INVESTMENT OBJECTIVE AND STRATEGIES

The investment objective of the CI WisdomTree International Quality Dividend Growth Variably Hedged Index ETF (the Fund) is to track, to the extent possible, the price and yield performance of the WisdomTree International Quality Dividend Growth Index Variably CAD-Hedged (the Benchmark or the Index), before fees and expenses. The Index is a fundamentally weighted index designed to provide exposure to dividend paying developed market companies with growth characteristics, while at the same time variably hedging currency exposure to fluctuations between the value of foreign currencies and the Canadian dollar.

The investment strategy of the Fund is to invest in and hold a proportionate share of the constituent securities of the Index, or other securities, to track the price and yield performance of the Index. The Fund uses derivative instruments to variably hedge currency fluctuations in the relative value of foreign currencies against the Canadian dollar, which may range from 0% to 100%, and is based on certain quantitative signals (namely, interest rate differentials, momentum and value).

RISK

No changes affecting the overall level of risk associated with investing in the Fund were made during the year. The risks of the Fund remain as discussed in the Fund's most recently filed simplified prospectus or its amendments. The Manager reviews the risk rating for the Fund on an annual basis, at a minimum, based on the methodology mandated by the Canadian Securities Administrators to determine the risk level of the Fund. Any change to the risk rating made during the year was as a result of such review and was not a result of any change to the investment objective, strategies or management of the Fund.

RESULTS OF OPERATIONS

The Fund's net assets increased by \$7.1 million to \$30.1 million from December 31, 2019 to December 31, 2020. The Fund had net sales of \$5.2 million for the year. The Fund paid distributions totalling \$0.3 million while the portfolio's performance increased assets by \$2.2 million. Variably Hedged units returned 8.8% after fees and expenses for one-year period ended December 31, 2020. Over the same time period, the Fund's benchmark returned 10.3%. The benchmark is the WisdomTree International Quality Dividend Growth Index Variably (CAD-Hedged).

Equities closed higher for the year despite unprecedented disruption in the global economy caused by the COVID-19 pandemic. After a strong start to the year, financial markets peaked in mid-February and then declined sharply through late March, registering a 34% drop in U.S. equities, as measured by the S&P 500 Index (S&P 500).

In response to the economic and market turmoil, central banks around the world made interest rate reductions. The U.S. Federal Reserve (Fed) lowered its overnight interest

rate from 1.75% to 0.25%. The Bank of Canada (BoC) cut the overnight rate three times, from 1.75% to 0.25%. In addition to interest rate reductions, the Fed signalled that it would purchase nearly US\$1 trillion U.S. Treasury bonds and mortgage-backed securities. Central banks including, the Fed, the BoC, Bank of England, Bank of Japan, European Central Bank and Swiss National Bank also coordinated efforts to lower rates on currency swaps to enhance liquidity and keep the financial markets functioning normally.

Central banks, led by the Fed, also signalled that inflation would be allowed to "run hot" on a temporary basis, in an effort to revive economic growth. This led to a resurgence in bond yields from a low of 0.51% on U.S. 10-year bonds in March, to 0.92% by the end of the year. Equally surprising was the speed of the rebound of equity markets, which recovered in record time. The S&P 500, for example, rose 65% from its lows to the end of 2020.

Shares of information technology companies led all other sectors, particularly those that enabled the labour force to work from home by providing virtual, streaming, cloud networking or related services. Energy was the worst-performing sector as expectations for oil consumption declined as COVID-19 resulted in decreased overall economic activity. In April, U.S. oil futures traded below US\$0 for the first time in history, dropping to roughly -US\$37 per barrel amid worries over oversupply, coupled with constrained storage. Real estate performance was also weak as fear of a prolonged absence from urban office towers and permanent relocation weighed on office and industrial real estate investment trusts. Many retail stores were also forced into bankruptcy as consumers stayed home in response to health restrictions.

The Fund's allocations to the materials, information technology and health care sectors contributed 559 Basis Points (bps), 483 bps and 304 bps, respectively, to performance. Top individual contributors to performance included Rio Tinto PLC (+180 bps), ASML Holding NV (+142 bps) and BHP Group Ltd. (+130 bps).

Exposure to the consumer discretionary, real estate and consumer staples sectors detracted 28 bps, 101 bps and 151 bps, respectively, from the Fund's performance. The largest individual detractors from performance were holdings in Industria de Diseno Textil SA (-115 bps), China Overseas Land & Investment Ltd. (-101 bps) and British American Tobacco PLC (-97 bps).

