Management Report of Fund Performance for the year ended December 31, 2020

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1-800-563-5181, by writing to us at CI Investments Inc., 2 Queen Street East, Twentieth Floor, Toronto, ON, M5C 3G7 or by visiting our website at www.firstasset.com or SEDAR at www.sedar.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

To request an alternate format of this document, please contact us at service@ci.com or 1-800-792-9355.

INVESTMENT OBJECTIVE AND STRATEGIES

The objectives of the CI First Asset CanBanc Income Class ETF (the Fund) are to provide shareholders with: (i) quarterly distributions, (ii) the opportunity for capital appreciation, and (iii) lower overall volatility of portfolio returns than would be experienced by owning a portfolio of common shares of the six largest Canadian banks directly. The Fund invests in a portfolio of common shares of the Banks. Each month, the Fund sells call options on approximately, and not more than, 25% of the common shares of each Bank held in the portfolio.

RISK

No changes affecting the overall level of risk associated with investing in the Fund were made during the year. The risks of the Fund remain as discussed in the Fund's most recently filed simplified prospectus or its amendments. The Manager reviews the risk rating for the Fund on an annual basis, at a minimum, based on the methodology mandated by the Canadian Securities Administrators to determine the risk level of the Fund. Any change to the risk rating made during the year was as a result of such review and was not a result of any change to the investment objective, strategies or management of the Fund.

RESULTS OF OPERATIONS

The Fund's net assets increased by \$6.1 million to \$156.9 million from December 31, 2019 to December 31, 2020. The Fund had net sales of \$15.2 million for the year. The Fund paid distributions totalling \$15.1 million while the portfolio's performance increased assets by \$6.0 million. The Fund returned 1.6% after fees and expenses for the one-year period ended December 31, 2020. Over the same time period, the Fund's benchmark returned 1.2%. The Fund's benchmark is the S&P/TSX Equal Weight Diversified Banks Total Return Index (the Benchmark or the Index).

The Fund employs a near-the-money covered call overlay strategy on approximately 25% of the holdings of each portfolio issuer. In a flat or declining market, the Fund will outperform by generating additional income from options that are not exercised before expiry.

Equities closed higher for the year despite unprecedented disruption in the global economy caused by the COVID-19 pandemic. After a strong start to the year, financial markets peaked in mid-February and then declined sharply through late March, registering a 34% drop in U.S. equities, as measured by the S&P 500 Index (S&P 500).

In response to the economic and market turmoil, central banks around the world made interest rate reductions. The U.S. Federal Reserve (Fed) lowered its overnight interest rate from 1.75% to 0.25%. The Bank of Canada (BoC) cut the overnight rate three times, from 1.75% to 0.25%. In addition to interest rate reductions, the Fed signalled that it

would purchase nearly US\$1 trillion U.S. Treasury bonds and mortgage-backed securities. Central banks including, the Fed, the BoC, Bank of England, Bank of Japan, European Central Bank and Swiss National Bank also coordinated efforts to lower rates on currency swaps to enhance liquidity and keep the financial markets functioning normally.

Central banks, led by the Fed, also signalled that inflation would be allowed to "run hot" on a temporary basis, in an effort to revive economic growth. This led to a resurgence in bond yields from a low of 0.51% on U.S. 10-year bonds in March, to 0.92% by the end of the year. Equally surprising was the speed of the rebound of equity markets, which recovered in record time. The S&P 500, for example, rose 65% from its lows to the end of 2020.

Shares of information technology companies led all other sectors, particularly those that enabled the labour force to work from home by providing virtual, streaming, cloud networking or related services. Energy was the worst-performing sector as expectations for oil consumption declined as COVID-19 resulted in decreased overall economic activity. In April, U.S. oil futures traded below US\$0 for the first time in history, dropping to roughly -US\$37 per barrel amid worries over oversupply, coupled with constrained storage. Real estate performance was also weak as fear of a prolonged absence from urban office towers and permanent relocation weighed on office and industrial real estate investment trusts. Many retail stores were also forced into bankruptcy as consumers stayed home in response to health restrictions.

The Fund is invested solely in Canadian banks. Top individual contributors to performance included holdings in Canadian Imperial Bank of Commerce, Bank of Montreal and Royal Bank of Canada, which contributed 174 Basis Points (bps), 102 bps and 84 bps, respectively, to the Fund's performance. Individual detractors from performance were holdings in The Toronto-Dominion Bank (-56 bps), The Bank of Nova Scotia (-64 bps) and National Bank of Canada (-78 bps).

Overall, the Fund outperformed its benchmark for the year.

RECENT DEVELOPMENTS

Despite the potential for a rocky start as a more contagious strain of COVID-19 is now circulating, there are broad expectations of a return to normalcy in 2021. We believe that equities could outperform bonds in the coming year as unprecedented stimulus and monetary accommodation may lead to inflated prices of both real and financial assets. With the Democratic party now in control of all three branches of the U.S. government, additional stimulus spending bills are also expected to pass, lending further support to the global economy. Central banks have signalled that interest rates will stay lower for longer and inflation allowed to rise to some extent. Pent-up consumer demand may

CI First Asset CanBanc Income Class ETF

Management Report of Fund Performance for the year ended December 31, 2020

also be unleashed later in 2021, particularly as vaccine distribution ramps up. Inflation expectations vary widely, from short-lived to ramping significantly later this year. Despite these supports, the economic recovery may still stall if vaccine rollouts are delayed.

