIFIC NOTES TO FINANCIAL STATEMENTS

December 31, 2017

(A) THE FUND

First Asset Canadian Dividend Opportunity Fund (the "Fund") was formed as a closed-end investment trust under the laws of the Province of Ontario on March 22, 2010. On April 19, 2012, the Fund converted into an open-end mutual fund (the "Conversion"). As part of the conversion process, the units were re-designated as Class A units as of the close of business on April 19, 2012. Also, Class F units of the Fund were created as of April 19, 2012.

Effective as of close of business on March 10, 2017, the following Funds merged:

Terminating Fund	Continuing Fund
First Asset Canadian Dividend Opportunity Fund II	First Asset Canadian Dividend Opportunity Fund

The Manager adopted the acquisition method of accounting for the merger of the Funds. Under this method, one of the Funds is identified as the acquiring Fund and is referred to as the "Continuing Fund", and the other Fund involved in the merger is referred to as the "Terminating Fund". This identification is based on a comparison of the relative net asset value of the Funds as well as consideration of the continuation of such aspects of the Continuing Fund as investment objectives and practices and type of portfolio securities.

Effective as of the close of business on March 10, 2017, the Continuing Fund acquired all of the net assets of the Terminating Fund in exchange for securities in the Continuing Fund. The value of the securities of the Continuing Fund issued in connection with this merger, was equal to the net assets transferred from the Terminating Fund. The cost associated with the merger was borne by the Manager.

The merger occurred on a tax-deferred basis.

Terminating Fund	Continuing Fund	Net Assets Acquired (\$)	Class A Securities Issued
First Asset Canadian Dividend Opportunity Fund II	First Asset Canadian Dividend Opportunity Fund	15,433,072	1,534,640

The Terminating Fund's results are not included in these financial statements.

The Fund's investment objectives are to provide holders with monthly distributions and the opportunity for capital appreciation, by investing in an actively managed portfolio comprised primarily of high-quality dividend paying Canadian equity securities of Canadian utility issuers, pipeline issuers and telecommunications issuers and select higher yielding equity securities. The portfolio also includes securities of dividend issuers like banks and financial services issuers that have strong track records of maintaining and raising distributions.

The Manager, Trustee and Investment Advisor of the Fund is First Asset Investment Management Inc. ("First Asset").

As at December 31, 2017, if the prevailing interest rates had been raised or lowered by 1%, assuming a parallel shift in the yield curve, with all other factors remaining constant, net assets could possibly have decreased or increased, respectively, by nil or 0.00% of net assets (December 31, 2016 - \$11,568 or 0.02%).

Currency risk

The tables below indicate the foreign currencies to which the Fund has significant exposure in Canadian dollar terms, including any underlying principal amount of forward foreign currency contracts. The tables also illustrate the potential impact on the net assets attributable to holders of redeemable securities of the Fund, all other variables held constant, as a result of a 5% change in these currencies relative to the Canadian dollar.

Other price risk

The table below indicates how net assets attributable to holders of redeemable securities would have increased or decreased had the value of the Fund's benchmark(s) increased or decreased by 10%. This change is estimated based on the historical correlation between the return of the Fund's securities as compared to the return of the benchmark(s), as at year end, with all other variables held constant. The historical correlation may not be representative of the future correlation, and accordingly the impact on net assets attributable to holders of redeemable securities could be different.

(D) RELATED PARTY TRANSACTIONS

The Fund invests in redeemable securities of other investment funds ("underlying funds") managed by First Asset to gain exposure to the investment objectives and strategies of the underlying funds. Each underlying fund is generally financed through the capital invested by the Fund, along with other investors, which entitles securityholders to a proportionate share of the underlying fund's net assets. The Fund does not provide additional financial or other support to the underlying funds. All underlying funds were established in and carry out their operations in Canada. The Fund's interests in underlying funds are reported at fair value in its Statements of Financial Position and in its Schedule of Investment Portfolio, which represents the Fund's maximum exposure to financial loss.

FUND SPECIFIC NOTES TO FINANCIAL STATEMENTS

December 31, 2017

(A) THE FUND

First Asset Canadian Energy Convertible Debenture Fund (the "Fund") was formed as a closed-end investment trust under the laws of the Province of Ontario on December 15, 2009 under the name Canadian Energy Convertible Debenture Fund.

On July 8, 2011, the Fund converted into an open-end mutual fund (the "Conversion"). As part of the conversion process, the units were re-designated as Class A units as of the close of business on July 8, 2011. Also, Class F units of the Fund were created as of August 25, 2011.

On June 4, 2012, the Fund changed its name to First Asset Canadian Energy Convertible Debenture Fund.

