

CI First Asset Morningstar US Momentum Index ETF

Management Report of Fund Performance for the year ended December 31, 2019

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1-800-563-5181, by writing to us at CI Investments Inc., 2 Queen Street East, Twentieth Floor, Toronto, ON, M5C 3G7 or by visiting our website at www.firstasset.com or SEDAR at www.sedar.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

INVESTMENT OBJECTIVE AND STRATEGIES

The investment objective of the CI First Asset Morningstar US Momentum Index ETF (the Fund) is to replicate, to the extent possible, the performance of the Morningstar® U.S. Target Momentum Index™ (the Index or Benchmark), net of expenses. The Fund invests in equity securities of the largest and most liquid U.S. public issuers based upon proprietary research generated by Morningstar, and is designed to provide diversified exposure to U.S. issuers which have demonstrated, among other things, positive momentum in earnings and price. The investment strategy of the Fund is to invest in and hold the securities that comprise the Index in substantially the same proportion as they are reflected in the Index.

RISK

There were no changes to the Fund over the period of this report that materially affected the overall level of risk associated with an investment in the Fund. Unitholders should refer to the prospectus as it contains a detailed discussion of risk and other considerations to an investment in the Fund. The prospectus is available free of charge on our website at www.firstasset.com and on SEDAR at www.sedar.com.

RESULTS OF OPERATIONS

The Fund's net assets decreased by \$4.4 million to \$35.3 million from December 31, 2018 to December 31, 2019. The Fund had net redemptions of \$13.2 million for the year. The Fund paid distributions totalling \$0.1 million while the portfolio's performance increased assets by \$8.9 million. Common Units returned 27.7% after fees and expenses for the year ended December 31, 2019. Over the same time period, the Fund's benchmark returned 30.0%.

Please refer to the "Past Performance" section which outlines the performance of the Fund's other units.

The Fund underperformed its benchmark for the year.

Unlike the end of 2018, when many investors were questioning the sustainability of the upward equity market, 2019 ended the year on a positive note, with U.S. and Canadian stock markets hitting all-time highs. U.S. equities, as measured by the S&P 500 Index, had a very strong year, returning 31.5%, despite trade disputes, cautious central banks and a slowing economy that concerned investors several times. Canadian equities, as measured by the S&P/TSX Composite Index, posted a total return of 22.9%, underperforming the U.S.

At the beginning of the year, investors had been anticipating two interest rate increases by the U.S. Federal Reserve Board (Fed) in 2019. However, early in the year, it was clear that these increases would not come to fruition. The Fed reduced the federal funds rate by 75 basis points (bps) by the end of 2019, in an effort to extend the business cycle, as inflation remained low despite extremely tight labour markets.

The Fund's top-performing sectors were information technology, industrials and health care, which added +848 bps, +484 bps and +362 bps, respectively, to performance. Top individual contributors included holdings in Tenet Healthcare Corp. (+186 bps), Ubiquiti Networks Inc. (+184 bps) and Paycom Software Inc. (+182 bps).

The weakest sector performance came from communication services (-110 bps), energy (-52 bps) and utilities (-4 bps). Individual detractors from the Fund's performance included RH (-100 bps), ProPetro Holding Corp. (-93 bps) and iRobot Corp. (-61 bps).

RECENT DEVELOPMENTS

The U.S. economy is expected to slow somewhat in 2020 with real gross domestic product (GDP) growth expected at 1.8% versus 2.3% in 2019. The signing of the U.S.-China phase one trade deal avoided escalating tariffs and has reduced investor anxiety. U.S. inflation is expected to increase somewhat, but still remain near the Fed's target.

Effective April 29, 2019, First Asset ETFs were rebranded as CI First Asset ETFs.

On July 1, 2019, First Asset Investment Management Inc. amalgamated with CI Investments Inc. (CI). After the amalgamation, members of the Independent Review Committee (IRC) of the CI family of funds also became members of the First Asset Funds' IRC (together, the CI Funds IRC). Previous members of the First Asset Funds' IRC resigned on June 30, 2019.

Effective September 19, 2019, James McPhedran became a member of the IRC of CI Funds and effective August 15, 2019, John Reucassel resigned as a member of the IRC of CI Funds.

RELATED PARTY TRANSACTIONS

Manager, Trustee and Portfolio Manager

CI is the Manager, Trustee and Portfolio Manager of the Fund. CI is a subsidiary of CI Financial Corp. The Manager, in consideration of management fees, provided management services required in the day-to-day operations of the Fund.

