Management Report of Fund Performance for the year ended December 31, 2020

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1-800-563-5181, by writing to us at CI Investments Inc., 2 Queen Street East, Twentieth Floor, Toronto, ON, M5C 3G7 or by visiting our website at [www.firstasset.com](http://www.firstasset.com) or SEDAR at [www.sedar.com](http://www.sedar.com).

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

To request an alternate format of this document, please contact us at [service@ci.com](mailto:service@ci.com) or 1-800-792-9355.

## INVESTMENT OBJECTIVE AND STRATEGIES

The CI First Asset MSCI World ESG Impact ETF (the Fund) has been designed to replicate, to the extent possible, the performance of the MSCI World ESG Select Impact ex Fossil Fuels Index (the Benchmark or the Index), net of expenses. In respect of the Common Units the Fund has been designed to replicate, to the extent possible, the performance of the MSCI World ESG Select Impact ex Fossil Fuels Index (CAD Hedged), net of expenses; and in respect of the Unhedged Common Units, the Fund has been designed to replicate, to the extent possible, the performance of the MSCI World ESG Select Impact ex Fossil Fuels Index, net of expenses. The investment strategy of the Fund is to invest in and hold the constituent securities of the Index. The Index is based on a traditional market capitalization weighted parent index, the MSCI World Index, which includes World large and mid-capitalization stocks. Constructed using a simple, but effective and transparent process, each security of the parent index is reweighted so that stocks with lower risk are given higher index weights. The final constituents of the Index are determined by ranking these security level risk weights. The Index seeks to emphasize stocks with lower historical return variance and tend to have a bias towards lower size and lower risk stocks. Historically, the Index has exhibited lower realized volatility than the parent index, while maintaining reasonable liquidity and capacity. The only difference between the indices is that the CAD Hedged is 100% hedged to the Canadian dollar by notionally "selling" each foreign currency forward at the one-month forward exchange rate at the end of each month.

## RISK

No changes affecting the overall level of risk associated with investing in the Fund were made during the year. The risks of the Fund remain as discussed in the Fund's most recently filed simplified prospectus or its amendments. The Manager reviews the risk rating for the Fund on an annual basis, at a minimum, based on the methodology mandated by the Canadian Securities Administrators to determine the risk level of the Fund. Any change to the risk rating made during the year was as a result of such review and was not a result of any change to the investment objective, strategies or management of the Fund.

## RESULTS OF OPERATIONS

The Fund's net assets increased by \$41.0 million to \$62.4 million from December 31, 2019 to December 31, 2020. The Fund had net sales of \$35.5 million for the year. The Fund paid distributions totalling \$4.3 million while the portfolio's performance increased assets by \$9.8 million. Common Units returned 21.0% after fees and expenses for the one-year period ended December 31, 2020. Over the same time period, the Fund's benchmark returned 13.3%. The benchmark is the MSCI World ESG Leaders Index (local currency).

Equities closed higher for the year despite unprecedented disruption in the global economy caused by the COVID-19 pandemic. After a strong start to the year, financial markets peaked in mid-February and then declined sharply through late March, registering a 34% drop in U.S. equities, as measured by the S&P 500 Index (S&P 500).

In response to the economic and market turmoil, central banks around the world made interest rate reductions. The U.S. Federal Reserve (Fed) lowered its overnight interest rate from 1.75% to 0.25%. The Bank of Canada (BoC) cut the overnight rate three times, from 1.75% to 0.25%. In addition to interest rate reductions, the Fed signalled that it would purchase nearly US\$1 trillion U.S. Treasury bonds and mortgage-backed securities. Central banks including, the Fed, the BoC, Bank of England, Bank of Japan, European Central Bank and Swiss National Bank also coordinated efforts to lower rates on currency swaps to enhance liquidity and keep the financial markets functioning normally.

Central banks, led by the Fed, also signalled that inflation would be allowed to "run hot" on a temporary basis, in an effort to revive economic growth. This led to a resurgence in bond yields from a low of 0.51% on U.S. 10-year bonds in March, to 0.92% by the end of the year. Equally surprising was the speed of the rebound of equity markets, which recovered in record time. The S&P 500, for example, rose 65% from its lows to the end of 2020.

Shares of information technology companies led all other sectors, particularly those that enabled the labour force to work from home by providing virtual, streaming, cloud networking or related services. Energy was the worst-performing sector as expectations for oil consumption declined as COVID-19 resulted in decreased overall economic activity. In April, U.S. oil futures traded below US\$0 for the first time in history, dropping to roughly -US\$37 per barrel amid worries over oversupply, coupled with constrained storage. Real estate performance was also weak as fear of a prolonged absence from urban office towers and permanent relocation weighed on office and industrial real estate investment trusts. Many retail stores were also forced into bankruptcy as consumers stayed home in response to health restrictions.

The Fund's allocations to the consumer discretionary, health care and consumer staples sectors contributed 19.46%, 3.72% and 2.33%, respectively, to performance. Top individual contributors to performance included Tesla Inc. (+17.24%), Vestas Wind Systems A/S (+2.1%) and Valeo SA (+1.67%).

Exposure to the real estate, industrials and materials sectors detracted 3.77%, 0.16% and 0.14%, respectively, from the Fund's performance. The largest individual detractors from

---

performance were holdings in Taylor Wimpey PLC (-1.38%), Welltower Inc. (-1.24%) and Central Japan Railway Co. (-0.90%).