The Fund's investment objectives are to provide holders with monthly distributions and the opportunity for capital appreciation by investing in an actively-managed portfolio comprised primarily of convertible debentures of Canadian energy issuers.

The Manager, Trustee and Investment Advisor of the Fund is First Asset Investment Management Inc. ("First Asset").

(C) MANAGEMENT OF FINANCIAL RISKS (cont'd)

Currency risk

The tables below indicate the foreign currencies to which the Fund has significant exposure in Canadian dollar terms, including any underlying principal amount of forward foreign currency contracts. The tables also illustrate the potential impact on the net assets attributable to holders of redeemable securities of the Fund, all other variables held constant, as a result of a 5% change in these currencies relative to the Canadian dollar.

Other price risk

The table below indicates how net assets attributable to holders of redeemable securities would have increased or decreased had the value of the Fund's benchmark(s) increased or decreased by 10%. This change is estimated based on the historical correlation between the return of the Fund's securities as compared to the return of the benchmark(s), as at year end, with all other variables held constant. The historical correlation may not be representative of the future correlation, and accordingly the impact on net assets attributable to holders of redeemable securities could be different.

Other price risk

The table below indicates how net assets attributable to holders of redeemable securities would have increased or decreased had the value of the Fund's benchmark(s) increased or decreased by 10%. This change is estimated based on the historical correlation between the return of the Fund's securities as compared to the return of the benchmark(s), as at year end, with all other variables held constant. The historical correlation may not be representative of the future correlation, and accordingly the impact on net assets attributable to holders of redeemable securities could be different.

First Asset REIT Income Fund

FUND SPECIFIC NOTES TO FINANCIAL STATEMENTS

December 31, 2017

(A) THE FUND

First Asset REIT Income Fund (the "Fund") is an open-end mutual fund established by way of a Declaration of Trust, made as of June 4, 2010 under the laws of the Province of Ontario under the name Criterion REIT Income Fund. On June 4, 2012, the Fund changed its name to First Asset REIT Income Fund.

The Fund's investment objectives are to provide holders with quarterly distributions and the opportunity for capital appreciation through investment primarily in real estate investment trusts ("REITs"), equity securities of corporations carrying on business in the real estate sector and debt or convertible debt issued by REITs and real estate corporations.

The Manager, Trustee, Administrator and Investment Advisor of the Fund is First Asset Management Inc. ("First Asset").

(C) MANAGEMENT OF FINANCIAL RISKS

Currency risk

The tables below indicate the foreign currencies to which the Fund has significant exposure in Canadian dollar terms, including any underlying principal amount of forward foreign currency contracts. The tables also illustrate the potential impact on the net assets attributable to holders of redeemable securities of the Fund, all other variables held constant, as a result of a 5% change in these currencies relative to the Canadian dollar.

As at December 31, 2017

Currency	Investments \$	Cash \$	Other \$	Forward Foreign Currency Contracts \$	Total \$	Impact on Net Assets \$

As a % of Net Assets	7.4	0.1	-	(7.2)	0.3	-

Other price risk

The table below indicates how net assets attributable to holders of redeemable securities would have increased or decreased had the value of the Fund's benchmark(s) increased or decreased by 10%. This change is estimated based on the historical correlation between the return of the Fund's securities as compared to the return of the benchmark(s), as at year end, with all other variables held constant. The historical correlation may not be representative of the future correlation, and accordingly the impact on net assets attributable to holders of redeemable securities could be different.

Benchmark	December 31, 2017	December 31, 2016
	\$	\$
S&P/TSX Capped REIT Total Return Index	2,811,324	2,641,314

(D) RELATED PARTY TRANSACTIONS

The Fund invests in redeemable securities of other investment funds ("underlying funds") managed by First Asset to gain exposure to the investment objectives and strategies of the underlying funds. Each underlying fund is generally financed through the capital invested by the Fund, along with other investors, which entitles securityholders to a proportionate share of the underlying fund's net assets. The Fund does not provide additional financial or other support to the underlying funds. All underlying funds were established in and carry out their operations in Canada. The Fund's interests in underlying funds are reported at fair value in its Statements of Financial Position and in its Schedule of Investment Portfolio, which represents the Fund's maximum exposure to financial loss.

As at December 31, 2017

First Asset Utility Plus Fund

FUND SPECIFIC NOTES TO FINANCIAL STATEMENTS

December 31, 2017

(A) THE FUND

First Asset Utility Plus Fund (the "Fund") is an open-end mutual fund established by way of a Declaration of Trust, made as of January 11, 2011 under the laws of the Province of Ontario under the name Criterion Utility Plus Fund. On June 5, 2012, the Fund changed its name to First Asset Utility Plus Fund.