Any notable changes in the Fund's holding were related to rebalancing activity. Portfolios are obtained from WisdomTree and rebalanced as per their direction with respect to constituents and weightings. The Fund's management fee is 63 bps.

Overall, the Fund underperformed its benchmark for the year.

RECENT DEVELOPMENTS

Despite the potential for a rocky start as a more contagious strain of COVID-19 is now circulating, there are broad expectations of a return to normalcy in 2021. We believe that equities could outperform bonds in the coming year as unprecedented stimulus and monetary accommodation may lead to inflated prices of both real and financial assets. With the Democratic party now in control of all three branches of the U.S. government, additional stimulus spending bills are also expected to pass, lending further support to the global economy. Central banks have signalled that interest rates will stay lower for longer and inflation allowed to rise to some extent. Pent-up consumer demand may also be unleashed later in 2021, particularly as vaccine distribution ramps up. Inflation expectations vary widely, from short-lived to ramping significantly later this year. Despite these supports, the economic recovery may still stall if vaccine rollouts are delayed.

Acquisition

On February 19, 2020, CI Financial Corp. (TSX: CIX) completed its acquisition of all issued and outstanding shares of WisdomTree Asset Management Canada, Inc.

Effective February 19, 2020, the name of the trustee, manager and promoter, WisdomTree Asset Management Canada, Inc., changed to CI ETF Investment Management Inc.

Effective February 19, 2020, the then current members of the Independent Review Committee (IRC) of the Fund resigned and were replaced with James M. Werry, Tom Eisenhauer, Karen Fisher, Stuart P. Hensman and James McPhedran.

Independent Review Committee Changes

Effective April 3, 2020, Stuart Hensman resigned as a member of the Independent Review Committee (IRC) of CI Funds and effective April 3, 2020, Donna Toth was appointed as a member of the IRC.

Investment Advisor Changes

On April 27, 2020, CI Investments Inc. (CI) announced that effective August 31, 2020, CI replaced Mellon Investments Corp. as investment advisor to the Fund.

Amalgamation

On July 1, 2020, CI ETF Investment Management Inc. amalgamated with CI. Effective July 1, 2020, CI became the trustee (the Trustee) and the manager (the Manager) of the Fund.

CI Investments Inc. rebrands as CI Global Asset Management Inc.

On November 10, 2020, CI Investments Inc. announced that it is rebranding to CI Global Asset Management Inc. The rebrand is underway and is scheduled to be completed by the end of the first quarter of 2021. With the rebrand, legacy in-house investment boutique brands will be phased out and they will operate under CI Global Asset Management. The affected brands are Cambridge Global Asset Management, Harbour Advisors, Sentry Investment Management, and Signature Global Asset Management.

RELATED PARTY TRANSACTIONS

Manager, Investment Advisor and Trustee

CI Investments Inc. is the Manager, Investment Advisor and Trustee of the Fund. CI Investments Inc. is a subsidiary of CI Financial Corp. The Manager, in consideration of management fees, provided management services required in the day-to-day operations of the Fund.

Independent Review Committee

The Fund has standing instructions from the Fund's IRC with respect to the following related party transactions:

- trades in securities of CI Financial Corp.; and
- purchases or sales of securities of an issuer from or to another investment fund managed by the Manager.

The applicable standing instructions require, amongst others, that related party transactions be conducted in accordance with the Manager's policies and procedures and applicable law and that the Manager advise the IRC of any material breach of such policies. The standing instructions also require that investment decisions in respect of related party transactions (a) are free from any influence by an entity related to the Manager and without taking into account any consideration relevant to an entity related to the Manager; (b) represent the business judgment of the Manager uninfluenced by considerations other than the best interests of the Fund; (c) are made in compliance with the Manager's policies and procedures; and (d) achieve a fair and reasonable result for the Fund. Transactions made by the Manager under the standing instructions are subsequently reviewed by the IRC on a quarterly basis to monitor compliance.

The Fund relied on the IRC's standing instructions regarding related party transactions during this reporting year.

Except as otherwise noted above, the Fund was not a party to any related party transactions during the year ended December 31, 2020.

(1) This information is derived from the Fund's audited annual financial statements.

(2) Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on unitholder residency and can be different from 13%.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal year. The higher a Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the year.