Overall, the Fund outperformed its benchmark for the year.

## RECENT DEVELOPMENTS

Despite the potential for a rocky start as a more contagious strain of COVID-19 is now circulating, there are broad expectations of a return to normalcy in 2021. We believe that equities could outperform bonds in the coming year as unprecedented stimulus and monetary accommodation may lead to inflated prices of both real and financial assets. With the Democratic party now in control of all three branches of the U.S. government, additional stimulus spending bills are also expected to pass, lending further support to the global economy. Central banks have signalled that interest rates will stay lower for longer and inflation allowed to rise to some extent. Pent-up consumer demand may also be unleashed later in 2021, particularly as vaccine distribution ramps up. Inflation expectations vary widely, from short-lived to ramping significantly later this year. Despite these supports, the economic recovery may still stall if vaccine rollouts are delayed.

Effective April 3, 2020, Stuart Hensman resigned as a member of the Independent Review Committee (IRC) of CI Funds and effective April 3, 2020, Donna Toth was appointed as a member of the IRC.

## CI Investments Inc. rebrands as CI Global Asset Management Inc.

On November 10, 2020, CI Investments Inc. announced that it is rebranding to CI Global Asset Management Inc. The rebrand is underway and is scheduled to be completed by the end of the first quarter of 2021. With the rebrand, legacy in-house investment boutique brands will be phased out and they will operate under CI Global Asset Management. The affected brands are Cambridge Global Asset Management, Harbour Advisors, Sentry Investment Management, and Signature Global Asset Management.

## RELATED PARTY TRANSACTIONS

### Manager, Portfolio Manager and Trustee

CI Investments Inc. is the Manager, Portfolio Manager and Trustee of the Fund. CI Investments Inc. is a subsidiary of CI Financial Corp. The Manager, in consideration of management fees, provided management services required in the day-to-day operations of the Fund.

Management fee rates as at December 31, 2020, for each of the Series are shown below:

	Annual management fee rate (%)
Common Units	0.550
Unhedged Common Units	0.550

The Manager received \$0.2 million in management fees for the year.

### Management Fees

100% of total management fees were used to pay for investment management and other general administration.

## Independent Review Committee

The Fund has standing instructions from the Fund's IRC with respect to the following related party transactions:

- a) trades in securities of CI Financial Corp.; and
- b) purchases or sales of securities of an issuer from or to another investment fund managed by the Manager.

The applicable standing instructions require, amongst others, that related party transactions be conducted in accordance with the Manager's policies and procedures and applicable law and that the Manager advise the IRC of any material breach of such policies. The standing instructions also require that investment decisions in respect of related party transactions (a) are free from any influence by an entity related to the Manager and without taking into account any consideration relevant to an entity related to the Manager; (b) represent the business judgment of the Manager uninfluenced by considerations other than the best interests of the Fund; (c) are made in compliance with the Manager's policies and procedures; and (d) achieve a fair and reasonable result for the Fund. Transactions made by the Manager under the standing instructions are subsequently reviewed by the IRC on a quarterly basis to monitor compliance.

The Fund relied on the IRC's standing instructions regarding related party transactions during this reporting year.

Except as otherwise noted above, the Fund was not a party to any related party transactions during the year ended December 31, 2020.

Dec. 31, 2019	20,268	950	0.73	n/a <sup>A</sup>	n/a <sup>A</sup>	0.73	n/a <sup>A</sup>	1.51	2.21	21.30

(1) This information is derived from the Fund's audited annual financial statements.

(2) Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on unitholder residency and can be different from 13%.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal year. The higher a Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the year.

(5) This information is provided for the years ended December 31.

(6) Closing market price.

<sup>A</sup>Historical information pertaining to HST is not available.

## PAST PERFORMANCE

This section describes how the Fund has performed in the past. Remember, past returns do not indicate how the Fund will perform in the future. The information shown assumes that distributions made by the Fund in the years shown were reinvested in additional units of the relevant Series of the Fund. In addition, the information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

### Year-by-Year Returns

The following charts show the Fund's annual performance for each of the years shown and illustrate how the Fund's performance has changed from year to year. In percentage terms, the charts show how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year, except where noted.

<sup>1</sup> 2019 return is for the period from September 17, 2019 to December 31, 2019.

## Annual Compound Returns

The following table shows the Fund's annual compound returns for each year indicated, compared to the MSCI World ESG Leaders Index and the MSCI World Total Return Index.

The MSCI World ESG Leaders Index is a capitalization weighted index that provides exposure to companies with high Environmental, Social and Governance (ESG) performance relative to their sector peers. The Index is constructed by aggregating the following regional indices the MSCI Pacific ESG Leaders Index, the MSCI Europe & Middle East ESG Leaders Index, the MSCI Canada ESG Leaders Index and the MSCI U.S.A. ESG Leaders Index. The parent index is the MSCI World Index, which consists of large and mid-cap companies in 23 developed markets countries. The Index is designed for investors seeking a broad, diversified sustainability benchmark with relatively low tracking error to the underlying equity market. The Index is a member of the MSCI ESG Leaders Index series.

The MSCI World Index is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed markets. The Index consists of the following 23 developed market country indices: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Hong Kong, Ireland, Israel, Italy, Japan, Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, the United Kingdom and the United States of America.

A discussion of the performance of the Fund as compared to the benchmark is found in the Results of Operations section of this report.

	One Year (%)	Three Years (%)	Five Years (%)	Ten Years (%)	Since Inception (%)