The Fund's objectives are to provide holders with quarterly income and the opportunity for capital appreciation by investing primarily in equity securities of Canadian issuers which have a market capitalization greater than \$200 million. The securities include Canadian and United States' corporations, limited partnerships and trusts. The Fund's portfolio is focused on issuers in the utilities sector (electrical, water, gas), energy infrastructure sector (including renewable energy and pipelines), the telecom sector and also on stable businesses with a strong history of growing their earnings and/or dividends.

The Manager, Trustee, Administrator and Investment Advisor of the Fund is First Asset Investment Management Inc. ("First Asset").

As at December 31, 2017

Recovery Rate and Liquidation Price

A common approach for valuing bonds issued by companies facing significant financial distress is to use the recovery rate method, where the expected recovery rate is a key input. The expected recovery rate is the proportion that an entity can expect to recover on its initial investment given the current financial distress, and the potential for the issuer to continue facing such financial distress. For bonds, the liquidation approach is used, which is similar to the recovery rate method, and uses the liquidation prices as a key input.

	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs	Value of Inputs Used
Genalta Power Inc., 11.00%, May 31, 2018	375,000	Weighted Average Recovery	EBITDA Multiple	8x

Genalta Power Inc. ("Genalta") is a company incorporated and with primary operations in Alberta, Canada. Genalta builds, owns, operates and maintains independent power production facilities fuelled by waste, excess or underutilized energy sources. Genalta aims to enable clients to dispose of waste energy efficiently, while producing power to create discounted energy solutions or energy that can be sold back on to the power grids.

As at December 31, 2017, the valuation technique used to price Genalta Power Inc.'s fixed income investment is the weighted average recovery technique, which estimates scenarios in which the company will succeed in capital transactions to pay down all their remaining debt, or a liquidation sale of the assets through the Companies' Creditor Arrangement Act ("CCAA").

As at December 31, 2017, if the prevailing interest rates had been raised or lowered by 1%, assuming a parallel shift in the yield curve, with all other factors remaining constant, net assets could possibly have decreased or increased, respectively, by approximately \$1,516 or 0.01% of net assets (December 31, 2016 - \$7,339 or 0.04%).

Currency risk

The tables below indicate the foreign currencies to which the Fund has significant exposure in Canadian dollar terms, including any underlying principal amount of forward foreign currency contracts. The tables also illustrate the potential impact on the net assets attributable to holders of redeemable securities of the Fund, all other variables held constant, as a result of a 5% change in these currencies relative to the Canadian dollar.

Other price risk

The table below indicates how net assets attributable to holders of redeemable securities would have increased or decreased had the value of the Fund's benchmark(s) increased or decreased by 10%. This change is estimated based on the historical correlation between the return of the Fund's securities as compared to the return of the benchmark(s), as at year end, with all other variables held constant. The historical correlation may not be representative of the future correlation, and accordingly the impact on net assets attributable to holders of redeemable securities could be different.

(D) RELATED PARTY TRANSACTIONS

The Fund invests in redeemable securities of other investment funds ("underlying funds") managed by First Asset to gain exposure to the investment objectives and strategies of the underlying funds. Each underlying fund is generally financed through the capital invested by the Fund, along with other investors, which entitles securityholders to a proportionate share of the underlying fund's net assets. The Fund does not provide additional financial or other support to the underlying funds. All underlying funds were established in and carry out their operations in Canada. The Fund's interests in underlying funds are reported at fair value in its Statements of Financial Position and in its Schedule of Investment Portfolio, which represents the Fund's maximum exposure to financial loss.

NOTES TO FINANCIAL STATEMENTS

December 31, 2017

1. GENERAL INFORMATION

These notes are an integral part of these financial statements, and contain important information about the following First Asset open-end mutual funds (individually, a "Fund", and collectively, the "Funds"):

First Asset Canadian Convertible Bond Fund
First Asset Canadian Dividend Opportunity Fund
First Asset Canadian Energy Convertible Debenture Fund
First Asset Global Dividend Fund
First Asset REIT Income Fund
First Asset Utility Plus Fund

Refer to the Fund Specific Notes for details of the organization of the Funds, investment objectives and strategies and inception dates of each Fund.

The manager of each Fund is First Asset Investment Management Inc. ("First Asset"). First Asset is a subsidiary of CI Financial Corp. (Toronto Stock Exchange ("TSX"): CIX). State Street Bank was the custodian of the Funds until October 9, 2017. Effective October 10, 2017, CIBC Mellon Trust Company is the custodian (the "Custodian") of the Funds.

Each Fund's registered office is at 2 Queen Street East, Suite 1200, Toronto, Canada.