Effective April 3, 2020, Stuart Hensman resigned as a member of the Independent Review Committee (IRC) of CI Funds and effective April 3, 2020, Donna Toth was appointed as a member of the IRC.

Fixed administration fees

On September 25, 2020, the Manager announced a proposal where fixed administration fees will replace the current variable operating expense being charged to the Fund. Once the proposal is implemented, the Manager of the Fund, will be responsible for the operating expenses of the Fund, other than certain expenses, in exchange for the payment by the Fund of a fixed administration fee. The MER of each Series of the Fund will consist of the management fee, the fixed administration fee, certain expenses and applicable taxes. On December 10, 2020, securityholders of the Fund listed below approved the proposal; therefore, effective January 1, 2021, the following fixed administration fees will be charged by the Fund: for Common Units – 0.08%.

CI Investments Inc. rebrands as CI Global Asset Management Inc.

On November 10, 2020, CI Investments Inc. announced that it is rebranding to CI Global Asset Management Inc. The rebrand is underway and is scheduled to be completed by the end of the first quarter of 2021. With the rebrand, legacy in-house investment boutique brands will be phased out and they will operate under CI Global Asset Management. The affected brands are Cambridge Global Asset Management, Harbour Advisors, Sentry Investment Management, and Signature Global Asset Management.

RELATED PARTY TRANSACTIONS

Manager and Portfolio Manager

CI Investments Inc. is the Manager and Portfolio Manager of the Fund. CI Investments Inc. is a subsidiary of CI Financial Corp. The Manager, in consideration of management fees, provided management services required in the day-to-day operations of the Fund.

Management fee rate as at December 31, 2020, for the Series is shown below:

	Annual management fee rate (%)
ETF Shares	0.650

The Manager received \$0.9 million in management fees for the year.

Management Fees

100% of total management fees were used to pay for investment management and other general administration.

Independent Review Committee

The Fund has standing instructions from the Fund's IRC with respect to the following related party transactions:

- trades in securities of CI Financial Corp.; and
- purchases or sales of securities of an issuer from or to another investment fund managed by the Manager.

The applicable standing instructions require, amongst others, that related party transactions be conducted in accordance with the Manager's policies and procedures and applicable law and that the Manager advise the IRC of any material breach of such policies. The standing instructions also require that investment decisions in respect of related party transactions (a) are free from any influence by an entity related to the Manager and without taking into account any consideration relevant to an entity related to the Manager; (b) represent the business judgment of the Manager uninfluenced by considerations other than the best interests of the Fund; (c) are made in compliance with the Manager's policies and procedures; and (d) achieve a fair and reasonable result for the Fund. Transactions made by the Manager under the standing instructions are subsequently reviewed by the IRC on a quarterly basis to monitor compliance.

The Fund relied on the IRC's standing instructions regarding related party transactions during this reporting year.

Except as otherwise noted above, the Fund was not a party to any related party transactions during the year ended December 31, 2020.

(1) This information is derived from the Fund's audited annual financial statements.

(2) Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on shareholder residency and can be different from 13%.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal year. The higher a Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the year.

(5) This information is provided for the years ended December 31.

(6) Closing market price.

[^]Historical information pertaining to HST is not available.

Management Report of Fund Performance for the year ended December 31, 2020

PAST PERFORMANCE

This section describes how the Fund has performed in the past. Remember, past returns do not indicate how the Fund will perform in the future. The information shown assumes that dividends made by the Fund in the years shown were reinvested in additional shares of the Fund. In addition, the information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

Year-by-Year Returns

The following chart shows the Fund's annual performance for each of the years shown and illustrates how the Fund's performance has changed from year to year. In percentage terms, the chart shows how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year, except where noted.

Annual Compound Returns

The following table shows the Fund's annual compound returns for each year indicated, compared to the S&P/TSX Composite Total Return Index and the S&P/TSX Equal Weight Diversified Banks Total Return Index.

The S&P/TSX Composite Index is a float-adjusted market capitalization weighted index, which is the principal broad measure of the Canadian equity market. It includes common stocks and income trust units of companies incorporated in Canada which are listed on the Toronto Stock Exchange.

The S&P/TSX Equal Weight Diversified Banks Index is the equal-weighted version of the S&P/TSX Diversified Banks Index, a benchmark including commercial banks whose businesses are derived primarily from commercial lending operations and also have significant activity in retail banking and small and medium corporate lending.

A discussion of the performance of the Fund as compared to the benchmark is found in the Results of Operations section of this report.

	One Year (%)	Three Years (%)	Five Years (%)	Ten Years (%)	Since Inception (%)
ETF Shares	1.6	1.8	8.4	7.7	n/a