Management fee rates as at December 31, 2019, for each of the classes are shown below:

	Annual management fee rate (%)
Common Units	0.600
Unhedged Common Units	0.600

The Manager received \$0.2 million in management fees for the year.

CI First Asset Morningstar US Momentum Index ETF

Management Report of Fund Performance for the year ended December 31, 2019

Management Fees

100% of management fees were used to pay for investment management and other general administration.

Independent Review Committee

The Fund received standing instructions from the Fund's IRC with respect to the following related party transactions:

- a) trades in securities of CI Financial Corp.; and
- b) purchases or sales of securities of an issuer from or to another investment fund managed by the Manager.

The applicable standing instructions require, amongst others, that related party transactions be conducted in accordance with the Manager's policies and procedures and applicable law and that the Manager advise the IRC of any material breach of such policies. The standing instructions also require that investment decisions in respect of related party transactions (a) are free from any influence by an entity related to the Manager and without taking into account any consideration relevant to an entity related to the Manager; (b) represent the business judgment of the Manager uninfluenced by considerations other than the best interests of the Fund; (c) are made in compliance with the Manager's policies and procedures; and (d) achieve a fair and reasonable result for the Fund. Transactions made by the Manager under the standing instructions are subsequently reviewed by the IRC on a quarterly basis to monitor compliance.

The Fund relied on the IRC's standing instructions regarding related party transactions during this reporting year.

Except as otherwise noted above, the Fund was not a party to any related party transactions during the year ended December 31, 2019.

(1) This information is derived from the Fund's audited annual financial statements.

(2) Net assets per unit and distributions per unit are based on the actual number of units outstanding for the relevant class at the relevant time. The increase (decrease) in net assets from operations per unit is based on the weighted average number of units outstanding for the relevant class over the fiscal year.

(3) Distributions are automatically reinvested in additional units of the Fund.

(4) This information is provided for the years ended December 31.

(1) This information is derived from the Fund's audited annual financial statements.

(2) Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on unitholder residency and can be different from 13%.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal year. The higher a Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the year.

(5) This information is provided for the years ended December 31.

(6) Closing market price.

PAST PERFORMANCE

This section describes how the Fund has performed in the past. Remember, past returns do not indicate how the Fund will perform in the future. The information shown assumes that distributions made by the Fund in the years shown were reinvested in additional units of the relevant classes of the Fund. In addition, the information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

Year-by-Year Returns

The following charts show the Fund's annual performance for each of the years shown and illustrate how the Fund's performance has changed from year to year. In percentage terms, the charts show how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year, except where noted.

¹ 2013 return is for the period from October 22, 2013 to December 31, 2013.

CI First Asset Morningstar US Momentum Index ETF

Management Report of Fund Performance for the year ended December 31, 2019

Annual Compound Returns

The following table shows the Fund's annual compound returns for each year indicated, compared to the Morningstar® U.S. Target Momentum Total Return Index™ and the S&P 500 Total Return Index.

The Morningstar® U.S. Target Momentum Index™ provides exposure to U.S. equities displaying above average return on equity, with added emphasis on upward revisions of fiscal earnings estimates and technical price momentum indicators.

The S&P 500 Index is an index composed of 500 stocks weighted by capitalization and representing all major U.S. industries. The Index is a broad measure of the stock performance of the largest U.S. companies with market capitalization in excess of US\$5.3 billion.

A discussion of the performance of the Fund as compared to the benchmark is found in the Results of Operations section of this report.

	One Year (%)	Three Years (%)	Five Years (%)	Ten Years (%)	Since Inception (%)

A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements about the Fund, its future performance, strategies or prospects, and possible future Fund action. The words "may," "could," "should," "would," "suspect," "outlook," "believe," "plan," "anticipate," "estimate," "expect," "intend," "forecast," "objective," and similar expressions are intended to identify forward-looking statements.

Forward-looking statements are not guarantees of future performance. Forward-looking statements involve inherent risks and uncertainties, both about the Fund and general economic factors, so it is possible that predictions, forecasts, projections and other forward-looking statements will not be achieved. We caution you not to place undue reliance on these statements as a number of important factors could cause actual events or results to differ materially from those expressed or implied in any

forward-looking statement made by the Fund. These factors include, but are not limited to, general economic, political and market factors in Canada, the United States and internationally, interest and foreign exchanges rates, global equity and capital markets, business competition, technological changes, changes in laws and regulations, judicial or regulatory judgments, legal proceedings and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. All opinions contained in forward-looking statements are subject to change without notice and are provided in good faith but without legal responsibility.