The Schedule of Investment Portfolio for each Fund is as at December 31, 2017. The Statements of Financial Position for each Fund are as at December 31, 2017 and December 31, 2016, where applicable. The Statements of Comprehensive Income, Statements of Changes in Net Assets Attributable to Holders of Redeemable Securities and Statements of Cash Flows for each Fund are for the years ended December 31, 2017 and 2016.

These annual financial statements of the Funds for the year ended December 31, 2017 were approved and authorized for issuance by the Board of Directors of First Asset on March 6, 2018.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of preparation

The financial statements of the Funds have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). The financial statements have been prepared on a going concern basis using the historical cost convention, except for financial assets and financial liabilities measured at fair value through profit or loss ("FVTPL"). The Funds' accounting policies for measuring fair value of investments and derivatives are consistent with those used in measuring the net asset value ("NAV") for transactions with securityholders.

Functional and presentation currency

The primary objective of the Funds is to generate returns in Canadian dollars, their capital-raising currency. The liquidity of the Funds is managed on a day-to-day basis in Canadian dollars in order to handle the issuance and redemption of the Funds' redeemable securities. The Funds' performance is evaluated in Canadian dollars. Therefore, First Asset considers Canadian dollars as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions. The financial statements are presented in Canadian dollars, which is the functional currency of the Funds, and all values are rounded to the nearest dollar.

Financial instruments

(i) Classification and recognition of financial instruments

The Funds classify financial assets and financial liabilities at initial recognition into the following categories, in accordance with, *Financial Instruments: Recognition and Measurement* ("IAS 39").

NOTES TO FINANCIAL STATEMENTS (cont'd)

December 31, 2017

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Financial assets and liabilities at fair value through profit or loss

The category of financial assets and liabilities at (FVTPL) is sub-divided into:

Financial assets and liabilities held for trading: Financial assets are classified as held for trading if they are acquired for the purpose of selling and/or repurchasing in the near term. All derivatives and securities sold short held by the Funds are classified as held for trading unless they are designated as effective hedging instruments as defined by (IAS 39). The Funds' policy is not to apply hedge accounting.

Financial instruments designated as fair value through profit or loss upon initial recognition: All investments held by the Funds, excluding derivatives and securities sold short, are designated as FVTPL upon initial recognition. These financial assets are designated upon initial recognition on the basis that they are part of a group of financial assets that are managed and have their performance evaluated on a fair value basis, in accordance with risk management and investment strategies of the Funds, as set out in each Fund's prospectus. Regular way purchases and sales of financial assets and liabilities are recognized at their trade date.

Loans and receivables

All other financial assets not measured at FVTPL are measured at amortized cost. Included in this category are subscriptions receivable, dividends receivable, interest receivable and due from broker. Financial assets are shown at the amount required to be received, discounted, when appropriate, at the contract's effective interest rate.

Other financial liabilities

All other financial liabilities not measured at FVTPL are measured at amortized cost. Included in this category are due to broker, accounts payable and accrued liabilities, management fee payable, redemptions payable and distributions payable to holders of redeemable securities. Financial liabilities are shown at the amount required to be paid, discounted, when appropriate, at the contract's effective interest rate.

(ii) Valuation of financial instruments

Financial assets and financial liabilities at FVTPL are recorded in the Statements of Financial Position at fair value upon initial recognition. All transaction costs, such as brokerage commissions incurred in the purchase and sale of securities, for such instruments are recognized directly in profit or loss. All other financial assets and liabilities (other than those classified as FVTPL) are measured initially at their fair value plus any directly attributable incremental costs of acquisition or issue. For financial assets and liabilities where the fair value at initial recognition does not equal the transaction price, the Funds recognize the difference in the Statements of Comprehensive Income, unless specified otherwise.

After initial measurement, the Funds measure financial instruments that are classified as FVTPL at fair value. Subsequent changes in the fair value of those financial instruments are recorded as unrealized appreciation (depreciation) on investments in the Statements of Comprehensive Income. Net realized gain (loss) on sale of investments and unrealized appreciation (depreciation) on investments are determined on an average cost basis. Average cost does not include amortization of premiums or discounts on fixed income securities, with the exception of zero coupon bonds.

Other financial assets and liabilities (other than those classified as FVTPL) are measured at amortized cost.

The Funds' obligation for net assets attributable to holders of redeemable securities is presented at the residual amount (total assets less total liabilities of each Fund).

The Funds meet the definition of an investment entity within IFRS 10, *Consolidated Financial Statements* and are required to measure their subsidiaries, if any, at FVTPL rather than consolidate; therefore, these investments will be recorded at fair value in the same manner as any other investment that meets these criteria. The fair values of each specific type of investment and derivative are determined in the following manner:

Portfolio investments

In the case of publicly traded securities, fair value means the close or last traded price when the price falls within the day's bid-ask spread. For bonds and debentures, fair value means the most recent price provided by independent security pricing services. In the circumstance where the close or last traded price falls outside of the bid-ask spread, then fair value is determined by using bid price for long positions and ask price for short positions, or a different point within the bid-ask spread that First Asset determines to be the best representative of fair value.

NOTES TO FINANCIAL STATEMENTS (cont'd)

December 31, 2017

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Investments held that are not traded in an active market are recorded at estimated fair value as determined by First Asset using appropriate and accepted industry valuation techniques including valuation models. The fair value of a security determined using valuation models requires the use of inputs and assumptions, which, at times, may not be supported by observable market data.

Derivatives

Certain Funds are permitted to invest in forward foreign currency contracts to hedge foreign currency exposure on the investment portfolio. The value of each forward foreign currency contract is recorded as the unrealized gain or loss that would be realized if the position was to be closed out and recorded as unrealized gain (loss) on forward foreign currency contracts in the Statements of Financial Position. Upon maturity of the contracts, the difference between the carrying value and the fair value is included in net realized gain (loss) on forward foreign currency contracts in the Statements of Comprehensive Income.

Other financial assets and liabilities

Other assets and liabilities are short-term in nature and are carried at amortized cost.

(iii) Offsetting of financial instruments

Financial assets and liabilities are offset and the net amount presented in the Statements of Financial Position when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Income recognition

(i) Interest income for distribution purposes

The interest for distribution purposes shown in the Statements of Comprehensive Income represents the coupon interest received by the Funds accounted for on an accrual basis. The Funds do not amortize premiums paid or discounts received on the purchase of fixed income securities, except for zero coupon bonds, which are amortized on a straight-line basis. The interest for distribution purposes is the tax basis of calculating the interest received and is subject to tax.

(ii) Dividend revenue

Dividend revenue is recognized when the Funds' right to receive the payment is established. Dividend revenue is presented gross of any non-recoverable withholding taxes, which are disclosed separately in the Statements of Comprehensive Income.

(iii) Other investment income

Distributions received from income trusts and underlying funds holdings are recorded as income, capital gains or a return of capital based on the best information available. Due to the nature of these investments, actual allocations could vary from this information. Distributions from income trusts and underlying funds that are treated as a return of capital for income tax purposes reduce the average cost of the income trusts and underlying funds.

(iv) Securities lending

The Funds have entered into a securities lending program with the Bank of New York Mellon, who acts as the securities lending agent. These transactions involve the temporary exchange of securities for collateral with a commitment to re-deliver the same securities on a future date. Income is earned from these transactions in the form of fees paid by the counterparty and, in certain circumstances, interest paid on cash or securities held as collateral. Income from securities lending is included in the Statements of Comprehensive Income and is recognized when earned.

The aggregate market value of all securities loaned by a Fund cannot exceed 50% of the assets of that Fund. Collateral received consists of qualified securities and securities that are immediately convertible into, or exchangeable for, securities of the same type, the same term and in the same number as those loaned by each Fund, or cash or letters of credit with market values of at least 102% of the market value of the loaned securities. Each Fund's lending agent is entitled to receive payments out of the gross amount generated from the securities lending transactions of the Funds and bears all operational costs directly related to securities lending as well as the cost of borrowing default indemnification. Aggregate values of securities on loan and related collateral held as well as a reconciliation between gross securities lending revenue received by each Fund as disclosed in the Funds' Statements of Comprehensive Income as at December 31, 2017 and 2016 are disclosed as a footnote to the Statements of Comprehensive Income.

NOTES TO FINANCIAL STATEMENTS (cont'd)

December 31, 2017

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Investment transactions and expense recognition

Expenses directly attributable to a class are charged to that class. Other expense, income, realized gains and losses from investment transactions are allocated proportionately to each class based on the relative NAV of each class. Realized and unrealized gains and losses on forward foreign currency contracts entered into to hedge currency exposure of hedged classes are allocated only to that class.

Cash and cash equivalents

Cash and cash equivalents comprise of cash and short-term investments with a term to maturity of less than three months from date of purchase. Cash and cash equivalents are categorized as held for trading and therefore are carried at fair value. Short-term investments are valued at cost plus accrued interest, which approximates fair value.

Redeemable participating securities

Each Fund's redeemable securities are classified as financial liabilities and are redeemable at a securityholder's option at prices based on the Fund's NAV per security at the time of redemption.

Foreign currency translation

Transactions during the year, including purchases and sales of securities, income and expenses, are translated at the rate of exchange prevailing on the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rate of exchange ruling at the reporting date.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Foreign currency transaction gains and losses on financial instruments classified as FVTPL are included in the Statements of Comprehensive Income as part of "Net realized and unrealized gain (loss) on sale of investments" and foreign exchange gains and losses relating to cash and other assets and liabilities are presented as "Net realized gain (loss) on foreign exchange".

Increase (decrease) in net assets attributable to holders of redeemable securities per security

Increase (decrease) in net assets attributable to holders of redeemable securities per security of each class is calculated by dividing the "Increase (decrease) in net assets attributable to holders of redeemable securities from operations (excluding distributions) per security", as disclosed in the Statements of Comprehensive Income, by the weighted average number of securities outstanding during the year of that class.

3. STANDARDS ISSUED BUT NOT YET EFFECTIVE

Standards issued but not yet effective up to the date of issuance of the Funds' financial statements are listed below. The Funds will adopt any applicable standards on the required effective date.

IFRS 9, Financial Instruments

In July 2014, the IASB issued the final version of IFRS 9, *Financial Instruments* ("IFRS 9") which reflects all phases of the financial instruments project and replaces IAS 39 and all previous versions of IFRS 9. IFRS 9 brings together all three aspects of the accounting for financial instrument project: classification and measurement, impairment and hedge accounting. The new standard is effective for the Funds for their fiscal year beginning January 1, 2018. The Manager has currently determined that the impact to the Funds may require additional disclosures related to changes to the classification of certain financial instruments to align with the classifications under IFRS 9. Adoption of the standard will not impact net assets attributable to holders of redeemable securities. The Manager of the Funds is actively monitoring for any further changes to this accounting standard.

NOTES TO FINANCIAL STATEMENTS (cont'd)

December 31, 2017

3. STANDARDS ISSUED BUT NOT YET EFFECTIVE (cont'd)

IFRS 15, Revenue from Contracts with Customers

IFRS 15, *Revenue from Contracts with Customers* ("IFRS 15") was issued in May 2014 and establishes a five-step model to account for revenue arising from contracts with customers. Under IFRS 15, revenue is recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The new revenue standard will supersede all current revenue recognition requirements under IFRS and is effective for annual periods beginning on or after January 1, 2018, when the IASB finalizes their amendments to defer the effective date of IFRS 15 by one year. Early adoption is permitted. Given that the majority of revenue streams of the Funds, being interest, dividends and realized/unrealized gains, fall outside of the scope of IFRS 15, impact assessments made during 2017 indicate minimal impact arising on the adoption of this standard.

4. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of financial statements in accordance with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities at the reporting date and the reported amounts of income and expenses during the reporting year. Significant judgments and estimates include the valuation of investments and derivatives, classification of redeemable securities and classification of the Funds as investment entities.

First Asset has made an assessment of the Funds' ability to continue as a going concern and is satisfied that the Funds have the resources to continue in business for the foreseeable future. Furthermore, First Asset is not aware of any material uncertainties that may cast significant doubt upon the Funds' ability to continue as a going concern. Therefore, the financial statements of the Funds continue to be prepared on a going concern basis.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed in these notes. The Funds based their assumptions and estimates on parameters available when the financial statements were prepared. However, existing circumstances and assumptions about future developments may change due to market changes or circumstances arising beyond the control of the Funds. Such changes are reflected in the assumptions when they occur.

5. MANAGEMENT OF FINANCIAL RISKS

In the normal course of business, the Funds are exposed to various financial risks, including credit risk, liquidity risk and market risk (consisting of interest rate risk, currency risk and other price risk). The Funds' overall risk management program seeks to minimize potentially adverse effects of these risks on the Funds' financial performance by employing professional, experienced portfolio advisors, by monitoring daily the Funds' positions and market events and by diversifying the investment portfolio within the constraints of the investment guidelines and periodically may use derivatives to hedge certain risk exposure. To assist in managing risk, First Asset maintains a governance structure that oversees the Funds' investment activities and monitors compliance with the Funds' stated investment strategies, investment guidelines and securities regulations. Refer to the Fund Specific Notes for specific risk disclosures related to each Fund.

(i) Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Funds.

For those Funds that invest in fixed income securities or derivative contracts, the value presented on the Schedule of Investment Portfolio includes consideration of the creditworthiness of the issuer and, accordingly, represents the maximum credit risk exposure of the Funds. The Funds' holdings are continually monitored in regards to credit quality and relative value. Generally, the higher the credit rating of a security, the lower the probability of it defaulting on its obligations. In order to mitigate credit risk, First Asset attempts to focus on only highly creditworthy issuers that are less likely to suffer harshly during a downturn in the economic environment. As well, credit risk is managed by selecting Schedule I Banks operating in Canada as counterparties to the forward foreign currency contracts, if applicable, and by regular monitoring of credit exposures. Carrying amounts for accrued income represent minimal credit risk exposure as they will be settled in the short term. Credit ratings are obtained from S&P Global Ratings. Where more than one rating is obtained for a security, the lowest rating has been used. See the Schedule of Investment Portfolio for the credit ratings of counterparties from over-the-counter derivative contracts, where applicable.

5. MANAGEMENT OF FINANCIAL RISKS (cont'd)

The Funds may enter into securities lending transactions with approved counterparties. Credit risk associated with these transactions is considered minimal as all counterparties have a sufficient approved credit rating and the market value of collateral held by each Fund must be at least 102% of the fair value of securities loaned.

Credit ratings can be either long-term or short-term. Short-term credit ratings are generally assigned to those obligations and derivative instruments considered short-term in nature.

The table below provides a cross-reference between the long-term credit ratings disclosed in the Credit Rating table inclusive of the short-term credit ratings disclosed in the derivatives schedules in the Schedule of Investment Portfolio.

Credit Rating as per Credit Risk Table	Credit Rating as per Derivatives Schedules
AAA/Aaa/A++	A-1+
AA/Aa/A+	A-1, A-2, A-3
A	B, B-1
BBB/Baa/B++	B-2
BB/Ba/B+	B-3
B	C
CCC/Caa/C++	-
CC/Ca/C+	-
C and Lower	D
Not Rated	WR

All transactions executed by the Funds in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

(ii) Liquidity risk

Liquidity risk is the risk that the Funds may not be able to meet their obligation on time or at a reasonable price.

The Funds' exposure to liquidity risk is concentrated in the daily cash redemptions of securities. Generally, the Funds invest in securities that are considered readily realizable as they are actively traded on public exchanges. Certain securities may be less liquid than other securities and involve the risk that First Asset may not be able to dispose of them at the current market prices. As such, it may be difficult to significantly alter the composition of a Fund's portfolio in a short period of time.

The maturity of the Funds' financial liabilities are all between 1 to 3 months, except for the redeemable securities, which are redeemable on demand at the holder's option. First Asset does not expect that this contractual maturity is representative of the actual cash outflows, as holders of these instruments typically retain them for a longer period.

(iii) Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or fair values of financial instruments.

Certain Funds invest in interest-bearing financial instruments. As such, these Funds are exposed to the risk that the value of such financial instruments will fluctuate due to changes in the prevailing levels of market interest rates. Prices of longer-term fixed income securities will generally fluctuate more in response to interest rate changes than would shorter-term securities. For portfolios that contain fixed income securities, First Asset reviews the remaining term-to-maturity dates on a regular basis to ensure diverse and balanced exposure, within the limits of the Funds' investment objectives and strategies.

(iv) Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates.

Certain Funds invest in securities that are denominated in a currencies other than the Canadian dollar. Consequently, these Funds are exposed to currency risk as the value of the portfolio securities denominated in currencies other than the Canadian dollar will vary due to changes in foreign currencies exchange rates. For Funds with hedged classes, currency risk is mitigated by entering into forward foreign currency contracts and, as such, the hedged classes do not have significant exposure to currency risk.

(v) Other price risk

Other price risk is the risk that the fair value or future cash flows of financial instruments will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

All investments in securities present a risk of loss of capital. The value of the portfolios will be influenced by factors that are not within the control of the Funds including the performance of the portfolio securities, the condition of the equity markets generally and other factors. Market price risk is mitigated through the careful selection and diversification of securities within the limits of the Funds' investment objectives and strategies as well as the daily monitoring of the Funds' investment portfolio by First Asset.

6. FAIR VALUE MEASUREMENT HIERARCHY

The Funds classify financial instruments into three levels based on inputs used to value the financial instruments. Level 1 securities are valued based on quoted prices in active markets for identical securities. Level 2 securities are valued based on significant observable market inputs, such as quoted prices from similar securities and quoted prices in inactive markets or based on observable inputs to models. Level 3 securities are valued based on significant unobservable inputs that reflect First Asset's determination of assumptions that market participants might reasonably use in valuing the securities.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Funds determine whether transfers have occurred between levels in the hierarchy by re-assessing the categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the beginning of each reporting period.

Refer to the Fund Specific Notes for the relevant disclosure.

7. REDEEMABLE SECURITIES

The Funds are authorized to issue an unlimited number of classes of units, and may offer and sell an unlimited number of units (referred to as security or securities) of each class. All securities of a Fund have equal rights and privileges and are substantially the same except for the fees and sales and redemption charges associated with a particular class and the existence or absence of currency hedging arrangements. Each class of securities is convertible into any other class of securities on the basis of their respective NAV.

The Funds' Deferred Sales Charge and Low-Load purchase options for their Class A and A1 securities were closed to all new and additional purchases on April 22, 2016. Class A Initial Sales Charge Option and Class F securities are offered for sale on a continuous basis and may be purchased or redeemed on any valuation date at the NAV per security of a particular class.

First Asset Global Dividend Fund offers four classes of securities, Class A and Class F (currency hedged securities), and Class A1 and Class F1 (non-currency hedged securities). Each of First Asset Canadian Convertible Bond Fund, First Asset Canadian Dividend Opportunity Fund, First Asset Canadian Energy Convertible Debenture Fund, First Asset REIT Income Fund and First Asset Utility Plus Fund currently offers two classes of securities: Class A and Class F (both of which are currency-hedged).

8. EXPENSES

The Funds pay First Asset an annual management fee calculated as a percentage of the NAV of each class of the Funds. This fee is calculated daily and paid monthly in arrears. The entire amount of the service fee paid to registered dealers in respect of the Class A and A1 securities as well as a fee to the Investment Sub-Advisor, if applicable, is paid by First Asset out of the management fee.

Where a Fund invests in securities of other investment funds ("Underlying Funds"), First Asset ensures that there is no duplication of management fees charged by the Fund and any other Underlying Fund for the same service. In cases where the Underlying Fund is managed by First Asset, a Fund will receive on a monthly basis a management fee rebate.

The annual management fee rates are disclosed in a footnote to the Statements of Comprehensive Income.

The Funds are responsible for all costs relating to their operation and administration.

In addition to covering brokerage services on security transactions, commissions paid to dealers may also cover research services provided to First Asset or the relevant portfolio manager of the Funds. The value of research services included in commissions and other transaction costs during the period (soft dollar commissions) is presented as a footnote to the Statements of Comprehensive Income.

9. DISTRIBUTIONS

Each Fund distributes to its securityholders on a monthly or quarterly basis. The amounts of distributions are based on First Asset's assessment of anticipated cash flow of the Funds from time to time.

If, in any year, after such distributions, there would otherwise remain in the Funds additional net income or net realized capital gains, the Funds will make, on or before December 31 of that year, a distribution of such portion of the remaining net income or net realized capital gains as is necessary to ensure that the Funds will not be liable for income tax under the *Income Tax Act* (Canada) (the "Tax Act"), after taking into account all available deductions, credits and refunds.

10. TAXATION

Each Fund qualifies as a mutual fund trust under the provisions of the Tax Act, and is not subject to tax on its net income for the tax year, including net realized capital gains, which are paid or payable to its securityholders as at the end of the tax year. Such distributed income is taxable in the hands of the securityholders. Income tax on net realized capital gains not paid or payable is generally recoverable, as redemptions occur, by virtue of refunding provisions contained in the Tax Act. As a result, no provision for income taxes has been recorded in the accompanying financial statements.

The tax year-end for all Funds is December 15.

The Funds may be subject to withholding taxes, deducted at the source of the income, imposed by certain countries on investment income and capital gains. Such income and gains are recorded on a gross basis, and the related withholding taxes are shown as a separate expense in the Statements of Comprehensive Income. For the purpose of the Statements of Cash Flows, cash flows from investments are presented net of withholding taxes.

11. CAPITAL MANAGEMENT

Each Fund manages its capital in accordance with its investment objectives and strategies outlined in the Fund Specific Notes and the risk management practices disclosed in Note 5 and endeavours to invest the subscriptions received in appropriate investments while maintaining sufficient liquidity to meet distributions and redemptions. In order to manage their capital structures, the Funds may adjust the amount of any distributions paid to securityholders.

12. RELATED PARTY TRANSACTIONS

First Asset manages and administers the business operations and affairs of the Funds, and, in all cases except for First Asset Global Dividend Fund, is also responsible for providing all investment advisory and portfolio management services required by the Funds. These services are in the normal course of operations and are recorded at the amount of the consideration agreed to by the parties.

Inter-fund trading occurs when a Fund purchases or sells a security of any issuer from or to another Fund managed by the Manager. These transactions are executed through market Intermediaries and under prevailing market terms and conditions. The Independent Review Committee reviews such transaction during schedule meetings. During the years ended December 31, 2017 and 2016, certain Funds executed inter-fund trades.

An affiliate of First Asset administers the Funds' relationship with the Funds' Independent Review Committee ("IRC") on behalf of First Asset; however, it receives no compensation for doing so. Members of the IRC receive fees from the Funds for services rendered to the Funds and are reimbursed for out-of-pocket expenses.

The above services are reported in the Statements of Comprehensive Income as management fee, dealer service fees and Independent Review Committee fees, as applicable. Management fee payable is reported in the Statements of Financial Position, and the amounts are generally payable to First Asset.

The Funds may have direct or indirect holdings in CI Financial Corp., the ultimate parent company of First Asset, or Underlying Funds managed by First Asset as identified in the Fund Specific Notes, if applicable.
